Petcare Vertical - The Industry

Global pet care

US\$128_{bn}

Pet care sales by 2022

- Petcare is one of the fastest growing category world wide.
- Pet penetration in developed markets like US & UK is more then 68% and growing.

India Petcare Market

- India is the fastest-growing pet markets (@22%) in the world and the market is projected to cross \$500 million in 2020.
- Pet penetration currently at 10% in metros is reflecting fastest growth in last 4 years.
- There has been growth in all categories namely pet food, grooming, pharmaceuticals, toys and accessories.

Petcare Vertical- Business Plan

- ❑ India Petcare industry is at INR 7k crores & growing at 22% CAGR due to smaller families, rising income levels and limited social lives (especially post Covid-19).
- ❑ No large scale organized players in India offering end to end comprehensive solution to the customers. The Industry size, low penetration and high potential for growth provides a clear business opportunity.
- ❑ To tap the opportunity, we have planned a structured technology savvy platform to address all needs of pets.
- ❑ Omni channel business model to address pets need at every stage of life.
- ❑ Low capex business model although brand building will require some investments. Initial investment planned is Rs 15 crores by FY22.
- ❑ *The Company has launched Pet care with simultaneous launch of website, first mobile van and its flagship stores during Q2 FY22 under the brand name “Zigly” which will provide a unique value proposition to Pet Parents with Omni-channel presence. Initial response is propitious and the Company intends to significantly expand its digital offerings and offline presence (stores and van) over the next 2 years.*
- ❑ Plan to demerge Petcare vertical into separate company in medium term.

Key Highlights - Q3, FY21-22 Results

Q3FY22 EBITDA has increased by 44% on the back of higher speciality sales, better operating margins and uptick performance by subsidiaries. Enhanced EBITDA together with lower finance cost and lower effective tax rate led to increase in PAT by 65%. Increase in EPS was still higher at 75% due to impact of buyback of shares in December 2020.

Growth projects (Specialized Polyester line in FY23 and BOPP line during FY25), focus towards growing specialty sales, diversification into specialty chemicals & Pet care would drive further growth in coming years.

India Industry Dynamics and Capex Strategy

- ❑ Global BOPP demand is estimated to be approx 8 million(+) MT per annum
- ❑ The global demand and supply are broadly balanced

- ❑ Currently India BOPP production capability is estimated at approx. 680k MT per annum.
- ❑ India domestic BOPP consumption is approx. 540k MT per annum and remaining is broadly exported.
- ❑ Indian BOPP Industry has been growing at almost double of the India's GDP growth rate over long term

Strong domestic and global demand is helping efficient capacity utilisation.

India BOPP Demand & Supply Dynamics:

- ❑ Considering low packaged food penetration in India and rising personal disposable income, the Industry is estimated to grow fast.
- ❑ Investment in organized retail industry and change in pack format from rigid to flexible is going to further add to increasing demand.
- ❑ Based on capacity addition announced in India, new capacity expected in the Industry may not be able to address growing India demand. On current India BOPP Industry demand base, one new line each year may not be sufficient to address India's growing demand.

- ❑ Company's future capex strategy is aligned with target to increase speciality to 80% by 2023. This will majorly de-commoditized business model
