PRESS RELEASE

Infosys Foundation Partners With Narayana Health City To Open 100-Bed Quarantine Facility for COVID-19 Patients

Bengaluru – April 1, 2020: [Infosys Foundation](#), the philanthropic and CSR arm of [Infosys](#) and Narayana Health, one of the largest healthcare providers in the country, have announced the launch of a 100-room quarantine facility for COVID-19 patients, in the vicinity of Narayana Health City in Bengaluru, Karnataka. The facility, aimed at serving patients belonging to the economically weaker sections of the society, will accommodate patients, offer regular monitoring by doctors, nurses, and provide essential medication, free of cost.

The patients in the isolation facility will be treated and monitored by the doctors and nurses of Narayana Health City. This partnership is another step in the Foundation's efforts to expand hospital and quarantine facilities and ensure proper medical treatment for patients belonging to the economically weaker sections of the society. Earlier this week, Infosys Foundation announced its commitment of INR 100 crore to help the government with COVID-19 relief efforts.

Mrs. Sudha Murty, Chairperson, Infosys Foundation, said, "Diseases often hit the underprivileged the hardest, because they cannot afford proper treatment, and at the same time, they lose their livelihood while dealing with the illness. This is a small effort by the Foundation to ensure that the underserved people of our society get access to clean, hygienic accommodation as well as appropriate medical treatment. We are thankful to Narayana Health City for their partnership and the thoughtfulness of this initiative."

Dr. Devi Shetty, Chairman and Executive Director, Narayana Health, said, "We are pleased to partner with Infosys Foundation to open this 100-room quarantine facility for underprivileged patients. Providing safe-spaces, with proper medical care to enable patients to isolate themselves, will play a big role in India's fight against COVID-19, and we thank Infosys Foundation for their support in this endeavor."

About Infosys Foundation

Established in 1996, the Infosys Foundation supports programs in the areas of education, rural development, healthcare, arts and culture, and destitute care. Its mission is to work in remote regions of several states in India. The Infosys Foundation takes pride in working with all sections of society, selecting projects with infinite care, and working in areas that are traditionally overlooked by society at large. Safe Harbor

Certain statements mentioned in this release concerning our future growth prospects are forward-looking statements regarding our future business expectations intended to qualify for the 'safe harbor' under the Private Securities Litigation Reform Act of 1995, which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, fluctuations in foreign exchange rates, our ability to manage growth, intense competition in IT services including those factors which may affect our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, industry segment concentration, our ability to manage our international operations, reduced demand for technology in our key focus areas, disruptions in telecommunication networks or system failures, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which Infosys has made strategic investments, withdrawal or expiration of governmental fiscal incentives, political instability and regional conflicts, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our industry and the outcome of pending litigation and government investigation. Additional risks that could affect our future operating results are more fully described in our United States Securities and Exchange Commission filings including our Annual Report on Form 20-F for the fiscal year ended March 31, 2019. These filings are available at www.sec.gov. Infosys may, from time to time, make additional written and oral forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission and our reports to shareholders. The Company does not undertake to update any forward-looking statements that may be made from time to time by or on behalf of the Company unless it is required by law.
