Q4 & FY24 Performance

Management Commentary

Ravi B. Goyal

Chairman & Managing
Director

"FY24 was the year of consolidation, as we are in the process of shifting gears towards high growth areas particularly on the digital payment side, which is a key focus area for the company. As a result, we saw subdued performance with total income of Rs. 15,088 Mn and Adjusted EBITDA of Rs. 3,815 Mn. During the year, our operating cash flows improved to Rs. 3,492 Mn and net debt reduced to Rs. 5,707 Mn. The company intends to retire the entire debt over the next 5 years.

At AGS Transact, we are anticipating a promising FY25 for our digital payments business with several exciting new launches in the pipeline. We are in the process of developing an asset-light digital business model focused on expanding our PPI infrastructure and leveraging our digital payment ecosystem, Ongo, through collaborations across the FMCG, Mobility, and Fuelling sectors, among others. This is expected to result in a high-growth segment, substantially improving the revenue and profitability over the next few years.

Furthermore, the rapid expansion of bank branches network and the widespread adoption of cash recycler machines (CRMs) are expected to further drive growth in AGSTTL's core cash payments business. We are also actively working to further strengthen this segment through multiple contract renegotiations currently in the pipeline to improve profitability."

Strategic Initiatives Undertaken
