## Revenue Breakdown

Q1 FY20: Rs 1,122 Cr

■ Chemicals ■ Fertilisers ■ Others

# Segment Highlights: Chemicals

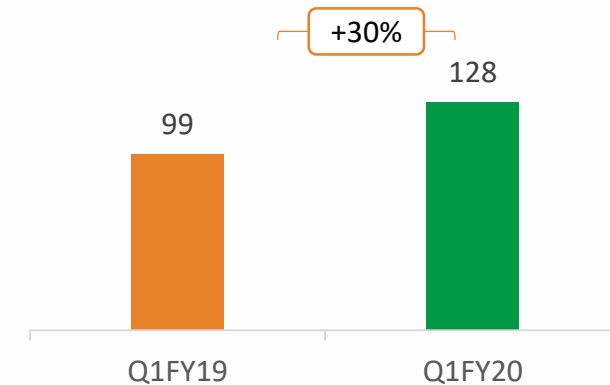

## Manufactured TAN Sales

## Manufactured IPA Sales

## Manufactured Acids Sales

- Manufactured Chemical business reported revenues of ~Rs. 613 crores in Q1 FY20 as compared to ~Rs. 610 crores in Q1 FY19. Chemical Trading business was consciously reduced from Rs. 1,028 crores Q1 FY19 to Rs. 105 crores in Q1 FY20. The Company continued to consolidate its trading portfolio and focus on high-margin products
- Margins improved in TAN business supported by higher TAN Solutions volumes by ~42.7% y-o-y and HDAN volumes by ~11.0% y-o-y and increase in NSP of HDAN and TAN Solutions
- Successful commissioning of Dahej facility (incl captive power plant) with capacity utilization of WNA at 60% and C'NA at 54% in the first quarter of operations amidst initial teething period and system stabilization phase
- During Q1, margins in IPA business were impacted on account of reduction in IPA import prices and hike in RGP prices on year on year basis. Production volumes were also temporary impacted as plant was shut down for non-availability of propylene; primarily driven by annual maintenance shutdown at suppliers' end. Supplies of propylene have been restored and plant is now operational

# Segment Highlights: Fertilisers

- Manufactured Fertilisers business reported revenues of ~Rs. 341 crores in Q1 FY20 as compared to ~Rs. 429 crores in Q1 FY19. Fertilisers Trading business was reduced from Rs. 151 crores Q1 FY19 to Rs. 55 crores in Q1 FY20. The reduction in traded revenue in CNB was inline with the strategic decision to move to differentiated NPK grade
- In line with our strategic decision to move from commodity to differentiated Fertiliser segment, differentiated NPKs. Smartek sales volume in Q1 FY20 was at 40,235 MT against 27,297 MT in Q1 FY19
- During the quarter, NPK sales volume declined by ~ 26.3% y-o-y and NP sales volume declined by ~27.6% y-o-y. Delayed monsoon by about ~3 weeks in core command area has impacted fertilisers sales. This has led to delayed Kharif sowing of major crops like Cotton, Soybean and Groundnut and resultant delays in fertiliser consumptions
- Margins in Q1 FY20, compared to Q1 FY19, were also adversely impacted on account of the increase in prices of phosphoric acid and ammonia on year on year basis. However, margins have increased compared to Q4 FY19 on account of declining raw material prices trend in the recent months resulting in higher margins per ton

Notes to the Statement of Standalone and Consolidated unaudited Financial Results for the quarter and ended 30 June 2019

## Financial Results – Notes

1. The above unaudited results of Deepak Fertilisers and Petrochemicals Corporation Limited (the "Company"), its subsidiaries (collectively referred to as "the Group"), its associates and its joint operations were reviewed by the Audit Committee and the Board of Directors at its meeting held on 13 August 2019 and 14 August 2019 respectively, approved and adopted the same. The Statutory Auditors have carried out a limited review of these financial results for the quarter ended 30 June 2019 and have issued an unmodified report on these results.
2. The Department of Fertilisers (DoF), Ministry of Chemicals and Fertilisers, had withheld subsidy, due to the Group in accordance with applicable Nutrient Based Subsidy (NBS) scheme of Government of India (GOI), alleging undue gain arising to the Group on account of supply of cheap domestic gas, since challenged by the Group before the Honourable High Court of Bombay. Based on the directive of the Honourable Court, DoF agreed to release subsidy withheld except a sum of Rs. 31,052 Lakhs pending final decision, which has been released during the month of January 2018 against a Bank Guarantee of equal amount.
3. The Unaudited standalone and consolidated results of the Company (including its subsidiaries and associates and joint operations) are prepared in accordance with applicable accounting standards i.e. Ind AS, as prescribed under section 133 of the Companies Act, 2013 read with relevant rules thereunder and in terms of Regulation 33 of the SEBI (Listing Obligation and Disclosure Requirements) Regulation, 2015.
4. Figures for standalone and consolidated financial results for the quarter ended 31 March 2019 as reported in these unaudited financial results, are the balancing figures between the audited figures in respect of the full financial year and published year to date figures for nine months period ended 31 December 2018. The figures upto 31 December 2018 had only been reviewed and were not subjected to audit.
5. The Group has adopted Ind AS 116 "Leases", applied to all lease contracts existing as of April 1, 2019 using the modified retrospective method. Accordingly, comparatives for the year ended 31 March, 2019 have not been retrospectively adjusted. The adoption of Ind AS 116 did not have any impact on the opening retained earnings as at April 1, 2019. Ind AS 116 replaces Ind AS 17 "Leases" and related interpretation and guidance. On transition, the adoption of new standard has resulted in recognition of Right-of-use assets of Rs. 7,498 Lakhs and a lease liability of Rs. 7,498 Lakhs as at April 1, 2019 in the consolidated financial results for leases previously classified as operating leases. The Group has discounted lease payments using the incremental borrowing rate as at April 1, 2019 for measuring the lease liability.

## Financial Results – Notes

During the quarter, the Company has recognised finance costs on leases amounting to Rs. 57.29 lakhs and depreciation on right-of-use assets amounting to Rs. 135.61 lakhs in the standalone financial results and the Group has recognised finance costs on leases amounting to Rs. 179.67 lakhs and depreciation on right-of-use assets amounting to Rs. 332.01 lakhs in the consolidated financial results.
