# Q1 FY22 Performance highlights

## Volume & Revenue

- Retail sales up 68% overall, with each region up YoY
- Semiconductor shortages constrained wholesales by 30k units, though still up 73% YoY
- Record order bank of c. 110k units at 30<sup>th</sup> June, of which c. 29k are Defender orders
- China retails were up over 14% vs. Q1 FY21, despite supply constraints

## Profitability

- PBT £(110)m reflecting reduced wholesales as a result of supply constraints
- Favourable mix and net pricing
- Costs up YoY reflecting higher volumes, reduced furlough and capitalisation

## Cash Flow

- Cash outflow of £996m after £571m investment
- Primarily £922m reduction in working capital due to lower QoQ production volumes
- Total cash £3.7b and liquidity of £5.7b at 30 June 2021; proforma liquidity £6.6b after £0.8b new bonds and increase to undrawn RCF in July

# Q1 FY22 Retail sales 124.5k, up 68% from prior year lockdowns

Wholesales up 73%, but 30k units lower than potential demand due to semiconductor supply constraints

Q1 FY22 | Retail Units in 000's

# Inventories down in Q1 FY 22 as supply constrained to meet demand

Higher retails reflect retailer stock sales and CJLR retails

# Retails of all model families up YoY, led by Range Rover & Defender

## TRANSFORMATION OFFICE

## REFOCUS PROGRESS IN Q1

### PILLAR 5&6 MARKET PERFORMANCE

- £100m Lower VME including demand pull and finance mix improvements. Currently 3.1% and to be sustained below 6%
- £25m Improved mix, leveraging InDigital to deliver the right product at right time
- £20m Improved aftermarket performance

Note: savings attributable to Refocus initiatives, before YoY impact of other factors e.g. pandemic & semiconductor supply

### PILLAR 1 QUALITY

- Early issue detection to improve PIVI diagnosis in 45 days from 300+ days
- Warranty at 3.3% of Gross Vehicle Revenue and expected to be maintained below 3.5%

### PILLAR 3 DELIVERED COST

- Targeting 10% cost savings per average car with efficiencies embedded in new products
- Expected to deliver significant contribution towards achieving £1b of value through Refocus in FY22

# Semiconductor supply status and outlook

Situation is dynamic and difficult to forecast; but expected to improve in H2 FY22

## IMPACT

- Production impacted by semiconductor shortages, resulting from structural supply constraints as well as pandemic and exacerbated by some specific factors affecting our Tier 2 suppliers
- Demand remains strong and Q1 retails were up 68% year-on-year and the sold order bank is at a record 110k units
- Q1 wholesales were up 73%, however this is 27% lower than we had initially planned due to supply constraints
- Latest expectation for Q2 is that semiconductor supply will reduce further and wholesales may be down 50% from planned levels to c. 65K units
- Situation expected to improve in H2 however some underlying structural capacity issues will only be resolved as new capacity comes on line over next 12-18 months

## ACTION

- Mission control centre established with risk surveillance and real time demand/supply simulation
- Rigorous follow up with suppliers, as well as directly with semiconductor manufacturers and brokers to maximise supplies
- Higher margin models prioritised
- Optimisation of semiconductor and product specifications to reduce dependence on semiconductors in short supply
- Management of vehicle pre-build to support retrofit to quickly meet demand as soon as semiconductor supply becomes available
- Increase visibility and control over future semiconductor supply, including long term contracts

# Outlook and key priorities

Reimagine medium and long-term targets remain unchanged

# CV – Business update

Q1 performance impacted by lockdowns. Outlook turns positive as restrictions ease

## Key Highlights

- Sale in Q1 FY22 was 4.6x of Q1 FY21, while being 56% lower than Q4 FY21
- MHCV and ILCV market share momentum continues
- Steep rise in steel prices necessitates back-to-back price increases in Apr and Jul 21
- CNG penetration rising as diesel prices continue to rise relentlessly

## Bright Spots

- Transporter's sentiment index dropped in Q1. However, outlook positive as restrictions ease
- Government's infrastructure thrust driving demand recovery in cement, steel and minerals
- Financier collection ratios start to improve in latter part of June 21 after a fall in April, May.

## Challenges

- Transporter profitability below Q4 levels, freight rates are gradually inching up, but still below March levels
- Semi-conductor availability continues to be a concern, being closely monitored
- Inflationary pressure on commodity prices, especially steel and precious metals
- Muted CV Passenger demand

# PV: Business update

Actions identified to build on the momentum as markets open up

## Demand generation

- Targeted actions in identified micro-markets for demand recovery
- Focused marketing interventions to capitalise on the festive season e.g. IPL, festive campaign
- Exciting product interventions to be “New Forever” e.g. #Dark edition
- Strengthen network to support future growth

## Demand fulfilment

- Realised the gains of enhanced capacity and focus on streamlining supply to fulfil aspirational volume
- Accelerate work on variants witnessing high demand
- Mitigate semi-conductor supply challenge by creating alternatives and working closely with vendor partners
- Build strategic inventory to reduce wait times for customers and new launches

## Profitability

- Maintain strict cost controls as per the Business Agility Plan
- Smart mix management to drive better profitability
- Accelerate implementation of VAVE ideas
- Price increase inline with industry to partially offset commodity inflation

# Tata Motors Finance: AUM ₹ 41.4KCr, PPOP# Rs.183Cr, PBT ₹(471)Cr

Collection efficiency (MHCV+SCV) gradually recovering

- Disbursals up Y-o-Y by 216% on low base to ₹1,656 Cr. Dropped 69% Q-o-Q due to multi state lockdowns in Q1 FY22.
- Collection infrastructure impacted by second pandemic wave resulting in higher provisioning and increase in GNPA;
- Expect collections to pickup with customer cash flows improving and collection infrastructure returning to normal.
- Continuing efforts to go asset-lite - ₹ 268 Cr assignment during Q1 FY22 in a challenging environment
- Cost to Income ratio improves further to 39% (49% in PY).
- Adequate liquidity; Cash and Cash equivalents at ₹ 7.4KCr.

# Looking ahead

We remain committed to consistent, competitive, cash accretive growth and to deleverage the business

## Outlook

- Demand situation continues to improve as vaccination rates pick up
- Supply situation challenging. Semiconductor issues, commodity inflation and stoppages from lockdowns to impact short term
- Performance to improve progressively from H2 FY22

## Jaguar Land Rover actions

- Proactively manage current supply chain risks
- Continue to execute Reimagine strategy
- Execute Refocus transformation programme and continue to drive cost efficiency
- Achieve positive EBIT margin and positive free cash flows in H2.

## Tata Motors actions

- **CV:** Grow market share across segments (SCV in particular) and protect margins in an inflationary environment
- **PV:** Accelerate sales momentum by leveraging and enhancing our exciting portfolio with improving profitability
- **EV:** Drive up penetration rapidly through portfolio expansion and accelerating the setting up of charging infrastructure
- Deliver positive EBIT margin and free cash flows in FY22

Memo:

<sup>1</sup> The year-on-year operational exchange is an analytical estimate, which may differ from the actual impact

<sup>2</sup> Realised hedge gains/(losses) are driven by the difference between executed hedging exchange rates compared to accounting exchange rates

<sup>3</sup> Exchange revaluation gains/(losses) reflects the impact of the change in end of period exchange rates as applied to relevant balances
