Company Overview

Company Overview

Advanced Enzymes is a research driven company with global leadership in the manufacturing of enzymes. We are committed to providing eco-safe solutions to a wide variety of industries like human health care and nutrition, animal nutrition, baking, fruit & vegetable processing, brewing & malting, grain processing, protein modification, dairy processing, speciality applications, textile processing and others. Our aim is to replace traditionally used chemicals with eco-friendly enzymatic solutions.

Mission

It is our mission to see that every human being is able to take advantage of the power of enzymes for well-being and leading a healthy life!

Vision

Our vision at Advanced Enzymes is to become the leading, enzyme-based, value provider to consumers and Bio-Processors globally!

What are enzymes?

Enzymes are natural protein molecules that act as catalysts within living cells, produced by all living organisms. Function as specialized catalysts and accelerate the pace of biochemical reactions. Advanced uses enzymes to replace chemicals in, and improve efficiency of, a wide variety of industrial processes for its customers.

Mr. Vasant Rathi

Chairman and Non-Executive Director

Mr. Vasant Laxminarayan Rathi is the Promoter Chairman and Non-Executive Director of our Company. He promoted & incorporated Cal-India in the year 1985 and has been associated with our Company since the year 1993. Mr. Rathi heads our international subsidiaries based in US.

Mr. C L Rathi

Managing Director

Mr. Chandrakant Laxminarayan Rathi, is the Promoter and Managing Director of our Company. He is currently responsible for the management of the entire operations of the Company and its Indian subsidiaries, including strategic initiatives of our businesses.

Advanced Enzymes - A Unique Investment Case

What Makes AETL a Unique Investment Case

Integrated Player with Presence Across the Enzyme Value Chain

Strong Research & Development Capabilities

Proteomics & Applied Microbiology

- Purification & Characterisation of enzymes
- Generate data for filing regulatory dossiers
- Develop newer & improved microbial systems

Process Development & Optimization

- Upscaling fermentation
- Enhance efficiency of downstream processes
- Improve recovery & purification yields

Process Development & Optimization

- Develop innovative enzyme solutions for various food & non-food processing industries
- Lab trials support for nutritional applications

Laboratory Services

- Custom application development
- Testing services for customers

**For the year ended March 31, 2017*

- Advanced Enzymes Technologies Ltd. acquired **100%** stake in Evoxx Technologies GmbH for a consideration of **€ 7.65** million
- The purchase is effected through its wholly owned subsidiary Advanced Enzymes Europe B.V.
- Evoxx is an industrial biotech company focussing on the development and production of industrial enzymes and development of oligosaccharides and polysaccharides to be primarily used in food applications
- As of 31st December 2016, revenues for Evoxx stood at **€ 2.9 million**

Synergy from acquisition

- Evoxx is a Germany based company so this acquisition would give Advanced Enzymes a stronger foothold in Germany and in Europe
- Evoxx has a team of around **40 scientists & technicians and 2 R&D centres** in Germany which will help in strengthen research & development capabilities
- Evoxx enhances our product portfolio and offerings for the Pharma Biocatalysis and Food Bio-Processing industries. Evoxx also brings in certain specialised nutritional carbohydrates, which expand our offerings to the US nutraceuticals market.
