# TAMBOLI INDUSTRIES' W.O.S. TAMBOLI CASTINGS TAKES A SIGNIFICANT STEP TOWARDS SUSTAINABILITY WITH THE COMMISSIONING OF A ~1MW CAPTIVE SOLAR POWER PLANT

**Bhavnagar, March 12<sup>th</sup>, 2024:** Tamboli Castings Limited, the Wholly-Owned Subsidiary of Tamboli Industries Limited, and one of the most respected manufacturers of high-precision, fully-machined investment castings, successfully commissioned its first captive solar power plant with a capacity of ~1 MW (approx.). This investment will meet dual objectives of becoming self-sufficient in power requirements as well reduce the carbon footprint of the Company in line with its sustainability initiatives.

By integrating solar energy into its operations, Tamboli Castings aims to achieve two critical objectives: firstly, to bolster its self-reliance in meeting the growing power requirements of its manufacturing facility; and secondly, to reduce its carbon footprint and advance towards a more sustainable operational model.

TCL recognizes the importance of transitioning towards renewable energy sources, not only to mitigate the environmental impact but also to secure long-term cost savings and energy independence.
