GOLD METAL LOAN ORIGINATION

- TBZ takes 10 kg gold from a bank on lease on day 0.
- The contract for gold lease is 180 days.
- TBZ provides a bank guarantee worth 110% of gold leased.
- Total Financing cost (interest on gold lease plus bank guarantee commission) to TBZ is ~3.5% p.a.

GOLD METAL LOAN ADVANTAGES

- Interest Cost Savings: Borrowing cost on gold lease is significantly lower compared to working capital borrowing cost.
- No Commodity Risk: Since gold is taken on lease, there is no gain if gold prices increase or loss if gold prices decrease.

GOLD METAL LOAN REPAYMENT

- TBZ repays the gold daily based on actual sales of gold jewellery.
- The bank converts 1 kg of gold on lease as a sale to TBZ at a reference rate set by them as on day 1.
- TBZ books a purchase of 1 kg of gold.
- The balance 9 kg worth of gold continues to remain on lease.
- TBZ again replenishes the inventory by taking 1 kg of gold on lease from bank on day1.
- Since TBZ's gold jewellery inventory turns 2-3 times, it repays the gold lease before 180 days.

GOLD METAL LOAN LIMITATIONS

- Sharp increase in gold prices: Gold lease is marked to market on a daily basis. So any increase in gold price will cause TBZ to top up its bank guarantee.
- Bank Guarantee limitations: Bank guarantee issued by the bank to TBZ is based on the drawing power enjoyed by TBZ.
- Contract Period: If TBZ is unable to sell the gold on lease within 180 days, then they will have to convert the balance unutilized gold to purchase.
