MANAGEMENT COMMENTARY

Commenting on the results and performance **Mr. Sanjeev Verma, Whole-time Director, Black Box** said,

“We are thrilled to announce that we have recently advanced another customer to a total annualized contract value of \$100 million, marking a significant milestone for our company. Furthermore, we are pleased to report a 15% year-over-year growth in revenues for the first quarter of fiscal year 2024. This strong performance can be attributed to our robust order book, which is evident in our new order wins and efficient execution capabilities. The consistent expansion of our order book, even in the face of a challenging economic environment, serves as a testament to the resilience of our business model. The cyber security vertical is gaining momentum along with other business segments that continue to gain traction, making us more confident of achieving our guidance for fiscal year 2024.”

Mr. Deepak Kumar Bansal, Executive Director and Global Chief Financial Officer of Black Box, said,

“Revenues for Q1FY24 grew 15% YoY despite decline in TPS segment. However, we are optimistic that the segment will recover and return to growth trajectory from Q2FY24 onwards. Our cost rationalization measures has started yielding positive results and our EBITDA margins for Q1FY24 witnessed a robust 180 bps increase YoY to 5.7%. PAT for the quarter witnessed a robust 56% growth YoY in Q1FY24. This notable growth was partially offset by an escalation in finance costs, primarily attributed to the upward trend in interest rates. Furthermore, we expect the margin enhancement trend to continue, boosting our confidence in achieving stronger profitability in fiscal year 2024.”
