Forward-looking statement

In this presentation, we have disclosed forward-looking information to enable investors to comprehend our prospects and take informed investment decisions. This report and other statements written and oral that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipates', 'estimates', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance.

We cannot guarantee that these forward-looking statements will be realized, although we believe we have been prudent in assumptions. The achievement of results is subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should bear this in mind.

We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

The big message of this presentation

The challenges we successfully countered in FY22

Behror plant lost 17 operational days in FY22 and restricted operating hours in month of Dec 2021 and Jan 2022 due to restrictions imposed by Commission of Air Quality Management on NCR manufacturing units

Sharp increase in raw material costs

Logistics challenges; delay in the availability of containers and shipping vessels

What we achieved in a challenging FY 22

We reported decent performance despite multiple challenges

We overcame two Covid closures to report record results We enunciated the initiation of the next leg of our growth journey

We embarked on building fresh capacity in two locations

We overcame disruption at our Behror, Rajasthan factory

Our consolidated financial performance, FY2021-22

Overall

Consolidated net revenues grew 42 % to Rs. 1,703.4 Crores compared to Rs. 1,199.6 Crores in FY2021-22 despite a challenging year EBITDA grew 7.9% to Rs. 187.0 crore compared to Rs. 173.3 crore in FY2021-22

Engineered door business revenues grew 11.6% to Rs. 26.8 crore against Rs. 24.0 crore in FY2021-22

The unprecedented opportunity

Organised and branded offtake to grow faster

Wider opportunity in branded surface and substrate products

Our goals in Greenlam 2.0

To emerge as India's leading wood panel player

To graduate from standalone surfacing products provider to a onestop (surface and substrate) solution provider

To secure sustainable wood resource access (proximate plantations)

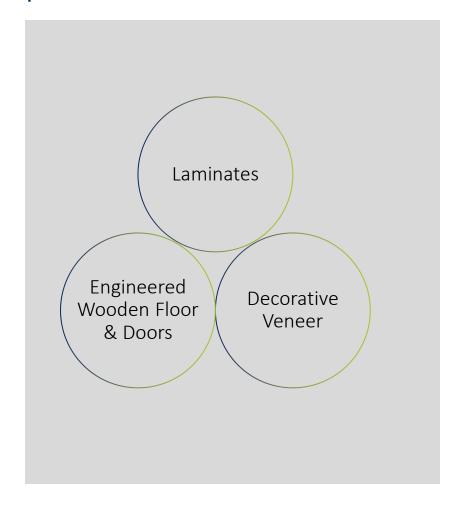

To create a platform for sustainable outperformance

To deepen financial, environment, certification and compliance discipline

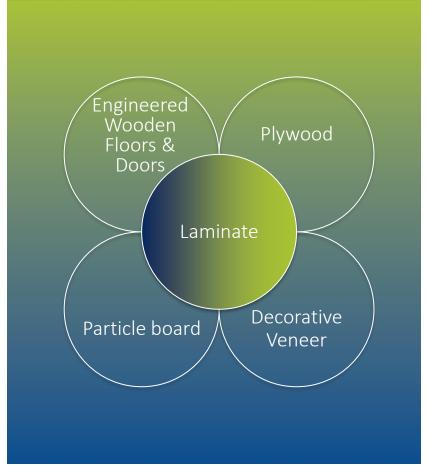

To position ourselves as a comprehensive substrate and decorative player

These are the product segments where we are present

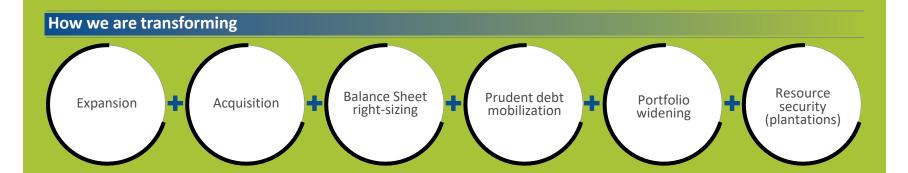

These are the product segments where we intend to be

Bottomline

Number of years for Greenlam to reach Rs 1,703.4 cr revenues (FY21 base)

Outcomes of Greenlam 2.0

Greenfield expansion

Investment in greenfield manufacturing capacity for laminates, plywood and particle boards business

Naidupeta, Andhra Pradesh: 231,000 cbm particle board capacity (commercial production by Q4FY24)

3.5 mn sheets/ boards per annum capacity of high pressure laminate (commercial production by Q4FY23)

Tindivanam, Tamil Nadu: 18.9 mn sqm plywood capacity (commercial production by Q4FY23)

Total investments in these projects is estimated at Rs. 950 crore

Acquisition

The acquisition

Acquisition of Gujarat based laminates manufacturing facility

Cost of acquisition Rs 36 cr + Rs 15 cr for upgrading the facility

The facility to be operational by Q2FY23

Current installed capacity is 3.4 mn sheets which shall be increased to 5.4 mn sheets per annum by Q4 FY23

Acquisition rationale

To widen the company's presence in the mass market segment

To address ~50% of the total market by volume

To widen our addressable market; enter semi-urban and rural areas

Cross-sale opportunity for other Greenlam products

Acquisition cost

Rs. 51
Cr.(Rs. 36 cr acquisition + Rs. 15 cr upgradation)

Acquisition

Financial advantages

Funded from internal accruals

Annual revenue potential of Rs 250 cr at full capacity

Revenue generation in quicker time

Fewer SKUs and lower working capital requirement

Location advantages

Gujarat hub of paper for the commodity laminates segment

Abundant availability of chemicals

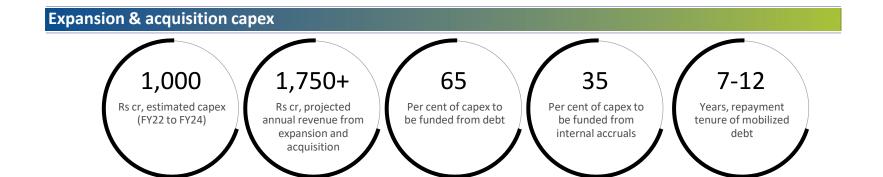

Proximity to port to reduce lead time and costs

Ability to service pan India

Expansion & acquisition

8.9 million sheets/board laminate capacity, FY23 est. 18.9 Million square meters plywood capacity, FY24 est. 2,31,000 cubic meters particle board capacity, FY24 est.

Balance Sheet right-sizing

Overview

Fresh equity issues of Rs. 195 crores on a preferential basis

63,10,680 equity shares of FV Re.1 each issue at a premium of Rs. 308 per equity share

Total dilution 4.97% of post-issued capital

Controlled net gearing at 0.32 (end of

Q1FY23)

Will protect the Balance Sheet from stress pre and post-expansion

Resource security

Promote, support and execute plantation development around proposed plants

Develop a cost-effective wood supply chain

Steer initiatives around wood-based plants

– Naidupeta (Andhra Pradesh) and
Tindivanam (Tamil Nadu)

Commence programme from 2022-23 to the time its wood-based capacities are ready to commence production

Intended to reduce material and logistic costs; enhance resource security

How we strengthened our marketing and sales

Plugged category gaps; widened portfolio; provided complete solutions

Leveraged digital platforms to enhance consumer engagement

Introduced latest designs and trends in the product collections

We believe...

The Greenlam brand can enter new segments or commission larger capacities in existing segments

The time has come to provide the entire range of surface/substrate products under Greenlam brand

The time has come to create the foundation of a complete multi-product solution provider (surface and substrate)

The upsides of being an early mover could translate into sustainable sectorial leadership

Decisive value-creation opportunity

Significant business growth within a compressed time frame

Mobilising funds through a prudent balance of debt and internal accruals

Possibility of higher margins through synergies

Positive cash flows from existing businesses to drive sustainable growth

Conclusion
We are
entering a
new orbit
that will
