Company Overview

Introducing Natural Capsules Limited (NCL)

Natural Capsules Limited (NCL) is a hard capsule shell manufacturer, who pioneered manufacturing of vegetarian capsules in India and is the second largest Indian manufacturer for gelatin capsules. The company was incorporated as a Public Limited Company in 1993 at Bangalore, and it further expanded its operations to Pondicherry in 2003. The company is now foraying into API manufacturing with complex high-end patented technology developed in-house, under its wholly owned subsidiary company Natural Biogenex Private Limited.

NCL prides itself on its abilities to provide turnkey solutions to all its customers.

VISION

To become the global leader for supply of capsules, providing impeccable services all across the globe.

MISSION

- To consistently innovate and manufacture products key to market's and customer's expectation
- To consistently provide highest quality products to its customers across the globe
- To become an integrated enterprise of global distinction

Exports Revenue

* BCPA – Billion Capsules per Annum

Our Journey

1993- 2014: EARLY SUCCESSES AND A PERIOD OF EXPANSION

* BCPA – Billion Capsules per Annum | MCPD – Million Capsules per Day

Our Journey (contd.)

2015 – 2018: THE HURDLES WE FACED ON THE WAY

2015 – 18

- Fall in oil and commodity prices led to economic slowdown in African countries and caused a decline in export of pharmaceutical products and capsules from India. This led to a drop in demand for our products, which were selling well in Africa earlier. The selling prices gradually decreased as well, leading to drop in margins over a period of 3 years (FY16-FY18). NCL's strategy of focusing on exports proved to be counterproductive, during this period.
- NCL was quick to refocus on domestic markets, but soon demonetization and the implementation of GST in India caused disruption in the domestic pharmaceuticals industry, which led to bouts of severe drop in demand.

2019 ONWARD: THE BEGINNING OF A NEW AND IMPROVED NCL

2019 ONWARD

- 2019 onward NCL witnessed an increase in demand in both domestic and export markets, which led to improvement in margins.
- NCL also upgraded one of its capsule manufacturing lines to produce 2.5 MCPD (from its earlier capacity of 1.0 MCPD).
- The company's continued focus on R&D, in collaboration with other partners, led it to invent a new generation of capsule manufacturing technology as well.
- NCL replaced one of its old machines at Bangalore and installed its first new generation machine producing 4.8-5.0 MCPD (instead of the earlier capacity of 1 MCPD). The new generation machines are the fastest machines to manufacture capsules globally.

GOING FORWARD

By **Q2FY22**, four new generation machines were commissioned, which replaced the older machines, and the current installed capacity stands at **13.3 BCPA**

Six new generation machines to be commissioned by **Q2FY23** which will enhance installed capacity to **24.1 BCPA**

Further attempt to make next generation machines to produce **7.5 MCPD**

Product Offerings

Natural Capsules Limited manufactures a vast array capsules, including vegetarian capsules which they have pioneered in India.

The company is now foraying into API manufacturing with complex high-end patented technology developed in-house, under its wholly owned subsidiary company Natural Biogenex Private Limited.

CAPSULES

- Hard Gelatin Capsules shells
- Hard Cellulose Capsules shells
- Others
 - Special Characteristic Variants
 - Shiny Capsules
 - Sweet Capsules
 - Fast Release Capsules
 - Regulatory Variants
 - SLS free Capsules
 - Preservative free Capsules
 - TSE free Capsules

APIs

Three key steroidal API products (as approved under PLI scheme)

- Prednisolone & Derivative salts
- Betamethasone & Derivative Salts
- Dexamethasone & Derivative Salts

Global Presence

Natural Capsules exports to **37** countries across **4** continents, bringing in sizable revenue from its export.

Business Canvas

Capsules Segment

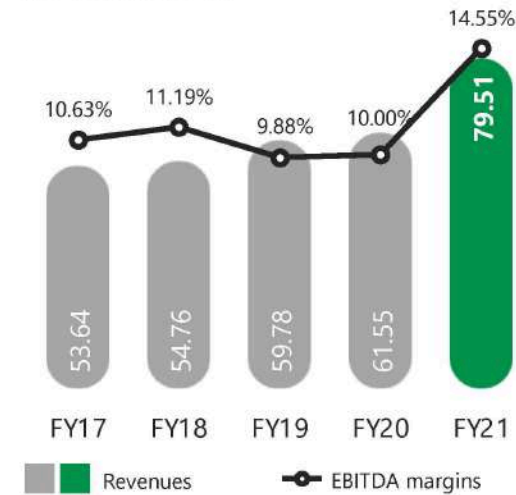

With almost three decades of experience in the industry, Natural Capsules Limited is a leading manufacturer of hard capsules in India, its products are exported to regulated and unregulated markets across the globe, following stringent applicable rules and regulations.

- Higher sales in unregulated markets led to volatility in margins
- Old technology machines resulted in lower operating efficiencies

REVENUES & EBITDA MARGINS

(IN ₹ CRORE & %)

CAPACITY & CAPACITY UTILISATIONS

(IN BCPA & %)

MANUFACTURING FACILITIES APPROVED BY

2nd largest

Indian manufacturer of gelatin capsule

2 manufacturing

Facilities at Bengaluru and Pondicherry

13.30 BCPA

Capsules per annum manufacturing capacity

1st manufacturer

Of vegetarian capsules in India

Enhancing Capacities

- New machines developed in **technical collaboration DBDS Robotics Private Limited**
- The new machines installed will be the **fastest available machine** to manufacture hard capsules

Natural Capsules Limited has undergone recent CAPEX, to support its existing manufacturing capacity and to enable the company to capture market share in regulated markets.

CAPSULES MANUFACTURING CAPACITY

(IN BILLIONS)

*Capacity was enhanced from 7.8 BCPA to 10.8 BCPA in December 2020

The ability to deliver faster will help Company to **attract large volume customers** and yield better margins by optimizing manufacturing cost per unit

₹ 38 Crores planned capital expenditure for enhancing capacity to 24.1 Bn capsules per annum

Brownfield capex by adding 6 new machines at Bengaluru facility

Project funded through a mix of debt and equity

- ₹ 18 Crores bank borrowings @6.4% per annum &
- ₹ 20 Crores from internal accruals

~3x asset turns from incremental capacities at optimum capacity utilisation

Q2FY23 expected commercialisation of incremental capacities

Incremental capacities will be targeted towards **large volume pharmaceutical customers and new export markets**

API Segment

Natural Capsules Limited is now foraying into the API business segment through its wholly owned subsidiary - Natural Biogenex Private Limited (NBPL) incorporated in 2020. The APIs that will be manufactured are, Prednisolone, Betamethasone and Dexamethasone and their derivatives.

KEY DEVELOPMENTS

AUG 2018	JUL 2019	OCT 2019	AUG 2020	FEB 2021
				Awarded Three PLI applications for Dexamethasone, Betamethasone and Prednisolone.
			<ul style="list-style-type: none"> Achieved process improvements over existing knowhow in respect of effluent and de-foaming agents. Obtained Test Drug Licenses for Steroidal APIs. 	
	<ul style="list-style-type: none"> Achieved lab scale production of hydro cortisone from 9OHAD. Started second fermentation for manufacture of Prednisolone. 	<ul style="list-style-type: none"> Filed patent for innovative process for manufacture of 9OHAD 		
Started R&D center to validate fermentation and synthesis technology to manufacture steroidal APIs using unique microbe.				

Greenfield Capex at Tumkur, spread across 5 acres

1st integrated facility in India for manufacturing of Steroidal API's using fermentation and synthesis chain of reactions

Facilities are being set up in compliance with WHO GMP(Geneva), USFDA and EU GMP certification guidelines

Zero Liquid Discharge manufacturing facility

3 approvals for steroidal API's under the PLI scheme of Government of India for bulk drugs

API Segment (contd.)

INR 96 Crores - planned capital expenditure for setting up the facility

~ **3x asset turns** from incremental capacities at optimum capacity utilisation

Project funded through a mix of debt and equity

- INR 48 Crores bank borrowings @6.4% pa
- INR 20 Crores from internal accruals
- INR 28 Crores from right issue

Commercial production to begin by Q3FY23

THE FOLLOWING PRODUCTS AND CAPACITIES HAVE BEEN APPROVED UNDER THE PLI SCHEME

DEXAMETHASONE

10 MT
Planned Capacity

19 MT
Imports to India in FY21

- NCL will be the **only manufacturer** of this product in India

BETAMETHASONE

12 MT
Planned Capacity

25 MT
Imports to India in FY21

- NCL will be the **only manufacturer** of this product in India

PREDNISOLONE

15 MT
Planned Capacity

30 MT
Imports to India in FY21

- NCL will be **one of the two manufacturers** of this product in India

Efforts will be focused on catering to the domestic demand by substituting the imported inputs.

Production Linked Incentive (PLI) Scheme

With a view to attain self-reliance and reduce import dependence in critical APIs, a scheme called "Production Linked Incentive (PLI) Scheme for promotion of domestic manufacturing of critical Key Starting Materials (KSMs)/ Drug Intermediates (DIs) and active Pharmaceutical Ingredients (APIs) In India" has been approved by the Government of India on 20th March, 2020.

- The scheme intends to boost domestic manufacturing of identified KSMs, Drug Intermediates and APIs by attracting large investments in the sector and thereby reduce India's import dependence in critical APIs.

- A committee on drug security constituted by the Department of Pharmaceuticals collated the details of APIs imported in the country and identified 53 APIs for which the country is heavily dependent on imports.

- The scheme categorises four target segments covering 41 products.
- The 3 products to be manufactured by NCL fall under the 2nd category of Fermentation based niche KSMs/ Drug Intermediates / APIs

- Financial incentive under the scheme shall be provided on sales of identified products for six (06) years:
- For fermentation-based products, incentive for FY 2023-24 to FY 2026-27 would be 20%, incentive for 2027-28 would be 15% and incentive for 2028-29 would be 5%.

The Company expects to receive an incentive amounting to

~ ₹67 Crores

over

the course of 6 years, which effectively de-risks the Company's investments significantly

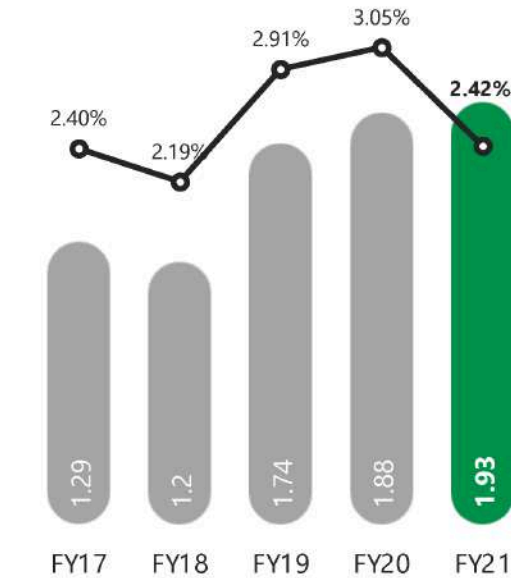

Focus on R&D

NCL strongly believes in investing in R&D, to stay ahead of its peers and to consistently innovate. The Company's recent entry into the API business is a testament to its firm belief in R&D.

R&D SPENDS & R&D AS A % OF REVENUE

(IN ₹ CRORE & %)

 R&D spends  R&D as a % of revenue

KEY AREAS OF RESEARCH

-  New product development for steroidal and hormonal range of API's
-  Process improvements for enhancing yields
-  Development of new process for manufacturing existing products

2 DSIR

Recognised state of the art R&D facilities

15

Team members focusing on product innovations and product yield efficiencies

1 patent

Granted, 1 patent under approval, 2 patents under filing - as a result of strong innovation in technology and manufacturing processes

Team

Is qualified and experienced in scaling up steroidal APIs to commercial scale

ESOPs

have been issued to senior members of R&D team to align the long-term interests

OB

Sustainability

Sustainability Initiatives

NCL believes in contributing towards environment and social improvement.

In its three decades of existence, the Company has engaged in multiple efforts to become more green and sustainable. NCL has also contributed significantly to the development of the people from around the Company's manufacturing sites.

SUSTAINABLE SITES

- Zero discharge facilities
- Solar power generation
- Solar concentrated heat generation funded by IREDA and 1st company to receive UNIDO grant for patented solar concentrated heat generation dishes in India

SUSTAINABLE PRODUCT PORTFOLIO

- Recycling of own waste for manufacturing gelatine capsules
- Recycling of water from effluent treatment plant

SUSTAINABLE COMMUNITIES

- COVID-19 relief work at Pitchaiveerampet, Pondicherry (food and medicine distribution) and Attibele, Bangalore (medicine distribution)
- Undertook infrastructure work in nearby communities, such as building a community temple

Investment Merits

Growth Drivers

Capacity enhancement with **state-of-the-art machinery** in capsules division, enabling operational efficiencies and driving profitability

Being the **only backward integrated manufacturer of steroidal APIs in India**, the Company plans to gain significant market share domestically

Exploring opportunities to set up capsules manufacturing facilities in foreign/domestic markets to ensure quick supply to customers

The Company will benefit from strong industry tailwinds on the back of the China Plus One strategy. This will further be amplified by robust government incentives (PLI scheme)

Focusing efforts on regulated markets and marquee pharma clients for capsules business, to stabilise its topline and enhance its margins

Strong focus on R&D will lead to the development of new products and processes, It will also enable operational efficiencies by increasing the yields of existing products

Regulatory approvals for the upcoming API facility will enable long term customer association leading to improved margins

Strategic Priorities

NCL is geared to bring about monumental changes in its approach towards its business. With the ongoing CAPEX, the Company is enabling itself to become the market leader in capsules business and positioning itself as a dominant player in the domestic steroidal API market.

STRATEGIC PRIORITY

- Positioning the business to reduce margin volatility
- Continue to grow sales of Capsules in regulated markets and expand global presence
- Introduce new variants of capsule products
- Develop new value-added molecules in steroidal and hormonal range of APIs
- Investing in technology and manufacturing processes to attain manufacturing efficiencies and competitive advantage
- API facility approved by regulatory bodies

ACTIONS TAKEN

- Collaborating with buyers who procure large quantities of capsules on a sustained basis
- Tying up with customers who sell finished formulations in regulated markets
- Sales and marketing team reaching out to new customers in new geographies
- Working on new varieties of capsules such as pullulan capsules
- Strong focus on R&D will enable new products to be developed every 18 months
- Investing in R&D to further improve the output of capsule manufacturing machines
- Facility is being set up and quality management systems are being deployed to ensure compliance to the stringent requirements of the regulatory bodies

Management Commentary

With our continuous increase in operational capacities coupled with a strong demand environment, we are confident that FY23 will be a strong year for us.

Mr. Sunil Mundra

MANAGING DIRECTOR
NATURAL CAPSULES LIMITED

"It gives me immense pleasure to report that we have had a strong Q4FY22, with volumetric growth of 7.5% and realisation growth of 2.5%. The installation of one line at the beginning of March 2022 aided in increasing our volumes this quarter. Given the demand visibility, the management has taken a strategic decision to install three lines for HPMC (vegetarian capsules) manufacturing instead of gelatin capsules. The capacity per line in HPMC is anticipated to decrease by 50% as against gelatin capsules, (from 5MCPD to 2.5MCPD); however, the realisations for these capsules are nearly 2.75 to 3 times greater than gelatin capsules with higher margins.

On the API front, our CAPEX remains on track. We expect the ordered machines to be delivered and the fermentation and synthesis block to be up by Q2FY23. NCL is geared to commence equipment validation batches and dry trial runs in Q3FY23 and aims to begin commercial production from Q1FY24. However, we anticipate a 15-18 % increase in the total API CAPEX, given the significant commodity inflation. Nevertheless, we are excited about our progress in the API products as we gradually move from gram scale trials to kilo scale trials.

The demand outlook for the upcoming quarters is robust, and our order book position of around four months puts us in a good place. With our continuous increase in operational capacities coupled with a strong demand environment, we are confident that FY23 will be a strong year for us. We hope to leverage our strengths to deliver a robust financial performance in the times to come."

CAPEX Tracker

Natural Capsules is geared to make significant capital expenditures in the quarters to come and is on track with its capsule business. The Company will focus on ramping up its endeavours in its API business in the coming quarters.
