## CHARATERICTICS OF STATIONERY INDUSTRY IN INDIA

<b>CATEGORY</b>	Stationery industry is categorized into Paper and Non-Paper Stationery
<b>TYPE</b>	Paper Stationery market is highly fragmented market with more than 85% still dominated by the un-organized players. Non paper is more well established for branded players with approx. 60% dominated by them.
<b>MARKET SIZE</b>	Total Market Size of Paper stationery is anticipated at INR 100 Billion and that of Non-Paper stationery is INR 50 Billion. Both are growing at the rate of 15% per annum.
<b>MARGINS AND PRICING</b>	There is not much value addition a manufacturer can do in in paper products. Hence, the margins are very thin and pricing is always very competitive.
<b>MARKET SHARE</b>	Organized players have been gaining market share from un-organized players over the past few years. Navneet's market share may be around 2% in scholastic stationery and hence a large scope to capture the market

## Q4 FY16 PERFORMANCE AT A GLANCE

**Publication Revenue** grew by 15.3% compared to the corresponding quarter of FY15.

Major reasons are:

1. Grafalco (CBSE) Sales increased on account of better promotion of the product and sales and marketing efforts
2. Children & General book Sales increased on account of change in Trade Offer Period

**Stationery Revenue** dropped by 5.3% compared to the corresponding quarter of FY15.

Change in Payment Policy & delay in production resulted in to heavy backlog of orders which remain unbilled till end of the year.
