Investor Presentation Q4 & FY24

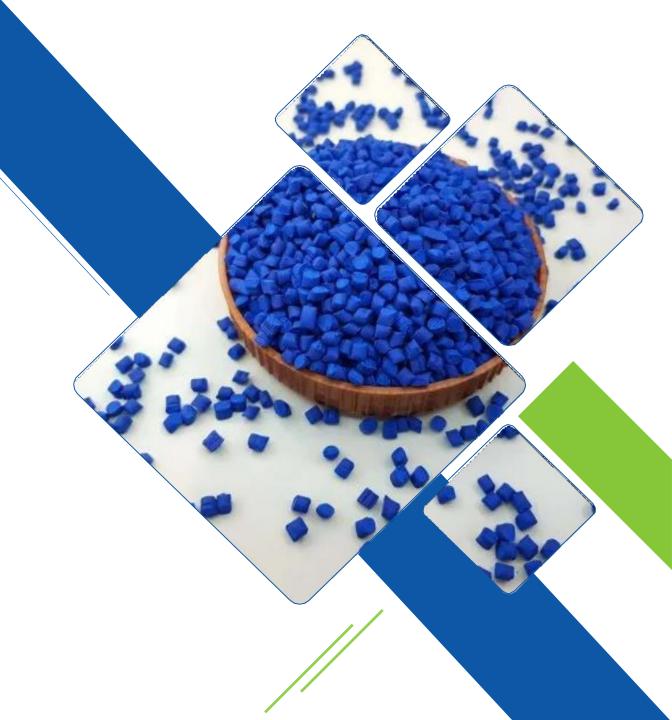

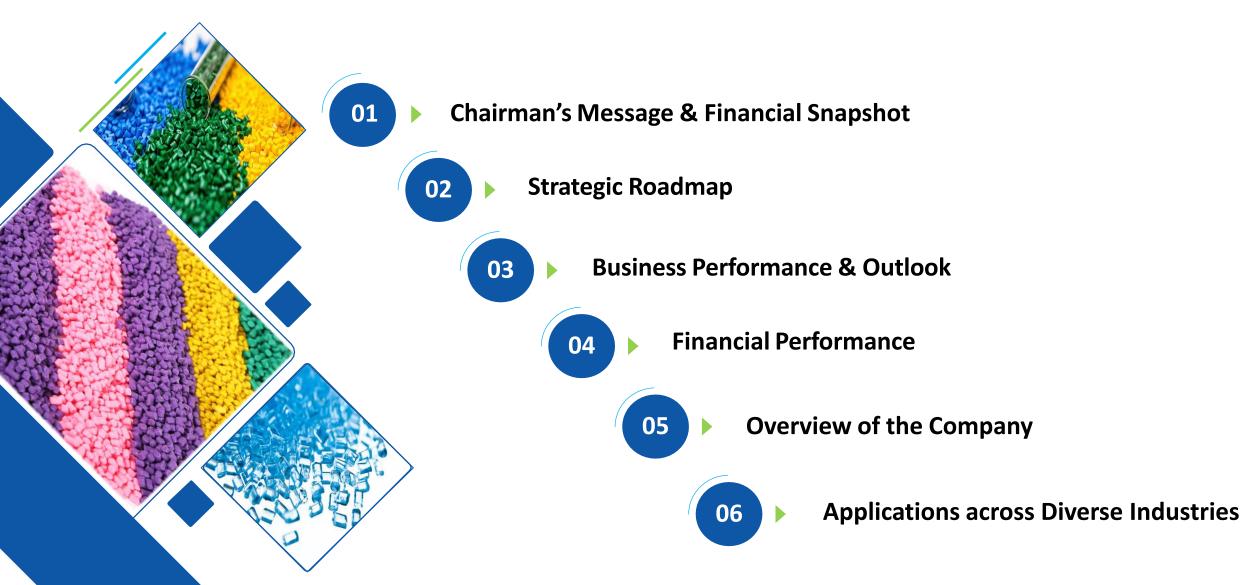

Table of Contents

Chairman's Message &

Financial Snapshot

Sales – During the FY 2023-24 the sales grew by 10.74%. We are optimistic about the growth potential offered by our product segments and are leveraging our acquired expertise and technology to capitalize on the opportunities.

Productivity – With debottlenecking exercise done till now & process optimization, we have been able to achieve 12.23 % more production from the same assets.

Capacity Expansion – We have announced de-bottlenecking capex & brown field projects in Oct. 23. These strategic steps are aimed at expanding our market share in the domestic market and creating value for our esteemed shareholders and investors.

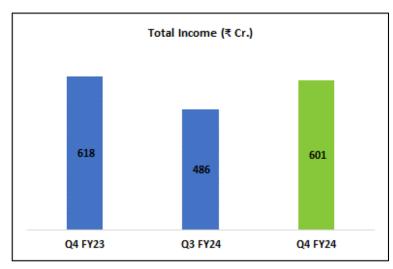

Our strategic emphasis on enhancement of more value-added products in our basket is expected which will have positive impact on the growth of the company in coming years. We remain committed to delivering sustainable value and fostering growth in our business operations.

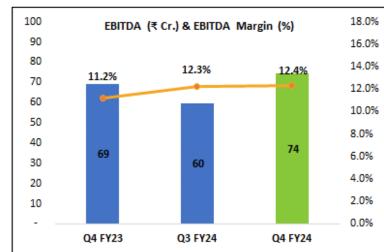

Mr. Rakesh S. Agrawal, Chairman

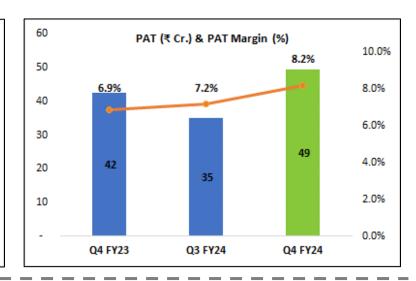

Financial Snapshot

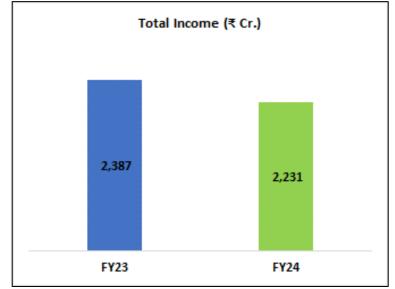

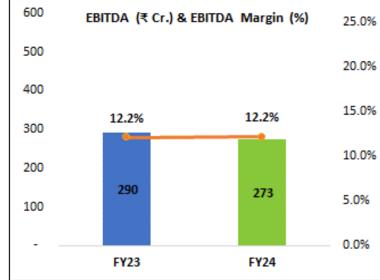

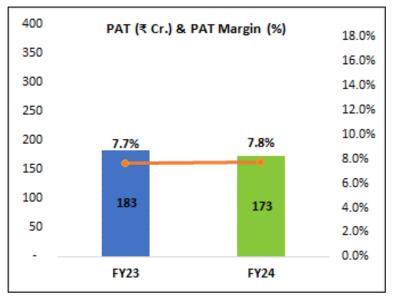

FY24

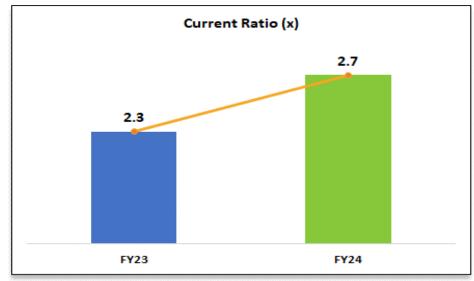

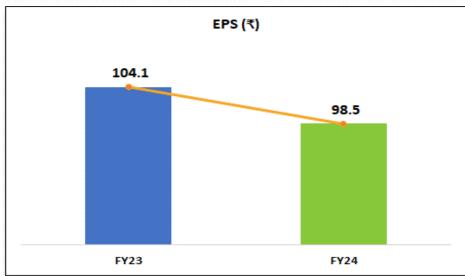

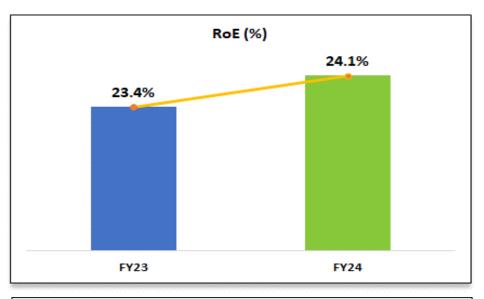

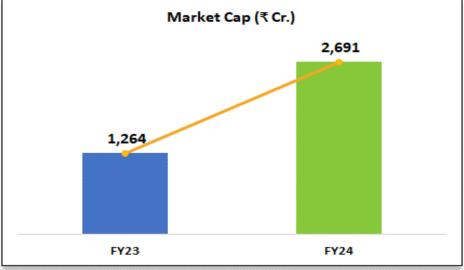

Financial Snapshots

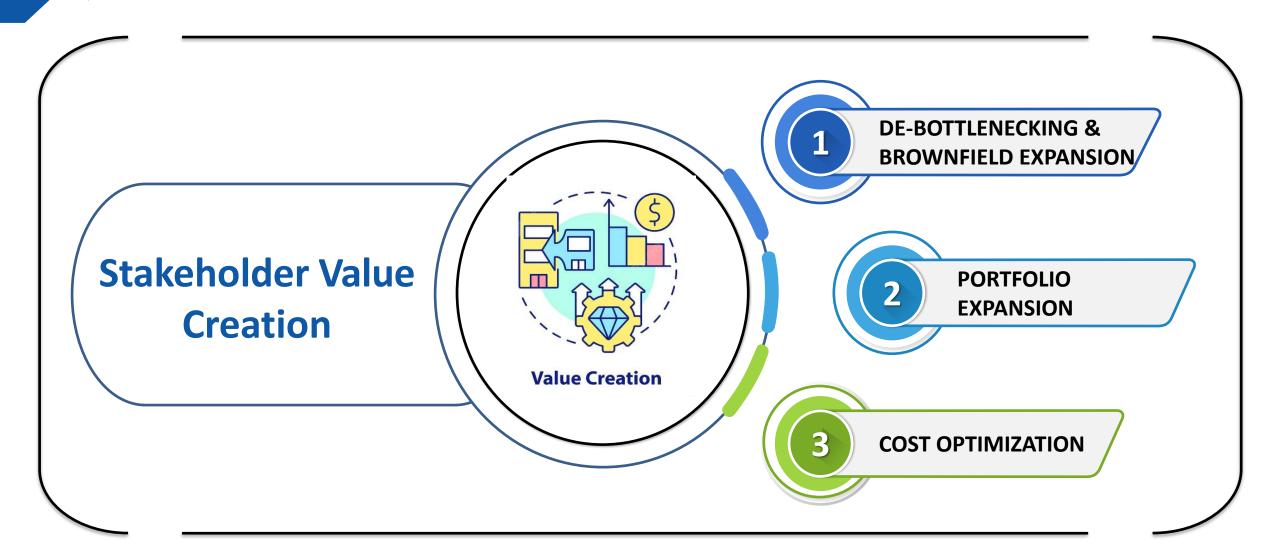

STRATEGIC ROADMAP

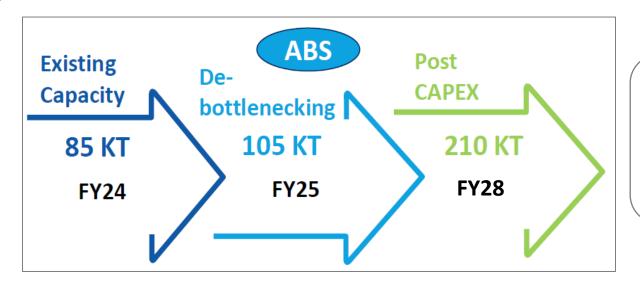

... and FY25 – de-bottlenecking & expansion going forward...

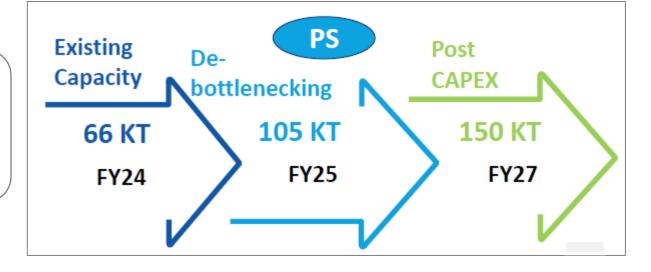

ABS:

A capex plan to double production capacity from 105 KT to 210 KT in subsequent 36 months post debottlenecking project.

PS:

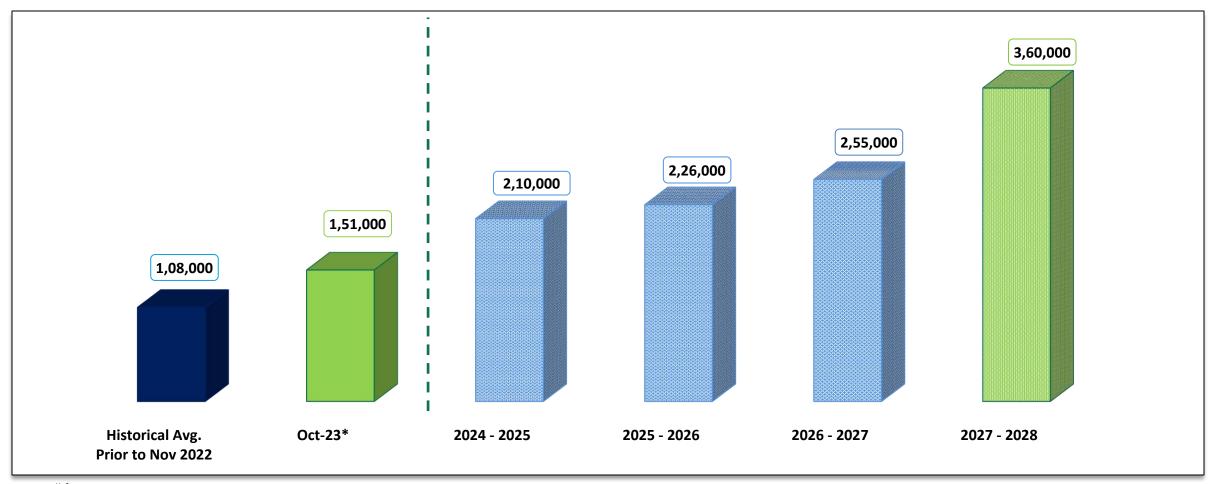

A capex plan to increase capacity from 105 KT to 150 KT in subsequent 24 months post debottlenecking project.

Building capacity to meet market demand

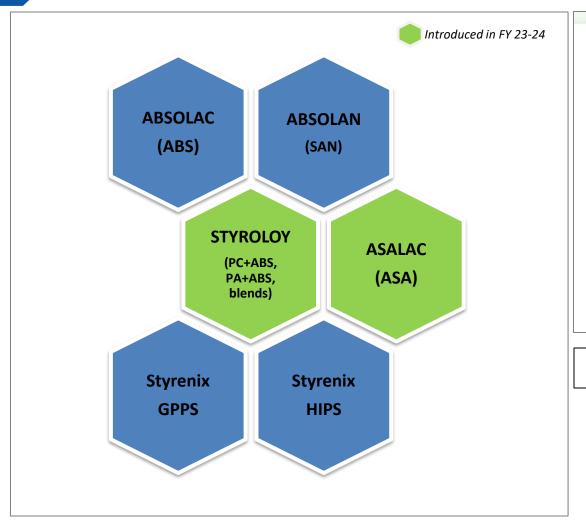

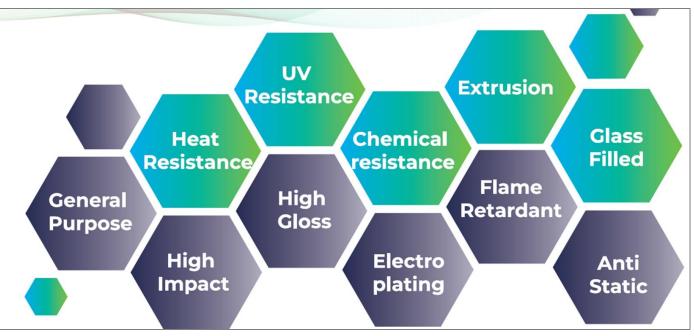

Note: All figures are in MT

^{*} Period when CAPEX and debottlenecking plan was announced

Value proposition customized solutions

BUSINESS PERFORMANCE& OUTLOOK

Managing Director's Message

Continue to strengthen our position in specialties, drive product mix to maximize margins and addition of new grades & blends to our product portfolio.

Our strive is to further strengthen Company's position in focus industries, mainly in Automotive & Household and penetrate in other industries.

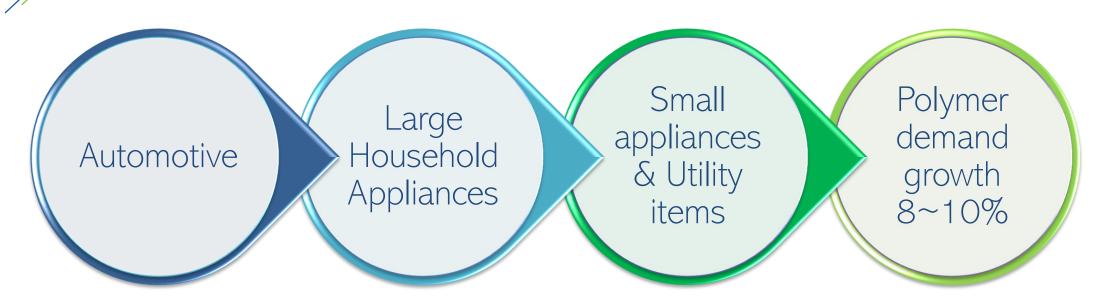

Government incentives, increase in per capita income and Capex by Industries we cater are few factors which will improve overall demand including the rural sector.

Cost optimization is continuous and focused aim to maximize business value.

Mr. Rahul R. Agrawal Managing Director

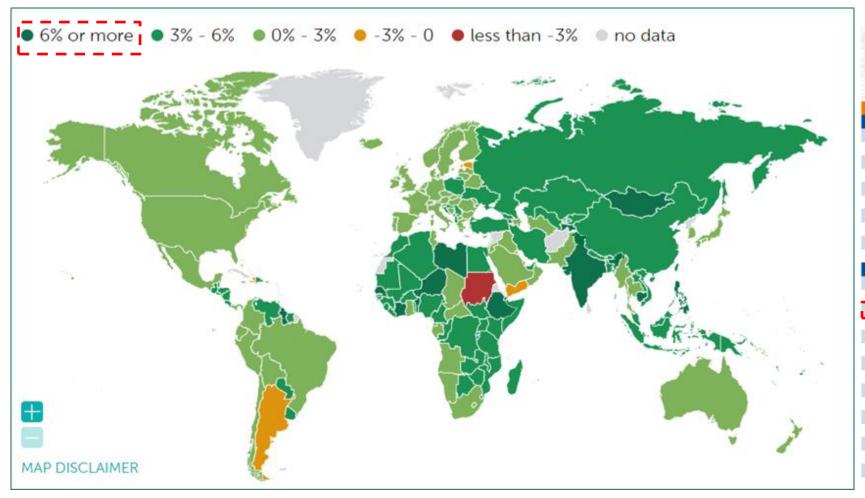

- Auto Industry Two-Wheeler & Four where growth was ~10% YoY
- Large Appliances mainly Refrigerator, Air conditioner, Washing Machine growth was moderate 5~7% YoY
- Other miscellaneous industry- was having higher growth >12% YoY

... amply supported by India's GDP growth

Source IMF

^{*} India is being forecasted by globally highest GDP among other country

Industry Outlook

- Indian household items penetration in Urban and rural is growing much faster due to increase in per capita income and spending
- Apart from demand growth- increase in size of the product like larger refrigerator, TV, washing machine
- Polymer demand likely to grow much higher than GDP growth
- India Auto industry Two-wheeler and four-wheeler estimated growth around 7-10%
- Like appliances industry demand of higher size car SUV, higher cc of motorbikes apart from volume growth
- Average polymer growth will be around 9-10% looking to demand growth

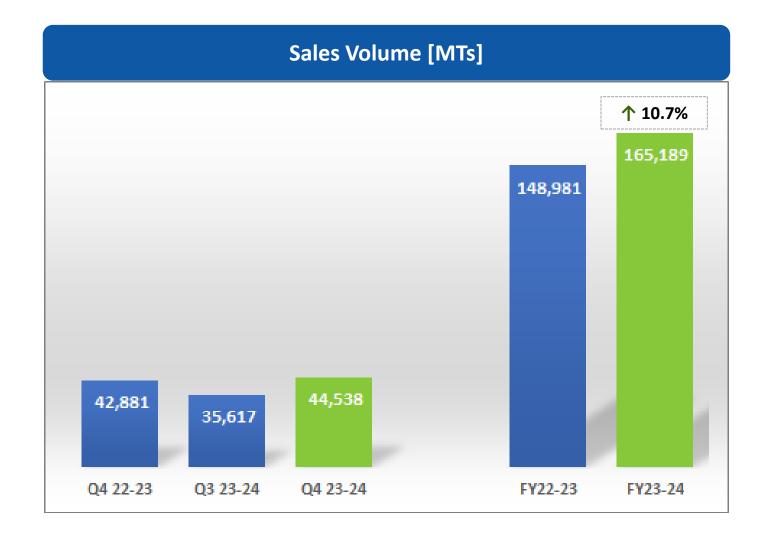

- Miscellaneous items like small appliances, utility items growth is much higher than other industry, however stationary, packaging items growth is moderate
- Polymer demand growth in these segments is higher than other industries

Market outlook looks positive looking to industry demand growth and Indian economy transition

## ...and cutting edge R&D center...

## ...driven by best practices of SHE...

#### **SHE Highlights**

- Committed to the Safety and Health of employees and nearby communities
- Certified & committed to ISO 14001:2015
- 3.19 Million work hrs. for Employee and 4.10
   Million work hrs. for contractors [Apr'22 to Mar'24]
   with only one reportable incident (contractor).
- Committed towards Environment:
  - Use of clean fuel
  - Energy, waste, water, emission reduction measures.
  - Green belts development in neighboring areas for sustainability.

#### **SHE Focus Area**

- Process Safety [As per OSHA guidelines]
- Focus on storage safety of Styrene
- Best of different Technologies in Practice (JSR-Japan Synthetic Rubber, BAYER/LANXESS, INEOS, BASF) with varied focus on Process safety
- Sustainability Resource reduction (water, waste, energy, emissions), Green belt development.

#### **Best Practices Followed**

- Process Safety Management [As per OSHA guidelines]
- Operational Audits
- Integrated Asset care & Process Safety Audits
- Use of Flame Resistant Clothing [FRC] in operations
- · Behavior Based Safety
- HAZOP (Hazard & Operability) study for all processes.
- Management of Change (Personnel, Facilities & Technology)
