Market Review

How Reinsurance Works?

Source: Torben, Juul & Andersen, "Managing Economic Exposures of Catastrophe and Terrorism Risk: International Financing Solutions", Conference on Catastrophic Risks & Insurance, November 2004

Reinsurance Industry - Role

GIC Re has been playing a key role in the Indian reinsurance market and able to maintain about 60% share in the Indian reinsurance market.

Reinsurance is the foundation for economic growth through risk transfer mechanism

The risks flow through insurers to reinsurers

Insurance is written on the strength of reinsurance support

Reinsurer insulates himself from the insurer's adverse financial performance

Reinsurers have devices to guard against anti-selection

Global Scenario

- The global reinsurance market size is expected to grow from \$503.73 billion in 2021 to \$812.37 billion in 2026
- Reinsurance rates increased moderately in January renewals in 2022
- A.M. Best has maintained its stable outlook for the global reinsurance sector on the back of positive rate momentum across a broad range of non-life classes of business
- In the current environment, marked by years of accumulating catastrophic losses, investment market losses, and significant losses expected as a result of the pandemic, there is potential for further price increases

Domestic Operating Environment

India's general insurance market is estimated to grow at a compound annual growth rate (CAGR) of 6.2% during 2019-2023. Reinsurance premiums in India is expected to touch Rs 989.75 billion by 2025 GIC Re expected to maintain market leadership going forward on strong financials, adequate capacity and expertise

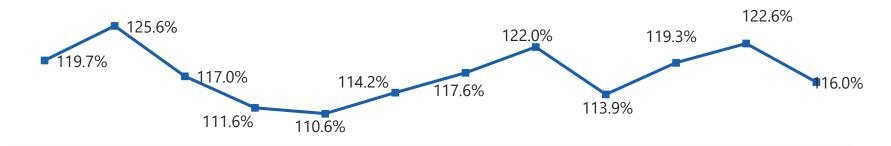

Budget 2022

- Government has allowed surety bonds as substitute for bank guarantees. This augurs well for non-life insurers where they will be able to issue surety bonds to the infrastructure companies. Moreover, reinsurance support would be required for these huge surety amounts.
- The cabinet has approved implementation of Ayushman Bharat Digital Health with a budget of Rs 1600 crores for 5 years which is likely to boost the healthcare sector.

Strategic Overview

Competitive Strategy Pillars

Strategic Approach

- GIC Re to leverage its position of 13th rank based on the scale it affords and excellent credit rating domestically.
- The Company stands to benefit from price hardening in select segments / geographies.
- Indian market with its unprecedented growth, particularly in agriculture and health affords an opportunity to leverage GIC Re balance sheet.
- Solvency pressures on Indian insurance market players could lead to higher reinsurance cessions, growing the reinsurance market size which would provide GIC Re an opportunity to sustain its market share.
- Phased adoption of modelling capabilities to ensure better exposure management and deriving value extraction from it.
- Greater volatility countered through conservative reserving.
- Continued focus on underwriting profitability through
 - Class-specific evaluation
 - Weeding out the contracts with inadequate pricing
 - Incentivisation based on individual company / contract performance
- Industry Performance
 - Adoption of IIB rates and resultant increase in price as a factor.
 - Listing of insurers will lead to greater bottom line focus.
 - Leverage Lloyd's platform to expand GIC Re presence in international markets.
