Steady Ebitda, mixed margins expected for cap goods firms in Q4

Many engineering and capital goods companies are currently executing multi-year high order books

AMRITHA PILLAY
Mumbai, 5 April

Engineering and capital goods firms are largely expected to report steady double-digit growth in revenue and earnings for the March 2024-ended quarter, according to analysts.

However, margins of companies could remain a mixed bag. Brokerage firm Motilal Oswal expects growth in revenue and earnings before interest, taxation, depreciation and amortisation (Ebitda) to be in the early teens.

Similarly, Nuvama expects a 13 per cent growth in both earnings and revenue of the capital goods companies in its universe.

Domestic brokerage firm Centrum also indicated double-digit growth in revenue and Ebitda for most of the companies in its capital goods coverage.

In the March 2024 quarter (Q4 FY24) preview of the capital goods sector, analysts with Centrum noted that they expect the strong earnings growth momentum to continue.

Many of India's engineering and capital goods firms are currently executing multi-year high order books.

Revenue recognition from execution of these orders, according to analysts, is expected to aid their earnings in the March-ended quarter.

Analysts with Nuvama said they expect a double-digit growth in revenue for companies like KEC International on strong order inflows and better execution. The brokerage firm noted robust order inflow growth and execution completion of legacy projects of engineering major Larsen & Toubro (L&T).

Analysts at Motilal Oswal highlighted that the quarter gone by saw some moderation in domestic ordering due to the impending elections. However, the brokerage firm notes that, "The strong enquiry pipeline seen in Q3 FY24 should start materialising in Q4 FY24. For our

coverage universe, we estimate 15 per cent year-on-year (Y-o-Y) growth in execution in Q4 FY24."

Analysts expect margins to remain a mixed bag, depending on where a particular company is placed on the engineering value chain.

For engineering, procurement and construction (EPC) companies, Motilal Oswal noted, "EPC firms L&T, KEC International and Kalpataru Projects International had guided better margin performance in H2 FY24, given the delay in completion of legacy projects. However, they lowered the initial FY24 margin guidance by 25-50 basis points."

L&T's margins for the past many quarters have remained under pressure, owing to execution of orders won during a low commodity price cycle of the pandemic. There are signs of improvement in these margins, as these orders are near completion, analysts noted. For firms such as KEC International, some expect issues such as the Red Sea disruptions to weigh on margins.

For product companies such as ABB India, Motilal Oswal said it is likely to witness a mixed impact of strong demand and lower raw material (RM) prices. Hence, it expects the company to pass on some RM price benefits to end users.

Nuvama expects margins for companies in its universe to remain unchanged from a year ago at 12.3 per cent.

The brokerage agrees that a meaningful trend in the order-inflow trend from the private sector is unlikely to reflect in the March-2024 quarter financials. "A pickup of conventional private capex may still see some delay," analysts with Nuvama noted.

On private capex, analysts at Motilal Oswal said the investment activity has been selective, primarily in data centres, real estate, cement, metals & mining, industrial automation, and performance linked incentive-led capex.

"The consumer demand and the aggregate demand in the US have been highly resilient and growing at 6-7 per cent, underpinned by a strong labour market and a steady rise in wages and salaries," said Dhananjay Sinha, co-head of equities and head of Research of Strategy and Economics at Systematic Institutional Equity. While the consumer demand in the US has been above the pre-Covid trend growth, in India it has marginally, he said.

A relatively weak consumer demand in India has adversely affected the revenue growth for firms in the consumer goods space. This has adversely affected the overall aggregate demand in the economy as private final consumption expenditure accounts for nearly 60 per cent of India's gross domestic product (GDP).

The growth dichotomy in the two economies also show in their nominal GDP growth in constant currency. India's GDP at current prices, when converted to US dollar, grew 4.3 per cent Y-o-Y during the year ending December 2023. In the same period, US nominal GDP was up 5.9 per cent Y-o-Y. A faster growth in nominal GDP usually translates into higher aggregate demand and a faster growth in corporate revenues.

Others attributed the slower growth in corporate revenues in India to the adverse impact of rupee depreciation and a slowdown in key sectors. "A part of revenue growth for Indian companies was eaten up by rupee depreciation. Besides, we have seen a sharp slowdown in revenue growth in sectors such as FMCG, IT services, tractors, and commercial vehicles that are a big part of the listed universe in India," said G Chokkalingam, founder & CEO of Equinomics Research.

The state has attracted two major automobile investments in the past three months. Vietnam-based EV player VinFast, a Tesla rival in the global market, has begun work on its ₹16,000 crore manufacturing facility at Thoothukudi. This was followed by Tata Motors and the state government signing a memorandum of understanding to set up a manufacturing unit in Ranipet near Vellore, with an investment of ₹9,000 crore.

The new EV policy proposes to cut import duties for interested players to 15 per cent from the current 70 per cent or 100 per cent on vehicles with a CIF (cost, insurance, and freight) value of \$35,000 and above for five years.

Q4 PROJECTIONS

Accenture's \$1.1 bn GenAI portfolio gives it 'first-mover' advantage among IT peers

SHIVANI SHINDE
Mumbai, 5 April

The recent second-quarter performance numbers of Accenture, the largest information-technology (IT) services and consulting firm, may have pulled the Indian IT sector's stock prices down, but the company managed to sign deals of \$1.1 billion in GenAI (Generative artificial intelligence).

Accenture follows a September-August calendar. The firm, in its recent announcement, said it had signed GenAI deals worth over \$600 million, taking the GenAI books to \$1.1 billion.

In the first quarter of FY24, it had signed such deals worth \$450 million. The company acknowledged this was one of the fastest build-ups in its deal wins in a new technology category.

"What this tells you is that clients understand the importance of AI ... that they're going to have to reinvent every part of the enterprise," said Julie Sweet, chair and chief

executive officer (CEO), on the analyst call after the results.

Analysts tracking the company say Accenture's ability to win such big numbers in GenAI reflects its position.

"If you look at the percentage of AI in revenue it is still leading but the gap narrows. Clearly clients are eager to both pilot GenAI as well as move these pilots into production. That said, we believe the bulk of this revenue comes from pilots as well as broader work, which is AI-infused," said Peter Bendor-Samuel, CEO, Everest Group.

The company also gave some of its reasons for its success and said it owed it to its first-mover advantage.

"We want to be the first-mover to help our clients use the technology. And that's why what we're doing with our investment of \$3 billion is to create solutions for them and you see that coming through with our sales in Generative AI, which, as I've said earlier, are the fastest we've ever seen..." said Sweet, stating how Accenture had gained market share in GenAI deals. Sweet said other than

■ Accenture's Q2FY24 GenAI deal at \$600 mn

■ In Q3FY24, TCS said four GenAI deals have turned from PoC to contract

■ In Q2FY24, TCS had 250 GenAI opportunities

■ In Q3FY24, Infosys said it is seeing strong traction in GenAI deal momentum

Sources: Company analyst calls, media reports

mentation budgets," said a report by Kotak Institutional Equities after the company's results.

"Accenture's commentary indicates that plenty of generative AI PoCs may not get required results to be put into production at scale. Bulk of cloud, data and core modernisation journey is yet to be accomplished and requires heavy lifting from services. These investments will be necessary to realise the full benefits of generative AI for enterprises," it said.

Bendor-Samuel agrees the conversion of AI pilots into production will take time.

"We are still observing that most AI pilots are slow to move into production. Accenture is the premiere transformation firm and it is natural that they uncover the early opportunities."

The company also stated it has over 53,000 skilled data and AI practitioners against its goal of doubling its data and AI workforce from 40,000 to 80,000 by the end of financial year 2026.

Aerospike raises \$109 mn to accelerate AI innovation

ASHUTOSH MISHRA
New Delhi, 5 April

Aerospike, provider of NoSQL database management systems, announced that it has closed \$109 million growth capital investment from Sumeru Equity Partners, with additional investments from its existing investor Alsoop Louie Partners.

The investment will push innovation and go-to-market capabilities for Aerospike's core transaction, analytics, and AI solutions, including vector and graph databases, to meet the demands in the AI domain, said the company in a release.

As a part of the transaction, George Kadifa, Sumeru's co-founder and managing director (MD), will also join the company board.

"As AI applications demand context, we offer the only production-level vector solution that delivers consistent accuracy at scale on significantly less infrastructure than anyone else. We are elated to partner with Sumeru on our next phase of growth as we seek to drive ongoing innovation and investment in our

products," said Subbu Iyer, CEO, Aerospike. According to International Data Corporation (IDC), the AI market is projected to reach \$251 billion by 2027.

Aerospike powers transactional and machine learning (ML) applications at global enterprises, including Adobe, AppsFlyer, Barclays, Flipkart, Myntra, PayPal, and Riskified.

The company helps organisations in feeding their AI/ML systems high volumes of real-time data.

"The Aerospike database is purpose-built for unprecedented scale, the highest performance, and the lowest latency, which is why the explosion of real-time data has fueled our business momentum. Quite simply, we were made for this challenge," Iyer added.

Headquartered in Mountain View, California, the company has offices located in London, Bangalore, and Tel Aviv.

Sumeru Equity Partners provides growth capital and operating expertise to enterprise software companies. The firm has invested over \$3 billion in companies since its inception.

Raised funding from Sumeru Equity Partners, along with its existing investor Alsoop Louie Partners

FROM PAGE 1

Zee...

R Gopalan, chairman of the Zee board, said the board had noted the steps being taken to streamline the organisation and the proposed lean structure. "While the Board is in the process of discussing the same, the proposed structure certainly is in line with the strategic guidance provided to the management," Gopalan said.

Frugality, optimisation, and a sharp focus on quality content are the three key tenets of the plan implemented by the management, and the proposed organisation design will be in line with this approach, the statement said.

500 firms...

The last four quarters' numbers were added to get the trailing 12-month numbers.

The numbers, however, also suggest that a typical firm in the world's biggest economy is more profitable compared to its peers in India. The S&P 500 companies reported a net profit margin of 10.6 per cent (as a percentage of revenues) on average during the year ended December 2023 compared to the BSE 500 companies' average net profit margin of 9.3 per cent during the same period. This is the fourth consecutive year, at least, when US firms have clocked higher profitability than India's top companies.

However, the margin expansion in India from a post-pandemic low has been faster than in the US. The net profit margin for the BSE 500 companies has increased by 410 basis points from a low of 5.2 per cent during the trailing 12 months ended December 2020. In the same period, the S&P 500 companies' net profit margin increased by 330 basis points from 7.3 per cent during the year ended December 2020.

Analysts attributed the faster revenue growth in the S&P 500 companies to stronger consumer demand in the US.

lower raw material (RM) prices. Hence, it expects the company to pass on some RM price benefits to end users. Nuvama expects margins for companies in its universe to remain unchanged from a year ago at 12.3 per cent. The brokerage agrees that a meaningful trend in the order-inflow trend from the private sector is unlikely to reflect in the March-2024 quarter financials. "A pickup of conventional private capex may still see some delay," analysts with Nuvama noted.

On private capex, analysts at Motilal Oswal said the investment activity has been selective, primarily in data centres, real estate, cement, metals & mining, industrial automation, and performance linked incentive-led capex.

₹26.33 trillion for the state. The news about Tesla's plan to set up a plant in India comes on the heels of the Central government's decision to slash import taxes on some EVs for companies that pledge at least \$500 million (₹4,150 crore) in investment and a manufacturing plant within three years.

Tesla's India plans coincide with a decline in its global sales. In the first quarter of 2024, Elon Musk's auto behemoth reported 386,810 global deliveries, a drop of 8.5 per cent year-on-year, largely due to stiff competition from local EV manufacturers in China.

In Telangana, its Industries and IT Minister D Sridhar Babu has already announced the state's intent to attract Tesla and confirmed ongoing discussions. "The state is ready to go to any extent in terms of bringing new investments like Tesla," said a source.

Earlier, Babu said: "Telangana with its industry-friendly policy is working with a progressive and futuristic vision by creating a world-class infrastructure and hassle-free approvals system to enable best-in-class firms like Tesla to do business in the state."

Tamil Nadu's trump card is its thriving automobile ecosystem. "Tamil Nadu is the first port of call for any firm looking to invest," said a source.

The state has attracted two major automobile investments in the past three months. Vietnam-based EV player VinFast, a Tesla rival in the global market, has begun work on its ₹16,000 crore manufacturing facility at Thoothukudi. This was followed by Tata Motors and the state government signing a memorandum of understanding to set up a manufacturing unit in Ranipet near Vellore, with an investment of ₹9,000 crore.

The new EV policy proposes to cut import duties for interested players to 15 per cent from the current 70 per cent or 100 per cent on vehicles with a CIF (cost, insurance, and freight) value of \$35,000 and above for five years.

NOTICE OF EXTRA ORDINARY GENERAL MEETING.
NOTICE is hereby given that the Extra Ordinary General Meeting (EOGM) of the Prabhu Steel Industries Limited (the Company) will be held on **Friday, 26th April, 2024** at 09:00 A.M.at Plot No 15B Small Factory Area Bagadgarj Nagpur 440008 to transact the businesses as set out in the Notice of the EOGM.

Notices of the EOGM, Attendance Slip for 2024 have been sent in electronic modes to Members whose email IDs are registered with the Company/Depository Participants(s). The Notice of the EOGM, Attendance Slip 2024 is also available on the website of the Company, at www.prabhusteel.in

The Company is pleased to provide to its Members the facility to exercise their vote by electronic means (e-voting) on the businesses as set out in the Notice of the EOGM, Members holding shares either in physical form or in dematerialized form, as on the cut-off date i.e. 19th April, 2024, may cast their vote electronically on the Special Business as set out in the Notice of the EOGM through electronic voting system of NSDL from a place other than venue of the EOGM. A person whose name is recorded in the Register of members or in the Register of Beneficial owners maintained by Depositories as on cut-off date only shall be entitled to avail facility of remote e-voting as well as voting at the EOGM.

The remote e-voting period will commence on **Tuesday, 23rd April, 2024** at 09:00 A.M. and will end on **Thursday, 25th April, 2024** at 05:00 P.M. The remote e-voting module shall be disabled for voting by 5.00 p.m. on **Thursday, 25th April, 2024** at 05:00 P.M. Once the vote on a resolution is cast by the member, the member cannot modify it subsequently.

The voting facility shall also be made available at the EOGM and Members attending the EOGM who have not cast their vote by e-voting shall be eligible to vote at the EOGM. Members, who have cast their vote through e-voting, may participate in the EOGM but shall not be allowed to vote again in the meeting.

Any person, who acquires shares of the Company and become member of the Company after dispatch of the Notice of the EOGM and holding shares as of the cut-off date i.e. 19th April, 2024, may obtain the USER ID and Password by sending a request at <https://www.evoting.nsdl.com> or prabhusteel@yahoo.com. However, if a person is already registered with NSDL for remote e-voting then existing user ID and password can be used for casting vote.

The Notice of EOGM is available on the Company's website www.prabhusteel.in and also on the NSDL's website <https://www.evoting.nsdl.com>.
