## Indian Economy and the T&D Market

### Indian Economy

- Suggestive industrial demand, practically no private investment.
- Bank NPAs continues its upward trend.

### Power and T&D Market

- Central/State Govts have come out with the 4<sup>th</sup> bailout plan for the State Discoms under "UDAY" scheme. Hope it improves Discoms financial health and increases the demand of electricity. Future of IPPs and overall health of the Power sector depend on this reform.
- Power Grid, NTPC and some state Gencos and Transcos are investing
- Some TBCB projects are also on the way
- GIS Opportunities growing, but Chinese/Koreans are continuing their aggressive pricing. Most of the PSU buyers are yet to implement "Make in India" policy.
- T&D market de-growth continues for the fourth consecutive year.
