MANAGEMENT DISCUSSION AND ANALYSIS

ECONOMIC OVERVIEW

Financial year 2022-23 witnessed a mixed operating environment as it had a healthy business outlook while at the same time faced challenges around commodity price fluctuations, rupee depreciation and accelerated inflation rates. In the backdrop of global challenges, India continued its strong growth with a rebound in private consumption and increase in government capital expenditure. During the year, India became the world's fifth largest economy and its GDP is estimated to grow at 6.8% in FY23 (IMF World Economic Outlook). India is expected to maintain leading growth in coming years. The consumer electrical and durables industry continues to perform well with demand expanding on the back of increasing penetration, urbanisation, electrification and higher share of spending for consumers.

The megatrends shaping the business landscape include consumers becoming more informed, demanding and aspirational. Internet of Things (IoT) and smart connected homes are on the rise with the younger population contributing to buying decisions in the home. There is a clear preference for brands of trust and reliability as well as those ensuring deep engagement with consumers using an omni-channel approach

INDUSTRY OVERVIEW

The Electronic and Refrigeration industry grew substantially, however a large portion predicated on rise of raw material prices. Increase in commodity costs was effectively passed on to the consumers, resulting in cost effectiveness and increase in margins. Shift from unorganised to organised and channel expansion helped the domestic business to register volume growth despite the inflationary deterrents.

Today, more than financial challenges, leading businesses face environmental and social risks. The society at large is facing extreme conditions such as pandemic, unpredictable climate and unprecedented inflation. A fragmented recovery from the crisis created by the COVID-19 pandemic risks widening the global divides at a time when countries urgently need to collaborate to combat Climate Change. Under these circumstances, sustainability initiatives by the business world could become key to resiliency and long-term value.

Opportunities

- A. Industry growth and under penetration: Electricals and consumer durables categories are still under penetrated and poised for strong growth on the back of increasing urbanisation and personal disposable income.
- B. Increasing electrification: Government efforts towards enhanced power availability is continually increasing electrification in semi-urban and rural areas, along with stable electricity supply in urban areas. This has translated into better demand for electrical and consumer durable products in new and existing markets.
- C. Infrastructure expansion: The government's strong focus on infrastructure expansion including highway construction, railway modernisation and airport additions is expected to create demand for electrical goods.
- D. Favourable demographics: While the world is rapidly aging, India's population is among the youngest globally. With a median age of less than 29 years and 67% of the population in the working age group of 15-64 years this is a key demographic dividend for India.
- E. Exports: A sizeable global market is looking to diversify its supply chain in order to tide over any probable regional challenges or geopolitical issues. With a strong business environment and enhanced ease of doing business, India is emerging as a strong country and as a manufacturing alternative to other Asian countries.
- F. Product Portfolio: With a strong full stack product portfolio across electricals, industrial consumer the Company is well-positioned to capitalise on a great opportunity to increase shelf space at the retail counter and share of wallet of the consumer. Alongside providing a natural hedge in case of an economic downturn, a complete product portfolio enhances the opportunity to cross sell with channel partners and final consumers.
- G. Accelerated shift from unorganised to organised: A large portion of the consumer electrical market continues to be unorganised. However, increasing brand awareness, formalisation and aspirations, can accelerate the shift in consumer preference from unorganised to organised, which shall be beneficial for the key players.

Risk and Concerns

- A. Economic slowdown: Slowdown in the Indian economy due to global developments could adversely impact growth in the short-term.

- B. Commodity pressures: Sharp increase in commodity prices could lead to increase in cost of finished goods thereby impacting affordability and consumer sentiment.
- C. Competitive intensity: Irrational market behaviour with increased competitive intensity could cause value erosion for the industry as a whole especially with the entry of new disruptive players with access to low cost capital and extended ability to sustain losses to capture market share.
- D. Power disruptions: Any impact on power distribution and electricity delivery can impact the demand for electrical products. Availability of stable and quality power supply continues to be an important factor for the industry's growth prospects.
- E. Pandemic: Deterioration in supply chain and demand due to the COVID-19 pandemic or similar disruptions have emerged as a significant business risk.
- F. Geopolitical crisis: Volatility in the commodity and foreign currency markets may impact raw material availability due to geopolitical challenges in different geographies around the world.

FINANCIAL OUTLOOK

Performance was broad-based with each of our Product lines contributing to the growth. The quality and consistency of our results reflect our competitive edge and consumer affinity. Your Company continued to meet consumers' needs and improve the consumer experience, making meaningful progress on the whole.

After three years of COVID-led disruptions, FY 2022-23 was in contrast a wholesome year. The year saw a very encouraging with both B2B and B2C demand momentum continuing from the previous year; however, commodity prices continue to add pressure and impact the B2C end markets. Despite shrinkages in consumer spending, your Company continued the growth trajectory with a strong product portfolio and brand.

Rexnord continues to be a leader in this market segment. Continued commodity price increases asserted pressures on the margins as your Company took calibrated price increases, albeit not commensurate to the raw material cost increases. Margins in the fan prices were very volatile given sharp commodity price fluctuations.

A healthy balance sheet and strong cash flow generation provided us ample headroom to continue investing strategically in our growth.

COMPETITION

Your Company maintain a constant focus on sharpening our competitive edge on all fronts – operational efficiency, optimal use of assets, high level of automation and backward integration. Strong relationships with dealers, vendors and an effective governance framework have been the key to our enduring enterprise. 4. Strengthening Product and Brand positioning- Over the years, we have relentlessly invested in building our brand equity. This has significantly helped us in positioning the brand as an industrial leader. FY 2022-23 witnessed greater heights by the company achieving a remarkable gross sale vale (including GST) of ₹ 10000 lakhs signifying the we are here only to excel.

5. We are recognised for our high-quality products and manufacturing strength powered by deep innovation capabilities and sustainable practices. Regular and astute investments in manufacturing and R&D have enabled us to build a varied product line. Information other than the Standalone Financial Statements and Auditor's Report thereon

The Company's Management and Board of Directors are responsible for preparation of the other information. The other information comprises the information included in Company's Board's Report including annexures to the Board's Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibilities for the Standalone Financial Statements

The Company's Management and the Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profits (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ("Ind AS") specified under Section 133 of the Act. This responsibility also includes the maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.

- Conclude on the appropriateness of Management's and Board of Directors' use of the going concern basis of accounting in preparation of standalone financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that individually or in aggregate makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The standalone financial statements of the Company for the year ended 31st March 2022 were audited by other auditor M/s. Rakesh Soni & Co. whose report dated 30th May 2022 had expressed an unmodified opinion. Our opinion is not modified in respect of this matter.

Note 2: SIGNIFICANT ACCOUNTING POLICIES

2.1) BASIS OF PREPARATION

A) Statement of Compliance

- a) These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.
- b) The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements. All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.
- c) The financial statements of the Company for the year ended 31st March, 2023 were approved for issue in accordance with the resolution of the Board of Directors on 30th May, 2023.

B) Basis of Measurement

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) that are measured at fair value (refer accounting policy regarding financial instruments and derivatives and hedging activities); and
- defined benefit plans –present value of defined benefit obligation unless otherwise indicated.

C) Functional and Presentation Currency

These financial statements are presented in Indian Rupees, the functional currency of the Company. All amounts have been rounded-off to the nearest lakhs, unless otherwise indicated. Items included in the financial statements of the Company are recorded using the currency of the primary economic environment in which the Company operates (the 'functional currency').

D) Use of Estimates

- a) The preparation of financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities prospectively.
- b) Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:
 - i) Measurement of defined benefit obligations - Note 41.

- ii) Measurement and likelihood of occurrence of provisions and contingencies - Note 21 & 28 and 39.
- iii) Recognition of deferred tax liabilities - Note 22.

E) Measurement of fair values

The Company's accounting policies and disclosures require the measurement of fair values for, both financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

Further information about the assumptions made in measuring fair values is included in the Note 43.

2.2) REVENUE RECOGNITION

The Company derives revenues primarily from sale of manufactured goods.

Sale of products

Revenue from sale of products is recognised when control of the products has transferred, being when the products are delivered to the customer. Delivery occurs when the products have been shipped or delivered to the specific location as the case may be, the risks of loss has been transferred, and either the customer has accepted the products in accordance with the sales contract, or the Company has objective evidence that all criteria for acceptance have been satisfied. Sale of products include related ancillary services, if any.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Other operating revenue - Export incentives

The benefits, on account of entitlement to import duty free raw material under the Advance License Scheme in respect of goods already exported, are not valued and brought into the books in the year of export. The raw materials are recorded at cost at which they are procured in the year of import.

The benefits under RODTEP Schemes and Duty Drawback Scheme are recognized when the exports are made.

2.3) EMPLOYEE BENEFITS

a) Short term employee benefits

All employee benefits payable wholly within twelve months of rendering services are classified as short-term employee benefits. Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Short-term benefits such as salaries, wages, bonus, ex gratia, short-term compensation absences, etc., are determined on an undiscounted basis and recognized in the period in which the employee renders the related service.

Notes to the Standalone financial statements for the year ended 31st March 2023

b) Post-employment benefits

Defined contribution plans

Obligations for contributions to defined contribution plans such as Provident Fund maintained with Regional Provident Fund Office is expensed as the related service is provided.

Defined benefit plans

The following post – employment benefit plans are covered under the defined benefit plans:

- Gratuity

The Company provides for gratuity, a defined benefit retirement plan covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company. The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income.

c) Other long-term employee benefits

Compensated absences

The Company does not have any leave encashment policy. Further any unutilized leave at the end of the year is lapsed and not eligible for carry forward.

2.4) FOREIGN CURRENCY TRANSACTIONS AND TRANSLATION

Transactions in foreign currencies are recorded in the functional currency, by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction.

Foreign currency monetary items (assets and liabilities) are restated using the exchange rate prevailing at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss except to the extent of exchange differences which are regarded as an adjustment to finance costs on foreign currency borrowings that are directly attributable to the acquisition or construction of qualifying assets, are capitalized as cost of assets.

Non-monetary items that are measured in terms of historical cost in a foreign currency are recorded using the exchange rates at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or Statement of Profit and Loss are also recognised in OCI or Statement of Profit and Loss, respectively).

2.5) ACCOUNTING FOR TAXES ON INCOME

Income tax expense for the period comprises of current tax and deferred tax. It is recognised in the Statement of Profit and Loss except to the extent it relates to a business combination or to an item which is recognized directly in equity or in other comprehensive income.

Current tax is the expected tax payable on the taxable income for the year using applicable tax rates at the Balance Sheet date, and any adjustment to taxes in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes.

A deferred tax liability is recognised based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted, or substantively enacted, by the end of the reporting period. Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the

related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves. Unrecognized deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities; and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

MAT credit entitlement is recognized and carried forward only if there is a reasonable certainty of it being set off against regular tax payable within the stipulated statutory period.

2.6) PROPERTY, PLANT & EQUIPMENT

Property, plant and equipment are stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises of purchase price and any attributable cost such as duties, freight, borrowing costs, erection and commissioning expenses incurred in bringing the asset to its working condition for its intended use. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted and depreciated for as separate items (major components) of property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of profit and loss during the period in which they are incurred.

Gains or losses arising on retirement or disposal of property, plant and equipment are recognised in the Statement of profit and loss.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

2.7) INTANGIBLE ASSETS

Intangible Assets are stated at cost of acquisition net of recoverable taxes, trade discount and rebates less accumulated amortization/depletion and impairment loss, if any. Such cost includes purchase price, borrowing costs, and any cost directly attributable to bringing the asset to its working condition for the intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the intangible assets.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognized.

Upon first-time adoption of Ind AS, the Company has elected to measure all its intangible assets at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., 1st April, 2016.

2.8) RESEARCH AND DEVELOPMENT EXPENDITURE

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are charged to the Statement of Profit and Loss unless a product's technological and commercial feasibility has been established, in which case such expenditure is capitalized.

2.9) DEPRECIATION

Depreciation on Property, Plant & Equipment is provided on straight line method at the rates and in the manner specified in Schedule II to the Companies Act, 2013. In the case of revalued assets, depreciation is calculated on straight line method on the revalued amounts as determined by the valuer.

Depreciation on Property, Plant & Equipment added/disposed off/discarded during the period is provided on the pro-rata basis with reference to the date of addition/disposal/discarding.

Notes to the Standalone financial statements for the year ended 31st March 2023

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

2.10) AMORTIZATION

Intangible assets (Application Software) acquired by the Company are amortized on a straight-line basis over its useful life i.e. three years, as decided by the management.

Right of use asset (Leasehold land) is amortized over the primary period of lease.

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted prospectively, if appropriate.

2.11) BORROWING COSTS

Borrowing costs include exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are charged to the Statement of Profit and Loss for the period for which they are incurred.

2.12) LEASES

As a lessee:

The Company assesses whether a contract is, or contains a lease, at inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: i) the contract involves the use of an identified asset ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and iii) the Company has the right to direct the use of the asset.

At the commencement date of the lease, the Company recognizes a right-of-use asset and a corresponding lease liability for all lease arrangements in which it is lessee, except for short-term leases (leases with a term of twelve months or less), leases of low value assets and, for contract where the lessee and lessor has right to terminate a lease without permission from the other party with no more than an insignificant penalty. The lease expense of such short-term leases, low value assets leases and cancellable leases, are recognized as an operating expense on a straight-line basis over the term of the lease.

At commencement date, lease liability is measured at the present value of the lease payments to be paid during non-cancellable period of the contract, discounted using the incremental borrowing rate. The right-of-use assets is initially recognized at the amount of the initial measurement of the corresponding lease liability, lease payments made at or before commencement date less any lease incentives received and any initial direct costs.

Subsequently the right-of-use asset is measured at cost less accumulated depreciation and any impairment losses. Lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using effective interest rate method) and reducing the carrying amount to reflect the lease payments made. The right-of-use asset and lease liability are also adjusted to reflect any lease modifications or revised in-substance fixed lease payments.

As a lessor:

Leases for which the Company is a lessor is classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Income from operating leases where the Company is a lessor is recognized as income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the Standalone Balance Sheet

based on their nature. Leases of property, plant and equipment where the Company as a lessor has substantially transferred all the risks and rewards are classified as finance lease. Finance leases are capitalized at the inception of the lease at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rent receivables, net of interest income, are included in other financial assets. Each lease receipt is allocated between the asset and interest income. The interest income is recognized in the Standalone Statement of Profit and Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the asset for each period.

2.13) PROVISION, CONTINGENT LIABILITIES & CONTINGENT ASSETS

Provisions are recognized when the Company has a present obligation, as a result of past events, for which it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made for the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A contingent liability is a possible obligation that arise from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognised because it is probable that an outflow of resources will not be required to settle the obligation. However, if the possibility of outflow of resources, arising out of present obligation, is remote, it is not even disclosed as contingent liability. The company does not recognize a contingent liability but discloses its existence in the financial statement.

Contingent assets are neither recognized nor disclosed in the financial statements.

2.14) IMPAIRMENT OF NON-FINANCIAL ASSETS

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Cash generating units ("CGU"). The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognised in profit or loss. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

2.15) EARNINGS PER SHARE

Basic earnings per share are calculated by dividing the net profit for the period attributable to equity shareholders by the weighted-average number of equity shares outstanding during the period. The weighted-average number of equity shares outstanding during the period and for all years presented is adjusted for events such as bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split (consolidation of shares) that have changed the number of equity-shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted-average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

2.16) INVENTORIES

Inventories are valued at lower of cost and estimated net realizable value. Obsolete, defective and unserviceable stocks are provided for. Materials-in-process are valued at raw material cost and estimated cost of conversion. Cost of finished goods includes conversion and other costs incurred in bringing the inventories to their present location and condition

Cost of Inventories is computed on FIFO basis. Goods in transit, if any, are stated at actual cost incurred upto the date of balance sheet.

2.17) FINANCIAL INSTRUMENTS

I. FINANCIAL ASSETS

A) Initial Recognition and Measurement

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost is recognized in the statement of profit and loss. In other cases, the transaction cost is attributed to the acquisition value of the financial asset. Trade receivables and debt securities are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

B) Classification And Subsequent Measurement

- a) **Amortized cost:** A financial asset is measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- b) **Fair value through other comprehensive income (FVOCI):** A financial asset is measured at FVOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- c) **Fair value through profit and loss (FVTPL):** A financial asset which is not classified in any of the above categories are measured at FVTPL.

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

C) Cash and bank balances

- (i) **Cash and cash equivalents** which includes cash in hand, deposits held at call with banks and other short-term deposits which are readily convertible into known amounts of cash, are subject to an insignificant risk of change in value and have maturities of 3 months or less from the date of such deposits. These balances with banks are unrestricted for withdrawal and usage.
- (ii) **Other bank balances** which include balances and deposits with banks that are restricted for withdrawal and usage.

D) Investments in subsidiaries

Investments in subsidiaries are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

E) Equity instruments

All other equity investments are measured at fair value, with value changes recognised in Statement of Profit and Loss, except for those equity investments for which the Company has elected to present the value changes in 'Other Comprehensive Income'.

F) Trade receivables and loans

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortized cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

G) Debt Instruments

Debt instruments are initially measured at amortized cost, fair value through other comprehensive income ('FVOCI') or fair value through profit or loss ('FVTPL') till derecognition on the basis of (i) the entity's business model for managing the financial assets and (ii) the contractual cash flow characteristics of the financial asset.

H) Impairment of Financial Asset

In accordance with Ind-AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortized cost e.g., loans, security deposits, bank deposits and bank balance.
- b) Trade receivables

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables which do not contain a significant financing component. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12 months ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

I) Income recognition

Interest income

Interest income is accrued on a time proportion basis, by reference to the principal outstanding and effective interest rate applicable.

Dividend income

Dividend income from investments is recognised when the right to receive payment has been established.

II. FINANCIAL LIABILITIES

A) Initial Recognition and Measurement

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortized cost unless at initial recognition, they are classified as fair value through profit and loss. In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortized cost, using the effective interest method.

B) Classification And Subsequent Measurement

Financial liabilities are subsequently measured at amortized cost using the EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

III. DERECOGNITION OF FINANCIAL INSTRUMENTS

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Company's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

IV. OFFSETTING OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Notes to the Standalone financial statements for the year ended 31st March 2023

2.18) DERIVATIVES AND HEDGING ACTIVITIES:

The Company holds derivative financial instruments such as foreign exchange forward, interest rate swaps, currency swaps and currency options to mitigate the risk of changes in exchange rates or interest rate. The counterparty for these contracts is generally a bank.

i) Financial assets or financial liabilities, at fair value through profit or loss:

This category has derivative financial assets or liabilities which are not designated as hedges.

Although the Company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments. Any derivative that is either not designated a hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss.

Derivatives not designated as hedges are recognized initially at fair value and attributable transaction costs are recognized in net profit in the Standalone Statement of Profit and Loss, when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting gains or losses are included in other income or other expenses. Assets / liabilities in this category are presented as current assets / current liabilities if they are either held for trading or are expected to be realized within 12 months after the Standalone Balance Sheet date.

ii) Cash flow hedge:

The Company designates certain foreign exchange forward and options contracts as cash flow hedges to mitigate the risk of foreign exchange exposure on firm commitment and highly probable forecast transactions.

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in the cash flow hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the net profit in the Statement of Profit and Loss. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain / (loss) on the hedging instrument recognized in cash flow hedging reserve till the period the hedge was effective remains in cash flow hedging reserve until the forecasted transaction occurs. The cumulative gain/(loss) previously recognized in the cash flow hedging reserve is transferred to the Statement of Profit and Loss upon the occurrence of the related forecasted transaction.

If the forecasted transaction is no longer expected to occur, then the amount accumulated in cash flow hedging reserve is reclassified to net profit in the Statement of Profit and Loss.

2.19) SEGMENT REPORTING

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

2.20) RECENT INDIAN ACCOUNTING STANDARDS (IND AS)

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 1 – Presentation of Financial Statements

The amendments require entities to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general-purpose financial statements. The Company does not expect this amendment to have any significant impact in its financial statements.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Company does not expect this amendment to have any significant impact in its financial statements.

Ind AS 12 – Income Taxes

The amendments clarify how entities account for deferred tax on transactions such as leases and decommissioning obligations. The amendment narrows the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Company does not expect this amendment to have any significant impact in its financial statements.

NOTE 43: FINANCIAL INSTRUMENTS AND RISK REVIEW

A) Financial Instruments

Fair value measurement hierarchy

The fair value of financial instruments as below have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The categories used are as follows

Level 1: Quoted prices (unadjusted) in active markets: This level of hierarchy includes financial assets or liabilities that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities. This category consists of mutual fund and equity investments.

Level 2: Valuation techniques with observable inputs: This level of hierarchy includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices). This category includes the derivatives financial assets designated as hedges.

Level 3: Valuation techniques with significant unobservable inputs: This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

Methods and assumptions used to estimate the fair values are consistent.

Financial assets and liabilities measured at fair value as at Balance Sheet date:

- Management uses its best judgement in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of the amounts that the Company could have realised or paid in sale transactions as of respective dates. In our opinion and to the best of our information and according to the explanations given to us, and based on consideration of report of other auditor on separate financial statements and on the other financial information of the subsidiary, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2023, its consolidated profit (including consolidated other comprehensive income), its consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. We believe that the audit evidence we have obtained along with consideration of report of the other auditor referred to in paragraph (a) of the "Other Matters" section below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit matters

Key audit matters are those matters that, in our professional judgment and based on consideration of report of other auditor on separate financial statements of the subsidiary audited by them, where of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matter described below to be the key audit matters to be communicated in our report.

Information other than the Consolidated Financial Statements and Auditor's Report thereon

The Holding Company's Management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in Holding Company's annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If based on the work we have performed and based on the audit report of other auditor we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit (including consolidated other comprehensive income), consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective Management and Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group are responsible for assessing of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of each company.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to

design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Group has adequate internal financial controls with reference to financial statement in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of Management's and Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditor, such other auditor remains responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in paragraph (a) of "Other Matters" section below.

Materiality is the magnitude of misstatements in the financial statements that individually or in aggregate makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance of Holding Company and such other companies included in consolidated financial statements of which we are independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE B TO INDEPENDENT AUDITOR'S REPORT – 31st MARCH 2023

Referred to in paragraph 2(A)(f) under the heading of "Report on Other Legal and Regulatory Requirements" of our report of even date

Report on the Internal Financial Controls with reference to consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

Opinion

In conjunction with our audit of the consolidated financial statements of **Rexnord Electronics and Controls Limited** (hereinafter referred to as "the Holding Company") as of and for the year ended March 31, 2023, we have audited the internal financial controls with reference to financial statements of the Holding Company and its subsidiary company incorporated in India, as of that date.

In our opinion and based on consideration of the audit report of other auditor on internal financial controls with reference to financial statements of the subsidiary company as was audited by other auditor, the Holding Company and the subsidiary company incorporated in India, have, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2023, based on the internal financial controls with reference to financial statements criteria established by the Holding Company and its subsidiary company considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("the Guidance Note")

Management's and Board of Directors' Responsibility for Internal Financial Controls

The Management and the Board of Directors of the Holding Company and its subsidiary company, are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Holding Company and its subsidiary company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Holding Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to the financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the

assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and audit evidence obtained by the auditor of the subsidiary company in terms of their report referred to in the "Other Matter" paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to Consolidated Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls with reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matter

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements insofar as it relates to the subsidiary company, which is a company incorporated in India, is based on the corresponding report of the auditor of such company incorporated in India. Our opinion is not modified in respect of this matter.

Notes to the consolidated financial statements for the year ended 31st March 2023

Note 1: CORPORATE INFORMATION

The Consolidated Financial Statements comprise financial statements of Rexnord Electronics and Controls Limited ("the Holding Company") and its subsidiary (collectively referred to as "the Group") for the year ended 31st March 2023. The principal activity of the Group is manufacturing of instrument cooling fans & motors.

Note 2: SIGNIFICANT ACCOUNTING POLICIES

2.1) BASIS OF PREPARATION

A) Statement of Compliance

- These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.
- The Consolidated Financial Statements comprises of the Holding Company and its subsidiary, being the entity that it controls. Controls are assessed in accordance with the requirement of Ind AS 110 - Consolidated Financial Statements.
- The financial statements of the Group for the year ended 31st March, 2023 were approved for issue in accordance with the resolution of the Board of Directors on 30th May, 2023.

B) Principles of Consolidation

- The financial statements of the Holding Company and its subsidiary are combined on a line- by-line basis by adding together like items of assets, liabilities, equity, incomes, expenses and cash flows, after fully eliminating intra-group balances and intra-group transactions.
- Profits or losses resulting from intra-group transactions that are recognised in assets are eliminated in full.
- Goodwill/ capital reserve, if any, represents the difference between the Holding Company's share in the net worth of subsidiary and the cost of acquisition at each point of time of making the investment in the subsidiaries.
- The Consolidated Financial Statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances.
- The carrying amount of the parent's investment in subsidiary is offset (eliminated) against the parent's portion of equity in subsidiary.
- Non-Controlling Interest's share of profit / loss of consolidated subsidiary for the year is identified and adjusted against the income of the Group in order to arrive at the net income attributable to shareholders of the Holding Company.
- Non-Controlling Interest's share of net assets of consolidated subsidiary is identified and presented in the Consolidated Balance Sheet.

C) Basis of Measurement

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) that are measured at fair value (refer accounting policy regarding Financial instruments and Derivatives and hedging activities);
- biological assets – measured at fair value less cost to sell; and
- defined benefit plans –present value of defined benefit obligation unless otherwise indicated.

D) Functional and Presentation Currency

These financial statements are presented in Indian Rupees, the functional currency of the Group. All amounts have been rounded-off to the nearest lakhs, unless otherwise indicated. Items included in the financial statements of the Group are recorded using the

currency of the primary economic environment in which the Holding Company operates (the 'functional currency').

E) Use of Estimates

- The preparation of financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or liabilities prospectively.
- Information about critical judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:
 - Measurement of defined benefit obligations - Note 40.
 - Measurement and likelihood of occurrence of provisions and contingencies - Note 20, 27 and 38.
 - Recognition of deferred tax liabilities - Note 21.

F) Measurement of fair values

The Group's accounting policies and disclosures require the measurement of fair values for, both financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the Group uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

Further information about the assumptions made in measuring fair values is included in the Note 42.

2.2) REVENUE RECOGNITION

The Group derives revenues primarily from sale of manufactured goods.

Sale of products

Revenue from sale of products is recognised when control of the products has transferred, being when the products are delivered to the customer. Delivery occurs when the products have been shipped or delivered to the specific location as the case may be, the risks of loss has been transferred, and either the customer has accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied. Sale of products include related ancillary services, if any.

The Group does not expect to have any contracts where the period

Notes to the consolidated financial statements for the year ended 31st March 2023

between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Other operating revenue - Export incentives

The benefits, on account of entitlement to import duty free raw material under the Advance License Scheme in respect of goods already exported, are not valued and brought into the books in the year of export. The raw materials are recorded at cost at which they are procured in the year of import.

The benefits under RODTEP Schemes and Duty Drawback Scheme are recognized when the exports are made.

2.3) EMPLOYEE BENEFITS

a) Short term employee benefits

All employee benefits payable wholly within twelve months of rendering services are classified as short-term employee benefits. Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Short-term benefits such as salaries, wages, bonus, ex gratia, short-term compensation absences, etc., are determined on an undiscounted basis and recognized in the period in which the employee renders the related service.

b) Post-employment benefits

Defined contribution plans

Obligations for contributions to defined contribution plans such as Provident Fund maintained with Regional Provident Fund Office is expensed as the related service is provided.

Defined benefit plans

The following post – employment benefit plans are covered under the defined benefit plans:

• Gratuity

The Group provides for gratuity, a defined benefit retirement plan covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Group. The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income.

c) Other long-term employee benefits

Compensated absences

The Group does not have any leave encashment policy. Further any unutilized leave at the end of the year is lapsed and not eligible for carry forward.

2.4) FOREIGN CURRENCY TRANSACTIONS AND TRANSLATION

Transactions in foreign currencies are recorded in the functional currency, by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction.

Foreign currency monetary items (assets and liabilities) are restated using the exchange rate prevailing at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss except to the extent of exchange differences which are regarded as an adjustment to finance costs on foreign currency borrowings that are directly attributable to the acquisition or construction of qualifying assets, are capitalized as cost of assets.

Non-monetary items that are measured in terms of historical cost in a foreign currency are recorded using the exchange rates at the date of the transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or Statement of Profit and Loss are also recognised in OCI or Statement of Profit and Loss, respectively).

2.5) ACCOUNTING FOR TAXES ON INCOME

Income tax expense for the period comprises of current tax and deferred tax. It is recognised in the Statement of Profit and Loss except to the extent it relates to a business combination or to an item which is recognized directly in equity or in other comprehensive income.

Current tax is the expected tax payable on the taxable income for the year using applicable tax rates at the Balance Sheet date, and any adjustment to taxes in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes.

A deferred tax liability is recognised based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted, or substantively enacted, by the end of the reporting period. Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves. Unrecognized deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities; and the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority.

MAT credit entitlement is recognized and carried forward only if there is a reasonable certainty of it being set off against regular tax payable within the stipulated statutory period.

2.6) PROPERTY, PLANT & EQUIPMENT

Property, plant and equipment are stated at acquisition cost net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises of purchase price and any attributable cost such as duties, freight, borrowing costs, erection and commissioning expenses incurred in bringing the asset to its working condition for its intended use. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted and depreciated for as separate items (major components) of property, plant and equipment.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the Statement of profit and loss during the period in which they are incurred.

Gains or losses arising on retirement or disposal of property, plant and equipment are recognised in the Statement of profit and loss.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

2.7) INTANGIBLE ASSETS

Intangible Assets are stated at cost of acquisition net of recoverable taxes, trade discount and rebates less accumulated amortization/depletion and impairment loss, if any. Such cost includes purchase price, borrowing costs, and any cost directly attributable to bringing the asset to its working

Notes to the consolidated financial statements for the year ended 31st March 2023

condition for the intended use, net charges on foreign exchange contracts and adjustments arising from exchange rate variations attributable to the intangible assets.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the entity and the cost can be measured reliably.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognized.

2.8) RESEARCH AND DEVELOPMENT EXPENDITURE

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are charged to the Statement of Profit and Loss unless a product's technological and commercial feasibility has been established, in which case such expenditure is capitalized.

2.9) DEPRECIATION

Depreciation on Property, Plant & Equipment is provided on straight line method at the rates and in the manner specified in Schedule II to the Companies Act, 2013. In the case of revalued assets, depreciation is calculated on straight line method on the revalued amounts as determined by the valuer.

Depreciation on Property, Plant & Equipment added/disposed off/discarded during the period is provided on the pro-rata basis with reference to the date of addition/disposal/discarding.

The residual values, useful lives and method of depreciation of property, plant and equipment is reviewed at each financial year end and adjusted prospectively, if appropriate.

2.10) AMORTIZATION

Intangible assets (Application Software) acquired by the Group are amortized on a straight -line basis over its useful life i.e. three years, as decided by the management.

Right of use asset (Leasehold land) is amortized over the primary period of lease.

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted prospectively, if appropriate.

2.11) BORROWING COSTS

Borrowing costs include exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs that are directly attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are charged to the Statement of Profit and Loss for the period for which they are incurred.

2.12) LEASES

As a lessee:

The Group assesses whether a contract is, or contains a lease, at inception of the contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether: i) the contract involves the use of an identified asset ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and iii) the Group has the right to direct the use of the asset.

At the commencement date of the lease, the Group recognises a right-of-use asset and a corresponding lease liability for all lease arrangements in which it is lessee, except for short-term leases (leases with a term of twelve months or less), leases of low value assets and, for contract where

the lessee and lessor has right to terminate a lease without permission from the other party with no more than an insignificant penalty. The lease expense of such short-term leases, low value assets leases and cancellable leases, are recognized as an operating expense on a straight-line basis over the term of the lease.

At commencement date, lease liability is measured at the present value of the lease payments to be paid during non-cancellable period of the contract, discounted using the incremental borrowing rate. The right-of-use assets is initially recognized at the amount of the initial measurement of the corresponding lease liability, lease payments made at or before commencement date less any lease incentives received and any initial direct costs.

Subsequently the right-of-use asset is measured at cost less accumulated depreciation and any impairment losses. Lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using effective interest rate method) and reducing the carrying amount to reflect the lease payments made. The right-of-use asset and lease liability are also adjusted to reflect any lease modifications or revised in-substance fixed lease payments.

As a lessor:

Leases for which the Group is a lessor is classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Income from operating leases where the Group is a lessor is recognized as income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the Consolidated Balance Sheet based on their nature. Leases of property, plant and equipment where the Group as a lessor has substantially transferred all the risks and rewards are classified as finance lease. Finance leases are capitalized at the inception of the lease at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rent receivables, net of interest income, are included in other financial assets. Each lease receipt is allocated between the asset and interest income. The interest income is recognized in the Consolidated Statement of Profit and Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the asset for each period.

2.13) PROVISION, CONTINGENT LIABILITIES & CONTINGENT ASSETS

Provisions are recognized when the Group has a present obligation, as a result of past events, for which it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made for the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted to reflect its present value using a current pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A contingent liability is a possible obligation that arise from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is probable that an outflow of resources will not be required to settle the obligation. However, if the possibility of outflow of resources, arising out of present obligation, is remote, it is not even disclosed as contingent liability. The Group does not recognize a contingent liability but discloses its existence in the financial statement.

Contingent assets are neither recognized nor disclosed in the financial statements.

2.14) IMPAIRMENT OF NON-FINANCIAL ASSETS

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or Cash generating units ("CGU"). The recoverable

Notes to the consolidated financial statements for the year ended 31st March 2023

amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognised in profit or loss. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

2.15) EARNINGS PER SHARE

Basic earnings per share are calculated by dividing the net profit for the period attributable to equity shareholders by the weighted-average number of equity shares outstanding during the period. The weighted-average number of equity shares outstanding during the period and for all years presented is adjusted for events such as bonus issue; bonus element in a rights issue to existing shareholders; share split; and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted-average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

2.16) INVENTORIES

Inventories are valued at lower of cost and estimated net realizable value. Obsolete, defective and unserviceable stocks are provided for. Materials-in-process are valued at raw material cost and estimated cost of conversion. Cost of finished goods includes conversion and other costs incurred in bringing the inventories to their present location and condition

Cost of Inventories is computed on FIFO basis. Goods in transit, if any, are stated at actual cost incurred upto the date of balance sheet.

2.17) BIOLOGICAL ASSETS

Biological assets are measured at fair value less costs to sell, with any change therein recognized in the Statement of Profit and Loss.

2.18) FINANCIAL INSTRUMENTS

I. FINANCIAL ASSETS

A) Initial Recognition and Measurement

Financial assets are recognised when the Group becomes a party to the contractual provisions of the instrument. Financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost is recognized in the statement of profit and loss. In other cases, the transaction cost is attributed to the acquisition value of the financial asset. Trade receivables and debt securities are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument.

B) Classification And Subsequent Measurement

- a) **Amortized cost:** A financial asset is measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- b) **Fair value through other comprehensive income (FVOCI):** A financial asset is measured at FVOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- c) **Fair value through profit and loss (FVTPL):** A financial asset which is not classified in any of the above categories are measured at FVTPL.

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Group changes its

business model for managing financial assets.

C) Cash and bank balances

- (i) **Cash and cash equivalents** which includes cash in hand, deposits held at call with banks and other short-term deposits which are readily convertible into known amounts of cash, are subject to an insignificant risk of change in value and have maturities of 3 months or less from the date of such deposits. These balances with banks are unrestricted for withdrawal and usage.
- (ii) **Other bank balances** which includes balances and deposits with banks that are restricted for withdrawal and usage.

D) Equity instruments

All other equity investments are measured at fair value, with value changes recognised in Statement of Profit and Loss, except for those equity investments for which the Group has elected to present the value changes in 'Other Comprehensive Income'.

E) Trade receivables and loans

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortized cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

F) Debt Instruments

Debt instruments are initially measured at amortized cost, fair value through other comprehensive income ('FVOCI') or fair value through profit or loss ('FVTPL') till derecognition on the basis of (i) the entity's business model for managing the financial assets and (ii) the contractual cash flow characteristics of the financial asset.

G) Impairment of Financial Asset

In accordance with Ind-AS 109, the Group applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortized cost e.g., loans, security deposits, bank deposits and bank balance.
- b) Trade receivables

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables which do not contain a significant financing component. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Group determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12 months ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

H) Income recognition Interest income

Interest income is accrued on a time proportion basis, by reference to the principal outstanding and effective interest rate applicable.

Dividend income

Dividend income from investments is recognised when the right to receive payment has been established.

Notes to the consolidated financial statements for the year ended 31st March 2023

II. FINANCIAL LIABILITIES

A) Initial Recognition and Measurement

Financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortized cost unless at initial recognition, they are classified as fair value through profit and loss. In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortized cost, using the effective interest method.

B) Classification And Subsequent Measurement

Financial liabilities are subsequently measured at amortized cost using the EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

III. DERECOGNITION OF FINANCIAL INSTRUMENTS

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. A financial liability (or a part of a financial liability) is derecognized from the Group's Balance Sheet when the obligation specified in the contract is discharged or cancelled or expires.

IV. Offsetting of financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

2.19) DERIVATIVES AND HEDGING ACTIVITIES:

The Group holds derivative financial instruments such as foreign exchange forward, interest rate swaps, currency swaps and currency options to mitigate the risk of changes in exchange rates or interest rate. The counterparty for these contracts is generally a bank.

- i) Financial assets or financial liabilities, at fair value through profit or loss:

This category has derivative financial assets or liabilities which are not designated as hedges.

Although the Group believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments. Any derivative that is either not designated a hedge, or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss.

Derivatives not designated as hedges are recognized initially at fair value and attributable transaction costs are recognized in net profit in the consolidated Statement of Profit and Loss, when incurred. Subsequent to initial recognition, these derivatives are measured at fair value through profit or loss and the resulting gains or losses are included in other income or other expenses. Assets / liabilities in this category are presented as current assets / current liabilities if they are either held for trading or are expected to be realized within 12 months after the Consolidated Balance Sheet date.

- ii) Cash flow hedge:

The Group designates certain foreign exchange forward and options contracts as cash flow hedges to mitigate the risk of foreign

exchange exposure on firm commitment and highly probable forecast transactions.

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in the cash flow hedging reserve. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the net profit in the Statement of Profit and Loss. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain / (loss) on the hedging instrument recognized in cash flow hedging reserve till the period the hedge was effective remains in cash flow hedging reserve until the forecasted transaction occurs. The cumulative gain / (loss) previously recognized in the cash flow hedging reserve is transferred to the Statement of Profit and Loss upon the occurrence of the related forecasted transaction.

If the forecasted transaction is no longer expected to occur, then the amount accumulated in cash flow hedging reserve is reclassified to net profit in the Statement of Profit and Loss.

2.20) SEGMENT REPORTING

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

2.21) RECENT PRONOUNCEMENTS:

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

Ind AS 1 – Presentation of Financial Statements:

The amendments require entities to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general-purpose financial statements. The Group does not expect this amendment to have any significant impact in its financial statements.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

This amendment has introduced a definition of 'accounting estimates' and included amendments to Ind AS 8 to help entities distinguish changes in accounting policies from changes in accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Group does not expect this amendment to have any significant impact in its financial statements.

Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendment narrows the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Group does not expect this amendment to have any significant impact in its financial statements.

NOTE 41: CAPITAL MANAGEMENT

The Group's policy is to maintain a strong capital base so as to maintain creditors and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to ordinary shareholders. The board of directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position.

The Group monitors capital using a ratio of 'net debt' to 'equity'. For this purpose, net debt is defined as total borrowings less cash & cash equivalents, bank deposit (including earmarked balances) and current investments.

The table below summarises the capital, net debt and net debt to equity ratio of the Company.

NOTE 42: FINANCIAL INSTRUMENTS AND RISK REVIEW

A) Financial Instruments

Fair value measurement hierarchy

The fair value of financial instruments as below have been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and lowest priority to unobservable inputs (Level 3 measurements).

The categories used are as follows

Level 1: Quoted prices (unadjusted) in active markets: This level of hierarchy includes financial assets or liabilities that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities. This category consists of mutual fund and equity investments.

Level 2: Valuation techniques with observable inputs: This level of hierarchy includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices). This category includes the derivatives financial assets designated as hedges.

Level 3: Valuation techniques with significant unobservable inputs: This level of hierarchy includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

Valuation

The fair values of the financial assets and liabilities are defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Methods and assumptions used to estimate the fair values are consistent.

Financial assets and liabilities measured at fair value as at Balance Sheet date:

- Current financial assets and liabilities are stated at carrying value which is approximately equal to their fair value.
- The fair values of investments in mutual fund units is based on the net asset value ('NAV') as stated by the issuers of these mutual fund units in the published statements as at Balance Sheet date.
- Management uses its best judgement in estimating the fair value of its financial instruments. However, there are inherent limitations in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates presented above are not necessarily indicative of the amounts that the Group could have realised or paid in sale transactions as of respective dates. As such, fair value of financial instruments subsequent to the reporting dates may be different from the amounts reported at each reporting date.

B) Financial Risk Management Framework

The Group's business activities are exposed to a variety of financial risks, namely credit risk, liquidity risk and market risk (currency risk and interest rate risk). The Group's management and the Board of Directors have the overall responsibility for establishing and governing the Group's risk management framework. The Board of Directors which are responsible for developing and monitoring the Group's risk management policies. The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and reflect the changes in the policy accordingly. The key risks and mitigating actions are also placed before the Audit Committee and Board of Directors of the Holding Company.

i) Credit Risk

Credit risk is the risk of financial loss to the Group if a customer or counter-party fails to meet its contractual obligations. Financial instruments that are subject to credit risk principally consist of trade receivables, investments, loans, cash and cash equivalents, other balances with banks and other financial assets. None of the financial instruments of the Group result in material credit risk.

Credit risk with respect to trade receivables are limited as the Group has a policy of dealing only with credit worthy customers. All trade receivables are reviewed and assessed for default on a quarterly basis. Our historical experience of collecting receivables is that credit risk is very low. Hence, trade receivables are considered to be a single class of financial assets.

Credit risk on cash and cash equivalents, other bank balances with bank is limited as the Group generally invest in deposits with banks. Investments primarily include investment in liquid mutual fund units. The Group reviews credit worthiness of the counter parties to whom security deposits and loans given. The managements believes that there is no credit risk lies with the security deposits given and loans to employees.

The Group's maximum exposure to credit risk as at 31st March, 2023 and 31st March, 2022 is the carrying value of each class of financial assets.

ii) Liquidity risk

Liquidity risk refers to the risk that the Group cannot meet its financial obligations. The objective of liquidity risk management is to maintain sufficient liquidity and ensure that funds are available for use as per requirements. The Group's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses. In doing this, management considers both normal and stressed conditions. The Group maintained a cautious liquidity strategy, with a positive cash balance throughout the year ended 31st March, 2023 and 31st March, 2022. Cash flow from operating activities provides the funds to service the financial liabilities on a day-to-day basis. The Group has obtained fund and non-fund based working capital lines from banks. The Group invests its surplus funds in bank fixed deposit and in mutual funds, which carry no or low risk.

The following table shows a maturity analysis of the anticipated cash flows including interest obligations for the Group's financial liabilities. Cash flows in foreign currencies are translated using the period end spot rates.
