## Key Growth Drivers (2/2)

### Prevention of large crop wastages

- Insects, fungus and weeds destroy crops worth billions of dollars annually
- Despite large area under cultivation of paddy and wheat, we lag behind in total production

### Disruptive growth in herbicides

- Herbicides share in India quite low at 20%, versus ~ 48% globally
- Rising farm labour prices are lifting herbicide demand; replacing manual weeding
- Dhanuka is a beneficiary with strong herbicides portfolio
