Key Investment Thesis

Microfinance – Supportive Industry Dynamics and Robust Fundamentals; Strong Growth to Continue

Industry Snapshot

- High level of credit under-penetration in rural areas
 - Rural areas accounted for only 10% of overall o/s bank-credit while comprising of 2/3rd households and contributing ~47% of GDP in India in fiscal 2015
- Massive government thrust to boost financial inclusion – as of Jul'16, 225 mn+ new bank accounts opened with a deposit base of over Rs. 400 bn since Aug'14
- Microfinance sector – NBFC-MFIs with 35.8mn borrowers and outstanding Gross Loan Portfolio of Rs. 601.65 bn (Jun'16*) – is poised to play a key role in furthering this
- Presence across 30 states/union territories with a total of 10,458 branches employing 98,287 people (Jun'16*)
- Yet, it is highly underpenetrated with a pan India average MFI penetration of 14%
- CRISIL estimates total domestic microfinance market potential of Rs. 2.5 tn of which Rs. 1 tn is being served by banks and MFIs – high degree of unorganised play
- With client base expected to grow at 21.11% CAGR and average ticket size at 8.10% CAGR over FY16-20, MFI market is expected to grow at 32.50% CAGR over the same period to reach Rs. 1.8 tn by FY20

Rising penetration driving phenomenal growth ; GLP to cross 1 Tn and client base to cross 50 Mn in the next 2 years**

Sector has seen high growth in GLP and client reach**

Increasing average ticket size (Rs./borrower)

Strong Portfolio Growth Coupled with Low Delinquencies has Ensured Continued Funding

Higher debt and equity funding

- Banks have shown high confidence in the sector and have increased their funding to MFIs
 - Lending to MFI continues to enjoy priority sector status
 - Greater monitoring and regulations from RBI
 - Greater transparency, standardized processes and streamlining of operations have resulted in greater comfort to banks
- High investor interest driven by high returns, strong growth numbers and low delinquency levels
- Securitization also on a rise
 - Securitization also has priority sector benefits
 - Provides a yield of upto 11.5%, which makes it more attractive and further incentivises banks to invest in
- Industry diversifying its liability profile by raising funds through NCD, Preference shares, ECB, Securitization/assignment, sub-debt, etc.

Term loans make up a majority of MFI funding mix; Securitization gaining traction

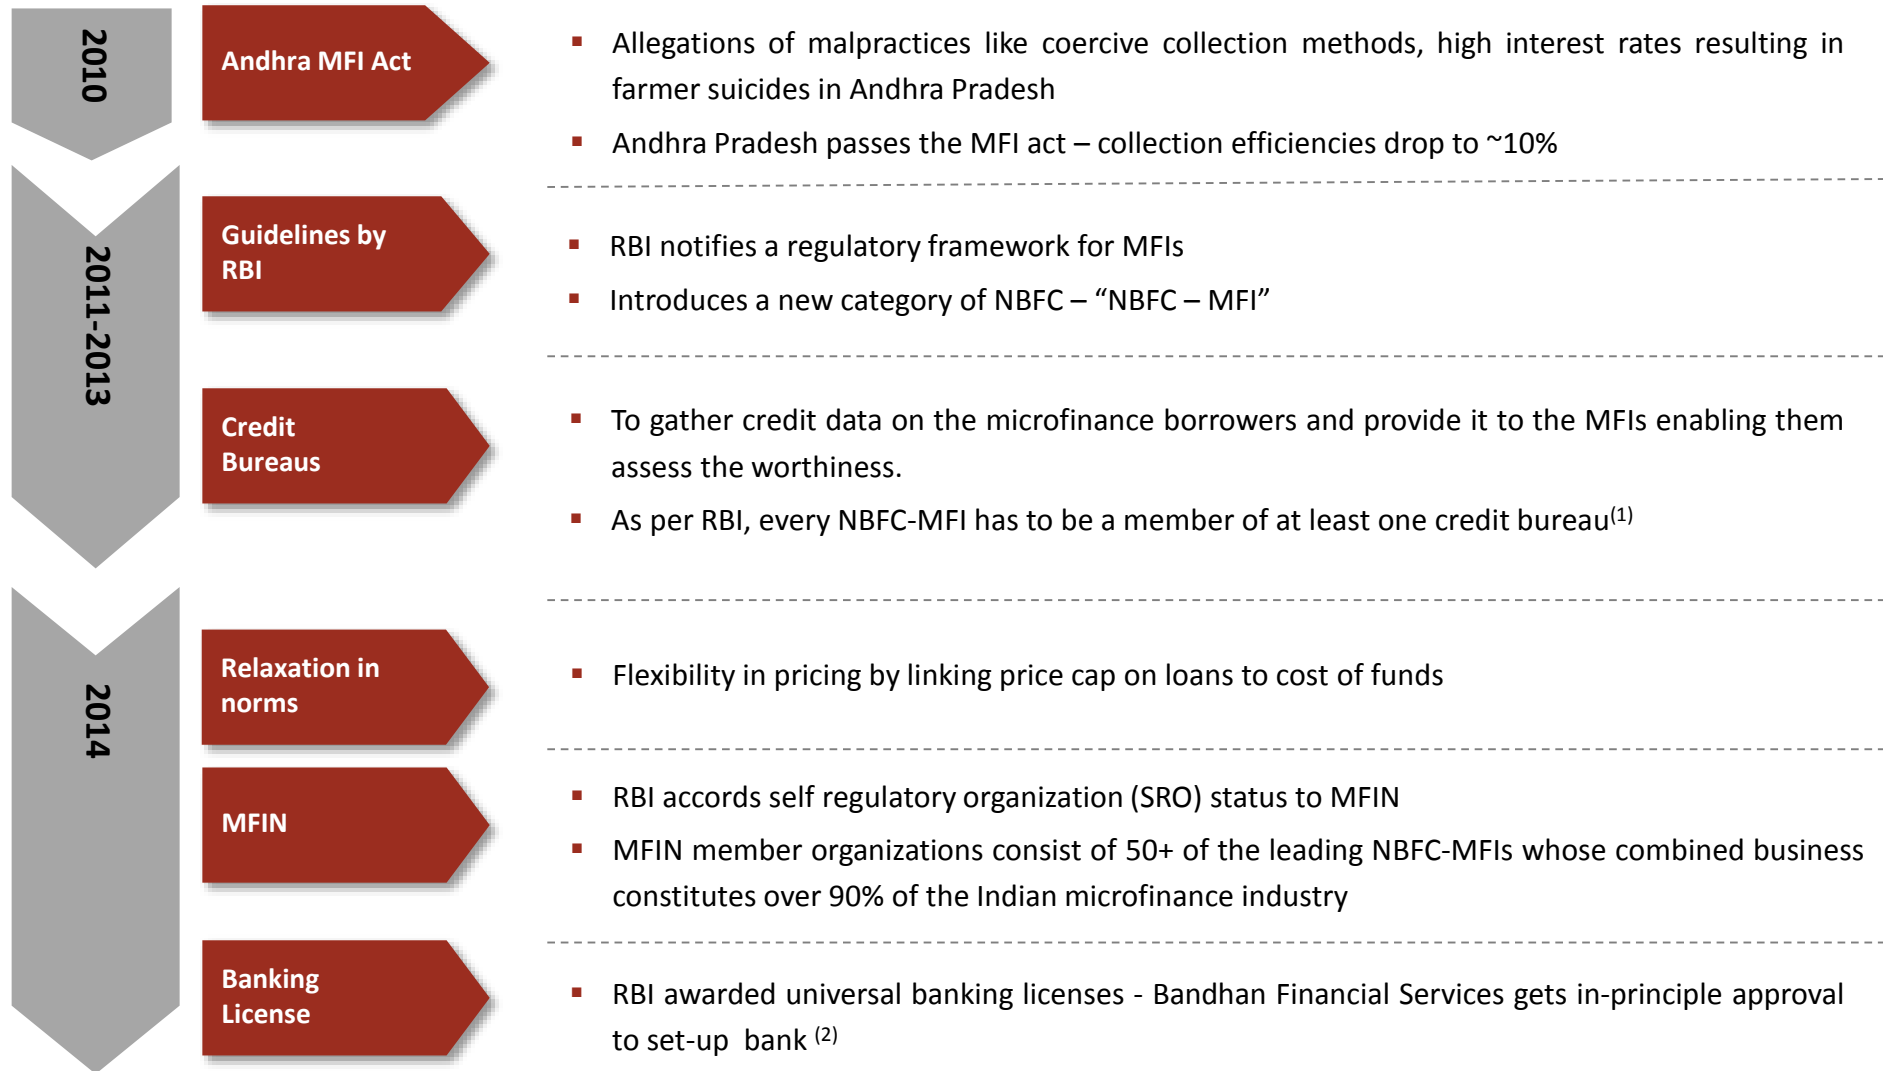

Debt funding and securitization during the period*

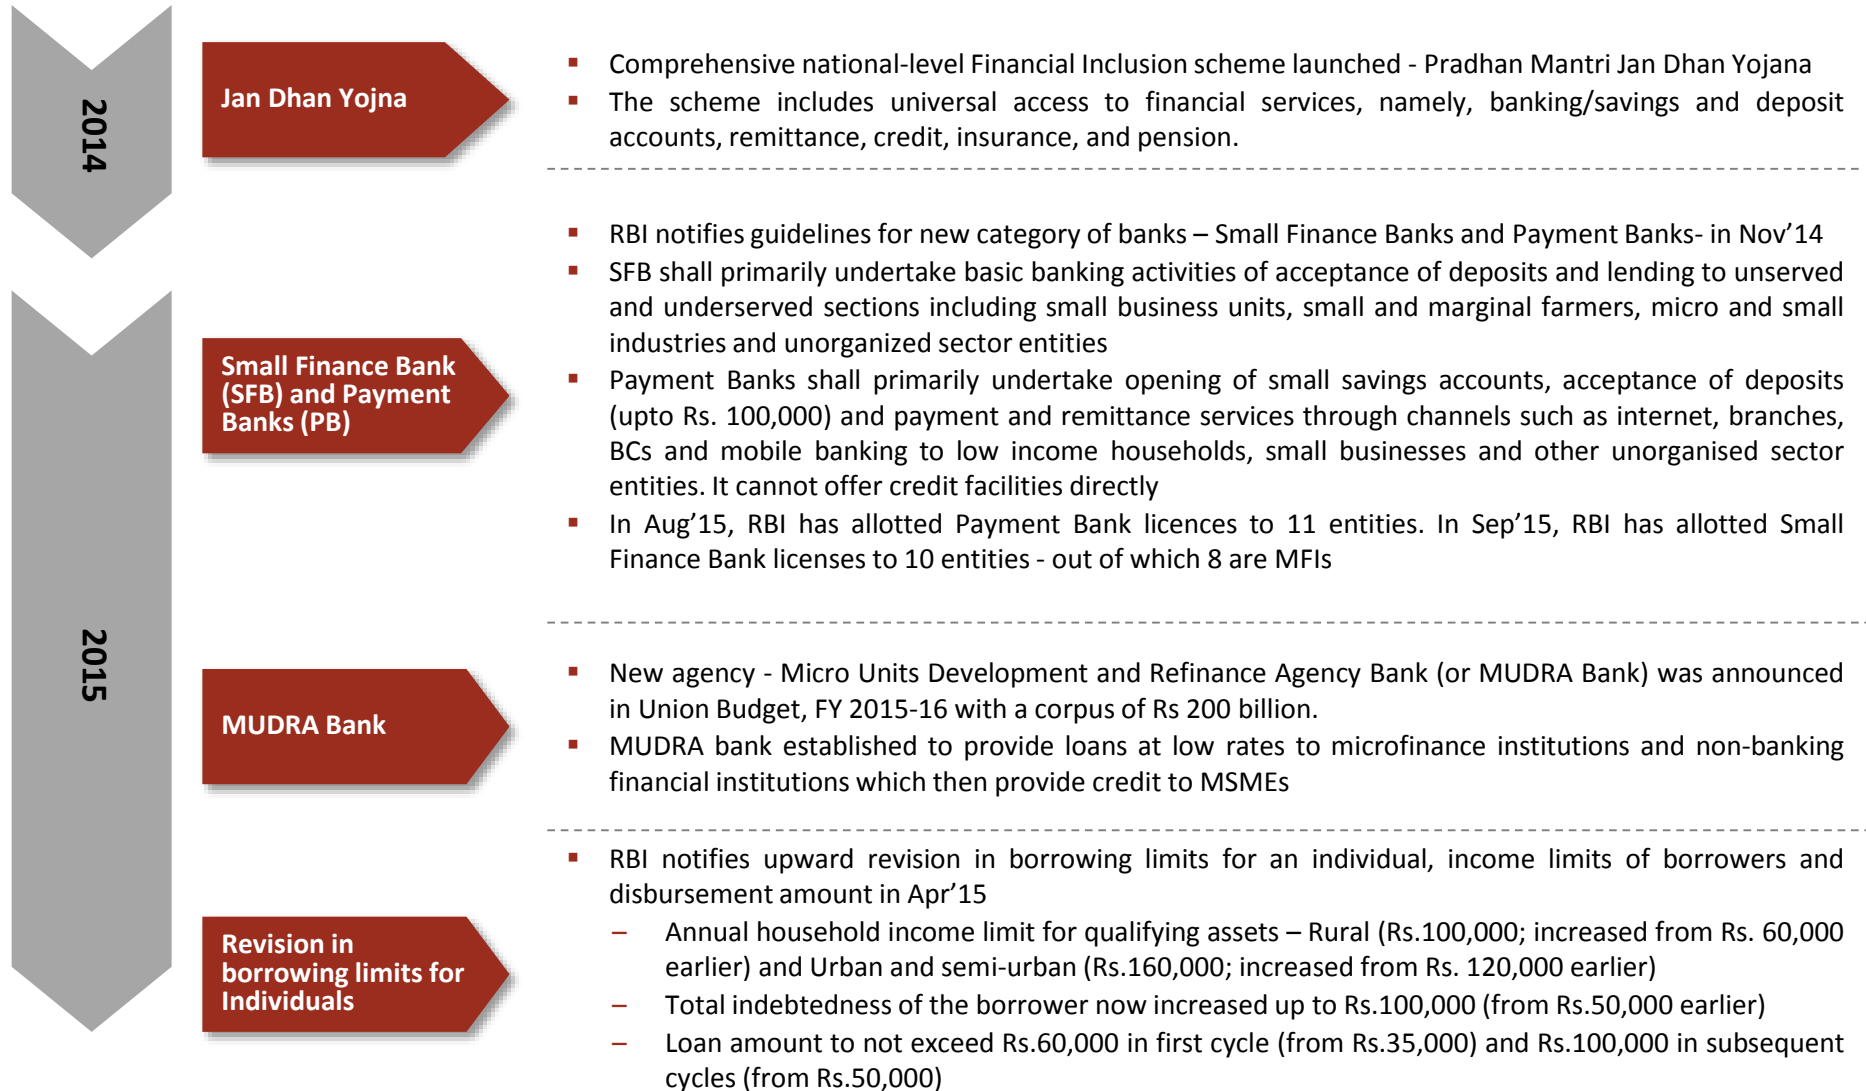

High equity investment continues to flow into MFI space

Operational Process Overview

Operational Methodology

Trend in Loan Cycle

CSO – Community Service Officer (Loan Officer)
 BM – Branch Manager
 TM – Territory Manager
 OGM – Open General Meeting
 CDS – Collection & Demand Sheet

Area Selection

- SCNL’s Business Development team conducts thorough area surveys for identification of suitable locations for launch of microfinance business.
- The team assimilates, analyzes several variables including population, household incomes, employment, crime rate, and competitive intensity in the area.
- A detailed Area Survey report is provided to the COO for review & approval of the identified area.

Village Selection

- CSO surveys villages by collecting information on number of households, literacy rate, sources of incomes, primary economic activities, financial dependency, irrigation facility, etc.
- Based on the Village Mapping Exercise, the TM decides whether to start operations in a particular village.

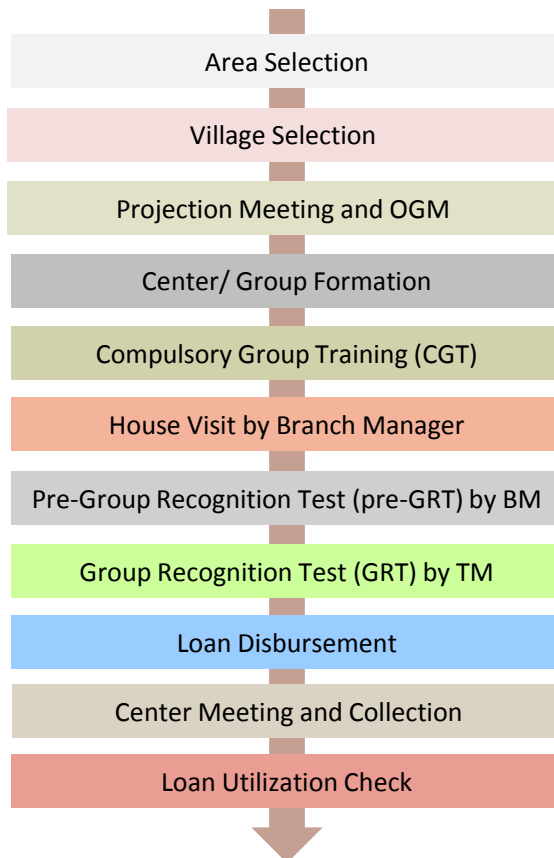

Client Selection Criteria (JLG)

- Clients must be women between 18-65 years.
- Clients must be low income generating, self-employed or working women, living in rural, semi-urban or urban slums
- The gross annual household income from all sources should not exceed Rs. 100,000 in rural areas and Rs. 160,000 in urban and semi-urban areas
- Clients are sourced within a maximum radius of 30-35 km from a branch
- Clients must have a valid proof of Identity such as Aadhar Card, Ration Card, Voter ID card, Driving license or a certificate from Gram Pradhan / Government Official.

Center / Group Formation

- Upon approval of a village by TM, the CSO conducts an Open General Meeting in the village.
- CSO educates the women about SCNL and its credit programs.
- CSO asks the women to form groups and reconvene at a specified time and place.
- Each such group is formed voluntarily

Compulsory Group Training (CGT)

- CGT aims to develop an environment of credit discipline and to provide all members with at least basic level of financial literacy, understanding of SCNL's group lending microfinance program's rules and regulations and the clients' rights and responsibilities.
- A critical part of the CGT process is ensuring that Group members are willing to take joint liability of each other.
- The CSO ensure that the clients understand the discipline required for the program.
- After all center members have clearly understood the rules and regulations and Center Leaders have clearly understood their duties and responsibilities, CSOs fill the loan application forms, collect KYC documents and after verification of these documents submits them to BM.

Pre-GRT and GRT

- BMs conduct Pre-GRT to verify information in the KYC Form and to ensure that all members have understood SCNL's rules and regulations. BMs visit each client's house during pre-GRT.
- Thereafter, TMs conduct GRT to verify information in the KYC Form and to ensure that members have understood SCNL's rules and regulations. TMs visit 33% of households in each group.

 TM – Territory Manager
 OGM – Open General Meeting
 CDS – Collection & Demand Sheet

Disbursement (and approval/ rejection of loan)

- Loan proposal (application) qualifies for disbursement after necessary checks done by BM during Pre-GRT and by the TM during GRT.
- Prior to generation of sanction letters, loan proposals recommended by BM are required to undergo a mandatory credit check by recognized credit bureau (Equifax and CRIF High Mark).
- Clients are intimated about the amount sanctioned and the date of disbursement through a loan sanction letter.
- Disbursement always happens at the Branch, and in presence of at least 2 officers from the same branch.
- The Branch Manager re-iterates the entire process and discipline expected from the clients.

Center Meeting & Collection

- Center meeting, between the JLG members, happens at a pre-decided time and venue.
- Center meeting is held at a place other than the residence of the Center Leader.
- Members are encouraged to come to the center meeting and actively participate in the conduct of the center meeting.
- Collection of installment takes place in a predefined manner, i.e., members deposit the money with the Group Leader, who in turn deposit the same with the Center Leader.
- Center Leader passes on the collection to the CSO.
- SCNL is actively engaged in migrating to a cashless environment in the days to come to mitigate the risk of cash handing.

Loan Utilization Check

- This check is conducted within 2 installments from the date of disbursement.
- The CSO/BM/TM visits the client's place and checks the asset.
- After ensuring satisfactory utilization the concerned officer updates the same in the CDS.
- SCNL's MIS is equipped to capture the loan utilization data and produce analytical reports.

Business Applications – Current Footprint

Microfinance & SME Business

- ✧ Core Microfinance Application for Group Lending vertical has been developed by Force Ten Technologies and customized as per SATIN business requirements.
- ✧ The software is primarily build on .Net framework with SQL as core database.
- ✧ Solution is highly capable of managing SCNL's landing solution , accounting, reporting, and business monitoring demands.
- ✧ During Q2 2016-17 , SATIN has taken a big step forward & successfully migrating their 8 year old **Decentralized Technology** solution to a **Centralized environment**. Some of the key highlights & advantages are as follows :
 - This whole migration of 500+ branches was successfully completed in a record 35 days effort.
 - Our technology touch points still starts from regional offices , however now all regions are connected to a one single server & a centralized database.
 - Which means any transaction happening at RO (KYC Entry , CB checks , Disbursement or collections) are now visible to all stakeholders on a real time basis at Regional offices or HO.
 - This change will significantly help business in taking right actions at the right time based on real time information.
 - Bringing lot of productivity improvement e.g closing books on a faster turnaround , many possible automations now on account of moving to centralize database environment . This is helping in reducing lot of additional data entry activities.
- ✧ The new migrated software has the capacity to track every client, group, center, branch, territory, region, zone and the Company in its entirety.
