# Safe Harbour Statement

This presentation contains forward-looking statements that reflect management's current views with respect to certain future events and potential financial performance. Forward-looking statements are other than statements of historical facts. The words "believe," "expect," "anticipate," "intend," "estimate," "outlook," "will," "may," "continue," "should" and similar expressions identify forward-looking statements.

Forward-looking statements include statements regarding objectives, goals, strategies, outlook and growth prospects; future plans, events or performance and potential for future growth; liquidity, capital resources and capital expenditures; economic outlook and industry trends; developments of the Company's markets; the impact of regulatory initiatives; and the strength of competitors. The forward-looking statements in this presentation are based upon various assumptions, many of which are based, in turn, upon further assumptions, including without limitation, management's examination of historical operating trends, data contained in records and other data available from third parties.

Although the Company believes that these assumptions were reasonable when made, these assumptions are inherently subject to significant known and unknown risks, uncertainties, contingencies and other important factors which are difficult or impossible to predict and maybe beyond our control. Such risks, uncertainties, contingencies and other important factors could cause the actual results of the Company or the industry to differ materially from those results expressed or implied in this presentation by such forward-looking statements.

The information, opinions and forward-looking statements contained in this presentation speak only as at the date of this presentation and are subject to change without notice. The Company and its respective agents, employees or advisors do not intend to, and expressly disclaim any duty, undertaking or obligation to, make or disseminate any supplement, amendment, update or revision to any of the information, opinions or forward-looking statements contained in this presentation to reflect any change in events, conditions or circumstances beyond what is required by applicable law or applicable stock exchange rules and regulations.

By viewing this presentation, you acknowledge and agree to be bound by the foregoing limitations and restrictions.

# Company Overview

Advanced Enzymes is a research driven company with global leadership in the manufacturing of enzymes and probiotics. We are committed to providing eco-safe solutions to a wide variety of industries like human health care and nutrition, animal nutrition, baking, fruit & vegetable processing, brewing & malting, grain processing, protein modification, dairy processing, speciality applications, textile processing and others. Our aim is to replace traditionally used chemicals with eco-friendly enzymatic solutions.

## What are enzymes?

Enzymes are natural protein molecules that act as catalysts within living cells, produced by all living organisms. Function as specialized catalysts and accelerate the pace of biochemical reactions.

Advanced uses enzymes to replace chemicals in, and improve efficiency of, a wide variety of industrial processes for its customers.

## What are Probiotics?

Probiotics are live microorganisms, when administered in sufficient amount, confer health benefits to human and animals. Probiotics have now become an integral part of several therapies for the digestive disorders and newer applications for treatment of several other diseases are being developed. Probiotics act by fighting with the disease causing microorganisms and by secreting beneficial metabolites in the human/animal system.

Advanced Enzymes has developed and upscaled technologies for the production and application of several important probiotics.

### Mission

It is our mission to see that every human being is able to take advantage of the power of enzymes and probiotics for well-being and leading a healthy life!

### Vision

Our vision at Advanced Enzymes is to become the largest, enzyme and probiotic -based, value provider to consumers and processors globally!

# Future Growth Drivers

# Focus Areas Going Ahead

## Animal Nutrition

Continuing conduct trials and studies to bring newer and effective nutritional products, which may improve the efficacy of animal feeds

Registering and introducing more products in the domestic as well as in the international markets.

Expand its sales and marketing team in USA, MENA and Asian market

Targeting to strengthen the geographical reach and distribution network by appointing more distributors in the overseas markets

## Probiotics

To introduce more probiotics products in Human Nutrition for the immunity development, active health food, gut health and various nutraceutical applications

To launch more products on immunity development, digestion improvement, and increase nutritional level of feed in the Animal Nutrition

## Bio-Catalysis

Developing bio catalysis for API manufacturers, providing enzymatic based solutions that are target specific, helping them to save cost of energy, time and use of chemicals

Couple of products are under the advanced stage of trials at plant level by the API manufacturers

This is one of the opportunities, where your Company will continue its efforts and focus

## Baking

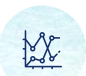

In Bio-processing division, our focus is on Baking Solutions

We have got positive response for the products in terms of efficacy and performance

Confident to expand in Europe, Americas and Rest of World to tap the available opportunities by offering a value based approach in the Baking Industry
