RPP Infra's sustainable growth in the most challenging times is the result of a robust business model

Margin outperformance the result of a Distinctive Business Model

Spaces

Engaged in verticals that represent national priorities; proxies for 'homes', 'transportation', 'food', 'water' and 'energy' – building blocks of modern societies; what's good for India is good for RPP Infra

Regional

South India focus; deep terrain competence; zone outperforming national growth indices; extending into Central India

Solutions

Design to implementation in civil construction segment; higher margins

Synergic

Extended from infrastructure development (roads etc.) into SEZ development, water management, irrigation and power projects

Contracts

Diverse contract types – Lump sum, Design and Build, Item Rate, Percentage Rate

Sub-contraction

Working on sub-contraction (de-risked) with large and credible customers

Complexity

Focus on relatively complex niches within verticals (requiring engineering expertise and specialized equipment)

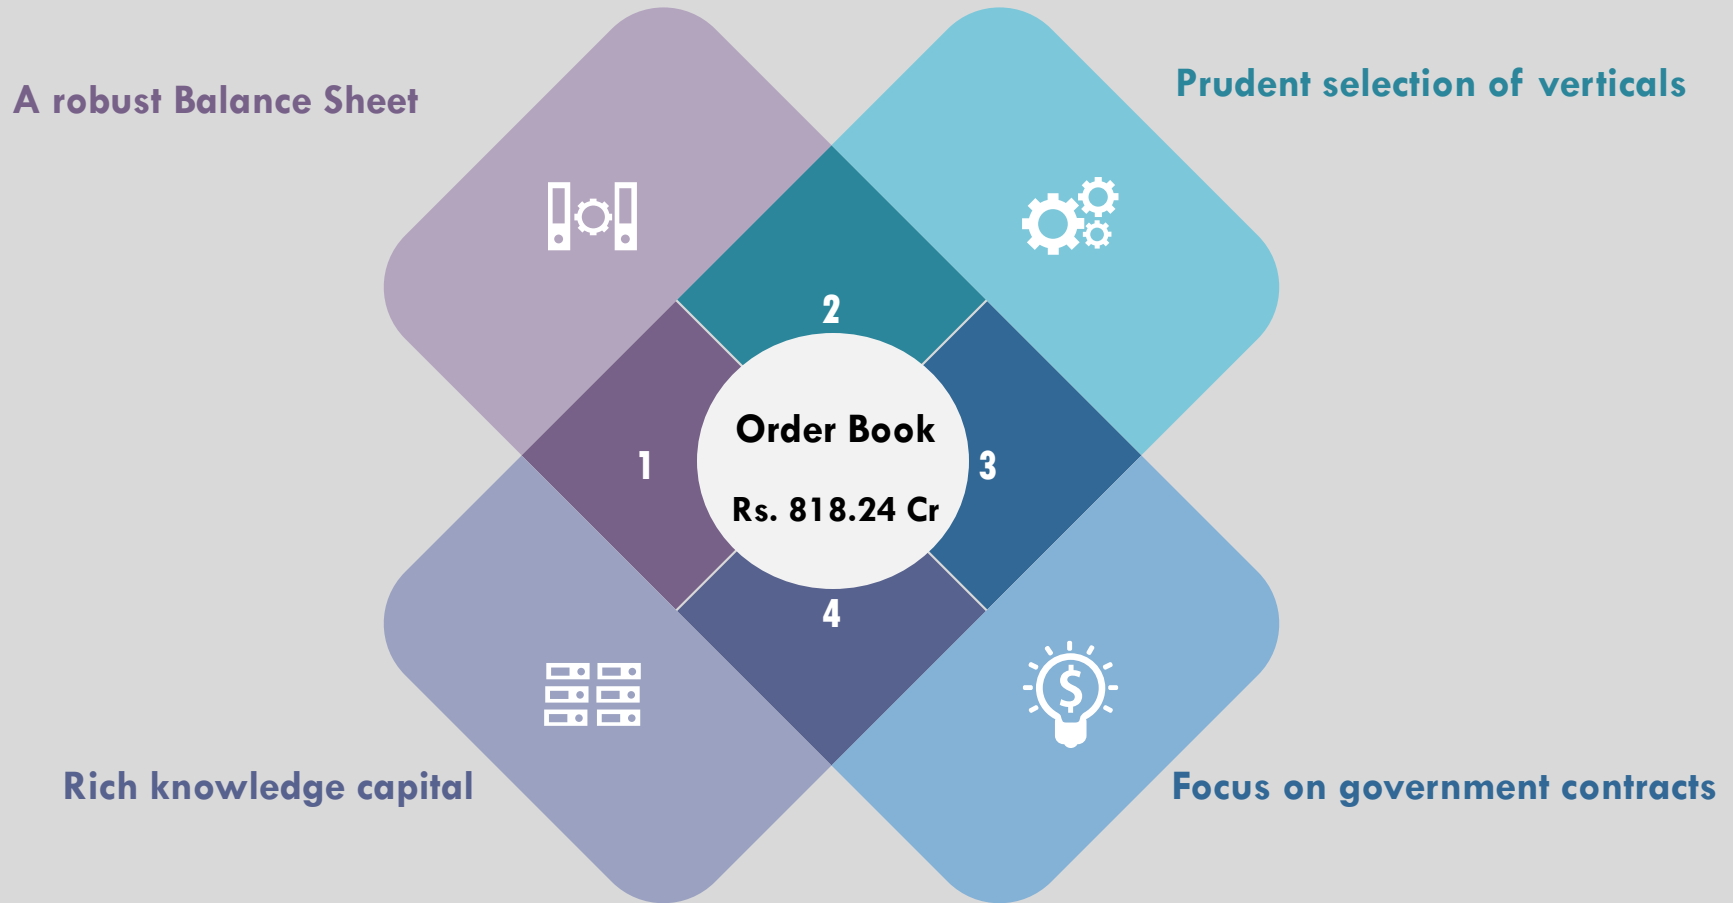

Scale

Focus on small projects (Rs 50-100 cr), which enhance our ability to manage projects better

Alliances

We engaged consortium partners (SIEMENS, RAMKY) to bid for larger and complex projects

4 Principal Elements of Business Model

Focus on Specific Verticals

1

Civil construction (Building projects):
28.05% of revenues, 2016-17

2

Irrigation and water supply projects:
21.06% of revenues, 2016-17

3

Infrastructure and road projects:
50.88% of revenues, 2016-17

Focus on Government Projects

Government Contracts

Government largest infrastructure spender in India

Growing delegation of spending from centre to States

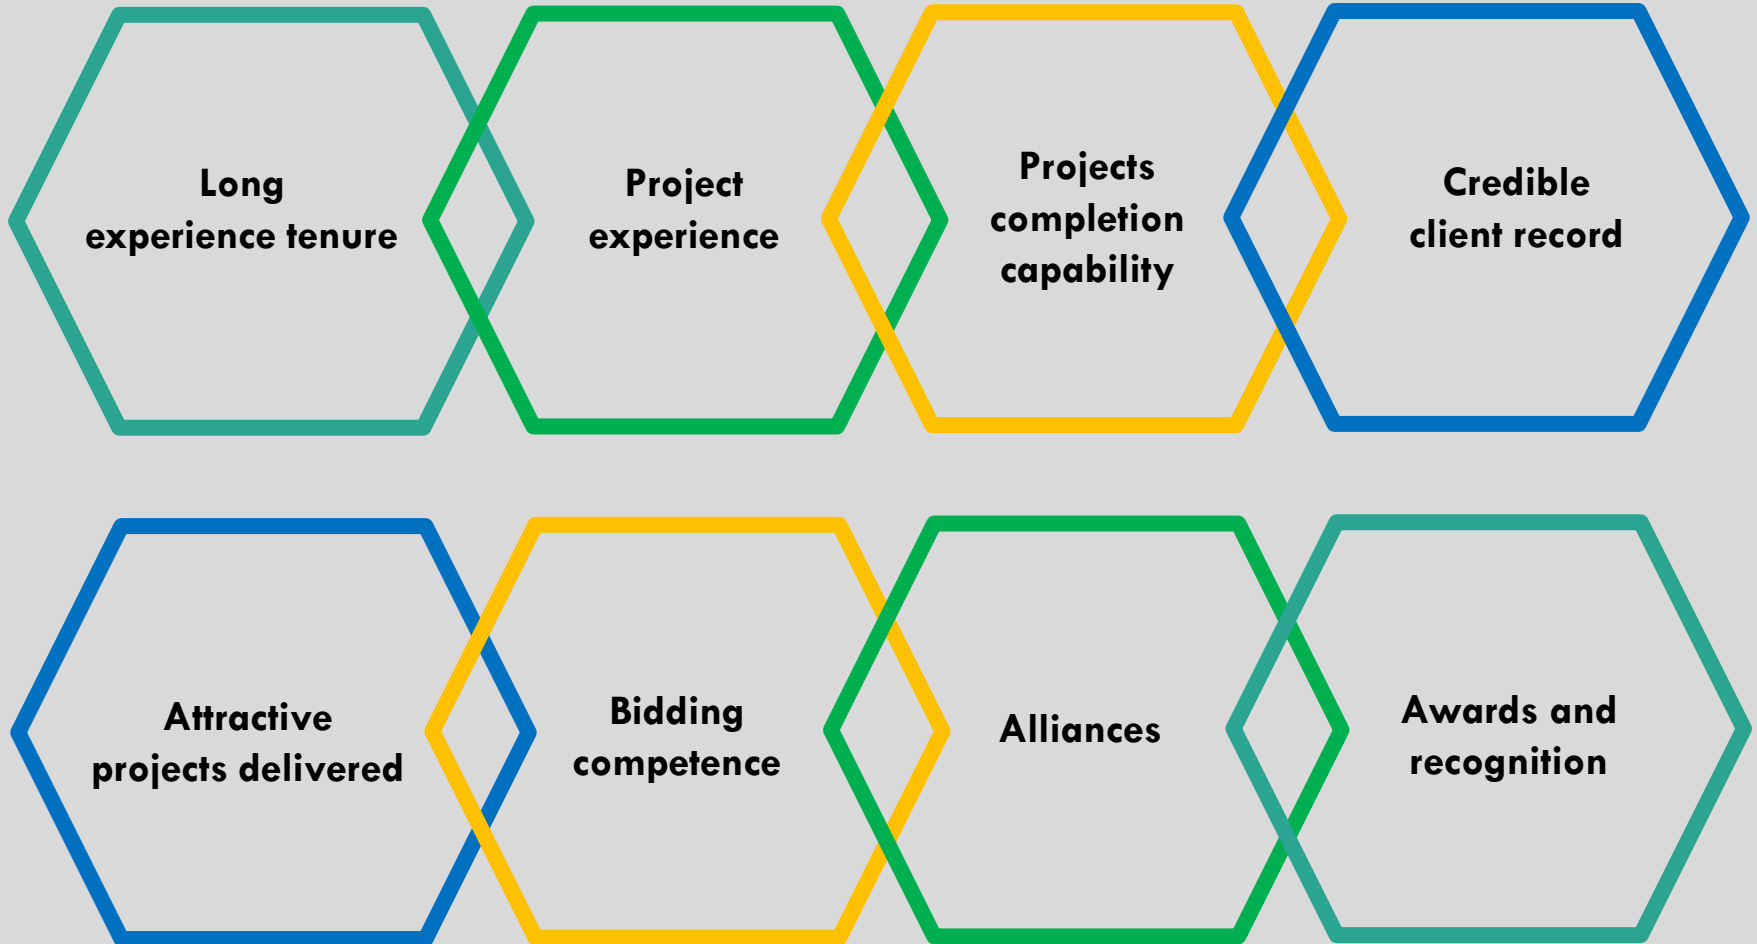

States spending larger amounts in most areas of the company's presence

Government contracts accounted for 100% of order book (31st March 2017)

Bad debts (0.8% of turnover, 2016-17)

Predictable receivables cycle (90 days, 2016-17)
