The performance of the Company has been referred to wherever required.

The working of the Company during the year under review has been highlighted below:

COMPANY OVERVIEW

The Company was incorporated in the year 1992 and listed with BSE Ltd. in the year 1995 under the provisions of the Companies Act, 2013 (previously as applicable) (the “Act”). Your Company is engaged in manufacturing of various kinds of paper like Writing Printing Paper (colour and white), MG Poster paper, kraft paper and others various quality papers as required on customer demand. Basically the Company is agro based paper manufacturing Company, uses agriculture products like bagasse, waste paper and other agriculture product etc. for manufacturing of paper and also used imported paper into manufacturing of paper for better quality. The company sold finished paper in form of reels, sheets and other size as required.

The Company’s cost of production of paper is higher than other paper company because of our small production capacity and using agro product for final product. We expect for better and bright future of the Company. Our strategic objectives are to build a sustainable organization that remains relevant to the agenda of our stakeholders and creating growth opportunities for the employee and increase the wealth of the company for our stakeholders and members.

Due to heavy competition in paper industry and we face many challenges and threats like market sharing, price of product and other avoidable and unavoidable challenges.

The Company shall not waive recovery of such sum refundable to it unless permitted by the Central Government.

C. Criteria of making payment to Non- Executive/Independent Director(s):

Pursuant to the Schedule V read with Regulation 34 (3) of Listing Regulations, requires every Company to publish its criteria of making payments to Non- Executive Directors in its annual report. Alternatively, as per Regulation 46 (2) of Listing Regulations, this may be put up on the Company's website and reference may be drawn thereto in its annual report. Section 197 of the Companies Act, 2013 and Regulation 17(6) (a) of Listing Regulations require the prior approval of the shareholders of a Company for making payment to its Non-Executive Directors ("NEDs").

However, the requirement of obtaining prior approval of shareholders in general meeting shall not apply to payment of sitting fees to non-executive directors, if made within the limits prescribed under the Act for payment of sitting fees without approval of the Central Government Accordingly, the following criteria is laid down for the Company. In keeping with the above, any fee/remuneration payable to the NEDs of the Company shall abide by the following:

Remuneration to Non- Executive / Independent Director:

1. **Sitting Fees:** The NEDs (which expression includes Independent Directors) may receive remuneration by way of fees for attending meetings of Board or Committee thereof. Provided that the amount of such fees shall not exceed Rupees One lakh per meeting of the Board or Committee or such amount as may be prescribed by the Central Government from time to time, in case Board gives its approval. On the recommendation of Committee the Board may decide to pay sitting fees on selective basis.

2. **Commission:** Section 197 of the Companies Act, 2013 allows a Company to pay remuneration to its NEDs either by way of a monthly payment or at a specified percentage of the net profits of the Company or partly by one way and partly by the other. Further, the section also states that where the Company has either Managing Director or Whole-time Director or Manager, then a maximum of 1% of its net profits can be paid as remuneration to its NEDs. In case there is no managing director or whole-time director or manager, then a maximum of 3% of net profit can be paid. Thus, the basis of payment to the NEDs is the net profit of the Company.

3. **Criteria for fee and commission:** Within the parameters prescribed by the Act, the quantum of sitting fees and commission will be recommended by the Committee and approved by the Board of Directors of the Company. Overall remuneration (sitting fees and commission) should be reasonable and commensurate with the responsibilities, time spent in Board and Committee meetings by the NEDs. The aggregate commission payable to all the NEDs will be recommended by the NRC to the Board based on Company's performance, profits, return to investors, shareholder value creation and such other qualitative parameters.

4. **Professional Fees:** Under the Companies Act, 2013, Section 197 allows a Company to pay remuneration to its NEDs for services rendered by any such Director if:

- a. The services rendered are of Professional nature;
- b. In the opinion of Nomination and Remuneration Committee the Director possess the requisite qualification for the practice of the profession.

As per the provisions of Section 188 of the Companies Act, 2013, the Audit Committee and the Board of Directors of the Company shall approve the Professional fees to be paid to Non- Executive Director(s), and with the approval of the Shareholders wherever required.

5. **Reimbursement of actual expenses incurred:** The Non-Executive Directors are also entitled for reimbursement of expenses incurred for attending the Shareholders meetings, Board Meetings and Committee meetings thereof, induction and training (organised by the Company for Directors).

6. **Refund of excess remuneration paid:** If any Director draws or receives, directly or indirectly, by way of remuneration any such sums in excess of the prescribed limit or without approval required under Section 197, he/she shall refund such sums to the Company, within two years or such lesser period as may be allowed by the Company/Act and until such sum is refunded, hold it in trust for the Company. The Company shall not waive the recovery of any sum refundable to it unless approved by the Company by Special Resolution within two years from the date the sum becomes refundable.

7. **Stock Options:** As per the Regulation 17 of the Listing Regulations, the shareholders' resolution shall specify the limits for the maximum number of stock options that can be granted to Non-Executive Directors, in any financial year and in aggregate. Provided that an Independent Director shall not be entitled to any stock options and may receive remuneration by way of fees and reimbursement of expenses for participation in meetings of the Board and other meetings and profit related commission as may be approved by the members. Amendments The Company reserves the right to modify and/or amend this document at any time subject to the applicable provisions the Act and Listing Regulations.

Membership:

- i. The Committee shall consist of a minimum 3 non-executive directors, majority of them being independent.
- ii. Minimum two (2) members shall constitute a quorum for the Committee meeting.

- iii. Membership of the Committee shall be disclosed in the Annual Report.
- iv. Term of the Committee shall be continued unless terminated by the Board of Directors.

Chairperson:

- i. Chairperson of the Committee shall be an Independent Director.
- ii. Chairperson of the Company may be appointed as a member of the Committee but shall not be a Chairman of the Committee.

Annexure – E**REPORT ON CORPORATE GOVERNANCE**

(Pursuant to Chapter IV of SEBI (LODR) Regulations, 2015)

Company's Philosophy on Corporate Governance:

Mohit Paper Mills Limited ("the Company") is committed to good corporate governance and ensuring adequate disclosure for its stakeholders as on time to time. The Company believes that governance process should be such so as to ensure adequate utilization of resources to meet the expectations of the shareholders and stakeholders. The Corporate Governance is about maintaining the ultimate/perfect balance between economic, social, individual, regulatory and community goals.

The Company believe in accountability, self-responsibility, transparency, safety, professionalism of the people and environment. The Corporate philosophy of the Company envisages complete transparency and adequate disclosures with an ultimate aim of value creation for all players i.e. stakeholders, the creditors, Governments and employees.

It is an ethically driven business process that is committed to values and conduct aimed at enhancing an organization's wealth generating capacity. This is ensured by taking ethical business decisions and conducting the business with a firm commitment to values, while meeting stakeholders' expectations. Good governance practices stem from the culture and mindset of the organization and we are committed to meet the aspirations of all our stakeholders and believes in adopting best corporate practices for ethical conduct of business.

The essence of Corporate Governance lies in promoting and maintaining integrity, transparency and accountability in the management's higher echelons. The demands of corporate governance require professionals to raise their competence and capability levels to meet the expectations in managing the enterprise and its resources effectively with the highest standards of ethics.

The Company has adopted a Code of Conduct for its employees including Directors. Apart from the performance evaluation of regular employees, the Company has formed the code of conduct for performance evaluation of its Executive and Non-Executive Directors which suitably incorporates the duties of Independent Directors as laid down in the Companies Act, 2013 ("the Act"). This code is available on the Company's website. The Company has also established a mechanism called 'Whistle Blower Policy' for employees to report to the management instances of unethical behavior, actual or suspected, fraud or violation of the Company's code of conduct, rules of laws or ethics policy.

The spirit of governance of the Company is derived from this philosophy and has been articulated through the Company's various policies. We are committed to meet the aspirations of all our stakeholders. The Corporate Governance ensures transparency and accountability, it also has broader social and institutional dimensions, under these rules of corporate governance focus on implementing the values of fairness, transparency, accountability and responsibility to all the stakeholders.

The Company is in compliance with the requirements stipulated under regulation 17 to 27 read with Para C and D of Schedule V and clauses (b) to (i) to Sub-Regulation (2) of Regulation 46 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulation") with regard to Corporate Governance and applicable provisions and/or sections of the Act. MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The Board of Directors presents hereunder an analysis of performance of the Company for the year 2022-23 and its outlook for the future. This outlook is based on current business environment which may vary due to future economic and other developments.

Industry Structure and Development

Global Economic Review:

The pulp and paper industry is one of the largest industries in the world and increased the contribution in the global economic. It is dominated by North American, Northern European and East Asian companies. Latin America and Australasia also have significant pulp and paper industries. Over the next few years, it is expected that both India and China will become key players in the paper industry. The pulp and paper industry is a large and growing portion of the world's economy. The pulp and paper industry is faced with mounting environmental, political, and economic pressures to reduce the volume and toxicity of its industrial wastewater. During the last few years, the concept of system closure has been gaining popularity in the forest products industry with reason of the concept offers more flexibility in the sitting of new mills, including consideration of mill locations with limited fresh-water resources.

Paper products refers to items made up of paper products or commodities, such as paper towels, napkins (tissues paper), corrugated paper, and similar forms of cellulosic products that contain no more than 10% of non-cellulosic material by weight or volume, such as laminates, binders, coatings, or saturates. The main types of paper products are converted paper products, unfinished paper and pulp mills. The converted paper products industrial category consists mostly of companies that manufacture paper products from acquired paper and paper board. Wood and agro residue, waste and recycled paper are used as raw material to produce paper products, basically this type of paper industry called agro paper based paper industries. The different applications include writing paper, magazine paper, packaging paper, sanitary paper and other. The paper products market research report is one of a series of new reports from the Business Research Company that provides paper products market statistics, including paper products industry global market size, regional shares, competitors with a paper products market share, detailed paper products market segments, market trends and opportunities, and any further data you may need to thrive in the paper products industry. This paper products market research report delivers a complete perspective of everything you need, with an in-depth analysis of the current and future scenario of the industry

In the point of global paper industries, total global paper products market grew from \$974.14 billion in 2022 to \$1036.59billion in 2023 at a compound annual growth rate (CAGR) of 6.4%. The Russia-Ukraine war disrupted the chances of global economic recovery from the COVID-19 The war between these two countries has led to economic sanctions on multiple countries, a surge in commodity prices and supply chain disruptions, causing inflation across goods and services and affecting many markets across the globe. The paper products market is expected to grow to \$1293.15 billion in 2027 at a CAGR of 5.7%.

The paper products manufacturing market is expected to benefit from steady economic growth forecasted for many developed and developing countries. According to the International Monetary Fund (IMF), the global GDP growth reached 3.3% in 2021 and 3.4% in 2021. Recovering commodity prices, after a decline in the historic period is further expected to be a significant factor driving economic growth. The US economy is expected to register stable growth during the forecast period. Additionally, emerging markets are expected to continue to grow slightly faster than the developed markets in the forecast period. Greater economic growth is likely to drive public and private investments, joint ventures, foreign direct investments in the end-user markets, thereby driving the market during forecast period.

The Indian paper industry is highly fragmented. It comprises of small, medium, and large paper mills with paper production capacity ranging from 10 to 1650 tonnes per day. As the primary raw resource for paper manufacture in the Indian hinterland, wood and agricultural waste is extensively used. The Indian paper industry is famous for its production of writing, newspaper, and commercial paper etc. Mills generate newsprint-grade paper using recycled wastepaper as the primary raw source. However, the raw material base has been changing significantly over the years. The paper industry in India produces 5 per cent of the world's total paper. India accounts for about 5 per cent of the global paper market. The market is worth about US\$ 8 billion. The paper industry in India generates an estimated Rs. 70,000 crore in yearly revenue, with a domestic market size of Rs. 80,000 crore. The paper industry's tax contribution to the Government is around Rs. 5,000 crore.

Opportunities

Paper industry is constantly growing worldwide, since paper consumption in consumer market is endless. With changing word and improving life style of individuals makes a difference in every industry with new possibilities and different industries like hoteling, packing, online market, and personal hygiene awareness in people will going to make positive changes in pulp and paper industry. A global market of consumers concerned about the environment has been created due to technological advancements. The Paper manufacturers have been looking for alternative petroleum-based products that are both biodegradable and preferable from an environmental standpoint.

In current days paper is best option and demand of paper increased day by day, the demand of paper due to many reasons, which are:

- a. **Anti-Plastic thinking:** There is either a reduction or elimination of the use of plastic in packaging. Anti-plastic sentiment encourages biodegradable pulp and paper alternatives. This movement is being pushed forward by various government agencies as well as citizens who are concerned about their health. The problems caused by plastic present a wealth of opportunities for the paper and pulp manufacturing sector.
- b. **The rise in online market:** In global markets are seeing an increase in the sale of products online day by day. It is anticipated that this pattern will carry on furtherance of years. Because of the proliferation of online shopping, packaging has had to develop to make the most efficient use of shelf space. There has been an increase in the demand for raw materials and corrugated boxes.
- c. **Food-packaging:** The food packaging industry is undergoing change. Recently, there has been a rise in demand for packaging that is resistant to grease. This component can be found in a wide range of different packaged goods and restaurants and paper is used to packaging the food.

The potential of growth for the industry lies in development of the economy, rising literacy rates, consumerism and standard of living. All these factors are in a positive move in India at present, which gives a good picture to the scenario of paper industry. Indian Economy is growing very fast. Its ratings in the world have improved during the few years. The world is showing keen interest in the Indian Market. So Indian Paper Industry is at an advantageous position to make the most of the opportunity offered by changing economic order.

As uses of these papers which are required in Food, courier, education, automobile, medicine and water, etc. industries have a good scope in India to set up their manufacturing units. India is the biggest importer of tea bag filters and also the cold storage papers are not being manufactured here which are used in the packaging of vegetables and fruits.

At present new machines come with various facilities helping to improve the efficiency and financial viability of mill. Your Company is always in search of such opportunities and is in the process of increasing its capacity and quality improvement. In the near future the Company is in the process of increasing its capacity.

Threats/Risks

Now these days Indian paper industry has a material place in global industries and due to globalization every treats for global industries is threats to Indian industry. Globally paper and pulp industry is facing significant threats related to deforestation and the loss of biodiversity. According to a report by WWF, over 80% of the world's intact forest landscapes are at risk of being destroyed by human activities, and the paper industry is one of the major drivers of this destruction. (Source: World Wildlife Fund) According to a report by the Environmental Paper Network, the paper industry is the fifth-largest consumer of energy worldwide and the third-largest industrial emitter of greenhouse gases. It is responsible for approximately 5% of global carbon emissions.

Paper manufacturing industries faces many threats and challenges that need to be addressed in order to ensure its sustainability and growth, some threats and challenges facing the paper manufacturing industry are here:

Environmental Impact: In paper manufacturing industries environmental issue is one of most critical issue. In the paper manufacturing there are significant amount uses of natural recourses like water, wood, energy, many types of chemicals and other materials having impact on environment. Our industry agro based paper manufacturing unit that means we use agricultures products to manufacturing the paper. We used sugarcane bagasse in manufacturing line and also used waste paper as required.

This includes using recycled materials, reducing waste and energy use, and implementing water conservation measures. In addition, the industry needs to work with governments and other stakeholders to develop policies and regulations that promote sustainable practices and protect the environment.

Manufacturing Cost: Manufacturing cost is also one of threats for the company/industry. Paper industry is one of most expensive industry because it required heavy capital investment in plant and machinery, raw material, building, administration, labor, equipment and working capital etc, as a result, the cost of production can be a major factor in the profitability and sustainability of paper manufacturers. One of the challenges facing the industry is the need to balance cost with other factors, such as quality, sustainability, and efficiency. In paper industry continuously investing in new technologies to improve efficiency can be costly in the short term but can lead to long-term cost savings and sustainability benefits. In addition, the paper manufacturing industry also faces pressure from consumers and stakeholders to maintain competitive pricing while also addressing environmental and social concerns. After facing challenges it is needs to focus on improving efficiency, reducing waste, and investing in sustainable practices and technologies that can improve profitability and reduce costs in the long term.

Intermediaries: In paper industry intermediaries play vital role. This industry believe on intermediaries because these intermediaries includes from supplier of raw material to dealer i.e. purchaser of final paper mean include supplier of raw material, internal and external parties and dealer, distributors and retailers. In strong industry required effective intermediaries which ensure reliable supply of raw materials and finished products, as well as to meet customer demands and comply with environmental and social standards. This requires the industry to work with suppliers and stakeholders to develop sustainable sourcing practices and ensure compliance with environmental and social standards. Global events effects the intermediaries like supply of raw material, finished products and also in import and export.

Reuse or Recycling: Reuse or recycling is another critical issue for paper industry. Infact recycling is backbone of paper industry, mostly paper manufacturing industry used to waste paper for manufacturing of finished paper i.e. final product. Recycling of paper not only a complicated and but also a costly process in meantime. Contamination, is the most hurdle in the recycling because the company received waste paper with other materials, such as food waste or plastic, it can make it difficult to recycle and can reduce the quality of the recycled product. This contamination can occur at any point in the recycling process, from collection to processing, and can result in additional costs for the industry.

Research and Development (“R&D”): R&D is another critical issue and challenges facing the paper manufacturing industry. The industry needs to continuously innovate to remain competitive, improve

efficiency, reduce costs, and address the challenges facing the industry, such as environmental concerns and changing consumer preferences. One area of innovation in the industry is the development of new and improved paper products.

Segment or product wise Performance

During the year the company has achieved the good level of capacity utilization with respect to the manufacture of the paper and it was done due to the expertise of the Managing Director, the technical staff and the hard-work of our labourers. This is a good example of proper utilization of the capacity with minimum resources. **INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF MOHIT PAPER MILLS LIMITED
Report on the Audit of the Ind AS Financial Statements**

Opinion

We have audited the accompanying Ind AS financial statements of **MOHIT PAPER MILLS LIMITED** (the "Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a **TRUE AND FAIR VIEW IN CONFORMITY WITH THE INDIAN ACCOUNTING STANDARDS** prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing ("SA")s specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
NIL		

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the Ind AS financial statements and our auditor's report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with companies (Indian Accounting Standards) Rules, 2015, as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management and Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement

resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls over financial reporting in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Ind AS financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Ind AS financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.

d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.

e) On the basis of the written representations received from the directors as on March 31, 2023 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2023 from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure A”. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company’s internal financial controls with reference to financial statements.

g) With respect to the other matters to be included in the Auditor’s Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

h) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company has no pending litigation which has any impact on its financial position.
- ii. The Company did not have any long-term contracts including derivative contracts; for which there were any material foreseeable losses.
- iii. There were no amount which were require to be transfer to the Investor Education and Protection Fund by the Company.
- iv.
 - (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- iv. The Company has neither declared dividend nor paid any dividend during the year.
- v. Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 for maintaining books of account

using accounting software which has a feature of recording audit trail (edit log) facility is applicable to the Company with effect from April 1, 2023, and accordingly, reporting under Rule 11(g) of Companies (Audit and Auditors) Rules, 2014 is not applicable for the financial year ended March 31, 2023.

2. As required by the Companies (Auditor's Report) Order, 2020 (the "Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of MOHIT PAPER MILLS Limited of even date)

Report on the Internal Financial Controls with reference to Ind AS Financial Statements under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (the “Act”)

We have audited the internal financial controls over financial reporting of **MOHIT PAPER MILLS LIMITED** (the “Company”) as of March 31, 2023 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s Management is responsible for establishing and maintaining internal financial controls over financial reporting based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls over financial reporting. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting with reference to these financial statements.

Meaning of Internal Financial Controls over financial reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

- viii. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).
- ix.
 - (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not defaulted in repayment of its loans or borrowings or in the payment of interest thereon to any lender.
 - (b) According to the information and explanations given to us including confirmations received from banks and other lenders and representation received from the management of the Company and on the basis of our audit procedures, we report that the Company has not been declared willful defaulter by any bank or financial institution or government or any government authority.
 - (c) According to the information and explanations given to us, the term loan taken by the Company have been applied for the purpose for which they were raised.
 - (d) On an overall examination of the financial statements of the Company, funds raised on short term basis have, prima facie, not been used during the year for long-term purposes by

- the Company.
- (e) The Company does not have any subsidiaries, joint venture or associate companies and therefore the clause 3(ix)(e) is not applicable.
 - (f) The Company does not have any subsidiaries, joint venture or associate companies and therefore the clause 3(ix)(f) is not applicable.
- x. (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
- (b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.
- xi. (a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- (b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
 - (c) According to the information and explanations given to us including representation received from the management of the Company, there are no whistle-blower complaints received by the company during the year.
- xii. The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- xiii. In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the financial statements as required by the applicable accounting standards (Ind AS-24) "Related Party Disclosures" specified under section 133 of the act.
- xiv. (a) In our opinion and according to the information and explanations given to us, the Company has an adequate internal audit system as required under section 138 of the Act which is commensurate with the size and the nature of its business.
- (b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- xv. In our opinion during the year the Company has not entered into any non-cash transactions with its Directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- xvi. (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.
- (b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
- xvii. The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- xviii. There has been no resignation of the statutory auditors of the Company during the year.

Accordingly, reporting under clause 3(xviii) of the Order is not applicable to the Company.

- xix. On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. (a) The reporting under clause 3(xx)(a) and clause 3(xx)(b) of the order are not applicable in respect of the audit of Financial Statements as the provisions of section 135(1) of Companies Act, 2013 are not applicable in view of the threshold limit specified therein. Accordingly, no comment in respect of the said clause has been included in this report.
- xxi. The reporting under clause 3(xxi) of the order are not applicable in respect of the audit of Financial Statements. Accordingly, no comment in respect of the said clause has been included in this report.

Notes to the Financial Statements for the Year Ended 31st March, 2023

1. Corporate Information:

Mohit Paper Mills Limited (the ‘Company’ or ‘MPML’) is a public company incorporated under the provisions of the Companies Act 1956 with a CIN : L21093DL1992PLC116600, domiciled in India, with its registered office situated at 15A/13, Upper Ground Floor, East Patel Nagar, New Delhi – 110008, India. The equity shares are listed on the Bombay Stock Exchange (‘BSE’) in India.

The company’s business primarily consists of manufacturing Writing & Printing Paper and Tissue Paper mainly in the domestic market. Soda Ash is recovered as by-product. The manufacturing facilities are situated in Bijnor, Uttar Pradesh.

2. Significant accounting policies

a. Basis of preparation of Financial Statements

(i) Statement of compliance

These financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) prescribed under the Section 133 of the Companies Act, 2013 read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III of the Companies Act, 2013 (Ind AS Compliant Schedule III), as applicable to the financial statement.

Accordingly, the Company has prepared these Standalone Financial Statements which comprise the Balance Sheet as at 31 March 2023, the Statement of Profit and Loss, the Statement of Cash Flows and the Statement of Changes in Equity for the year ended as on that date, and accounting policies and other explanatory information (together hereinafter referred to as “Standalone Financial Statements” or “financial statements”).

(ii) Basis of measurement:

The financial statements have been prepared on a historical cost basis, except for certain financial instruments which are measured at fair values or amortised cost depending upon classification. Historical cost is generally based on the fair value of the consideration given in exchange of goods or services.

(iii) Functional and presentation currency

The functional currency of the Company is the Indian Rupee (‘INR’). These financial statements are presented in Indian rupees. All amounts have been rounded-off to the nearest lakhs, upto two places of decimal, unless otherwise indicated.

(iv) Use of estimates and judgments

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) requires management to make judgments, estimates and assumptions that impact the application of accounting policies and the reported amounts of assets, liabilities, income and expenses and the disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognized prospectively in current and future periods. In particular, information about significant areas of estimation uncertainty & critical judgments in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is included in the following areas:

- Useful life of Property, plant and equipment - refer Note No. 2 c
- Valuation of Inventory - refer Note No. 2 f
- Estimation of Defined benefit obligation - refer Note No. 2 h
- Estimation of current tax expenses - refer Note No. 2 i
- Accounting for government grants - refer Note No. 2 o

- Provisions and Accruals - refer Note No. 2 r
- Contingencies - refer Note No. 2 r

(v) Measurement of Fair value

The Company measures financial instruments at fair value as per Ind AS 113 at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. The fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

For assets and liabilities that are recognized in the financial statement on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

b. Recent accounting pronouncements

The Ministry of Corporate Affairs has vide notification dated 23 March 2023 notified Companies (Indian Accounting Standard) Amendment Rules, 2023 which amends certain accounting standards, and are effective 1 April 2023. These amendments are not expected to have a material impact on the Company in the current or future reporting periods and on foreseeable future transactions.

Schedule III Amendment applicable from April 1, 2021: On March 24, 2021, the Ministry of Corporate Affairs ("MCA") through a notification amended Schedule III of the Companies Act, 2013. The Company has prepared the financial statements in accordance with the said schedule.

c. Property, plant and equipment ('PPE')

i. Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

ii. Subsequent Expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

iii. Depreciation

Depreciation is calculated on carrying value recognized as per previous GAAP of items of property, plant and equipment and Intangible less their estimated residual values over their estimated useful lives using the written-down method and is generally recognized in the statement of profit and loss. Freehold land is not depreciated.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives best represent the period over which management expects to use these assets. Depreciation has been provided on written down value method over their estimated useful lives.

Depreciation on additions/ (disposals) is provided on a pro-rata basis i.e. from/ (upto) the date on which asset is ready for use (disposed off) if any

iv. Derecognition

A property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use and disposal. Losses arising from retirement and gains or losses arising from disposal of a tangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss.

d. Intangible assets

Intangible assets are initially measured at cost. These items of other intangible assets are subsequently measured at cost less accumulated amortization and accumulated impairment losses, if any. Cost of an item of Intangible asset comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use.

Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognized in Statement of Profit and Loss as incurred.

Amortisation

Amortisation is calculated to write off the cost of intangible assets over their estimated useful lives using the straight-line method, and is included in depreciation and amortisation expense in Statement of Profit and Loss. The estimated useful life of Computer software is 3 years. Amortisation method, useful life and residual values are reviewed at the end of each financial year and adjusted if appropriate.

De-recognition

Intangible assets are derecognized on disposal or when no future economic benefits are expected from its use and disposal.

e. Reclassification to investment property

When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property or vice versa at its carrying amount on the date of reclassification, if any. The company does not have any investment property as on the date of reporting.

f. Inventories

All inventories are initially recorded at cost. Cost represents all cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Cost for the purpose of valuation is determined by using the weighted average cost, net of taxes and duties eligible for credit and discounts.

Raw materials, stores, consumables and spare parts

Raw materials, stores, consumables and spare parts held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realizable value.

Work-in-process

All work-in-process are valued at cost which includes cost of inputs, net of taxes and duties eligible for credit and overheads up to the stage of completion.

Finished goods

Finished goods are measured at lower of cost which includes cost of inputs (net of taxes and duties eligible for credits) & overheads and the net realizable value.

By-Products

By Products are measured at lower of cost which includes cost of inputs (net of taxes and duties eligible for credits) & overheads and the net realizable value.

g. Impairment

i. Impairment of non-financial assets

A property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use and disposal. Losses arising from retirement and gains or losses arising from disposal of a tangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss.

The carrying amounts of the Company's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or the cash-generating unit.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

An impairment loss is recognized in the statement of profit and loss if the estimated recoverable amount of an asset or its cash-generating unit is lower than it is carrying amount. Impairment losses, other than those recognized on goodwill, that have been recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

ii. Impairment of financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial Assets

Initial Recognition and Measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit and loss, transaction costs that are attributable to the acquisition of the financial assets. Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortized cost.

Subsequent Measurement

For purpose of subsequent measurement financial assets are classified in two broad categories:

- Financial Assets at fair value
- Financial assets at amortized cost

Where assets that measured at fair value, gains and losses are either recognized entirely in the statement of profit and loss or recognized in other comprehensive income.

A financial asset that meets the following two conditions is measured at amortized cost:

- **Business Model Test:** The objective of the company's business model is to hold the financial asset to collect the contractual cash flows.
- **Cash flow characteristics test:** The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

A financial asset that meets the following two conditions is measured at fair value through OCI:

- **Business Model Test:** The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.
- **Cash flow characteristics test:** The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

All other financial asset is measured at fair value through profit and loss.

All equity investments are measured at fair value in the balance sheet, with value changes recognized in the statement of profit and loss, except for those equity investments for which the entity has elected irrevocable option to present value changes in OCI.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

For this purpose, the Company follows 'simplified approach' for recognition of impairment loss allowance on the trade receivable balances. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

Financial Liabilities:

All financial liabilities are initially recognized at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Financial liabilities are classified as measured at amortized cost or FVPL. A financial liability is classified as FVPL if it is classified as held for trading, or it is derivative or is designated as such on initial recognition. Financial liabilities at FVPL are measured at fair value and net gain or losses, including any interest expense, are recognized in statement of profit and loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in statement of profit and loss.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the financial statements if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Measurement of expected credit losses

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash short falls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the company expects to receive).

Presentation of allowance for expected credit losses in the balance sheet and loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

h. Employee benefits

i. Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid e.g. under short-term cash

bonus / Ex-gratia, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

ii. Defined contribution plan

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees and payments due from the company.

iii. Defined benefit plan

The Company pays specified monthly contribution to provident fund (PF) and employee's state insurance (ESI). Contributions to these schemes are expensed in the Statement of Profit & Loss. These contributions are made to the fund administered and managed by the Government of India. The Company has no further obligations under these plans beyond its monthly contributions.

Gratuity

Liabilities in respect of defined benefit plan in the form of Gratuity and Long-term compensated absences are determined based on projected unit credit method as at the balance sheet date and are unfunded.

Group Gratuity cum Life Assurance Scheme with the Life Insurance Corporation of India has been taken in such a way that the gratuity benefits will be payable under an irrevocable trust. The trustees appointed for the purpose of administering the Scheme ensure gratuity benefits is with the LIC. The company shall pay on demand by and to the LIC such contributions as are required to secure Gratuity benefits to the employees.

The employee's gratuity fund scheme is managed by the Life Insurance Corporation of India is a defined benefit plan. The present value of obligation is determined based on Projected Unit Credit Method, which recognizes each period of services as giving rise to additional unit if there is employee benefit entitlement and measures each unit separately to build up the final obligation in terms of the demand raised by them.

Re-measurements of the net defined benefit liability if any, is recognized in OCI.

i. Taxes on Income

Income tax comprises current and deferred tax. It is recognized in the statement of profit or loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

i Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities including MAT are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the asset and settle the liability on a net basis simultaneously.

ii Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits.

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which they can be used. An existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company shall recognize deferred tax

asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized.

Deferred tax assets – unrecognized or recognized, are reviewed at each reporting date and are recognized / reduced to the extent that it is probable / no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would flow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are taken into account if there is a legally enforceable right to offset total deferred tax liabilities and deferred tax assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities if allowable, but they intend to settle deferred tax liabilities and assets and are correspondingly reflected as deferred tax assets and liabilities which will/may be realized simultaneously.

iii. Minimum Alternative tax ('MAT')

Minimum Alternative tax ('MAT') under the provisions of Income-tax Act, 1961 is recognized as current tax in profit or loss. The credit available under the Act in respect of MAT paid is adjusted from deferred tax liability only when and to the extent there is convincing evidence that the company will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognized adjusted from deferred tax liability is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

j. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

Cash flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

k. Earnings per share

Basic earnings/ (loss) per share are calculated by dividing the net profit/ (loss) for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the period is adjusted for events of bonus issue and share split. For the purpose of calculating diluted earnings/ (loss) per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

l. Foreign currency transactions

i. Initial recognition

Transactions in foreign currencies are translated into the functional currency of the Company at the exchange rates at the dates of the transactions.

ii. Measurement at the reporting date

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences on restatement/settlement of all monetary items are recognized in profit or loss.

m. Financial instruments

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the relevant instrument and are initially measured at initial cost and for investments held for trading or held for sale at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities measured at fair value through profit or loss) are added to or deducted from the fair value on initial recognition of financial assets or financial liabilities if required. Purchase or sale of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date when the Company commits to purchase or sell the asset.

Financial Assets**Recognition and Measurement**

All Financial assets include Investments, Trade Receivables, Advances, Security Deposits, Cash and Cash equivalents. Such assets are initially recognized at transaction price when the Company becomes party to contractual obligations. The transaction price includes transaction costs unless the asset is being fair valued through the Statement of Profit and Loss.

Classification

Management determines the classification of an asset at initial recognition depending on the purpose for which the assets were acquired. The subsequent measurement of financial assets depends on such classification.

Financial assets are classified as those measured at

- (i) amortised cost, where the financial assets are held solely for collection of cash flows arising from payments of principal and / or interest.
- (ii) At cost price where the investments are to be held for long term with no immediate intention for sale and continue to be recognized at cost.
- (iii) fair value through other comprehensive income (FVTOCI), where the financial assets are held not only for collection of cash flows arising from payments of principal and interest but also from the sale of such assets or are held for trading or for sale. Company does not have any assets for sale. Such assets are subsequently measured at fair value, with unrealised gains and losses arising from changes in the fair value being recognized in other comprehensive income.
- (iv) Fair value through profit or loss (FVPL), where the assets are managed in accordance with an approved investment strategy that triggers purchase and sale decisions based on the fair value of such assets. Company does not have any assets which are managed as investment strategy. Such assets are subsequently measured at fair value, with unrealized gains and losses arising from changes in the fair value being recognized in the Statement of Profit and Loss in the period in which they arise.

Trade Receivables, Advances, Security Deposits, Cash and Cash equivalents etc. are classified for measurement at amortised cost. In respect of particular investments in equity instruments that would otherwise be measured at fair value through profit or loss, an irrevocable election at initial recognition is made to present subsequent changes in fair value through other comprehensive income.

Impairment

The Company assesses at each reporting date whether a financial asset (or a group of financial assets) such as investments, trade receivables, advances and security deposits held at amortised cost and financial assets that are measured at fair value through other comprehensive income are tested for impairment based on evidence or information that is available without undue cost or effort. Expected credit losses are assessed and loss allowances recognized if the credit quality of the financial asset has deteriorated significantly since initial recognition.

Reclassification

When and only when the business model is changed, the Company shall reclassify all affected financial assets prospectively from the reclassification date as subsequently measured at amortised cost, fair value through other comprehensive income, fair value through profit or loss without restating the previously recognized gains, losses or interest and in terms of the reclassification principles laid down in the Ind AS relating to Financial Instruments.

De-recognition

Financial assets are derecognized when the right to receive cash flows from the assets has expired, or has been transferred, and the Company has transferred substantially all of the risks and rewards of ownership. Concomitantly, if the asset is one that is measured at:

- (a) amortised cost, the gain or loss is recognized in the Statement of Profit and Loss;
- (b) fair value through other comprehensive income, the cumulative fair value adjustments previously taken to reserves are reclassified to the Statement of Profit and Loss unless the asset represents an equity investment which is taken at initial cost and continues to be so taken and for other investments in which case the cumulative fair value adjustments previously taken to reserves is reclassified within equity.

n. Revenue

Revenue is measured at the fair value of the consideration received or receivable after netting trade discounts, taxes volume discounts and sales returns. Revenue from sale of goods is recognized when significant risks and rewards have been transferred to buyer.

Liquidated damages and penalties recovered from suppliers / contractors, in relation to property, plant and equipment are credited to statement of profit and loss unless the delay has resulted in extra cost of assets, in which case the same are adjusted towards the carrying cost of the respective asset.

Interest income

Interest income primarily comprises of interest from term deposits. Interest income is accrued on time basis, by reference to the principal outstanding and at the effective interest rate applicable (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

Other Income

Other income is recognized when no significant uncertainty as to its determination or realization exists.

o. Government grants

Government grants are recognized initially at fair value when there is reasonable assurance that they will be received and the Company will comply with the conditions associated with grant. They are then recognized in profit or loss as other income on a systematic basis over the periods in which the company recognizes as expenses the related costs for which the grant is intended to compensate. Government grants related to depreciable capital assets is recognized in profit or loss over the useful life of the asset and in the proportions in which depreciation expense on those assets is recognized.

p. Borrowing cost

Borrowing costs are interest and other costs incurred in connection with the borrowing of fund. Borrowing costs directly attributable to acquisition or construction of an asset which necessarily take a substantial period of time to get ready for their intended use are capitalized as part of the cost of that asset. Other borrowing costs are recognized as an expense in the period in which they are incurred.

q. Operating segments

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components, and for which discrete financial information is available. All operating segments' operating results are reviewed regularly by the Company's Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segments and assess their performance.

The Company is primarily engaged in the business of manufacture and sales of paper, mainly in the domestic market.

The Board of directors of the Company, who have been identified as being the chief operating decision maker (CODM), evaluated the company's performance and allocated resources based on the analysis of various performance indicators of the Company as a single unit. Accordingly, there is no reportable segment or any entity wide disclosure which are applicable to the company.

r. Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent Liabilities

A contingent liability exists when there is a possible obligation, or a present obligation that may, but probably will not require an outflow of resources, or a present obligation whose amount cannot be estimated reliably. Contingent liabilities do not warrant provisions, but are disclosed unless the possibility of outflow of resources is remote.

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an Inflow of economic benefits to the entity. Contingent assets are recognized when the realisation of income is virtually certain, then the related asset is not a contingent asset and its recognition is appropriate.

A contingent asset is disclosed where an inflow of economic benefits is probable.

s. Commitments

Commitments include the amount of purchase order (net of advances) issued to parties for completion of assets. Provisions, contingent liabilities, contingent assets and commitments are reviewed at each reporting date.

t. Ind AS 116 – Leases

The Company does not have any finance leases. There are no instances in which the company is a lessor. Hence there is no impact on adoption of Ind AS 116.

4. NON-CURRENT INVESTMENTS

B. Fair value hierarchy

Level 1: Quoted prices (unadjusted) in the active markets for identical assets and liabilities.

Level 2: Input other than quoted prices included in Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3: Input for the assets or liability that are not based on observable market data (unobservable input)

Notes:

a. Fair valuation of financial assets and liabilities with short term maturities is considered as approximate to respective carrying amount due to the short term maturities of these instruments.

- b. Fair value of non-current financial assets has not been disclosed as there is no significant differences between carrying value and fair value.
- c. The Fair value of borrowings have been disclosed at carrying value which is considered to approximate to fair value.
- d. Carrying value of unquoted equity instrument has been considered as an appropriate estimate of fair value because carrying value is considered as approximate to fair value and carrying value represents the best estimate of fair value within that range.

C. Financial risk management

The Company's activities expose it to market risk, liquidity risk and credit risk. The Company's primary risk management focus is to minimize potential adverse effects of market risk on its financial performance. The Company's risk management assessment and policies and processes are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment and management policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities. The Board of Directors and the Audit Committee is responsible for overseeing the Company's risk assessment and management policies and processes.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk in the financial statements: -

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables and financial assets measured at amortised cost	Aging analysis	Diversification of bank deposits and credit limits
Liquidity risk	Business commitment and other liabilities	Credit rating	Availability of committed credit lines and borrowing facilities

Interest rate risk

The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company to cash flow interest rate risk. Any rise in market rate of interest effecting valuation of financial instruments, financial assets and financial liabilities have been regularly analyzed for mitigational measure.

Exposure to interest rate risk

The interest rate profile of the company's interest-bearing financial instruments as reported to the management is as follows :

(Rs. in Lakhs)

Particulars	Nominal Amount	
	31 st March, 2023	31 st March, 2022
Financial Assets/Liabilities		
Variable-rate instruments		
Long term borrowings	2,290.93	775.36
Short Term Borrowings	2,465.75	3,258.76

(Profit) or loss

Particulars	50 bp increase	50 bp decrease
31st March 2023		
Variable-rate instruments	23.78	(23.78)
31st March 2022		
Variable-rate instruments	20.88	(20.88)

Fair value sensitivity analysis for fixed-rate instruments

The Company does not have any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

i) Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the company's risk management framework. The Company's risk management policies are established to identify and analyze the risks faced by the company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the company's activities.

The Company's audit committee oversees how management monitors compliance with the company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the company. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

ii) Credit Risk

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the company's receivables from customers and loans. The carrying amounts of financial assets represent the maximum credit risk exposure.

iii) Trade receivables

The Company has established a credit policy under which each new customer is analysed individually for creditworthiness before the payment and delivery terms and conditions are offered. The Company's review includes external ratings, if they are available, financial statements, credit agency information, industry information and business intelligence. The Company evaluates the customer credentials carefully from trade sources before appointment of any distributor and only financially sound parties are appointed as distributors. The Company secures adequate deposits from its distributor and hence risk of bad debt is limited. The credit outstanding is sought to be limited to the sum of advances/deposits and credit limit determined by the company. The following table gives details in respect of percentage of revenues generated from top customer and top five customers:

Particulars	Year ended 31.03.2023	Year ended 31.03.2022
Revenue from top Customer	15%	16%
Revenue from top five Customer	32%	32%

The Company based on internal assessment which is driven by the historical experience/ current facts available in relation to default and delays in collection thereof, the credit risk for trade receivables is considered low. The Company estimates its allowance for trade receivable using lifetime expected credit loss. Individual receivables which are known to be uncollectible are written off by reducing the carrying amount of trade receivable and the amount of the loss is recognised in the Statement of Profit and Loss within other expenses.

Concentration of significant credit risk

The ageing of outstanding balance of receivables having more than 10% concentration of credit is within 30 days, and the transactions with them are at arm's length. There is no risk of credit concentration as far as transactions with them are concerned.

The following table provides information about the exposure to credit risk and expected credit loss for trade receivables :

Particulars	Gross Carrying amount	Loss allowance	Carrying amount
31.03.2023			
Less than 6 months	1,400.26	-	1,400.26
More than 6 months	298.03	-	298.03

iv) Cash and cash equivalents

The company holds cash and cash equivalents of ` 5.35 lakhs at 31 March 2023 (31 March 2022 : ` 87.15 lakhs). The cash and cash equivalents are held with bank and cash on hand.

iv) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial assets. The Company's approach to manage liquidity is to have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed circumstances, without incurring losses or risking damage to the Company's reputation.

Management manages the liquidity risk by monitoring cash flow forecasts on a periodic basis and maturity profiles of financial assets and liabilities. This monitoring takes into account the accessibility of cash and cash equivalents and additional undrawn financing facilities.

The following table provides details regarding the contractual maturities of significant financial liabilities:

Particulars	Less than 1 year	1 to 5 years	More than 5 years	Total
31.03.2023				
Borrowings (including current maturities)	2,465.74	2,103.73	187.20	4,756.67

	4,800.34	2,615.83	-	7,416.17

vi) Market Risk

Market risk is the risk that changes in market prices – such as foreign exchange rates and interest rates – will affect the company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing there turn.

vii) Foreign Currency Risk

The company's policy is to ensure that the time gap between executing the transaction for import / export and the date for making payment / receiving payment is restricted to less than a week so that foreign exchange

currency risk is mitigated. The carrying amounts of the company's foreign exchange monetary items as at the end of reporting period is nil and previous year was also nil

D. Employee Benefits

a. Assets and liabilities relating to employee benefits

Liability for compensated absences	-	-
Current		
Liability for compensated absences	1.04	0.44
	1.04	0.44
Current		
Gratuity (asset)	5.93	5.93

For details about the related employee benefit expenses, refer to note no. 25.

b. Defined contribution plan

The Company's provident fund scheme and employee's state insurance (ESI) fund scheme are defined contribution plans. The Company has recorded expenses of ` 17.92 lakhs (31.03.2022 : ` 16.86 lakhs) under provident fund scheme and ` 7.63 lakhs (31.03.2022: ` 7.42 lakhs) under ESI scheme. These have been included in note 25 employees benefits expenses, in the Statement of Profit and Loss.

c. Defined plan

Gratuity (funded)

The employees' gratuity fund scheme managed by Life Insurance Corporation of India is a defined benefit plan. The present value of obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The Company made annual contributions to the LIC of India.

The above defined benefit plan exposes the Company to following risks:

Interest rate risk:

The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

Salary inflation risk:

Higher than expected increase in salary will increase the defined benefit obligation.

Demographic risk:

This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

The Company actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the employee benefit obligations. The Company has not changed the

processes used to manage its risks from previous periods. The funds are managed by specialized team of Life Insurance Corporation of India.

Funding

Gratuity is a funded benefit plan for qualifying employees. 35% of the plan assets are managed by LIC and balance managed by the management. The assets managed are highly liquid in nature and the Company does not expect any significant liquidity risks.

The following table sets out the status of the defined benefit plan as required under Ind-AS 19 - Employee Benefits:

Reconciliation of present value of defined benefit obligation

Return on plan assets excluding interest income	0.01	0.03
Previous year Adjustment	(16.37)	---
Amount recognized in other comprehensive income	---	3.54

Plan assets

Plan assets of the Company are held as bank balance and under LIC of India.

Actuarial assumptions

Particulars	As at 31 March 2023 (Per Annum)	As at 31 March 2022 (Per Annum)
Economic assumptions	6.00%	6.00%
Discount rate	7.20%	7.15%

Assumptions regarding future mortality are based on Indian Assured Lives Mortality (IALM) (201214) rates.

Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

PARTICULARS	As at 31 March 2023		As at 31 March 2022	
	Increase	Decrease	Increase	Decrease
Discount rate (0.50% movement)	(4.53)	4.88	(4.42)	4.77
Future salary growth rate (0.50% movement)	3.32	(4.11)	4.45	(4.29)

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same methods (present value of defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

Expected benefit payments

Undiscounted amount of expected benefit payments for next 10 years:

Particulars	As at 31 March 2023	As at 31 March 2022
