ANNEXURE - B TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **RAGHUVANSH AGROFARMS LIMITED** ("the Company") as of March 31st2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

2.2	Use of estimates The preparation of the Financial Statements in conformity with Indian GAAP requires Management to make Judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosures relating to contingent assets and liabilities at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in material or immaterial adjustments to the carrying amounts of assets or liabilities in future periods.														
2.3	Inventories Inventories are valued at cost, computed on a First-in-First-out (FIFO) basis, and estimated net realizable value whichever is lower. In respect of finished goods and work in process, appropriate overheads are loaded.														
2.4	Depreciation and amortisation Depreciation has been charged over the estimated useful life of a fixed assets on written down value method as per the rates prescribed and in the <table style="margin-left: 40px; border-collapse: collapse;"> <thead> <tr> <th style="text-align: left;"><u>Fixed Assets</u></th> <th style="text-align: left;"><u>Useful Life</u></th> </tr> </thead> <tbody> <tr> <td>1) Computer</td> <td>3 years</td> </tr> <tr> <td>2) Furniture & Fittings</td> <td>10 years</td> </tr> <tr> <td>3) Car</td> <td>8 years</td> </tr> <tr> <td>4) Motor Cycle</td> <td>10 years</td> </tr> <tr> <td>5) Office Equipments</td> <td>5 years</td> </tr> <tr> <td>6) Plant & Machinery(incl AC in Plant & Machinery)</td> <td>15 years</td> </tr> </tbody> </table>	<u>Fixed Assets</u>	<u>Useful Life</u>	1) Computer	3 years	2) Furniture & Fittings	10 years	3) Car	8 years	4) Motor Cycle	10 years	5) Office Equipments	5 years	6) Plant & Machinery(incl AC in Plant & Machinery)	15 years

2.5	Revenue recognition Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Income is accounted for on accrual basis in accordance with the Accounting Standards (AS) 9- "Revenue Recognition". Insurance and other claims are recognized in accounts on lodgment to the extent these are measurable with reasonable certainty of acceptance. Excess/ shortfall is adjusted in the year of receipt. Interest is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate.														
2.6	Intangible Assets Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets are not capitalized and expensed off in the Statement of Profit and Loss in the year in which the expenditure is incurred. Intangible assets are amortized on a straight line basis over the estimated useful economic life. The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly.														
2.7	Tangible fixed assets Fixed assets are carried at cost less accumulated depreciation and impairment losses, if any. The cost of fixed assets includes interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use and other incidental expenses incurred up to that date. Any subsidy/ reimbursement/ contribution received for installation and acquisition of any fixed assets is shown as deduction in the year of receipt. Capital work- in- progress is stated at cost. The Company's livestock comprise of dairy cattle. Livestock are initially recognised at cost. The cost of newborn calf is assumed to be nil. At each reporting date fair value of livestock is compared with carrying value and any material variations are recognised through profit and loss statement.														
2.8	Investment Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long term investments. On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long term investments are carried at cost. However, provision for diminution in values is made to recognize a decline other than temporary in the value of the investments. On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.														
2.9	Borrowing Cost Borrowing cost includes interest. Such costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.														

3.0 Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average

3.1 Taxes on income

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise such assets. Deferred tax assets are recognised for timing differences of other items only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each Balance Sheet date for their realisability.

Minimum Alternate Tax (MAT) paid in a year is charged to the Statement of Profit and Loss as current tax. The company recognizes MAT credit available as an asset only to the extent there is convincing evidence that the company will pay normal income tax during the specified period, i.e., the period for which MAT Credit is allowed to be carried forward. In the year in which the Company recognizes MAT Credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternate Tax under the Income Tax Act, 1961, the said asset is created by way of credit to the statement of Profit and Loss and shown as "MAT Credit Entitlement." The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the company does not have convincing evidence that it will pay normal tax during the sufficient period.

3.2 Impairment of assets

An impairment loss is recognized wherever the carrying amount of fixed assets exceeds the recoverable amount i.e. the higher of the assets' net selling price and value in use. After impairment, depreciation is provided on the revised carrying amount of the assets over its remaining useful life. A previously recognized impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

3.3 Provisions and contingencies

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes.

3.4 Contingent Liabilities

A Contingent liability is a possible obligation that arises from the past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

3.5 Leased Assets

In case of Lessee

Assets taken on lease, under which the lessor effectively retains all the risks and rewards of ownership, are classified as operating lease. Operating lease payments are recognized as expense in the statement of profit and loss account. Assets acquired under leases where all the risks and rewards of ownership are substantially transferred to company are classified as finance leases. Such leases are capitalized at the inception of the lease at the lower of fair value or the present value of minimum lease payments and liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each period. The lease of Industrial land from MP Audyogik Kendra Vikas Nigam (Indore) Limited is to be surrendered in the coming time.

3.6 In case of Lessee

Leases in which the company transfers substantially all the risks and benefits of ownership of the asset are classified as finance leases. Assets given under finance lease are recognized as a receivable at an amount equal to the net investment in the lease. After initial recognition, the company apportions lease rentals between the principal repayment and interest income so as to achieve a constant periodic rate of return on the net investment outstanding in respect of the finance lease. The interest income is recognized in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss. Leases in which the company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in fixed assets. Lease income on an operating lease is recognized in the statement of profit and Loss as revenue from operation. Costs, including depreciation, are recognized as an expense in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

Annexure-B to the Auditor's Report

(Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **RAGHUVANSH AGROFARMS LIMITED ("the Company") as of 31 March, 2023** in the conjunction with our audit of standalone financial statements of the company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standard on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control system over financial reporting includes those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with generally accepted accounting principles, and that the receipts and expenditures of the company are being made only in accordance with authorizations of the management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

2.5	<p>Revenue recognition</p> <p>Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Income is accounted for on accrual basis in accordance with the Accounting Standards (AS) 9- "Revenue Recognition". Insurance and other claims are recognized in accounts on lodgment to the extent these are measurable with reasonable certainty of acceptance. Excess/ shortfall is adjusted in the year of receipt. Interest is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate.</p>														
2.6	<p>Intangible Assets</p> <p>Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets are not capitalized and expensed off in the Statement of Profit and Loss in the year in which the expenditure is incurred. Intangible assets are amortized on a straight line basis over the estimated useful economic life. The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly.</p>														
2.7	<p>Tangible fixed assets</p> <p>Fixed assets are carried at cost less accumulated depreciation and impairment losses, if any. The cost of fixed assets includes interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use and other incidental expenses incurred up to that date. Any subsidy/ reimbursement/ contribution received for installation and acquisition of any fixed assets is shown as deduction in the year of receipt. Capital work-in-progress is stated at cost. The Company's livestock comprise of dairy cattle. Livestock are initially recognised at cost. The cost of newborn calf is assumed to be nil. At each reporting date fair value of livestock is compared with carrying value and any material variations are recognised through profit and loss statement.</p>														
2.8	<p>Investment</p> <p>Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long term investments. On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long term investments are carried at cost. However, provision for diminution in values is made to recognize a decline other than temporary in the value of the investments. On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.</p>														
2.9	<p>Borrowing Cost</p> <p>Borrowing cost includes interest. Such costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.</p>														

<p>3.0 Earnings per share</p>	<p>Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year.</p>
<p>3.1 Taxes on income</p>	<p>Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.</p> <p>Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that there will be sufficient future taxable income available to realise such assets. Deferred tax assets are recognised for timing differences of other items only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each Balance Sheet date for their realisability.</p> <p>Minimum Alternate Tax (MAT) paid in a year is charged to the Statement of Profit and Loss as current tax. The company recognizes MAT credit available as an asset only to the extent there is convincing evidence that the company will pay normal income tax during the specified period, i.e., the period for which MAT Credit is allowed to be carried forward. In the year in which the Company recognizes MAT Credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternate Tax under the Income Tax Act, 1961, the said asset is created by way of credit to the statement of Profit and Loss and shown as "MAT Credit Entitlement." The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the company does not have convincing evidence that it will pay normal tax during the sufficient period.</p>
<p>3.2 Impairment of assets</p>	<p>An impairment loss is recognized wherever the carrying amount of fixed assets exceeds the recoverable amount i.e. the higher of the assets' net selling price and value in use. After impairment, depreciation is provided on the revised carrying amount of the assets over its remaining useful life. A previously recognized impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.</p>
<p>3.3 Provisions and contingencies</p>	<p>A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes.</p>
<p>3.4 Contingent Liabilities</p>	<p>A Contingent liability is a possible obligation that arises from the past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.</p>
<p>3.5 Leased Assets</p>	<p>In case of Lessee</p> <p>Assets taken on lease, under which the lessor effectively retains all the risks and rewards of ownership, are classified as operating lease. Operating lease payments are recognized as expense in the statement of profit and loss account. Assets acquired under leases where all the risks and rewards of ownership are substantially transferred to company are classified as finance leases. Such leases are capitalized at the inception of the lease at the lower of fair value or the present value of minimum lease payments and liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each period.</p> <p>In case of Lessee</p> <p>Leases in which the company transfers substantially all the risks and benefits of ownership of the asset are classified as finance leases. Assets given under finance lease are recognized as a receivable at an amount equal to the net investment in the lease. After initial recognition, the company apportions lease rentals between the principal repayment and interest income so as to achieve a constant periodic rate of return on the net investment outstanding in respect of the finance lease. The interest income is recognized in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss. Leases in which the company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in fixed assets. Lease income on an operating lease is recognized in the statement of profit and Loss as revenue from operation. Costs, including depreciation, are recognized as an expense in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.</p>

ITEM NO.5

It was apprised to the members that the Company in its duly convened Extra-Ordinary General Meeting held on 29th June 2022 had considered and approved sub-division of equity shares of the Company from face value of Rs. 10/- each into equity shares of face value of Re. 1/- each alongside approving the alteration of capital clause of Memorandum of Association of the Company. The required Compliances regarding the aforesaid alteration were duly done by the Company thereby making the requisite filings in the office of the Registrar of Companies and the Stock Exchange. It was further informed that though the approval regarding the alteration was duly given by the Office of the Registrar of Companies, Delhi but the application was stuck in the exchange for due consideration by the legal team of BSE. After several rounds of the mails and clarifications on the part of the Company, finally it was instructed by BSE that we should withdraw the Intimation for Record Date commencing from 01.08.2022, submitted to the Stock Exchange on 07.07.2022, in relation to the Corporate Action-Sub-division/Stock-split of the Equity Shares of the Company due to SEBI order no. WTM/MB/IVD/ID4/8865/2020-21 dated September 3, 2020 as they would not be able to provide us the required in-principle approval for above stated subject, until they receive clarity/approval/guidance from the SEBI in our matter. The matter was challenged in SAT where the Company was not able to get any relief. The matter is presently sub judice in Hon'ble Court of Supreme Court.

As the approval for memorandum of Association for sub-division of equity shares of the Company from face value of Rs. 10/- each into equity shares of face value of Re. 1/- each alongside approving the alteration of capital clause of Memorandum of Association of the Company has not been provided by the Exchange at the end of the financial year i.e. 31.03.2023, hence the board at its duly held meeting on 14.03.2023 adopted and took on record the existing Memorandum of Association again bearing the face value of equity shares of Rs. 10 each. The matter was taken into consideration by presenting the existing Memorandum of Association of the Company pre its alteration through the Extra Ordinary General Meeting and was unanimously resolved by the board. The present resolution is proposed in front of the shareholders for ratification of re-adoption of the existing memorandum of association of the company bearing the face value of equity shares of Rs. 10 each.
