Conclusion

- ❖ Our competitive advantages remain unaffected by demonetization :
 - Deep domain knowledge of sectors we operate in
 - Clear established “Right to Win” in our chosen businesses
 - Common USP of Turn around Time across products
- ❖ ~90 % of loan book is serviced by electronic collections, unaffected by currency shortage
~60% of the book is Wholesale where the impact is unequivocally positive
- ❖ Since the rural economy is largely a white economy, the issues faced are more due to temporary delays/logistical difficulties rather than defaults:
 - Should come back to normal once enough new currency becomes available
 - Situation being over managed in the meanwhile, by assisting customers to deposit cash in the bank
- ❖ Long term impacts are largely positive as :
 - Fall in asset prices will spur demand in real estate sector
 - Infrastructure spending increases
 - Lower operational cost due to increase in banking penetration in rural sector
- ❖ It is expected that increase in liquidity will push interest rates down, therefore benefiting the company
