Opportunity & Strategy

Manufacturing Capability & Economies of Scale

- Manufacturing set ups with 46,000T Hammers and Upsetters, 24,000T ring rolling and 80,000T press line capacity
- Modern precision technology leading to efficient cycle time

Diversified Product Portfolio & Proximity to Raw Material Source

- Diversified product portfolio comprising of axle components, transmissions components, engine components, front and rear axle assemblies, etc.
- Large set up in Jamshedpur, Baliguma and Howrah

Developed from only Forgings to Integrated Products

- Evolved from plain forging manufacturer to providing complete components, with capabilities across all stages
- Developed expertise in ring-rolling and machining complementing the forging business

Experienced Management & Marquee Client Base

- Strong management with experience in Innovation, Product Development and Manufacturing
- Marquee client base with Domestic and International OEMs, Domestic and International Tier 1 Auto Component manufacturers as clients

Increasing Content per Vehicle

- Focus on large and complex products including assemblies, requiring higher skills and technical capabilities
- Higher Value Products with better margins

Key Supplier across Value Chain

- Diversified product portfolio with ability to provide products across category
- Strong relationship with OEMs and Tier 1 players due to large and quality offering

Ability To Tap International Markets

- High quality products combined with lower cost - a key advantage for international clients
- Completed several audits from international OEMs and Tier 1 players

New Product offering

- Developed new products across category diversifying revenue profile
- Ability to leverage existing relationship to cross-sell new products
