Appreciation for performance at PMS & AIF Summit 2018 by PMS Bazar & ET Now.

- Every Household needs to and must save and invest their savings in a basket of asset classes to protect their financial future.
- Every business entity needs capital and advice in their path to growth and wealth creation.
- Complexity of investments , capital and volatility make it a difficult and an expensive task in terms of time and other costs for an entity to do the task efficiently.
- A trustworthy and professional financial house can assist and add value in these tasks to every household or entity.
- For products of mass usage, it is a precondition to exploit technology to keep costs low and to ensure easy access to markets and knowhow .
- For high value clients, personal advisory is preferred delivery mechanism.

- We ride on both the ends :Retail as well as High value by offering products and solutions for mass as well as class.
- We keep costs low by proprietary technology-based solutions coupled with experienced team for high end clients.
- We provide most products under one roof to compound value add to our clients.
- We use easily understood product like Gold and mutual funds to acquire clients in mass market and graduate them to other products and asset classes.
- We use experienced team in Class market to acquire high end clients using our institutional credentials.

- Rapidly growing economy and GDP
- Rapid growth in per capita income
- Rapid growth in digital access
- Low interest rates to savers coupled with inflation forces households to prefer financial assets
- Need for Diversified asset classes call for skill and time to monitor the same
- Immediate Addressable market is estimated at about 15 crore investors/3 crore households, Medium Term Total Addressable Market (5-7 years) is of about 40 Crores investors or 8 crore households @ ~30% of population and longer term addressable market size is about 60 crore investors with about 15 crore households. Duration of investor life cycle is about 25 years on average.
- High number of HNIs will also need advisory and management of their assets
- Integration with international economies will further create demand for these and International financial assets.
- High threshold costs for providing Financial services are forcing consolidation in the industry bringing inorganic growth opportunities.
- High throughput capability coupled with high knowledge and low costs can create a formidable player in market place.

Wealth Tech

- Chhota Nivesh (CN) is a proprietary and low cost platform of software and hardware combination. This will make it possible to fight deep pockets in price war scenario.
- Pricing: CN will follow a subscription based model rather than a transaction based model.
- The platform is designed to service the core need for saving and investments of savers.
- Differentiated target customers of small and middle class investors with financial savings of Rs1,000 to Rs. 50 lacs with capacity of growth in savings in future.
- Chhota Nivesh will reach its customers in 11 regional languages including Hindi & English.
- Chhota Nivesh will facilitate cross product baskets across wealth management asset classes.
- Chhota Nivesh will provide easy access and evaluation of one's portfolio.

- This is a unique concept that combines the physical and digital solution. Most new investors need hand holding in enrolling on digital platforms, decision making and after sales. We will appoint Saathi (guides) to handhold investors.
- Chhota Nivesh Saathi will be appointed all over the country in every pin code.
- An intelligent IVR system will divert the calls to local Saathi based on location and language preferences.
- The agent will render 4 main services, answer casual calls, register customers, give information on products and help close investment decisions and answer to queries/after sales, if any.
- These agents will be paid per call, depending on content and also a yearly charge based on AUMs of clients serviced by her.
- This will make the entire customer services cost variable and customer will get service in language of their choice
- This project will require development of education material and product videos

- This App is being created for professional investors and traders wishing to trade in derivatives markets.
- This will be high end platform providing state of the art multi legged trade execution capabilities.
- It will also provide near real time risk and analytical data on positions and portfolios.
- It will be self help discount brokerage platform.
- It will also target High value Family offices wishing to manage risks of their investments and provide advisory as an additional free service.
- Total Addressable Market is estimated at 50 lac traders/investors currently and may go up to 3 crores in five year.
- Family offices market is estimated at 50,000 offices as of now and may go up to 2 lacs in five years or so.

Investmentz.com

A core platform containing products such as Trading, Distribution of investment products namely MF, IPO, NPS, Bonds and Corporate Fixed Deposits, Advisory products including PMS, Stock Baskets and Research services. The target customers are organised sector employees which understand technology and investment.

Chhota Nivesh

A Wealthtech platform for small investors. It's an advisory platform only. This app is available in 11 languages covering most of the investor population of India. The target customers are Novice/New Investors and Rural Investors.

Easytradez

This is the Discount trading platform. It will be in the form of an App and IBT. The app has all segments namely BSE, NSE cash segments, BSE and NSE Derivatives segment, NSE currency, BSE Commodity segment (*under development*) MCX commodity (*under development*). The target customers are Traders and Speculators.

Offline Broking

ACMIIL has a network of 350 Business Associates across 23 states, there are also HNI customers serviced directly by the Head office. A call and trade desk services those customers who are not tech savvy. We have tie up with Bank of India, wherein a direct link is provided with the bank server to block cash and shares. Institution Desk services such clients

EDGYTAL FINTECH INVESTMENT ADVISORY SERVICES PRIVATE LIMITED

- Fully integrated with Computer-to-Computer Link (CTCL), Internet Based Trading (IBT) and Mobile Application
- Seamless choice for user / client to opt for Bricks and/or Clicks for any investment
- Proprietary API keep us in complete control and flexibility to meet rapidly changing demands of markets and regulators.
- Software and Apps provide all investment options on a single platform i.e. Mutual Funds, IPO, ETF, Sovereign Gold Bond, GSecs, Stock baskets, direct equity, Derivatives, Commodity and Currency trading on a single platform. (Commodity is currently under development).
- Fully automated workflow processes for customer servicing such as E-KYC, Payment gateways, Online Depository, Account maintenance, CRM etc..
- These platforms are connected to API's of Bill Desk, IBSS platform of BSE, CKYC, CVL KRA, UCC platform of Exchanges, Star MF , E Sign, etc.. This provides seamless connectivity to external providers
- Platform is developed in house at a very competitive cost.
- The entire software is hosted at YOTTA Private cloud- one of the largest cloud and hosting platforms. It has a high level of 99.9999 redundancy. Low cost of ownership and highly scalable operations as additional processing power, bandwidth, memory and internet bandwidth are all available on the fly and increase in customer numbers and volumes can be handled seamlessly.

Market Potential / Challenges

- Today about 800 brokers on all India basis are active in Indian markets
- We believe 25 are big, about 100 are medium sized and another 400 are small brokers. Others mainly do proprietary trades.
- Total Addressable Market is about 200 brokers over next 3 years time period. Over next six months, the software can be further strengthened to cover additional links/modules to go to market.
- Vendor registration with exchanges is in process. Pending the same, the software is to be sold as in house development for brokers.
- Strong after sales service will be created to service the clients in mission critical mode.

Digital Gold – Chhota Nivesh Gold app

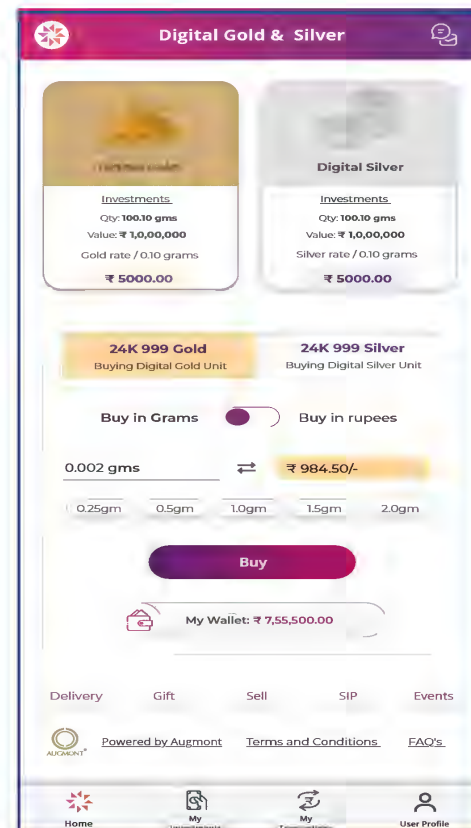

- The Chhota Nivesh Gold app is an easy-to-use, secure and smart platform for a diverse category of investors- from businessmen to housewives, from students to working professionals, and from urban investors to the rural dwellers.
- Regardless of financial position, education or knowledge about the financial markets, the Chhota Nivesh Gold app is designed for use by all categories of investors!!
- Chhota Nivesh Gold app helps in providing a simple and easy means of starting your investment journey!
- Chhota Nivesh Gold is for everyone. There is no lower limit to start an investment.
- Chhota Nivesh Gold app, one can invest as little as Rs. 10 to start their investment journey. Furthermore, one does not need to keep making regular investments.
- Total addressable market can be said to be about 50 crore individuals who have any savings at all in a bank account. Life cycle of investor is estimated at about 25 years.
