# **Management Commentary**

**Nareshkumar Patel** 

Executive Chairman and Managing Director

"I am happy to report that our 9M FY22 revenue grew by 52% on YoY basis driven by robust growth in core Pharma Intermediary business as well as stronger grow in Specialty Chemicals business. Our gross margin also saw improvement as compared to 9M FY21. The EBITDA margin for standalone business largely remain intact whereas margin of GOL business also saw positive upside due to our process improvement and cost optimization exercises, but the total EBITDA is lower compared to standalone EBITDA in 9M FY21 after considering effect of integration. As a part of our process improvement and cost optimization exercise we have transferred Specialty chemicals production to a single location at Jhagadia facility. This will provide better operating leverage and in turn improve our margins in coming quarters.

We have commercialized two new import substitute products where we are one of the few manufacturers in India. Initial response to these products has been very encouraging and we see these products contributing considerably to our top line in coming years. We have more such products in pipeline.

I remain optimistic for the coming quarters on the back of continued strong demand for our products, rationalization in the input prices, successful integration and cost optimization in GOL business and new product launches."

# **Q3 & 9M FY22 Earnings Highlights**

### Financial Highlights

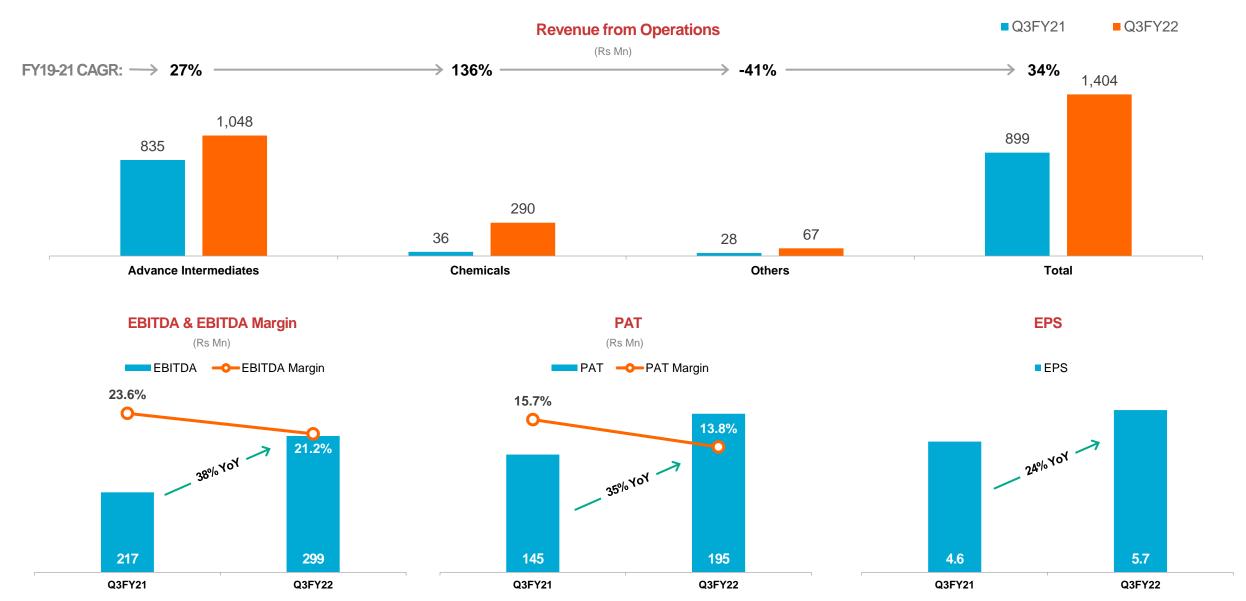

- ✓ Revenue from operations for Q3FY22 grew by 53.5% YoY to Rs.1,412mn
- ✓ 9MFY22 Revenue from operations grew by 52.0% YoY to Rs. 3,766mn
- ✓ Gross margin for the 9M FY22 improved to 48.8% higher by 238 bps when compared to 9M FY21 numbers
- ✓ EBITDA for the nine months came at Rs. 794mn up 39.5% as compared to Rs. 569mn in 9M FY21
- ✓ EBITDA for the core business maintained at sustainable level whereas EBITDA for newly acquired facilities from GOL has improved significantly from single digit to double digit in Q3 FY22
- ✓ As per the use of proceeds for the IPO, we have brought down our debt from Rs. 1,366mn as of 31st March 2021 to Rs. 7.3mn.

### **Key Business Highlights**

- ✓ We have been able to improve our gross margins even in the highly volatile environment of input costs. This was achieved by prudent cost measure and swiftly passing on of incremental input cost to the clients
- ✓ During the quarter we have successfully transferred current production operations of specialty chemical business at Ankleshwar facility to Jhagadia Facility. We do not expect any revenue loss because of transfer of production operation from Ankleshwar to Jhagadia unit of Company
- ✓ Ankhleshwar facility will be repurposed for the expansion of Pharma Intermediates business to support the future growth. Company is still working on the design and engineering required to repurpose the Ankhleshwar facility for Pharma Intermediates. More details will be share once the overall capex plan is finalised.
- ✓ Initial response to import substitute products has been very encouraging; More such products are in pipeline

# Our competitive advantage

- Niche Product Portfolio with strong market share
- Niche products with limited competition focused on Chronic disease market
- Our key products holds more than 50% market share globally
- Successful track record of working with innovators with sticky customers across products
- Ami has established itself as a trusted and reliable supplier of intermediates globally
- More than 50 global and Indian companies are our clients for more than 5 years
- "Preferred Supplier" status for some of the customers in regulated markets such as EU
- Reputation of bringing new products to the market aided by strong R&D capabilities
- AMI has been able to prove itself by bringing new products to the market per client requirement with the best quality which has led to innovators coming back to AMI with newer requirement for their new products
- 8 Process Patents filed in India with additional 3 Process Patent applications pending are testament to our R&D capabilities

4 High entry barriers

- A long gestation period to be enlisted as a supplier with the customers
  - change in the vendor of the product may require significant time and cost for the customer resulting in a propensity amongst customers to continue with the same set of suppliers.
- Strict compliance requirements
- The involvement of complex chemistries, which is difficult to commercialize on a large scale
- Regulatory requirements creating hurdles for new entrants
- 5 Long tail of products to support our growth in future
- Our long tail of 350-400 products includes products which are in development or testing phase for our clients some of which has potential support our growth in coming year when our customers get approval for their products.

6 Robust cost management

- ~73% of our raw material is outsourced from domestic vendors with products developed by AMI and outsourced to toll manufacturer leading to better management of input cost
- Continuous focus on process optimization and improvement has led to cost leadership in the industry with high quality products
