Dear Sir/Madam,

Sub: Submission of Presentation made to analysts/Investors

We are enclosing herewith a copy of presentation made to analysts and investors on unaudited standalone results of the Company for the Quarter Ended September 30, 2016.

Please take the same on your records.

Yours truly,

For Sanghvi Forging and Engineering Limited

Keval Thakkar
Company Secretary
ICSI Mem. No. :- 39127

Encl: As above.

COMPANY OVERVIEW

INDUSTRY OVERVIEW

WHY INVEST IN US

FINANCIAL HIGHLIGHTS

QUARTERLY HIGHLIGHTS

A value-added heavy forging company in non-auto segment

3

State of the art manufacturing with capacity of 18,500 MT; 15,000 MT open-die heavy forging commissioned in FY2013

Specializes in customized forging from 1 MT to 40 MT (single piece)

Diversified operations in Oil & Gas, Defense and Power

Over 80+ product approvals received from marquee clients in domestic and international markets

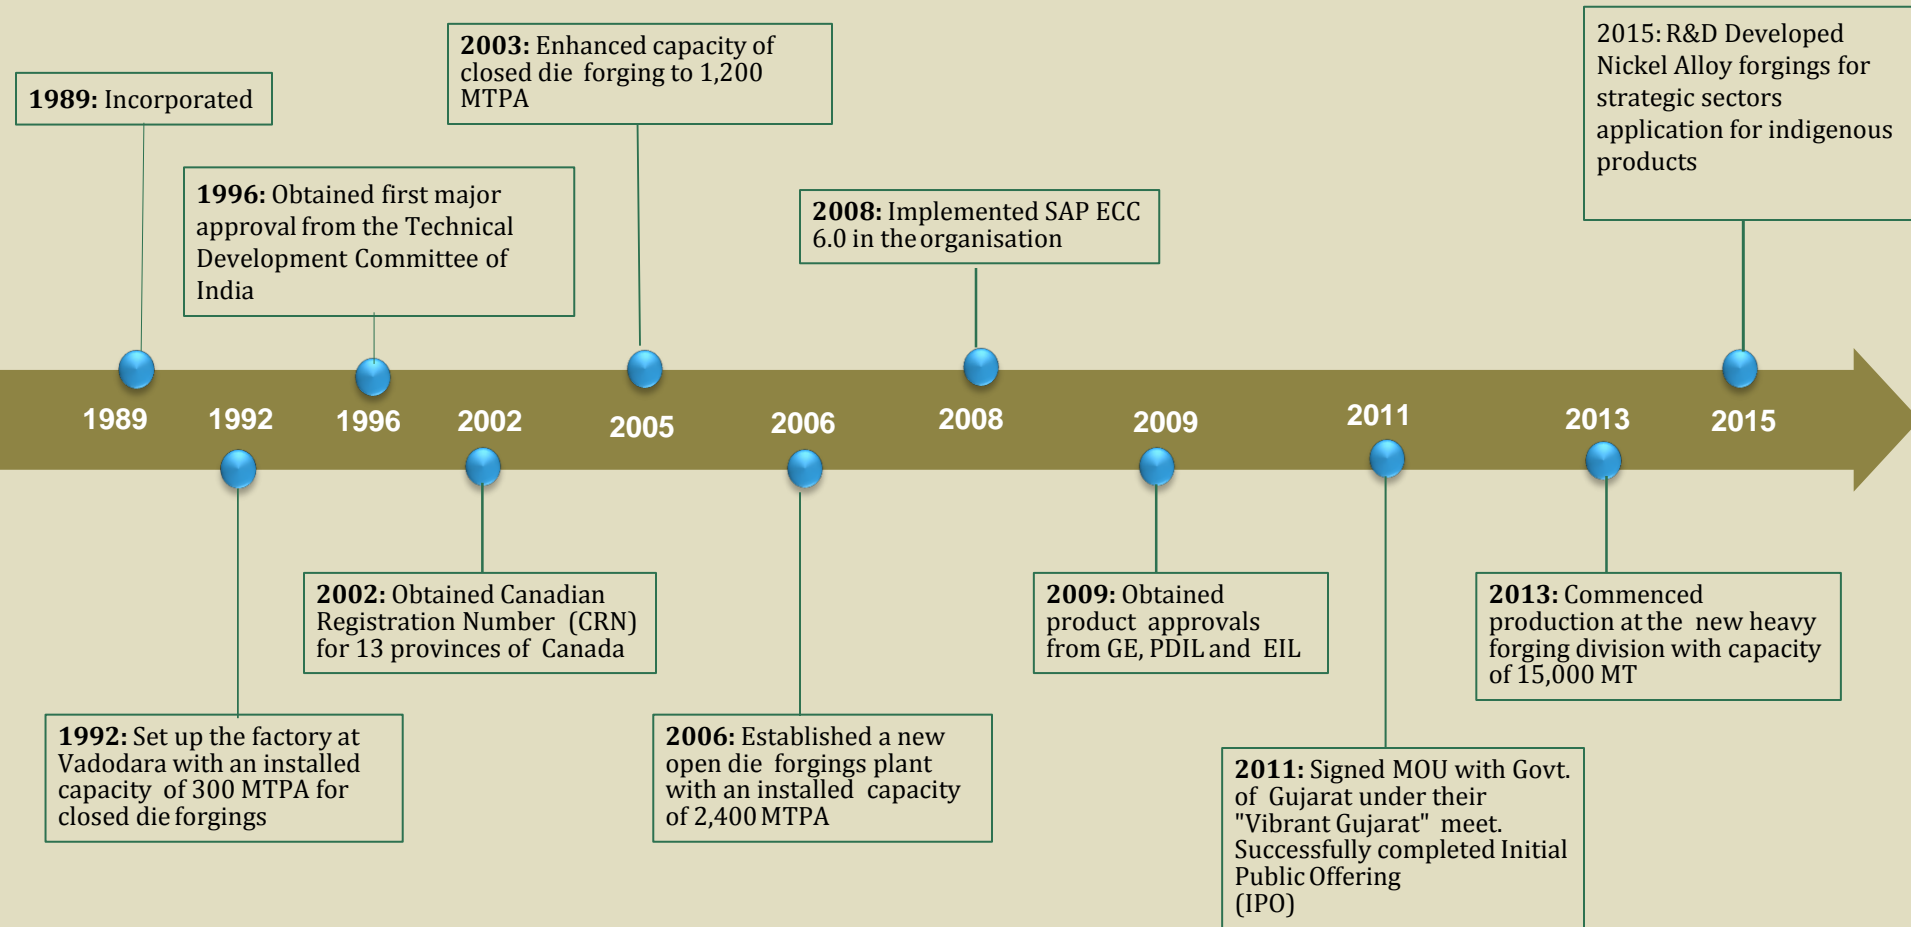

International presence with clients across 20 countries

FY12-FY16 Revenue CAGR: 6.1%
FY12-FY16 EBITDA CAGR: 10%

Company evolution

SANGHVI
FORGING & ENGINEERING LTD.

Our business strategy

7

High-end complex customized forgings - better profitability

- Focus on 4MT to 40 MT single piece, value add forged components
- Upsell to existing customer base
- Improve utilization at new heavy forging plant from 25% to 70%

Building product approval pipeline for order book visibility

- Received over 80 product approvals of which 35 for heavy forging since 2014
- Approval process of anywhere from 6 months to 2 years depending upon product complexity and client

Import substitution - leverage price differential

- 80 -90% of forging components in non-auto are currently imported
- Import duty of 10-12%
- Reduce lead time for customers from 6-8 months to 4 months

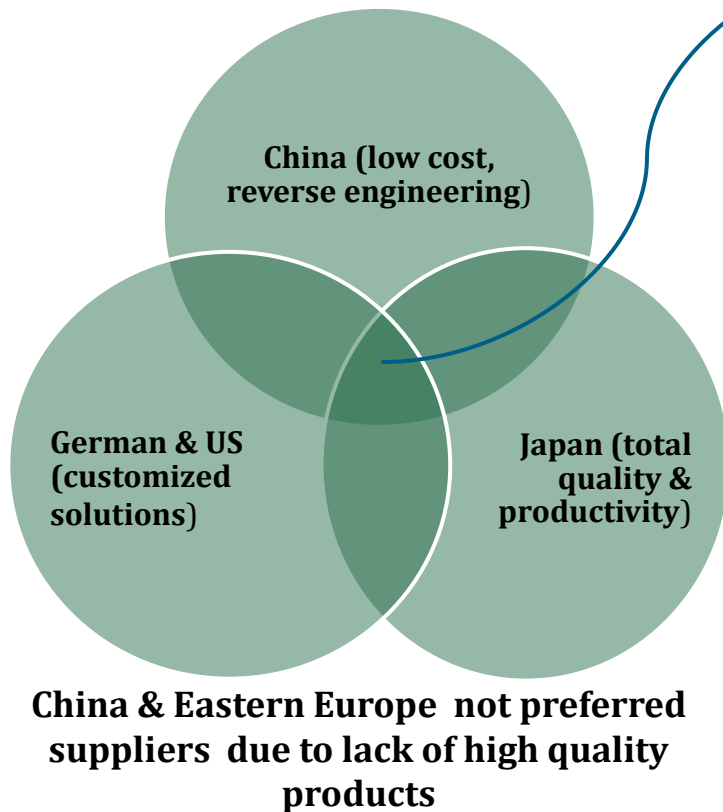

Export focus

- Focusing on Middle-East oil & gas market
- Warehouse in Netherlands to supply European customers
- Selling agents in key regions

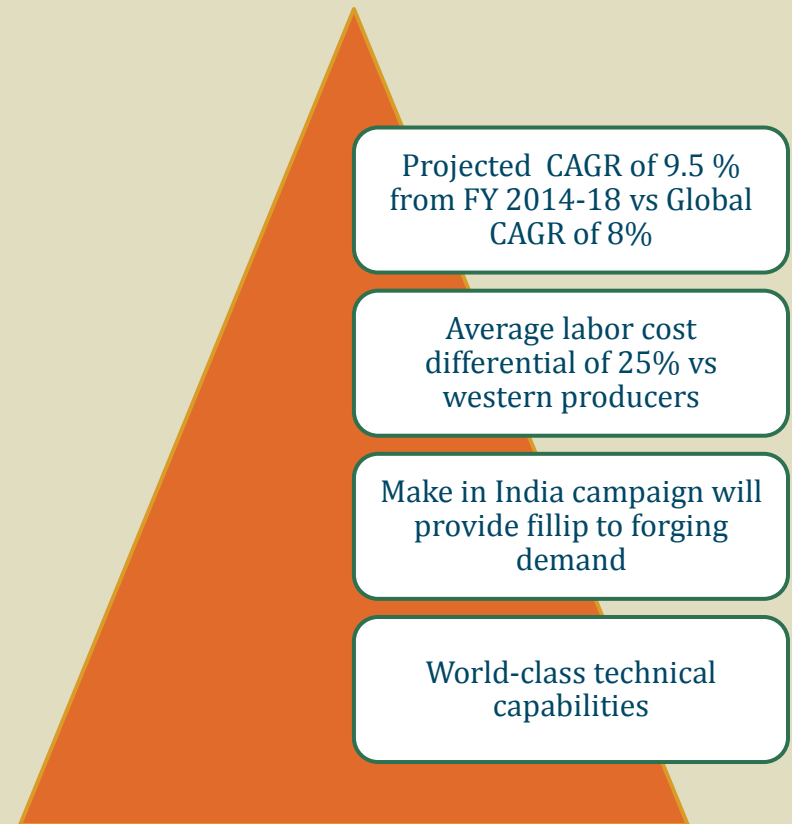

Indian forging industry tactically positioned with low cost and high technical capabilities

8

Global Forging Scenario

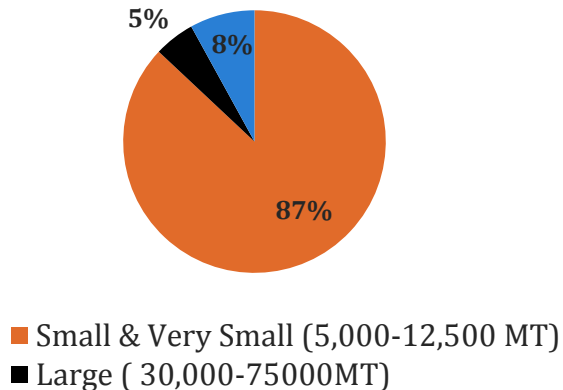

Indian Forging Advantages

Fragmented market; steady growth

9

Industry by Capacity

Production (MMT)

Industry by customer segments

Improved Capacity Utilization

Industry peer comparison

10

Sanghvi Forging is securely placed in the industry vis-à-vis its peers-

- World class equipment
- Customized forging capabilities
- Growing kitty of approvals along with spare capacity

FY16	Sanghvi Forgings	Bharat Forge	MM Forgings	RK Forgings	Mahindra CIE
Capacity(MT)	18,600	5,60,000	45,000	1,50,000	42,000
Sector	Non-Auto	Auto/Non-Auto	Auto/Non Auto	Auto/Non Auto	Auto
Capacity Utilization	Old Plant -65%, New Plant -25%	62.60%	80%	80%	65%
Operating Margins	22.95%	18.48%	22.44%	19.70%	7.85%

Source: Co. Annual Reports

Why invest in us

11

▶ Value added forged products

- ▶ Playing a niche – open die heavy forging for non-auto segment
- ▶ Supplying critical components for Oil & Gas, Defence and Power sectors

▶ Increasing order book size

- ▶ Growing end-markets
- ▶ Make in India initiative

▶ Improving Fundamentals

- ▶ Product approvals → order book
- ▶ High growth potential

Heavy Forging for non-auto – a niche

12

- In non-auto sector, **heavy forgings** from 4 MT to 40 MT is a specialised segment → **higher margin**
- Heavy forging requires **track record and expertise** to gain product approvals → **limits competition**
- Competition is primarily from **higher priced imports** with long lead times → **substitution is ongoing**

	Market share	Pricing power	Expertise	Competition	Gross margin	Business model
Auto	60%	Low	Standard	High	30-35%	Repeat orders
Non-Auto	40%	Higher	High	Low	45-50%	Project+ repeat orders

Supplying critical components for Oil & Gas, Defence and Power Sectors

13

Sector	Oil & Gas Chemical, Fertiliser	Power Hydro, Wind, Thermal, Nuclear	Defence Aerospace, Ordnance
	Products	Products	Products
	Key Clients	Key Clients	Key Clients
	Flanges, Valve Bodies Casing spool. BOP, Fluid Ends, Nozzles, Drill Collar, Tube sheet, Shell	Shaft Rotor, Coupling, Thrust Block, Pelton Runner, Generator Shaft	Landing Gear, Nozzle, Armour Plate, Gun Barrel, Shaft, Drive shaft, Propeller, Rudder, Propeller ach block
	HP, Bharat Petroleum, ONGC, Indian Oil, Kuwait Refinery, Technimount, Samsung, Godrej etc.	Voith, Andritz, Weg, NPCIL, IGCAR, TDPS, etc.	DCNS France, Mazagaon dockyards, DRDO, DMRL, ISRO, etc.

Growing end markets...

14

Power

- Around 293 global and domestic companies will generate 266 GW of solar, wind, hydel and biomass-based power in India over the next 10 years
- The initiative would entail an investment of about US\$ 310–350 billion
- Share of renewable in India's electricity demand to rise from 4% currently to 13% by 2022
- India to double its nuclear power generation capacity to more than 10,000 MW over the next five years
- Nuclear Power Plant and Advanced Ultra Super critical Power Projects will require Large ber of critical Forgings

Coal / Lignite Based Installed Capacity (GW)

Wind based Installed Capacity (GW)

Nuclear based Installed Capacity (GW)

Small Hydro Based Installed Capacity (GW)

Source: BNP Paribas

Growing end markets...

15

Oil and Gas

- ONGC developing offshore projects in Mumbai and eastern offshore fields
- ~1000 kbd refining capacity to be added till 2020
- India's oil demand expected to grow at a CAGR of 3.6% to 458 (MTOE) by 2040
- Gas production expected to touch 90 (BCM) by 2040, natural gas demand to grow at a CAGR of 4.6 % to touch 149 MTOE.
- 22 % of the country's sedimentary basins have been explored, series of large deep water blocks untouched.
- Government awarded 247 total blocks over the last 13 years, only 16 of the blocks have been developed.
- New projects expected in Middle East region

Source: BNP Paribas

* Includes figures for Reliance Jio, Estimates for major Indian upstream companies

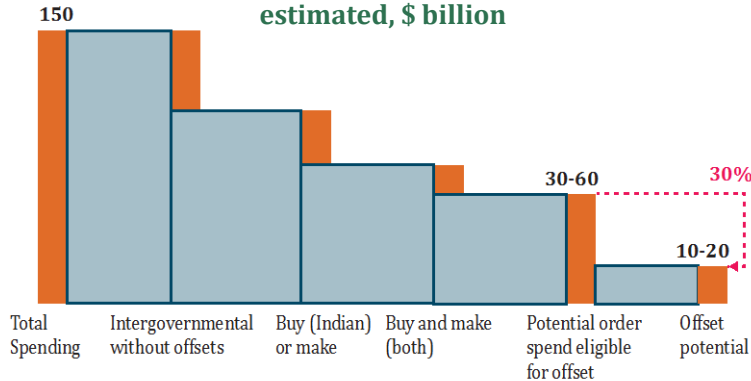

Growing end markets

16

Defence

- Half of \$620 bn India's defence spend from 2014-2020 on capex
- Thrust on make in India & Import Substitution
- Min 30% defence offset obligation requirement
- Compulsory industrial licensing for most of the components and raw materials used in defense production has been scrapped
 - *This means such components or raw materials required in castings, forgings, production machinery, testing equipment have been taken out of the purview of industrial licensing.*
- Indian private sector has also been allowed to receive maintenance transfer of technology (MToT) in 'Buy (Global)' cases

Defense spending eligible for offsets through 2017, estimated, \$ billion

India defense budget ('000 INR Crore)

Make in India Initiative – A big push

17

Make in India initiative will position India as a global manufacturing hub by encouraging multiple new initiatives, promoting foreign direct investment, implementing intellectual property rights and developing the manufacturing sector

Defense

- **Contractual offset** obligations worth approximately **4.5\$ Bn**
- **60% of defense** related equipment are met by imports which offer a huge opportunity for **import substitution**
- Defense allocation in the Union budget is approx **\$35 Bn**, **1/3rd** of which would be spent on **capital acquisitions**.

Oil & Gas

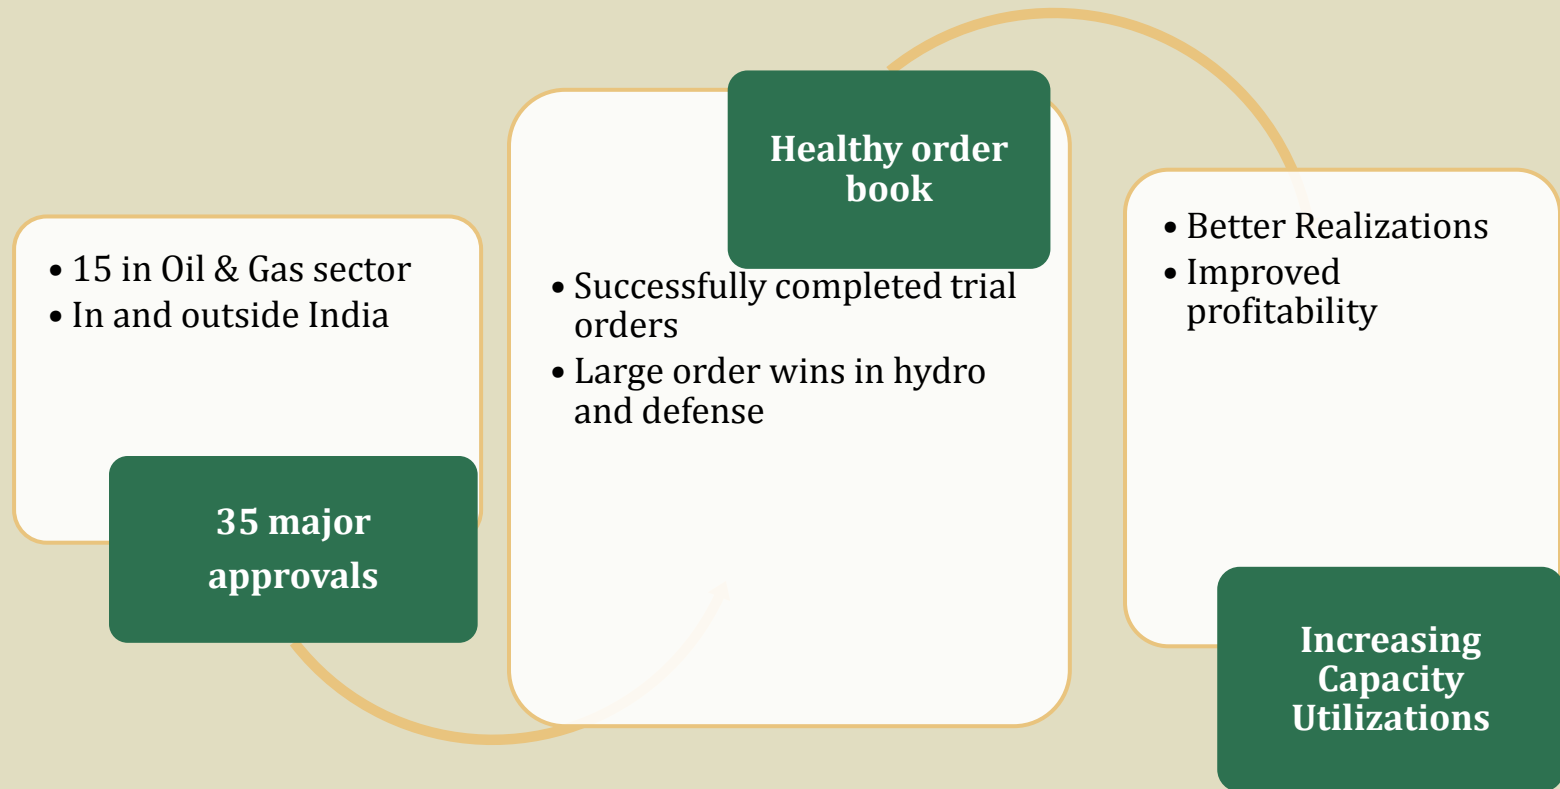

- 60% of the prognosticated reserves of **28,000 MMT** are yet to be harnessed
- Investment opportunities are in **upstream, gas pipeline, city gas distribution network**, LNG terminal, petrochemical & refinery
- Completion of national gas grid by construction of another **15,000 km of gas pipeline network**,

Power

- Indian Govt. has a target of adding **175 GW** of **renewable energy** by 2022
- Small hydro has installed capacity of **8.062 GW** with potential of **22.5 GW**
- Govt. of India has taken initiatives to set up **Ultra Mega Power Projects** of **4000 MW capacity**

Improving fundamentals

18

Gaining approvals, growing order book

19

- Order book at end of Q2 FY17 is at its highest level
- Well balanced portfolio with project-based and repeat, short-lead time orders

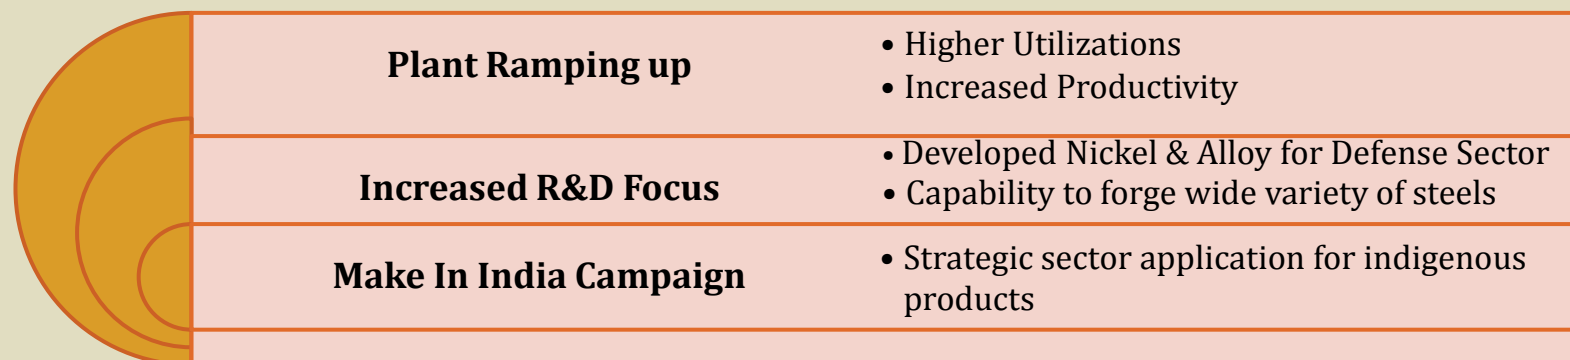

Approvals by Sector

- Secured 35 new approvals for heavy forging since 2014
- Approvals a precursor to higher order book
- Approvals evenly split across key end-markets

Potential to become a world class player

20

Our company with its world class equipment, state of art technology coupled with an improving global scenario is poised to attain a strong position in the Global Forging Market
