- First company in the world, which launched –
 - Lipaglyn® (Saroglitazar in Q2 FY 14), the first NCE discovered and developed by an Indian company
 - Exemptia® (Q3 FY 15), world’s first biosimilar of Adalimumab, the world’s largest selling therapy

Market size*	: Rs. 980 bn+
Market growth*	: 13%
Zydus size**	: Rs. 41 bn+
Market Share**	: 4.25%
Zydus growth**	: 12%

Key therapies : ~66% of total sales#

CVS = Cardiovasculars
 GI = Gastro Intestinals
 Respi = Respiratory
 FHC = Female Healthcare
 Derma = Dermatology
 Als = Anti Infectives
 Neutra = Neutraceuticals
 Neuro = Neurologicals

Latin America formulations

Aspirations : To establish strong base with aggressive product launches

Brazil

Mkt. Size* :
~ **BR\$ 78 bn.**
Mkt. Gr. : ~ **14%**

- Presence in branded generics and generic generics segments with a continued focus on brand building initiatives
- Robust product pipeline from India - 95 filings, 40 approvals
- Focused segments (Branded) – female healthcare, hepatology, CNS, CVS, Nutraceuticals and Pain Mgt.
- Product launches : 25+ branded, 20+ generic generics

Mexico

Mkt. Size* :
~ **US\$ 9 bn.**
Mkt. Gr. : ~ **-11%**

- Focus therapy area (Branded) – CNS
- Building product pipeline from India – 40+ filings and 35+ approvals so far
- Commenced commercial operations in 2013 with launch of first product from India
- Launched 16 products in the market so far.

In overall Latin America :

Zydus Size** :
Rs. 2,177 mn
Zydus growth** : **24% in constant currency**

Emerging Markets formulations

Market size* : ~ \$ 13 bn
Market growth* : ~ 12-13%
Zydus size** : Rs. 4,760 mn
Zydus growth** : 17%

Aspirations

- To strengthen the position in different markets of Asia and Africa

APIs

Zydus Size *:
Rs. 3,647 mn
Zydus Gr. :-**2%**

Aspirations : To be a 'reliable' service provider to customers

- Backward integration capabilities to meet captive API requirements
- Operations in India, US and select markets of Europe, Latin America, Asia Pacific and Middle East regions
- Continuous endeavour to improve service levels by improving cost competitiveness and continuous process improvement

Joint Ventures and Alliances – leveraging strengths

Aspirations : Value creation through win-win alliances and be a partner of choice

Zydus Takeda JV

- State-of-the-art mfg. facility for APIs of Takeda
- Commissioned the expanded facility to manufacture complex high-end APIs
- Commercial supply of 10 products (incl. 2 for validation)

Zydus Hospira JV

- State-of-the-art cytotoxic facility approved by leading authorities like MHRA, USFDA, TGA, Health Canada
- Commercial supply of 10 products for EU market and 7 products for US market.

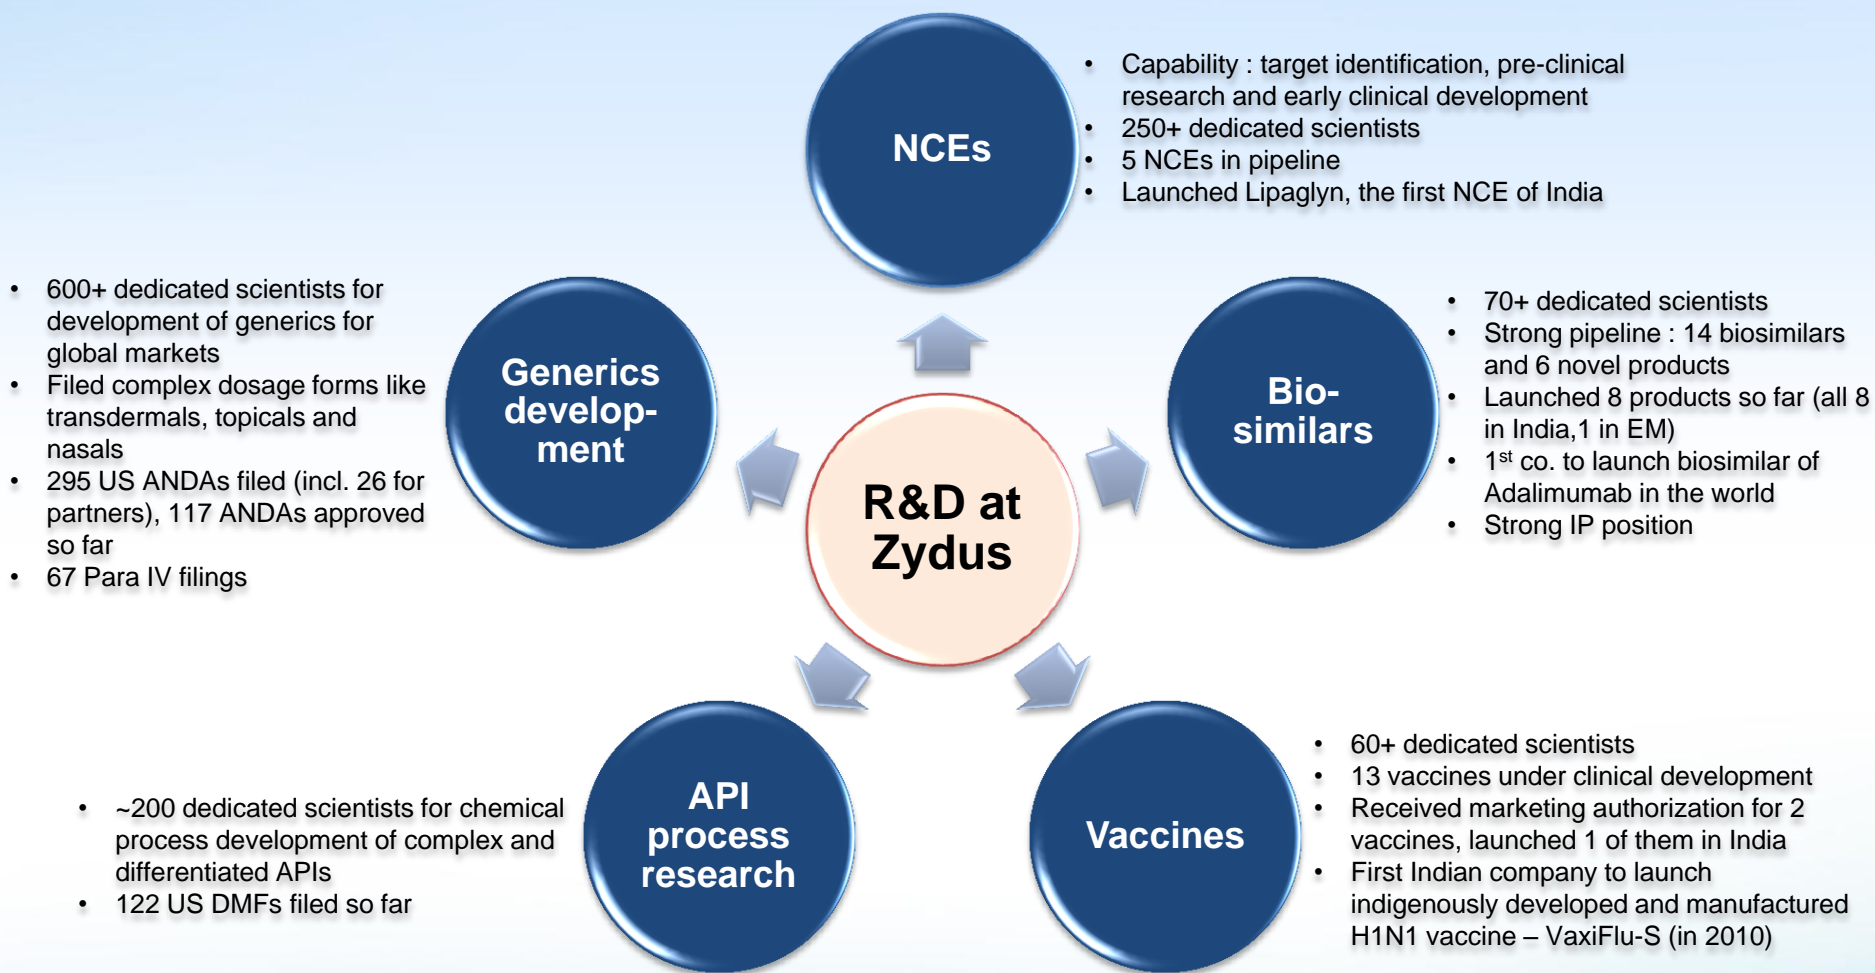

Bayer Zydus JV

- Operates in female healthcare, metabolic disorders, diagnostic imaging, CVS, diabetes and oncology segments in India
- Leveraging strengths of Bayer's optimised product portfolio and Zydus' marketing and distribution capabilities
- JV scope covers launch of innovator products of Bayer

Alliances with other partners

- 26 ANDAs filed for various partners, 14 approved, 11 commercialised.
- Received the first NDA approval from US FDA which was filed on behalf of a partner.
- Commercial supply of 14 products so far under the out-licensing deal with Abbott

Strong focus on R&D

Biosimilars and Vaccines – emerging businesses

Aspirations : Leverage technological edge to unlock substantial value and create pillars for future growth.

Strengths to be leveraged

Biosimilars

- Dedicated facilities for bulk and finished formulations
- 70+ experienced scientists
- Strong pipeline: 14 biosimilars and 6 novel products
- Strong IP position either through own patent or non-infringing processes

Vaccines

- Dedicated R&D and mfg. facilities
- 60+ experienced scientists
- 13 vaccines under different stages of development
- Received MA for 2 vaccines in India, 4 vaccines submitted for MA

Biosimilar pipeline

No	Product	Indication	Cloning	Process Devp.	Pre-Clinical Devp.	Regulatory Permission	Clinical Devp.	Mktg. Authorisation

Total facilities – 30 (Formulations – 16, APIs – 4, Vaccines – 3, Biosimilars – 3, Consumer – 2, Animal Health – 2)

Total facilities inspected by US FDA – 10 (Formulations – 8, APIs – 2)

Capabilities across delivery platforms – Oral Solids, Controlled Substances, Injectables, Topicals, Lyophilized Injectable, Sprays and Transdermals

Key strategies for ZyNext journey

1

Strong execution focus for the U.S. market; drive growth with continuous focus on product launches

2

Focus on difficult to develop and manufacture and specialty products to improve margins

3

In India, focus on high growth Therapeutic Areas, outperform the domestic market and improve operational efficiency through increasing sales force productivity and technological advancement

4

Leverage strong platform of biosimilars and vaccines business

5

Select inorganic growth to expand in India, U.S. and Emerging Markets, acquire capability platforms and move forward in value chain on specialty and branded business

Thank You.
