With the Covid-19 pandemic and Government announcing lockdown measures in March 24, 2020, all our places of business including manufacturing plants, corporate office, branch offices and warehouses were shutdown.

- Critical maintenance activities were undertaken during lockdown
- Employees carried out business critical activities remotely leveraging technology
- Employees were gainfully engaged in several online training programs
- Certain plants resumed operations in last week of April and others resumed operations in May depending on the location
- Rane TRW – Occupant Safety Division started manufacturing Masks for group's internal requirements and also CSR purposes
- All manufacturing facilities are currently operating at 50-80% of pre-covid level depending on the segments served compared to 30-40% level in June.

Group's performance against industry varies based on served customers/models

Segment	Estimated Growth
PV	-30% to -25%
CV	-40% to -30%
2W	-25% to -30%
FT	-15% to -10%

- Q1 performance is not reflective of market demand
- Signs of recovery seen across vehicle segments in July
- Recovery in FT driven by strong Agri sector
- Increased pull by OEMs to re-stock as the inventory levels were low
- Sustainability of demand is key to recovery in the coming months
- Further stringent lockdown measures likely to affect recovery
