He owns expertise in the field of marketing and is having more than 25 years of experience in the Industry. He is associated with the Company since 1991.

Investment Proposition & Growth Drivers

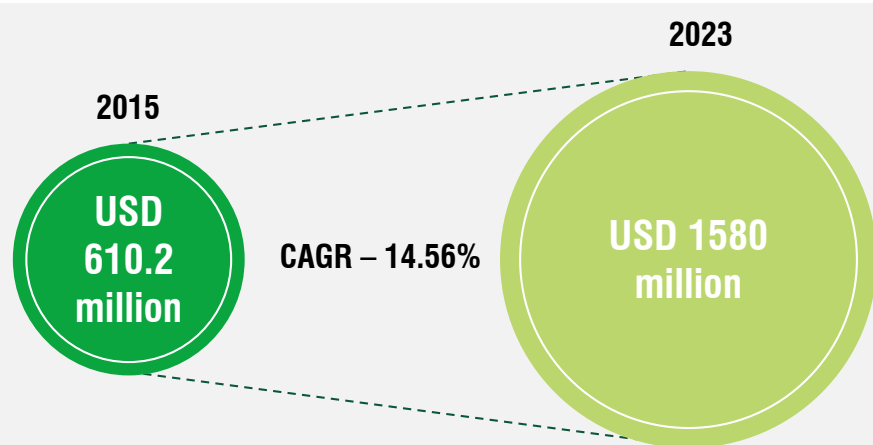

Robust Industry Growth

Source: phillips mcdougall report

Growth Drivers

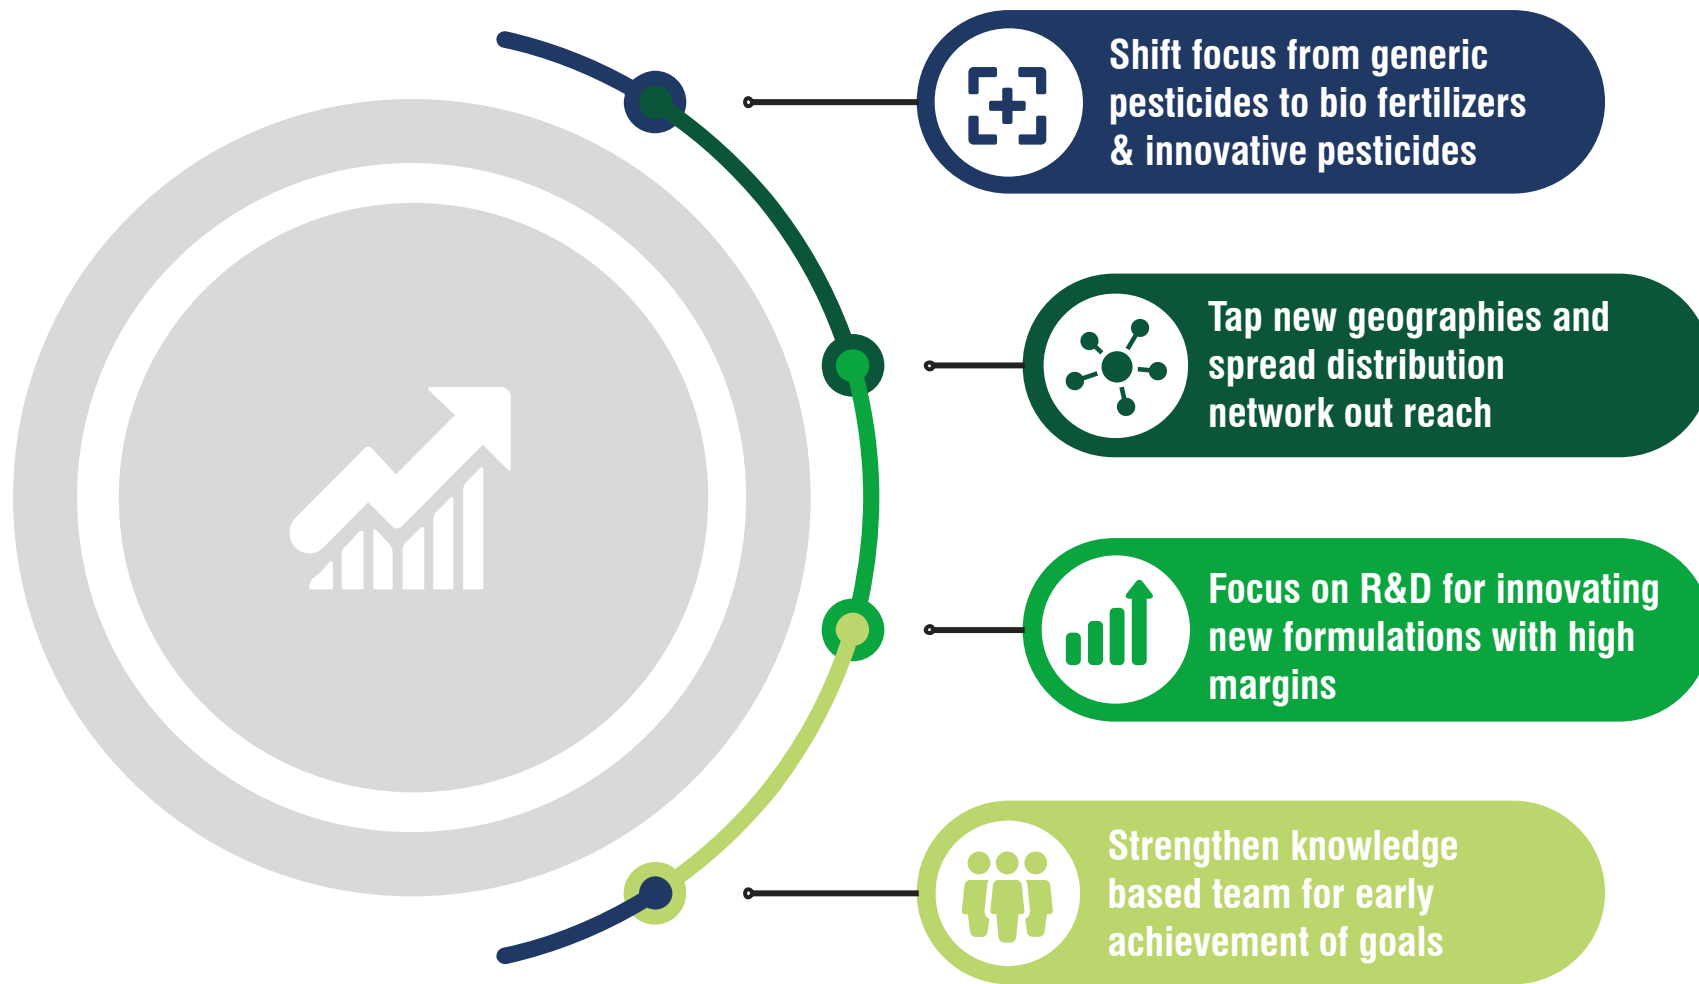

Asia-Pacific market of bio-fertilizers is the most resourceful and revenue generated market for biofertilizer manufacturing industries owing to availability of cheap labour force and low cost raw material in the region. Furthermore, the market is expected to register a CAGR of 11.2% over the forecast period i.e. 2016-2023.

The industry can be classified into five different segments. Biopharma, Agri-biotech, Bioinformatics, Bio-industrial and Bio services with each concentrating on a particular area.

Indian Bio-fertilizers Market

- Indian Biotechnology industry is considered as one of the sunrise sectors.
- India is one of the countries where agro-chemical conditions appear to be favourable where blue-green algae technology has been put forward.
- As per CARE Ratings, the Indian fertilizer sector has tremendous growth potential in the coming years.
- Government of India introduced number of schemes to promote the usage of the product in the country like National Mission of Sustainable Development (NMSA)/ Paramparagat Krishi Vikas Yojana, Rashtriya Krishi Vikas Yojana (RKVY) and National Mission on Oilseeds and Oil Palm (NMOOP) and Indian Council of Agricultural Sciences (ICAR).
- The growth in the segment is largely attributed to the developing country's organic food market. For instance, in India, the organic food market is expected to grow by nearly USD 1 billion from 2014 to 2020.

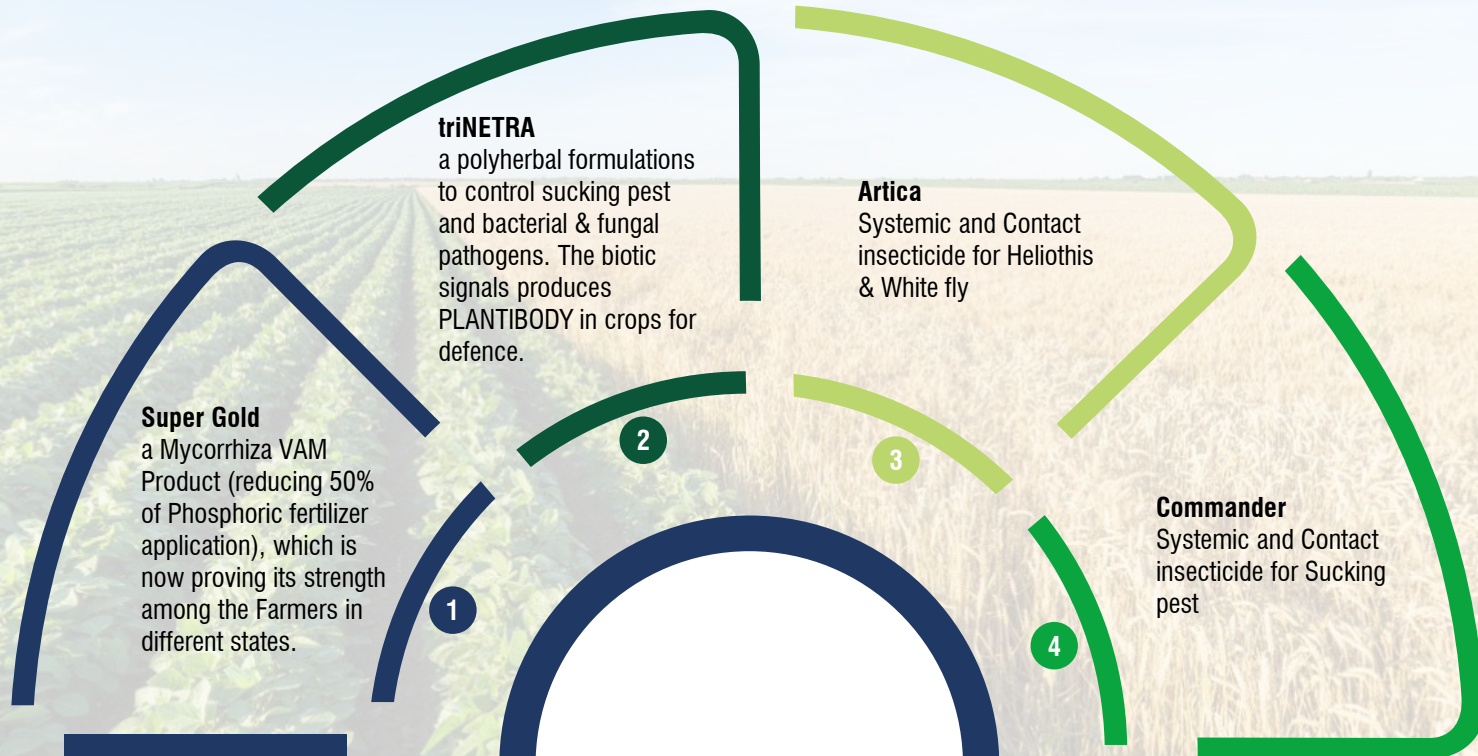

R&D and Product Portfolio

SUCROSA is slowly paving the ways of its unique USP based strategy to categorised the best among the similar nice by adding value through its in-house research and development. Soil health and Plant health is the guiding principle of good crop produce. We have focused our research on Plant Insect Interaction and by applying algorithms for research analysis and with further experimental R & D in this area. We are exploring to diversify and entered to produce Nutraceuticals too. We have launched

We have focused to launch Environment friendly & Sustainable new molecules; a combination of two or three molecules and natural poly molecular with inculcation of Nano-Biotechnology. A strategic R & D is in progress to release / launch as per market need.
