The Group has considered the possible effects that may result from the pandemic on the carrying amounts of assets and liabilities. In developing the assumptions relating to the possible future uncertainties in the global economic conditions, the Group, as at the date of approval of these financial results, has used internal and external sources of information on the expected future performance of the Group. The eventual outcome of impact of COVID-19 on the Group's financial results may be different from those estimated as at the date of approval of these financial results depending on how long the pandemic lasts and time period taken for the economic activities to return to normalcy.

6 Estimation of uncertainties relating to the global health pandemic from Covid-19

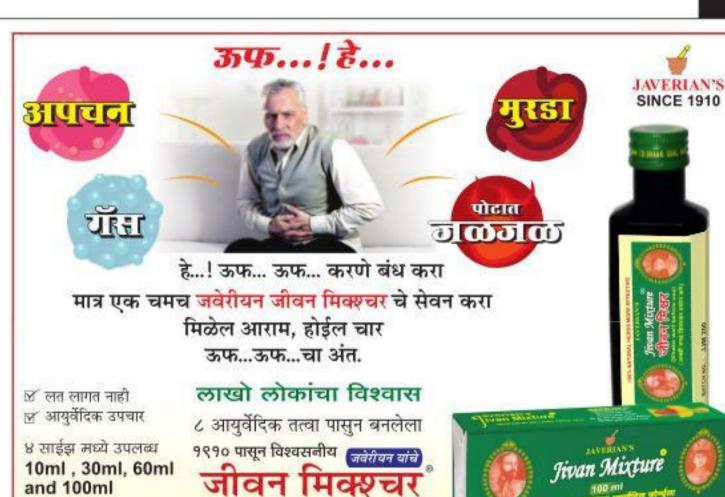

The outbreak of COVID 19 pandemic globally and in India is causing significant disturbance and slowdown of economic activity. The nationwide lockdown ordered by the Governments has resulted in significant reduction in economic activities and impacted the operations of the Group in the short term in terms of decrease in revenue due to reduction in volume of collection of wastes. The Group has considered the possible effects that may result from the pandemic on the carrying amounts of assets and liabilities. In developing the assumptions relating to the possible future uncertainties in the global economic conditions, the Group, as at the date of approval of these financial results, has used internal and external sources of information on the expected future performance of the Group. The eventual outcome of impact of COVID-19 on the Group's financial results may be different from those estimated as at the date of approval of these financial results depending on how long the pandemic lasts and time period taken for the economic activities to return to normalcy.
