## Important Notice

This presentation contains statements that contain "forward looking statements" including, but without limitation, statements relating to the implementation of strategic initiatives, and other statements relating to Bodal Chemicals' future business developments and economic performance.
While these forward looking statements indicate our assessment and future expectations concerning the development of our business, a number of risks, uncertainties and other unknown factors could cause actual developments and results to differ materially from our expectations.
These factors include, but are not limited to, general market, macro-economic, governmental and regulatory trends, movements in currency exchange and interest rates, competitive pressures, technological developments, changes in the financial conditions of third parties dealing with us, legislative developments, and other key factors that could affect our business and financial performance.
Bodal Chemicals Limited undertakes no obligation to publicly revise any forward looking statements to reflect future / likely events or circumstances.

Bodal Chemicals Ltd.

"During Q2 \& H1FY2018, we have had to navigate our business through implementation of GST, particularly affecting the textiles sector - a major client. We have also had moderation of product prices on YoY basis. Lastly, we have carried significant upfront cost from our integration \& expansion projects.

We have, however, continued to focus on higher profitability which is reflected in Q2 \& H1 of the year. We are also on course on implementation of our three new projects of dyestuff expansion, co-generation power plant \& thionyl chloride, which will provide new avenues for growth of revenue and profitability in the coming future."
