9. Valuation - Approach & Methodology:

Valuation – Overview:

It is pertinent to note that the valuation of any company or its assets is inherently imprecise and is subject to certain uncertainties and contingencies, all of which are difficult to predict and are beyond our control. In performing our analysis, I have made numerous assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of the companies. In addition, this valuation will fluctuate with changes in prevailing market conditions, and prospects, financial and otherwise, of the Companies, and other factors which generally influence the valuation of companies and their assets.

In particular, I would like to draw the attention of the readers of the report to the fact that every company operates under different economic legislations of the country like Companies Act 2013, Income Tax Act 1961 and various other acts/regulations/guidelines/rules, as applicable to the Industry or to the company/ies, in which they operate including those regulations or rules pertaining to Environment, Foreign Exchange, Banking and so on. Such rules or regulations or economic or legal framework under which the company/ies operate may change in future, and all such changes (legislative or otherwise) occurring in all countries where the Companies does business or have interests, either as a supplier or procurer or otherwise may affect the financial and operational performance of the companies and consequently the valuation thereof.

Valuation base:

Valuation Base means the indication of the type of value being used in an engagement. Different Valuation bases may lead to different conclusions of value. In transaction of the nature of merger or amalgamation of companies or merger or demerger of businesses, the consideration is often discharged primarily by issue of securities in the nature of Equity of the acquirer or transferee entity with reference to an exchange ratio/entitlement ratio considering the relative values.

Considering the nature of this exercise, we have considered Relative Value as the Valuation base.

Premise of value:

Premise of value refers to the conditions and circumstances how an asset is deployed. We have considered Going Concern Value and Replacement Value as applicable to the companies being valued, as the Premise of Value.

Intended Users: The report is intended for consumption of both the Board of Directors of the Transferor and Transferee Company and for the purpose of submission to the relevant regulatory authorities.

The Scheme contemplates the merger of MTPL into MCL. Arriving at the Share Exchange Ratio for the Proposed Transaction would require determining value of the equity shares of MCL & MTPL independently but on a relative basis and without considering the current transaction. The Scheme contemplates the Proposed Transaction pursuant to the provisions of Sections 230 to 232 and other applicable provisions of the Companies Act, 2013.

As discussed below, there are several commonly used and accepted methods for determining the Share Exchange Ratio for the proposed merger of MCL into MTPL, which have been considered in the present case, to the extent relevant and applicable.

- 1) Cost Approach :-
 - 1.1) Replacement Cost Method.
 - 1.2) Reproduction Cost method.
- 2) Income Approach :- Discounted Cash Flows method
- 3) Market Approach
 - 3.1) Market Price method
 - 3.2) Comparable Transaction Method
 - 3.3) Guideline Publicly Traded Comparable method

1. Cost Approach - Cost approach is a valuation approach that reflects the amount that would be required currently to replace the service capacity of an asset (often referred to as current replacement cost).

The cost approach provides an indication of value using the economic principle that a buyer will pay no more for an asset than the cost to obtain an asset of equal utility, whether by purchase or by construction, unless undue time, inconvenience, risk or other factors are involved. The approach provides an indication of value by calculating the current replacement or reproduction cost of an asset and making deductions for physical deterioration and all other relevant forms of obsolescence.

1.1 Replacement Cost Method - Replacement Cost Method, also known as '*Depreciated Replacement Cost Method*' involves valuing an asset based on the cost that a market participant shall have to incur to recreate an asset/business with substantially the same utility (comparable utility and not the same physical property of the asset) as that of the asset/business sought to be valued, adjusted for physical deterioration and obsolescence.

The replacement cost is generally that of a modern equivalent asset, which is one that provides similar function and equivalent utility to the asset being valued, but which is of current design and constructed or made using current cost-effective materials and techniques.

Taking into consideration the business of MCL and MTPL, we have applied the Replacement Cost Method to be one of the methods for valuation.

1.2 Reproduction Cost Method - This method involves valuing an asset based on the cost that a market participant shall have to incur to recreate a replica of the asset to be valued, adjusted for obsolescence. It is difficult to ascertain the cost to recreate the business model of the companies (manufacturing units, supplier/customer ecosystem, human resources, processes, both front office and back-office) and other relationships (banking and so on). Hence, this method is not used for the valuation of the Companies.

2. Income Approach - Discounted Cash Flow (DCF) Method.

Under the DCF method, the business is valued by discounting its free cash flows for the explicit forecast period and the perpetuity value thereafter. The Free Cash Flows to Firm ("FCFF") represent the cash available for distribution to the owners as well as lenders of the business and the Free Cash Flows to Equity ("FCFE") represent the cash available for distribution to the owners of the business. The free cash flows to firm are discounted by the Weighted Average Cost of Capital ("WACC") and the free cash flows to equity are discounted by the Cost of Equity ("Ke"). The WACC or Ke, based on an optimal vis-à-vis actual capital structure, is an appropriate rate of discount to calculate the present value of the future cash flows as it considers risk of the firm.

The perpetuity (terminal) value is calculated based on the business's potential for further growth beyond the explicit forecast period. The "Constant Growth Model" is applied, which implies an expected constant level of growth for perpetuity in the cash flows over the last year of the forecast period.

The discounting factor (rate of discounting the future cash flows) reflects not only the time value of money, but also the risk associated with the business's future operations. The Business/Enterprise Value (aggregate of the present value of explicit period and terminal period cash flows) so derived, is further reduced by the value of debt, if any, (net of cash and cash equivalents) to arrive at value to the owners of the business.

Since both MCL and MTPL have not provided the future cash flow on the ground of price sensitivity, we have not used the income method of valuation.

3. Market Approach

3.1) Market Price Method

The market price of equity shares as quoted on a stock exchange is normally considered as the fair indicator of the value of the equity shares of the company where such quotations are arising from the shares being regularly and freely traded in, subject to the element of speculative support that may be inbuilt in the value of such shares. But there could be situations where the value of the share as quoted on the stock market would not be regarded as a proper index of the fair value of the share, specially where the market values are fluctuating in a volatile capital market and/or not frequently traded.

Both the companies are traded in BSE & NSE and are coming within the perview of frequently traded Shares.

As already explained herein above the companies have not provided the future plans and projected financials on the ground of price sensitivity. Hence, along with Replacement Cost Method under cost approach and market price (taken at six months' average) method under market approach with an appropriate weightage has been considered in the present context.

3.2. Comparable Transaction Method ('CTM') Model

The comparable transactions method, also known as the guideline transaction method, utilises information involving transaction that are the same or similar to the subject asset to arrive at an indication of value under this method. Value of the equity shares of a company's business is arrived at by using multiples derived from valuation in comparable companies as manifest through transaction valuations. There are number of CTM's like Price to Sales Ratio, PBV Ratio (Price to Book Value), EV / EBITDA Multiples, EV / EBIT Multiples and Price Earnings Multiples. Appropriate weightage is also given to arrive at a fair value. In case of the companies under reference and taking into consideration several factors like Current Asset Size, Capital Employed, Operating Revenue, Human Resource deployed, Current Turnover, Production Level, Management Efficiency & Structure and so on, I am unable to find information/data of a comparable company in the public domain wherein the deal of this nature has been carried to apply the Comparable Transaction Method. Hence, Comparable

Transaction Method have not been considered for the valuation of Equity Shares of the Companies under reference.

3.3) Guideline Publicly-Traded Comparable Method

The guideline publicly-traded method utilises information on publicly-traded comparable that are the same or similar to the subject asset to arrive at an indication of value. This method is similar to the comparable transactions method. However, there are several differences due to the comparable, being publicly traded, as follows:

- (a) the valuation metrics/comparable evidence are available as of the valuation date.
- (b) detailed information on the comparable are readily available in public filings. and
- (c) the information contained in public filings is prepared under well understood accounting standards.

Under this method value of the equity shares of a company is arrived at by using multiples derived from valuations of comparable companies, as manifest through stock market or other public filing documents/information (of listed companies). This valuation is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances under which this valuation is being done.

In case of the companies in reference taking into consideration several factors like Current Asset Size, Capital Employed, Operating Revenue, Human Resource deployed, Current Turnover, Production Level, Management Efficiency & Structure and so on, I am unable to find information/data or a Comparable companies in the public domain wherein the deal of this nature has been carried out to apply Guideline Publicly-Traded Comparable Method. Hence, Guideline Publicly-Traded Comparable Method has not been considered for the valuation of Equity Shares of the Companies under reference and in the present context.

9. Basis of Share Exchange Ratio:

The basis of the Proposed Transaction would have to be determined after taking into consideration all the factors and methodologies mentioned above. Though different values have been arrived at under each of the above methodologies, for the purpose of recommending a fair Share Exchange Ratio of equity shares, it is necessary to arrive at a single value for each of the business/subject companies' shares. It is however important to note that in doing so we are not attempting to arrive at the absolute equity values of the Companies but at their relative values to facilitate the determination of a fair Share Exchange Ratio. For this purpose, it is necessary to give appropriate weights to the values arrived at under each methodology.

The Share Exchange Ratio has been arrived at on the basis of a relative equity valuation of MCL and MTPL. The Share Exchange Ratio is based on the various methodologies explained herein earlier and various qualitative factors relevant to each company and the business dynamics and growth potentials of the businesses of the companies, having regard to available information base, key underlying assumptions and limitations.

4. RATIONALE FOR THE SCHEME

- i. The Transferor Company and the Transferee Company are under common management. The said Companies have been looking at suitable proposals for consolidation for improving their financial and operating parameters and strengthening their position to grow and develop their business more effectively. With the view to integrate the business activities undertaken by both, the Transferor Company and the Transferee Company, under a single entity, it is proposed to amalgamate the said Companies under the terms and conditions of this Scheme. The proposed amalgamation of the two companies will streamline group structure reducing the multiplicity of legal and regulatory compliances required at present and accordingly this amalgamation is proposed.
- ii. In the circumstances, it is considered desirable and expedient to amalgamate the Transferor Company with the Transferee Company in the manner and on the terms and conditions stated in this Scheme of Amalgamation.
- iii. The amalgamation will increase the asset base and the net worth of the Transferee Company which in turn will enable it to conduct operations in the most cost effective and efficient manner to enhance the profitability of the Transferee Company.
- iv. The amalgamation will enable appropriate consolidation and integration of the activities of the Transferor Company and the Transferee Company with pooling and more efficient utilization of their resources, reduction in overheads and other expenses and improvement in other parameters. The amalgamation will result in formation of a larger and stronger entity having greater capacity for conducting its operations more efficiently, economically and competitively.

- v. The existing operating business and activities of the Transferee Company will continue to constitute the main business and activity of the merged entity with the greater share of the assets and turnover of the merged entity being contributed by such operating business and activities. The business of the Transferor Company would, inter alia, benefit greatly from the larger infrastructure, easier access to finance and better outreach of the Transferee Company. The amalgamation will enable the merged entity to have a more rational asset holding structure. As such the undertakings of the two companies can be combined, run and managed together more conveniently and advantageously. The amalgamation will enable the amalgamated entity to pursue and grow its business and other opportunities in each of its business segment more effectively.
- vi. The amalgamation will enable the Transferor Company and the Transferee Company to pool their financial, managerial, technical and other resources in order to meet the global challenges and competitive market conditions. In particular, it would be prudent and beneficial that the financial resources be pooled together, as the magnitude of the capital and marketing investments contemplated will be better met by two companies merged together and considerable synergy of operations will be achieved. The Financial strength and marketing capability of the Transferee Company can further accelerate the scaling up of the operations of the Transferor Company and the aim to create a position of leadership in the products manufactured by the Transferor Company. The amalgamation will create a better and amore competitive market for the productsmanufactured by the Transferor Company. Their combination will result in strong financial structure and will facilitate resource mobilization, financial consolidation, lowering the cost of borrowing, increased operational efficiency and integrated management functioning. As such the amalgamation of the Transferor Company with the Transferee Company will enable greater realization of the potential of the businesses of the Transferor Company and the Transferee Company in the merged entity. The consolidation of undertakings of the companies will also result in the formation of a larger and a more broad based and diversified company having greater capacity to raise and access funds for growth and expansion of its business, marketing and selling its products and services and conducting trade on more favourable terms.
- vii. All Equity Shares held by the Transferee Company in the Share Capital of the Transferor Company shall stand cancelled, without any further act or deed from the Appointed Date and, without any further obligation in this regard. All preference shares held by the Transferee Company in the Transferor Company shall be cancelled without issue and allotment of any new shares in lieu thereof to any person whatsoever. Such cancellation will rationalise and adjust the relationship between capital and assets suitably. The same will also enable the Transferee Company to have a more

appropriate capital base and increase shareholders value.

The Scheme is proposed accordingly and will have beneficial results for the said Companies, their shareholders, employees and all concerned

Emphasis of Matter

We drew attention to Note 4 to the Statement, which describes the uncertainties and the impact of Covid-19 pandemic on the Company's operation and result as assessed by the management. Further, our attendance at the physical inventory verification done by the management was impracticable under the current lock-down restriction imposed by the government and we have therefore, relied on the related alternate audit procedures to obtain comfort over the existence and condition of inventory at the year end. Our opinion is not modified in respect of this matter.

Management's Responsibilities of the Standalone Financial Results

The statement has been prepared on the basis of the Standalone annual financial statements. The Board of Director of the Company is responsible for the preparation and presentation of the Statement that gives a true and fair view of the net profit/loss and other comprehensive income of the company and other financial information in accordance with the applicable accounting standards prescribed under section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. The Board of Directors is also responsible for overseeing the Company's financial reposting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Results

Our objectives are to obtain reasonable assurance about whether the Statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatement can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of user taking on the basis of the Statement.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also

- identify and assess the risk of material misstatement of the Statement, whether due to fraud or error, design and perform audit procedures responsive to those risk, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk is not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Companies Act, 2013, as amended ("the Act"). Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Results' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Management's Responsibilities for the Financial Results

The Statement has been prepared on the basis of the annual financial statements. The Board of Directors of the Company are responsible for the preparation and presentation of the Statement that gives a true and fair view of the net profit/loss and other comprehensive income and other financial information of the Company in accordance with the applicable accounting standards prescribed under Section 133 of the Act read with relevant rules issued thereunder and other accounting principles generally accepted in India and in compliance with Regulation 33 of the Listing Regulations. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making

Auditor's Responsibilities for the Audit of the Financial Results

Our objectives are to obtain reasonable assurance about whether the Statement as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Statement.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial results or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Statement, including the disclosures, and whether the Statement represent the underlying transactions and events in a manner that achieves fair presentation.

Independent Auditor's Review Report on Quarterly and Six Months ended Unaudited Financial Results Pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulation 2015, as amended

To
The Board of Directors
Mangalam Timber Products Limited

1. We have reviewed the accompanying statement of unaudited financial results ("the Statement") of Mangalam Timber Products Limited ("the Company") for the quarter and six months ended September 30, 2020.

2. The Statement, which is the responsibility of the Company's Management and approved by the Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34, Interim Financial Reporting (Ind AS 34), prescribed under Section 133 of the Companies Act, 2013 ('the Act') and other accounting principles generally accepted in India and in compliance with regulation 33 of SEBI (Listing obligation and Disclosure Requirements) Regulation, 2015 ('Listing Regulation'). Our responsibility is to issue a report on the statement based on our review.

3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial results are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.

4. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying statement of unaudited financial results read with notes therein, prepared in all material respects in accordance with the applicable accounting standards and other recognized accounting practices and policies, has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, including the manner in which it is to be disclosed, or that it contains any material misstatement.

Independent Auditor's Review Report on Quarterly and Half Yearly Unaudited Financial Results Pursuant to the Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulation 2015, as amended

To the Board of Directors of Mangalam Cement Limited

1. We have reviewed the accompanying statement of unaudited financial results ("the Statement") of Mangalam Cement Limited ("the Company") for the quarter and half year ended September 30, 2020. This Statement is the responsibility of the Company's Management and has been approved by the Board of Directors. Our responsibility is to issue a report on the statement based on our review.
2. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial results are free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.
3. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying statement of unaudited financial results read with notes therein, prepared in all material respects in accordance with the applicable accounting standards and other recognized accounting practices and policies, has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, including the manner in which it is to be disclosed, or that it contains any material misstatement.
