Indian Home Loans Market

Favourable Macros for Mid-Income Affordable Housing

Strong structural drivers and government focus: "Housing for All by 2022"

- Mid-income mass housing demand covered under Pradhan Mantri Awas Yojana (PMAY) scheme notified in March 2017
- Home buyers can withdraw from their accumulated Employees' Provident Fund (EPF) corpus for both the down payment on their house as well as to pay their home loan EMIs
- Budget 2017 has meaningfully enhanced the scope of 'Affordable Housing' & 'PMAY' for buyers, lenders and developers to include mass-market mid-income affordable housing

With PMAY for mid-income affordable housing, effective interest rate at 0.30% for home loan of ₹ 2.4 Mn

Effective home loan rates in the mid-income affordable housing segment is at near-zero levels. With rental yields at 3.2%, home ownership is very affordable and much cheaper than renting a house

Favourable Macros for Mid-Income Affordable Housing

RBI, SEBI and IRDA – All regulatory agencies working in tandem towards "Housing for All by 2022"

- SEBI has increased cap on additional exposure to AA (and above) rated HFCs from 25% to 40% in February 2017, the only sector enjoying limit above 25% sectoral limit applicable for all other sectors
- Affordable housing has been granted infrastructure status in the 2017 budget ECBs up to \$ 750 Mn per annum can be raised under automatic route
- RBI has reduced risk weights on bank lending to AAA rated HFCs to 20% from 100% enabling banks to lower the cost of funding to HFCs
- IRDA has exempted investments in AAA rated HFCs from sectoral caps thereby enabling insurance companies to freely invest in HFC debt instruments

EPF: Employees' Provident Fund

ECB: External Commercial Borrowing

Unlocking of EPF Corpus for Purchasing a House and Servicing Home Loan EMIs

- Employee Provident Fund Organisation (EPFO) members can withdraw up to 90% of their accumulated corpus for purchase or construction of a house
- The balance, unutilised EPF corpus can be further withdrawn to service home loan EMIs
- For the home buyer this means:
 - The 20% upfront amount for purchase of house can be paid from withdrawal of accumulated EPF corpus
 - Home loan amount eligibility increases as the EPF amount is now available for paying loan EMIs
- The total EPF corpus is ₹ 8.5 lakh Cr. (₹ 8.5 trillion) with a subscriber base of 50 million
- Of the above, over 7.5 million* subscribers are from the 'exempt' category where annual salaries are in excess of ₹ 250,000, and have been members for over 3 years, representing prime, mass-market house buyers eligible under this scheme

PMAY and Tax Incentives for Mid-Income Affordable Housing

Tremendous boost from expansion of coverage to mid-income affordable housing under Pradhan Mantri Awas Yojana (PMAY)

- People earning up to ₹ 150,000 per month now covered under the scheme for purchase of a house of carpet area up to 1,185 Sq. Ft.
- There is no cap on the value of the house being purchased
- Up to a home loan amount of ₹ 2,285,000 (property value of ₹ 3,265,000) the effective interest rate on the loan will be less than 0% over the loan tenure, the borrower repays less than the loan amount
- Up to a home loan of ₹ 3,600,000 (property value of ₹ 5,140,000) the effective interest rate on the loan will be less than the rental yield, which averages 3.2% for the top-12 Indian cities
- Effective home loan rate for ₹ 2.4 Mn home loan, IBHFL's average ticket size, is 0.30%
- PMAY subsidies are promptly processed through the NHB and payments are received in 30 days
