Management Discussion and Analysis Report

INDUSTRY STRUCTURE AND DEVELOPMENTS

India continues to shine as a prominent player in the global steel industry, displaying robust growth prospects. The steel demand in our country is projected to witness a healthy increase of 7.3% and 6.2% in the years 2023 and 2024, respectively, outpacing the anticipated global growth of 2.3% and 1.7%, as indicated by The World Steel Association's Short Range Outlook.

This optimistic forecast aligns with India's strong macro-economic fundamentals, with key indicators such as manufacturing and services PMIs, IIP, and core infrastructure growth remaining steady and resilient. Moreover, various agencies, including the RBI, IMF, and World Bank, estimate a GDP growth ranging from 6 to 6.5% for fiscal 2023-24, reinforcing India's potential for sustained economic development.

Amidst this positive economic climate, the steel industry in India is expected to play a pivotal role, supporting various sectors and contributing to the nation's progress. As a company operating in the steel sector, we are well-positioned to seize the opportunities presented by this favorable market scenario and further strengthen our commitment to excellence and growth.

We remain committed to delivering high-quality steel products and meeting the evolving demands of our customers. Our focus on innovation, operational efficiency, and customer satisfaction will continue to drive our success in this dynamic and promising landscape.

OPPORTUNITIES AND THREATS

The Company is proactively pursuing every available avenue to capitalize on growth opportunities and strengthen its position in the market. As our domestic market remains a key focus, we are cognizant of the potential impact that adverse economic conditions in India could have on our existing operations and future expansion plans.

The nature of our business exposes us to various risks, both external and internal, which can influence

our performance over the long term. Competition within the industry and prevailing economic conditions, both locally and globally, may significantly affect the Company's operations.

In light of these challenges, we remain committed to implementing strategic measures and adopting a forward-thinking approach to mitigate risks and navigate through uncertain times. Our dedicated team is continuously monitoring market dynamics, undertaking prudent financial planning, and emphasizing operational efficiency to enhance resilience and maintain sustainable growth.

We are confident that our strong fundamentals, customer-centric approach, and adaptability to changing market scenarios will enable us to overcome challenges and achieve sustained success. By focusing on innovation, customer satisfaction, and prudent risk management, we strive to solidify our position as a leading player in the industry and deliver value to all our stakeholders.

FUTURE OUTLOOK

India's domestic steel industry is poised for strong growth in the coming years, with a projected annual growth rate of 7.5% in the current financial year, reaching an estimated 128.85 million tonnes (mt) in demand. The Indian Steel Association (ISA) estimates that domestic steel demand was at 119.86 mt in the fiscal year 2022-23. Looking ahead, the demand is expected to continue its upward trajectory, increasing by 6.3% to reach 136.97 mt in the subsequent financial year 2024-25, according to the ISA's projections.

This growth is driven by several factors, including the significant momentum in infrastructure spending and sustained growth in urban consumption. These forces are expected to propel the steel industry's expansion and result in increased demand for steel products within the country.

The positive outlook for domestic steel demand is an encouraging sign for the Indian steel industry, showcasing its resilience and potential for further expansion. With infrastructure development and urbanization remaining key priorities for the nation's economic progress, the steel industry is well-positioned to play a pivotal role in supporting these vital initiatives.

In this context, our company is also expected to perform well in the coming years. However, it is important to acknowledge that market dynamics, including the balance of demand and supply for our products, may impact our performance. Nevertheless, we are determined to meet market demands with the resources available to us and strive towards achieving our desired results.

As we move forward, we remain committed to delivering quality products and services to our customers while contributing to the growth of the steel industry in India. Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Emphasis of matter

We draw attention to following matters pertaining to RR Metalmakers India Limited, requiring emphasis by us.

1. The Company has on 31.3.2023 sold rice amounting to Rs.2,40,00,000/- to a customer named 'Bhagwati'. The said business activity is not recorded in the Memorandum of Association and Articles of Association of the company as on the date of this report.

The management of the company is certain for recovery of the said debts and has filed recovery suits against these parties.

Our opinion is not modified in respect of the above matters.

Other Information

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibilities for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the IND-AS and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and the Board of the Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatements, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the IND AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

	<p>The liability in respect of the shortfall of interest earnings of the Fund is determined on the basis of an actuarial valuation. The Company also provides for retirement/post-retirement benefits in the form of gratuity, pensions (in respect of certain employees).</p> <p>For defined benefit plans, the amount recognised as 'Employee benefit expenses' in the Statement of Profit and Loss is the cost of accruing employee benefits promised to employees over the year and the costs of individual events such as past/future service benefit changes and settlements (such events are recognised immediately in the Statement of Profit and Loss). The amount of net interest expense calculated by applying the liability discount rate to the net defined benefit liability or asset is charged or credited to 'Finance costs' in the Statement of Profit and Loss. Any differences between the expected interest income on plan assets and the return actually achieved, and any changes in the liabilities over the year due to changes in actuarial assumptions or experience adjustments within the plans, are recognised immediately in 'Other comprehensive income' and subsequently not reclassified to the Statement of Profit and Loss.</p> <p>The defined benefit plan surplus or deficit on the Balance Sheet date comprises fair value of plan assets less the present value of the defined benefit liabilities using a discount rate by reference to market yields on Government bonds at the end of the reporting period.</p> <p>All defined benefit plans obligations are determined based on valuations, as at the Balance Sheet date, made by independent actuary using the projected unit credit method. The classification of the Company's net obligation into current and non-current is as per the actuarial valuation report.</p>

	Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date.		
	If effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.		
	Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments if any are recognised as 'other income' in the Statement of Profit and Loss.</p> <p>Impairment of Financial Asset - The Group applies expected credit loss (ECL) model for measurement and recognition of loss allowance on the following:</p> <ul style="list-style-type: none"> i. Trade receivables ii. Financial assets measured at amortized cost (other than trade receivables) iii. Financial assets measured at fair value through other comprehensive income, IF ANY (FVTOCI). In case of trade receivables, the Group follows a simplified approach wherein an amount equal to lifetime ECL is measured and recognised as loss allowance. <p>In case of other assets (listed as ii and iii above), the Group determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL (recovery of assets is not possible resulting in doubtful debts, if any) is measured and recognised as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognised as loss allowance. Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Group reverts to recognising impairment loss allowance based on 12-month ECL. ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset. 12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date. ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.
