

Oil & Gas Exploration Production & Services

29th July, 2016

To,
Corporate Relations Department
Bombay Stock Exchange Limited
2nd Floor, P.J. Towers,
Dalal Street,
Mumbai – 400 001

Company Code: 532760

Dear Sir/Madam,

To,
Corporate Relations Department
National Stock Exchange of India Limited
Exchange Plaza,
Plot No, C/1, G-Block,
Bandra Kurla Complex,
Bandra (E),
Mumbai - 400051

Company Code: DEEPIND

Sub.: Investors/ Analysts Presentation - 1st Quarter ended on 30th June, 2016.

With Reference to regulation 30 of SEBI (LODR) Regulation, 2015 , please find herewith attached presentation made on financial results of the company for the $1^{\rm st}$ quarter ended on 30-06-2016.

Please take note of the same.

Thanking You.

Yours faithfully,

For, DEEP INDUSTRIES LIMITED

Akshit Soni

Company Secretary

Safe Harbor

This presentation and the accompanying slides (the "Presentation"), which have been prepared by Deep Industries Ltd (the "Company"), have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

This presentation contains certain forward looking statements concerning the Company's future business prospects and business profitability, which are subject to a number of risks and uncertainties and the actual results could materially differ from those in such forward looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, our ability to manage growth, competition (both domestic and international), economic growth in India and abroad, ability to attract and retain highly skilled professionals, time and cost over runs on contracts, our ability to manage our international operations, government policies and actions regulations, interest and other fiscal costs generally prevailing in the economy. The Company does not undertake to make any announcement in case any of these forward looking statements become materially incorrect in future or update any forward looking statements made from time to time by or on behalf of the Company.

Company at a Glance

Deep Industries

Focused on Deploying Fuel Efficient, latest Equipment in the Oil and GAS Industry with a Vision to become an Integrated Solution Provider with a focus on Domestic and International Market

- » Diversified Oil-Gas company with presence in Oil Field Services and Exploration & Production
- » More than 2 decades of experience in Oil-Gas with large clients in Public and Private space

- » Long term association with US based vendors providing competitive edge
- Ist Mover advantage in Gas Compression and De – hydration segment in India
- » Well experienced and technically sound team with vast experience in the industry
- » Care A-/Crisil A- and Care A2+/Crisil A2+rated for Long term & Short term bank loans

Key Milestones

2016: Awarded contract worth INR 2,468 Mn in Gas Dehydration Business for Rajamundry Phase II

2015: Awarded contract worth INR 1,750 Mn for two Drilling Rig Services.

2015: Awarded contracts worth INR 2,780 Mn in Gas Dehydration Business

2014: Award of 25% stake in North Karanpura CBM Block

2013: Award of Largest onshore workover rig contract from Cairn India ltd

2011: Awarded India's Largest Gas Compression Contract at Rajamundary by ONGC, Kariakal by

HOEC

2011: Awarded 1 CBM Block in Indonesia: Winner of 3 O&G Blocks under NELP IX

2006 2010

2010: Natural Gas Compression Contract at Borohola by ONGC; and Gamnewala by ONGC; ISO 14001:2004 & BS OHSAS 18001:2007 Certification

2008: Contract awarded for Natural Gas Compression at Balol by ONGC and Kemalapuram by CPCL; Awarded 1 Onshore O&G block under NELP VII

2007: Awarded 3 marginal fields by ONGC

2006: Awarded 2 CBM blocks under CBM III and Initial Public Offer ("IPO")

Entry into E&P

2005: Purchased one 100 Ton Cardwell KB 500 S Axle Mobile Rig

Registered with International Association of Drilling Contractors ("IADC") & ISO 9001-2000 certification

2004: Sales Representation Agreement with reputed and experienced compressor packagers in USA

2001: Gas compression Equipment Lease and Service Agreement with Hanover, Asia Inc. USA

1997: Contract awarded for Natural Gas Compression by ONGC

1994: Contract awarded for Air Compression by ONGC; Strategic shift from providing

Crude Oil/Liquid transport services to providing Air/Gas compression services

1991: Commenced activities of providing liquid transportation services

Management Team

Paras Savla
Chairman & MD

First generation entrepreneur with over 25 years experience in Oil & Gas industry. Nominated as a finalist for the CNBC 14th ABLA, in Oct 15

Rupesh Savla Managing Director

MBA from Bentley College, USA, has over 20 years of experience in execution of projects in the oil and gas sector

Dharen Savla

Executive Director

MBA from Swinburne University of Technology, Australia, has over 13 years of experience, is instrumental in the Work Over Rig and Drilling Rig Activities

Prem Sawhney
ED & CEO for E&P

27 years of experience in exploration and development of conventional & unconventional hydro carbon resources. Past assignments include ONGC, Essar & Reliance Industries

A.K. Singhania Sr. Advisor

B.E(Chem), MBA with more than 40 years of experience Served as GM of ONGC with specialisation in several areas of Oil and Gas operations

N.S. Ghai

Sr. Advisor

Holder of certificate in drilling from International Well Control Forum and has over 46 years of experience in drilling for Oil & Gas and CBM II conventional wells in ONGC, Reliance Industries and Essar

Vipul Singhal

Sr. Advisor

Has experience of 12+ years in planning, drilling and completions. He has worked as Drilling Engineer in Reliance Industries Limited and supervised operations

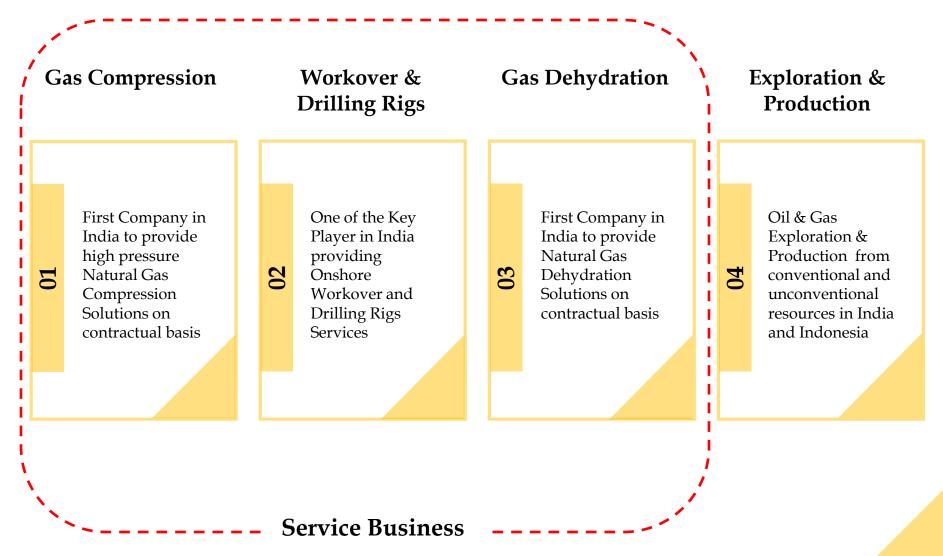

Rohan Shah

CFO

Holds CA degree from The Institute of Chartered Accounts of India and holds a B.Com degree from Gujarat University. He has more than 10 years of post qualification experience

Well Diversified Portfolio

Long Term Client Relationships

Service Business

Customized Solution Provider in Oil & Gas Value Chain

Gas Compression			Workover & Drilling Rigs	Gas Dehydration		
	Customised End to End solutions on turnkey basis Equipment + Installation + O&M		Solution provider for Drilling and Workover jobs		Pioneer in Onshore Gas Dehydration Solutions	
0.1	Gas Gathering Stations, Gas Lift, Gas Power Plants, National Grids and LNG Terminals	02	Oil Producers	03	Onshore Exploration Companies	

Leadership in Gas Compression Business...

We are the first Company in India to provide high pressure Natural Gas Compression Solutions

High Visibility

Contract period for Gas Compression ranges from 3 to 5 years

Market Leader

We are the largest private sector company in this segment in India and command majority market share

Technology Tie-Ups

Tie-ups with reputed and experienced compressor packagers in USA for the supply of Gas Compression Packages

Turnkey Contracts

Compression contracts on turnkey basis. Includes supply of Equipment, Installation, Commissioning, Operation & Maintenance

Technical Partnership

Active technical backup with International Companies

56 Natural Gas Compressors ranging from 200 HP to 2,000 HP Compression capability of above 3.5 MMSCMD of natural gas daily

...In A Growing Market with Varied Applications...

Gas Transportation

Reduce Loss of Evaporation

Due to heat entering the cryogenic tank during storage and transportation, a part of the LNG in the tank continuously evaporates creating a gas called Boil-Off Gas (BOG). We compress the said Natural Gas to ensure recovery of the same.

Artificial Gas Lift

Power Generation

In gas-turbine power plants, Natural Gas is used as fuel to drive turbines. These turbines are in turn connected to generators which actually produce the electricity. Gas Compression is used to boost pressure of Natural Gas which is used as fuel.

Distribution

During transportation of Gas through pipeline, there is pressure loss. Compression of Natural Gas is required to boost the pressure to ensure that Natural Gas flows through pipeline

Boil of Gas

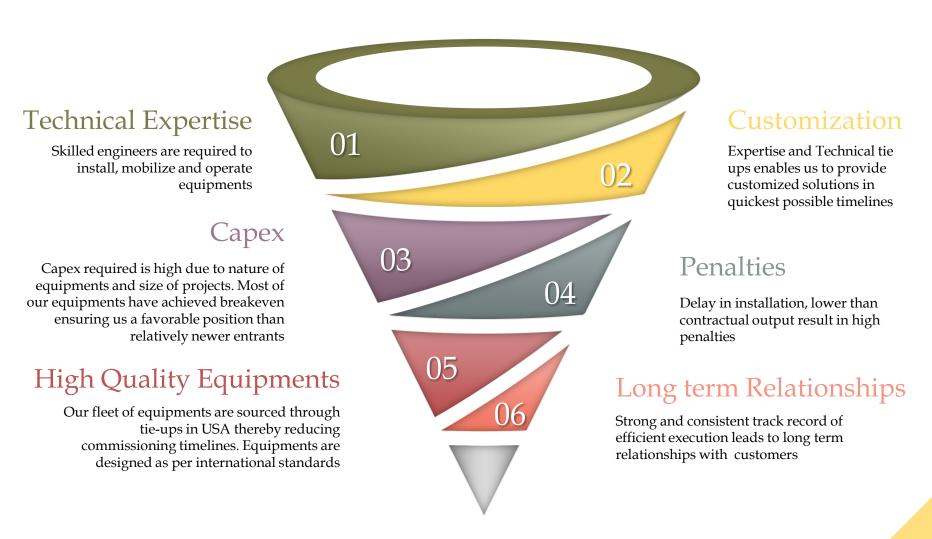

Enhanced Oil Recovery

Artificial gas lift is used so that Oil production from Well can be enhanced. Can be used in mature, depleted fields, where the reservoir can no longer produce under its natural energy. Gas compression is used to inject gas into Wells.

Gas Based Power Plant

...With High Entry Barriers

We are a Preferred End to End Solution Provider

Capitalising on Technology & Innovation

Leading Solution provider for Coring, Air Drilling, Work over and Drilling Rig Services to Oil-Gas companies in India

Assets & Capacities

- Owns & Operates 3 Drilling and 9 Workover Rigs with various capacities
- Rigs are capable of drilling upto 3,500 m and perform workover operations in the depth range of 2,500 m to 4,200 m

Clients

Successfully served long term contracts with Companies like ONGC GSPC OIL Niko Selan, RIL, Essar & Cairn since last decade

Capabilities

- Build a diversified team which has required skill set to carry out planning and execution of large size projects
- Successfully drilled directional wells in Essar Ranigani CBM Block

Expertise

- Provided complete solutions related to Exploration & Production hydrocarbons
- Developed cost effective solutions which result in substantial savings to Clients

Focus

 Focus will be to expand in Onshore Drilling Business as there is a vacuum in the industry with few experienced players exiting the business

Growth Drivers

India has a stated policy of increasing energy reserves where the PSU's contribute significantly.

Onshore Drilling Opportunity

Investments in Onshore drilling is low compared to offshore

Benign Raw Material Prices

Low crude prices, soft metal prices and availability of skilled labor improves margin profile significantly

Low Competition

Competition is low with the exit of few key players making the segment an attractive play for serious long term contenders

Leveraging Technical Capabilities to Grab Opportunities

Blast at the GAIL site increased scrutiny on the processes followed by the producers and transporters of Gas and resulted in regulations being made more stringent

This necessitated Gas Producers to get a dehydration units installed at the site before selling Gas through pipeline, as needed by the stricter implementation of regulations

We are one of the few companies in India who qualifies to provide Gas Dehydration on contractual basis based on our technical tie-up with experienced companies and our experience of quantum of Gas compressed

We have tie-ups with reputed and experienced Gas Dehydration packagers in USA for the supply of Gas Dehydration Packages

Contracts for installation units

ONGC Rajahmundry:

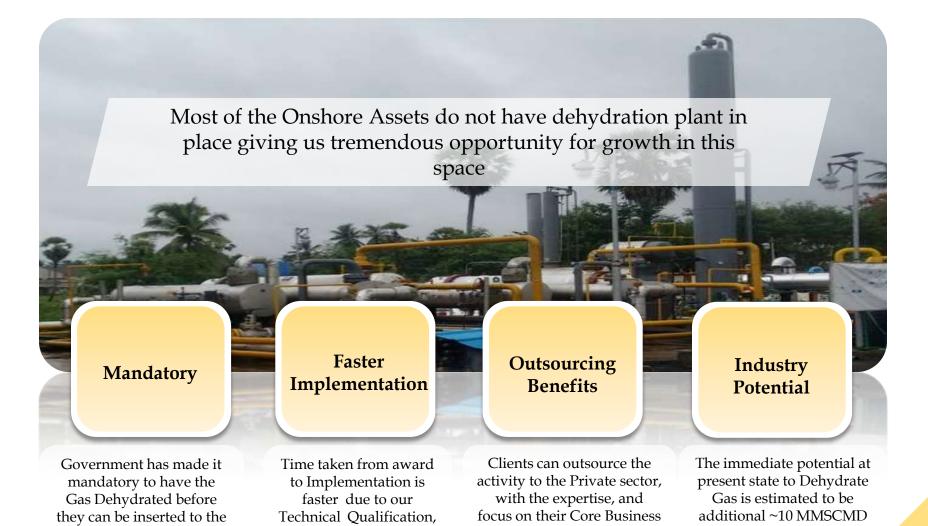

Phase I - 5 sites for 1.6 MMSCMD has been commissioned Phase II - 4 sites for 1.5 MMSCMD has been awarded and is under mobilization

ONGC Agartala - 2 sited for 1 MMSCMD has been recently awarded

Immense Opportunity due to Government Regulation

Expertise and Tie-ups

Gas pipelines

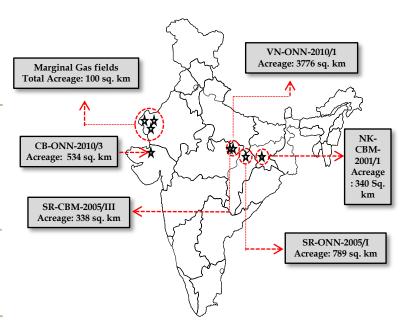

Exploration & Production Portfolio

Diversified into Oil & Gas exploration in 2006-07 seeing the opportunity in the space and unconventional energy being the future and thus is in the league of producers, service providers and technology providers

Out of 9 blocks - 3 blocks are in development phase, one in appraisal phase and rest in exploration phase. Additionally, one more CBM block is being acquired by the company at the subsidiary company level

The total acreage operated by the company is over 6,865 sq km with prognosticated hydrocarbon resources of over 1,147 Million Barrels of Oil Equivalent (MMBOe).

Total Acreage holding:

Reservoir Type	India	Indonesia	Total	
Oil & Gas	5,199 sq. km	-	5,199 sq. km	
СВМ	670 sq. km	996 sq. km	1,666 sq. km	

Business Potential

Growing Market Potential

Gas Compression

Gas demand is expected to increase by 5.4% p.a over 2007-30 as per IEA. Out of the total Gas Compression Business in India currently only 20% is being done through Outsourcing Gas Compression Model

Gas Dehydration

Government has made it mandatory to have the Gas dehydrated before they can be inserted to the gas pipelines We are one of the few qualifying companies to do it on contractual basis

Workover & Drilling Rigs

There lies a vacuum in onshore rigs business with few experienced players exiting the market

The Company has been aggressively growing its Rigs business

Exploration and Production

North Karanpura CBM block is under development phase and is expected to start Gas Production by end of FY18

Opportunities Just Ahead

Market leader in Gas Compression and Dehydration business on a Contractual basis with majority market share in compression business

Only Company in India able to provide wide range of Compression and Dehydration on a short time line and on customisation basis

Best Technical and Engineering Team for Gas Compression, Onshore Rigs, Gas Dehydration Business and CBM

56 Gas Compressors of over 50,000 HP and compressing above 3.5 MMSCMD, 9 Work Over Rigs, 3 Drilling Rig and 9 dehydration units with 3.1 MMSCMD capacity

Strong Relationships with almost all the Producers in India

Increase market share in Gas Compression Business

Leverage our experience and track record in the Gas Compression to get new contracts for Gas Dehydration

Focus on Margin Expansion along with the Growth in the respective businesses

Expansion of assets base to cater to new opportunities in all three segments of Oil and Gas Services backed by order book

Capitalize on increased demand on exit of one of the large players, primarily in Onshore Drilling Rig space
