# What we'll cover today

1. Specialty Polymer Processing – an industry of the future
2. Emmbi's Growth Mantra: Innovation & Need Identification
3. Emmbi's Products and Services
4. A Performance Update
5. Looking Ahead

# 1 • The Specialty Polymer Industry – Growth Prospects

*What makes the industry we operate  
in, attractive?*

# Exponential Growth, Globally

## 4X GROWTH

In just two decades from 2000, global polymer consumption is expected to grow almost four times.

## A NEW, MAN-MADE MATERIAL

The completely man-made nature of polymers makes innovation and creation of new materials virtually limitless.

## NEW APPLICATIONS

Advances in material technology are creating new applications for polymers, further fueling this growth.

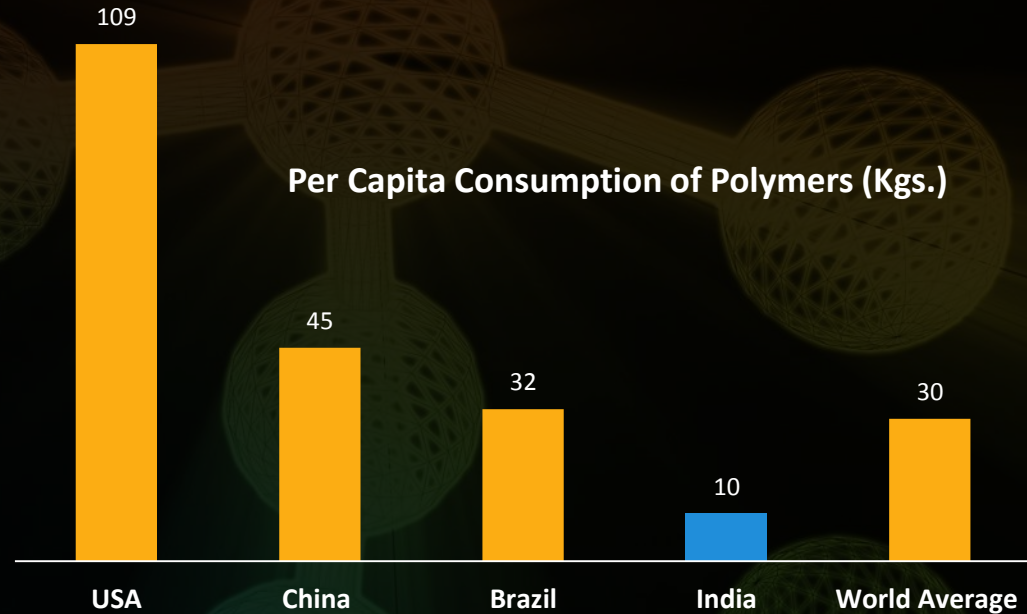

# Significant Headroom, in India

## INDIA LAGS THE WORLD IN POLYMER CONSUMPTION

India's consumption of polymers is still a third of the global average.

## URBANIZATION TO DRIVE CONSUMPTION

As the country urbanizes and grows economically, we see a significant uptick in polymer consumption.

# The take-outs for us

---

- 1. Unlike natural resources, which are limited in nature, polymers are man-made, which makes their potential availability unlimited**
- 2. Rapid advances in technology are finding new applications, where polymers are replacing traditional materials like metals, glass, wool & cotton. This has contributed to the growth in their consumption, worldwide**
- 3. There is still a significant headroom for growth in consumption in India; companies like Emmbi can make the most of this opportunity now, and in the future**

# 2

## Growth through Innovation and Need Identification

*What has helped Emmbi Industries to  
Grow profitably?*

# Our philosophy

---

At Emmbi, what drives us is a desire to brighten our world in every way – for our employees, our customers, investors and our communities. Our philosophy is embedded in our corporate symbol, that we call “The Whizz”

**Blue** The colour of loyalty and stability. At Emmbi, this also represents the team and our blue-collared employees, the proverbial hands of the workers that have made Emmbi. For us, FY 2016 was the year in which we focused on building our human capital – the foundation of our future growth

**Green** The colour of freshness and nature. At Emmbi, this represents the innovation and the freshness of our ideas that make an impact on our world. FY 17 will be the year in which we put these groundbreaking ideas into action

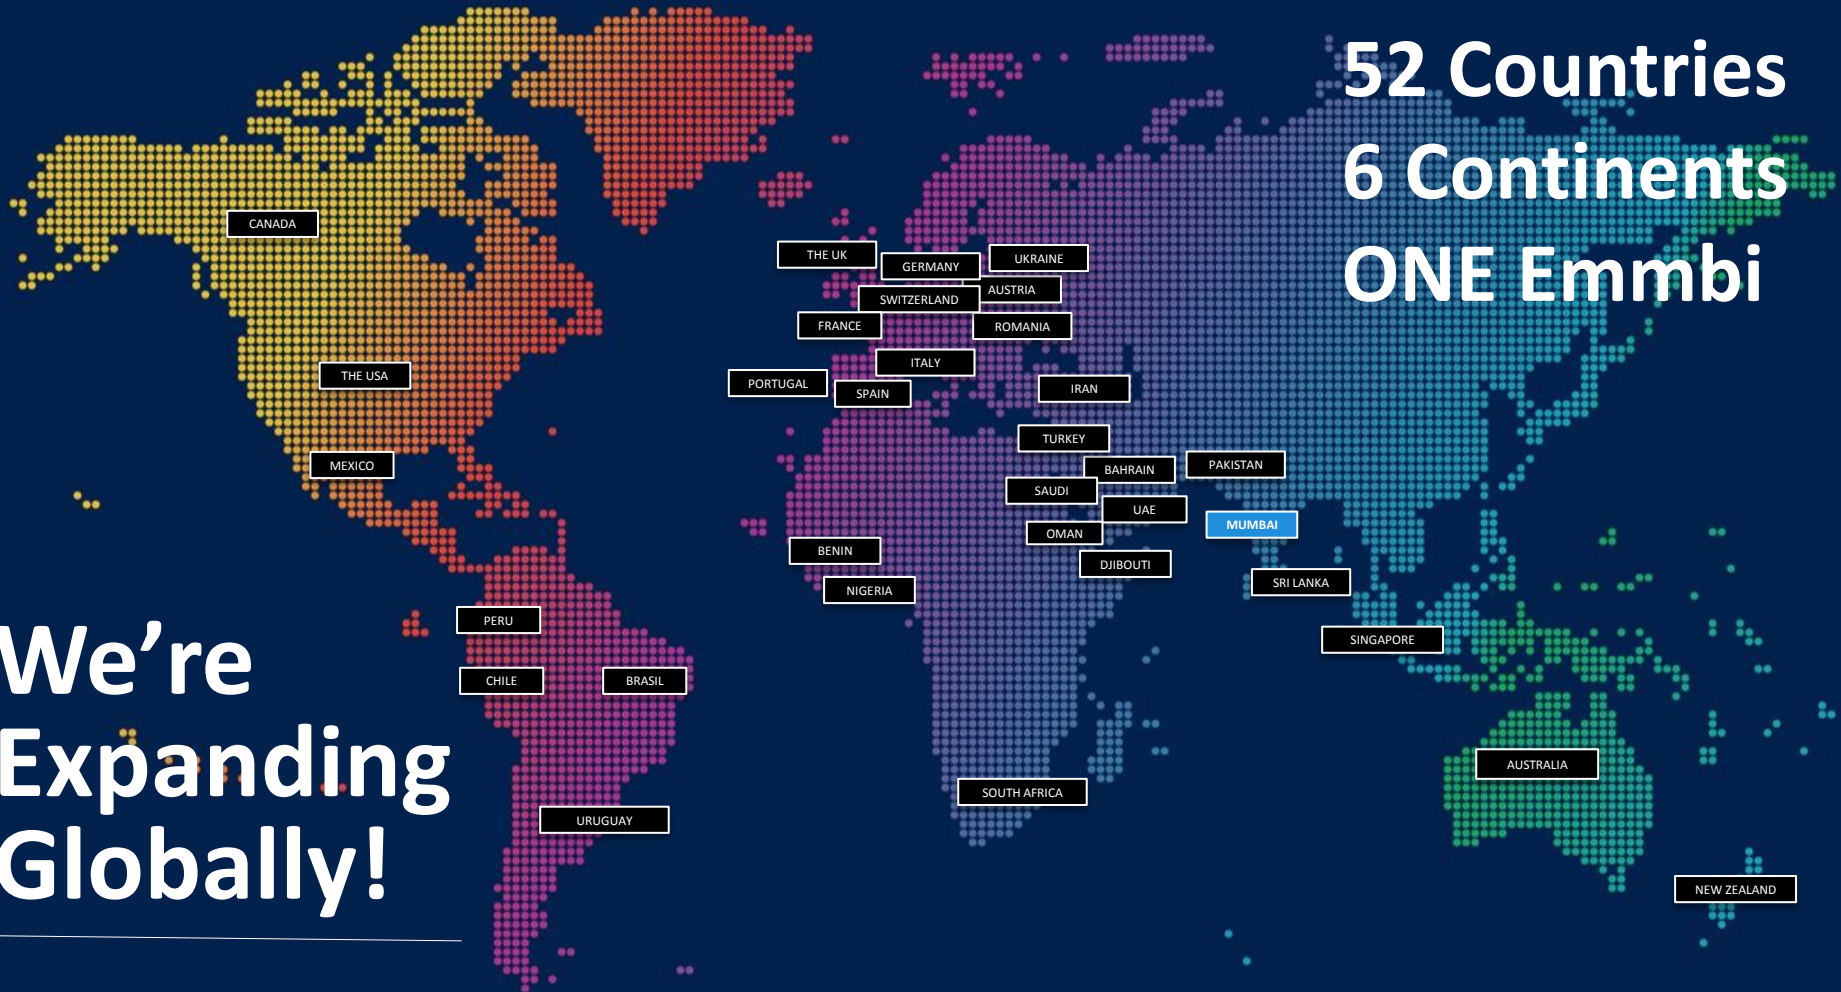

**Yellow** The colour of optimism and energy. At Emmbi, this speaks to the energy and the enthusiasm that we bring to our work, every day. It also speaks of a sunrise and prosperity that our efforts would begin paying back, from FY 18

# How we're leading

---

- **Focus on R&D** A separate R&D Center with a dedicated 34-member team gives innovation and new product development the focus that it deserves
- **Multicultural Presence** Our global footprint and open culture fosters active sharing and cross-pollination of ideas
- **Development Pipeline** Our focused efforts in product development has resulted in 11 patents, which we are in a position to leverage to better our margins
- **Proactive Innovation** We have a finger on the pulse of our customers and markets and are able to lead innovation

We're  
Expanding  
Globally!
