H1FY19: Key Developments

Domestic (India) Business growth exceeds Market Growth rate

Growth driven by all three customer segments: MNC's, Regional & Local

AMET markets faced headwinds in the quarter gone by, primarily due to slow down in those economies

The ROW market outperformed on the back of a strong performance registered by the specialty care products segment

We have set up a representative office in **China** for direct presence in the growing Chinese market

Investors Release

Commenting on the performance Mr. U. Shekhar, Managing Director, Galaxy Surfactants Limited said

“We are pleased to inform you that our company has reported healthy performance in the first half of FY19. We have witnessed a volume growth of 11.2%.

We continue to introduce new products, explore new geographies & expand customers base by cross selling across both categories. The response has been encouraging from customers.

The India market continued to register growth above the industry growth rate whereas the ROW market outperformed on the back of a strong performance registered by the specialty care products segment. However, the AMET market faced headwinds in the quarter gone by, primarily due to slowdown in those economies

We have a very long and enduring relationship with each of our customers. We are confident of continuing on the growth path, backed by our strong R&D and in-house manufacturing capabilities.”
