Managing Director's Message

Commenting on Q2 & H1 FY23 results, Mr. Nikhil Nanda, Managing Director, said :

"I am happy to inform you all that the new talcum powder facility has received all necessary statutory approvals from respective authorities and is ready to commence commercial operations in Q3 of FY 22-23.

During this quarter and half year ended 30th September 2022 we have recorded a revenue of Rs. 24.05 crores and Rs. 45.36 crores respectively. There was drop in revenue as compared to the previous corresponding period, due to decrease in revenues from the toothpaste business of a major customer that contributes to a large part of our revenue. However with addition of new customers for our Toothpaste business we expect the volume and value to increase going forward post stability approvals. Moreover we have seen an increase and significant traction in our retail business and expect this to continue over the coming quarters, leading to an uptick in our revenues.

In the month of August, we entered into an exclusive tie-up with an Italian Company 'Artsana Group' to manufacture kids' oral healthcare products for their brand 'Chicco', which is amongst one of the leading brands globally and also in India. As of now the Company has commenced production and supply of toothpaste across the country and soon will start with toothbrushes as well. This is in line with our expansion plans and to add more global partners which in turn enables other international companies to start doing business with us and increase our footprint in world markets.

I would like to take this opportunity to thank each member of the JHS management, staff and workmen. I would also like to thank our Clients, Creditors, Banks, Financial Institutions, and all other Stakeholders. Their faith in us and extended support makes it easier for us to strive and take a baby step daily to grow.

Recent Developments

- Company has entered into exclusive tie up with Italian Company '**Artsana Group**' to manufacture kids' oral healthcare products in India, for their **brand 'Chicco'**
- This development marks important step for Company to grow not just in product portfolio but also adding leading companies to expanding customer base
- This partnership enhances our footprint with other global companies to partner with JHS as their exclusive suppliers in India and abroad
- 'Chicco' is amongst **leading kids' oral care brands in India**, with global leadership position in Europe- commenced production for toothpaste and has also started dispatches across county and soon will start production of toothbrushes as well. This will enable Artsana to complete their localization domestically for kid's oral healthcare products in India, which group was earlier importing
- Chicco has presence in over **120 countries**, with more than **360 single-brand stores**, making around **700 million euros net revenue**
- The Company has received all necessary statutory approvals from respective authorities and is ready to commence operations at its new talcum powder facility

Journey so far...

Founder & Lead Management's Experienced Profile

Nikhil Nanda

Founder & Managing Director

JHS is led by young, dynamic & self-motivated visionary, **Mr. Nikhil Nanda**. First-generation entrepreneur, man of strong judgment and deep insight, whose committed focus and dedicated passion has enabled JHS to emerge as one of leading oral-care manufacturers facility in country.

A postgraduate from one of premier B-schools in India, Fore School of Management. He worked for year before he pursuing his MBA. Mr. Nanda worked as summer trainee under MD of Gillette in year 1996 where he was drawn towards building his own business and not taking up job during campus placement with Nestle.

Driving forces behind getting into manufacturing of Oral Care space were these thoughts:

In year – 1997, Mr. Nanda's entrepreneurial journey began with three fundamental principles:

- ✓ Demand for oral care products was directly proportional to India's fast growing population .There was huge market for expansion due to product's low penetration (49% in 1996). Entry of big brand names in segment created high opportunity for growth.
- ✓ Line model of manufacturing and technology creating multiplier effect.
- ✓ Excise Exemption and SSI reserved product, hence excellent opportunity for contract manufacturing.

This led to creation of Svendgaard Labs later merged to form JHS, enterprise which initially manufactured toothbrushes followed by many more FMCG products. His strong business acumen and skills saw him bid for manufacturing mandates from various International & National oral care brands

JHS has grown over years because of Mr. Nanda's sharp skills as well as by adopting right growth strategy. This led to building its market presence and leadership in Oral Care category

JHS will respond with speed and sensitivity to great Indian consumption boom. We shall be **brand behind brands** . Strive to be most visible Indian brand capturing attractive upside of Indian consumption journey for our customers and shareholders

Character Associations

- **Aquawhite** is only brand that has huge kid's character in its portfolio. Official brand-tie-ups and licensed usage of popular & favorite kid's characters like – Chhota Bheem, Chutki, Shimmer & Shine, PAW Patrol, Pokémon, SpongeBob Square Pants, Angry Birds, Peppa Pig, Shiva, Hello Kitty gives us edge over competition. This makes for instant connect with kid's attraction & attention, thereby giving their mothers one less reason to worry about

Communication

- Emphasis on communication is basic proposition of brand being playful partner to kids ,to aid healthy habit of brushing for 2 minutes, 2 times everyday. To mother, brand is helping hand who alleviates task of brushing which is hitherto been difficult one. Created **"BRUSH-MATES"**, property to let kids pick up their favourite Brush-Mate
