Isgec helps industry reduce hazardous pollutants, go green

Oct. 14, 2020, Noida: Isgec has successfully commissioned a combustion modification project for the 150 MW Boiler for Hindalco Industries Ltd. at their Aditya Aluminium Unit in Sambhalpur, Odisha.

The project involved the complete modification of the combustion system of a tangentially fired boiler in order to drastically reduce NOx emissions in line with the revised and more stringent norms issued by the Ministry of Environment & Forests. Isgec executed this project in collaboration with BHI FW Corp., USA.

The scope of the project included design, engineering, manufacturing, supply, transportation, construction, commissioning, and performance guarantee testing

The site work at the project was initiated in December 2019 and the performance guarantee test successfully conducted in the initial days of the Covid19 lockdown, in March 2020. Now that India is in unlock phase, the modified boiler has been successfully commissioned.

About Isgec Heavy Engineering Ltd.

Isgec Heavy Engineering Ltd. is a diversified heavy engineering company engaged in manufacturing and project businesses with an extensive global presence. In operation for the past 87 years, it provides state-of-the-art, sustainable engineering solutions, with customers & projects spread across 91 countries.
