BEML'S GLOBAL REACH

A wide-angle photograph of a large-scale construction or mining operation. In the foreground, a large excavator with a long boom is positioned on the left, its bucket raised. To its right, a large dump truck is parked. The ground is uneven and covered with dirt and rocks. In the background, there are more construction materials, including stacks of containers or boxes, and a winding road or path that leads into the distance. The overall scene is one of active industrial work.
