Management Discussion and Analysis Report

A] INDUSTRY STRUCTURE AND DEVELOPMENTS

The Packaged Drinking Water Bottle Market in India is anticipating a CAGR of approx 20.75% upto March 2023. Increasing health concerns, and unavailability of clean drinking water have led to the growth of the bottled water market in India.

In India, packaged drinking water bottles are sold in four main types of Stock Keeping Units (SKUs) - one-liter bottles, two-liter bottles, 500 ML bottles, 200 ML bottles, pouches, and barrels of 15-20 liters. Among the different SKUs, one-liter bottles have acquired the largest market share of 42% in 2023, followed by 500 milliliter bottles and 250 milliliter bottles.

The packaged bottled drinking water has become popular in India. Different kinds of flavored water containing fruit essence and artificial sweeteners like soda, cola, juice, and other sweetened beverages often act as a substitute to plain bottled water. At times consumers prefer flavored bottled water to normal bottled water. This shift is developing an opportunity to expand the product line of bottled water manufacturers in India.

B] OPPORTUNITIES & THREATS

Opportunities: -

- Increasing market trends
- Increasing health awareness
- Government Policies
- Low production cost
- Surging Tourism

Threats:

In recent years, a number of companies selling fake branded bottled water have cropped up in the market. These players do not maintain quality and hygiene standards, which in turn leads to health issues among consumers. As a result, consumers lose faith in bottled water, thus affecting the overall sales.

The PET are used for the packing of water in bottles is not recyclable which leads to the pollution and also is hazardous to environment.

C] SEGMENT WISE OR PRODUCT WISE PERFORMANCE

The company has discontinued the production in its paper division. Hence there is only one operating segment i.e. Packaged drinking water segment. The production and performance of said segment is mentioned in Boards' Report.

D] OUTLOOK

The organized sector for packaged water bottles is increasing with a CAGR of approx. 25 %. The market players in India have recently inclined towards institutional sales through partnership with airlines, movie theatres, and hotels. Such partnerships are eventually increasing the penetration of the product in the market, followed by rise in the overall sales volume in India

E] RISK & CONCERNS

Nearly 67% of the population resides in rural areas. However, the rate of penetration of bottled water is significantly low in these regions. This, as a result, hinders the growth of the market in India.

F] INTERNAL CONTYROL SYSTEMS AND THEIR ADEQUACY

The Company has adequate system of internal control to safeguard and protect from loss, unauthorized use or disposition of its assets. All the transactions are properly authorized, recorded and reported to the Management. The Company is following all the applicable Accounting Standards for properly maintaining the books of accounts and reporting financial statements.

The Company's management and Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report including Annexures to the Board's Report, Management Discussion and Analysis, Business Responsibility Report, Corporate Governance and Shareholder's Information.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to communicate the matter to those charged with governance as required under SA 720 'The Auditors responsibilities relating to other information'.

We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

The Company's Management and Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act and rules thereunder, as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatements, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Independent Auditors' Report

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatements, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement in the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, make it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the financial year ended March 31, 2023 are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

We have audited the internal financial controls over financial reporting of **Shree Rama News Print Limited** ("the Company") as of 31st March 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of Management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper Management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the statement of profit or loss.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

The Company depreciates its property, plant and equipment over the useful life in the manner prescribed in Schedule II to the Act, and management believe that useful life of assets are same as those prescribed in Schedule II to the Act, except for buildings, plant and machinery, vehicles and computers which based on an independent technical evaluation, is different from that prescribed in schedule II to the Act and the life ranges from 05 to 43 years.

The recoverable amount is the greater of the net selling price or their value in use, or value in use is arrived at by discounting the estimated future cash flows to their present value based on appropriate discount factor. Net selling price is the estimated selling price in the ordinary course of business, less estimated cost of completion and to make the sale. As per the assessment conducted by the Company at March 31, 2023, there were no indications that the fixed assets have suffered an impairment loss.

j. Taxation:

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statement. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax assets is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, only if, it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Notes

forming part of the financial statements for the year ended March 31, 2023

Current and deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

k. Inventories:

Inventories are valued at Lower of cost and Net Realizable Value. Goods-in-Transit are stated 'at cost'. Cost comprises all cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. The costs for the purpose of valuation are determined as under:

Finished goods and Stock-in-process	: Cost or Net Realisable Value whichever is lower
Raw materials & others	: Weighted Average Cost
Coal & Chemicals	: Weighted Average cost.
Stores & Spares	: Weighted Average cost

l. GST:

GST payable on finished goods is accounted for on clearance of goods. Input Tax Credit on Capital Goods, inputs and Services is accounted in accordance with the input tax credit rules as defined under the GST Act.

m. Investments:

The Company's management has made an irrevocable choice, on initial recognition, to present fair value gains and losses on equity investments in other comprehensive income and there is no subsequent reclassification, on sale or otherwise, of fair value gains and losses to the statement of profit and loss.

n. Research & Development Expenditure:

Revenue expenditure on research & development is charged to Statement of Profit & Loss account and capital expenditure is added to the cost of fixed assets in the year in which it is incurred.

o. Bad Debts / Advances:

p. Cash Flow Statement:

r. Provisions, Contingent Liabilities and Contingent Assets:

A provision is recognized when the Company has a present legal or constructive obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. These are reviewed at each balance sheet date and adjusted to reflect the current

Notes

best estimates. Contingent liabilities are not recognized but are disclosed in the notes to the Financial Statements. A contingent asset is not recognized but is disclosed when an inflow of economic benefits is probable.

s. Leases:

On 30 March 2019, the Ministry of Corporate Affairs notified Ind AS 116 - Leases. Ind AS 116, which substantially converges with IFRS 16 on leases, requires lessees to recognise all leases on the balance sheet, with a few exemptions. The standard is effective for annual periods beginning on or after 1 April 2019.

Transition: Company has implemented Ind as 116 in accordance with Para C8 (b) and (c)(ii) to value Lease Liability and Lease asset.

Company as a Lessee

Recognition: At the commencement date, right-of-use asset and a lease liability are recognized.

Measurement:

Right of Use Asset

At the commencement date, right-of-use asset us measured at cost.

The cost of the right-of-use asset shall comprise:

- (a) the amount of the initial measurement of the lease liability.
- (b) any lease payments made at or before the commencement date, less any lease incentives received.
- (c) any initial direct costs incurred by the lessee; and
- (d) an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories. The lessee incurs the obligation for those costs either at the commencement date or as a consequence of having used the underlying asset during a particular period.

Lease Liability:

The lease liability is measured at the present value of the lease payments that are not paid. The lease payments are discounted using the incremental borrowing rate of the Company.

At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- (a) fixed payments (including in-substance fixed payments), less any lease incentives receivable.
- (b) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date.
- (c) amounts expected to be payable by the lessee under residual value guarantees.
- (d) the exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and
- (e) payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

Short term lease

Company has not recognized operating lease accounting and not recognize lease assets and lease liabilities for leases with a lease term of 12 months or less (i.e., short-term leases).

Subsequent measurement & depreciation

Lessees accrete lease liability to reflect interest and reduce the liability to reflect lease payments made.

The depreciation requirements in Ind AS 16, Property, Plant and Equipment is applied, in depreciating the

Notes

forming part of the financial statements for the year ended March 31, 2023

right-of-use asset, subject to the requirements If the lease transfers ownership of the underlying asset to the lessee by the end of the lease term or if the cost of the right-of-use asset reflects that the lessee will exercise a purchase option, the lessee shall depreciate the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the lessee shall depreciate the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

Right-to-use assets are subject to impairment testing under IAS 36 Impairment of Assets.

t. Borrowings:

Borrowings are initially recognised at net of transaction costs incurred and measured at amortised cost.

The fair value of zero coupon optionally non-convertible debentures is determined using a base interest rate for other bank borrowing. This amount is recorded as a liability on an amortised cost basis until extinguishment on conversion or redemption of debentures. The remainder of the proceed is booked as other income.

The fair value of the liability portion of zero coupon optionally convertible debentures is determined using a market interest rate for an equivalent debenture. This amount is recorded as a liability on an amortised cost basis until extinguishment on conversion or redemption of debentures. The remainder of the proceed is attributable to the equity portion of the compound instrument. This is recognised and included in the shareholders' equity and is not subsequently remeasured.

u. Other Financial Assets:

The Company classifies its financial assets in the following measurement categories:

- (1) Those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit and Loss), and
- (2) Those measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

At initial recognition, the Company measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through the Profit and Loss are expensed in the Statement of Profit and Loss.

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

v. Non-current assets held for sale and discontinued operations:

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the noncurrent asset (or disposal group) is recognised at the date of de-recognition. Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale. Non-current assets classified as held for sale are presented separately from the other assets in the balance sheet.

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations. The results of discontinued operations are presented separately in the statement of profit and loss.

w. Employee Benefits:

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave that are not expected to be settled wholly within 12 months are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit and Loss.

(iii) Post-employment obligations

The Company operates the following post-employment schemes:

- (a) Defined benefit plans such as gratuity; and
- (b) Defined contribution plans such as provident fund & employees' state insurance.

Gratuity obligations:

The liability recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Defined Contribution Plans:

Defined Contribution Plans such as Provident Fund and Employees' State Insurance are charged to the Statement of Profit and Loss as incurred. The Company has no further payment obligations once the contributions have been paid.

x. Earnings Per Equity Share:

Basic earnings per equity share are computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

Notes

forming part of the financial statements for the year ended March 31, 2023

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

y. Contributed Equity:

Equity Shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

z. Critical Estimates and Judgements:

The preparation of financial statements requires the use of accounting estimates which by definition will seldom equal the actual results. Management also needs to exercise judgment in applying the accounting policies.

This note provides an overview of the areas that involved a higher degree of judgment or complexity, and items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgments is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

Fair value hierarchy

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments and mutual funds that have quoted price. The fair value of all equity instruments which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV and listed equity instruments are being valued at the closing prices on recognised stock exchange.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

Notes

forming part of the financial statements for the year ended March 31, 2023

a. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers. Credit risk arises from cash held with banks as well as credit exposure to clients, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors. The Company establishes an allowance for doubtful debts and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. An impairment analysis is performed at each reporting date on an individual basis for major customers. The Company also hold security deposits for outstanding trade receivables. The history of trade receivables shows a negligible provision for bad and doubtful debts.

b. Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due.

c. Market risk

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from adverse changes in market rates and prices (such as interest rates, foreign currency exchange rates and commodity prices) or in the price of market risk-sensitive instruments as a result of such adverse changes in market rates and prices. Market risk is attributable to all market risk-sensitive financial instruments and all short term and long-term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of its investments. Thus, the Company's exposure to market risk is a function of investing and borrowing activities.

Notes

Note - 36 : RECENT PRONOUNCEMENT TO IND AS

On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 1- Presentation of Financial Statements.

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general-purpose financial statements. The Company has evaluated the amendment and the impact of the amendment is insignificant in the financial statements.

Ind AS 8- Accounting Policies, Changes in Accounting Estimates and Errors.

This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Company does not expect this amendment to have any significant impact in its financial statements.

Notes

forming part of the financial statements for the year ended March 31, 2023

Ind AS 12- Income Taxes.

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Company has evaluated the amendment and there is no impact on its financial statement.
