COVID-19 Impact on the Business (1/2)

Business Operations

- The outburst of Pandemic COVID-19 has disrupted businesses through out. KDDL was also affected with COVID-19 from March onwards as all factories, retail stores and offices were closed due to strict lockdown and curfew across the country.
- Most of the manufacturing operations are operational now, however at lower capacity utilization due to compliance of MHA guidelines related to social distancing, transportation, restrictions on permitted strength etc. We are witnessing gradual growth & recovery in revenue.
- About 34 of our total 47 Ethos retail Stores are now operational. Stores are being open for limited time and with limited staff ensuring strict social distancing measures. We are witnessing gradual improvement in visitor footfalls week on week and hope to be back to pre-COVID levels by Q4FY21.

Financial Impact

- Q1FY21 was impacted as company could not operate for a significant part of Q1 due to strict lockdown imposed. As a result, profitability of the company was affected due to decline in revenues however expenses which are fixed in nature continue to occur.
- We expect business to stabilize and profitability to normalize going forward as lockdown is further eased.

Steps Taken For Smooth operations

- We have commenced the operations in all factories and offices after complete sanitisation of the facilities.
- We have also implemented strict guidelines and undertaken necessary precautionary measures for social distancing, limited manpower, staggered working, work from home, regular screening and sanitisation, preventive health check-ups and necessary guidance and advisory for providing a safe working environment to all employees.

COVID-19 Impact on the Business (2/2)

Optimising Costs

- We are taking all necessary actions and available options for reducing costs, overheads and deferring the long-term commitments of expenditures.
- In addition, all avenues and efforts are being initiated for enhancing the revenue and income of the company to minimise the impact of COVID-19 on the profitability of the company.

Comfortable Liquidity Position

- We will be able to meet all our liabilities and cater to the requirements of the customers as our financial position and balance sheet is strong. Our liquidity position is adequate to meet all our commitments. We remain committed to raising need based additional debt or equity for the business sustenance and development.

Demand Assessment

- Based on the prevailing situation and assessment of the market, we expect the markets to approach some kind of normalcy by the second half of the financial year.
- Chinese markets were the first to open up which is the biggest market for Swiss brands and now Swiss watch industry has also commenced operations which should improve demand further.
- We also foresee new opportunities for us in the field of precision engineering business as we are also witnessing increase in flow of enquires from very reputed overseas customers.

Manufacturing Business Overview

Watch Dials

- Commercial operations began in 1983
- Leading Global supplier of Watch Dial serving many well-known brands all over the world
- Manufacturing facilities located at Parwanoo & Derabassi, near Chandigarh in India
- Capability to manufacture dials with high & complex features

Watch Hands

- Commercial operations began in 1996
- Only supplier in India and one of 5 independent manufacturers globally; facilities located at Bengaluru
- Recently acquired Estima AG in Switzerland; to enhance presence in mid-priced segment European Brands

Value Proposition

- Deep Understanding of the Global Watch Industry
- Established relationships with Swiss Watch makers as well as Indian Watch makers
- Consistent Manufacturing on basis International Quality norms

About “Estima AG”

Acquired in 2019

About “Estima AG”

- Estima was established as a maker of watch hands in Switzerland in 1924
- It was a leading supplier to Swiss and other European watch brands in the mid-priced segment and enjoyed an excellent reputation
- However, over last 10 years, it was unable to keep up with market changes and lost market share leading to declining turnover and mounting losses

Strategic Rationale for Acquisition

- Estima was a competitor of the Company in the business of watch hands manufacturing
- Has a well established name, valuable production infrastructure and will be serve as a good platform to establish a foothold in Swiss watch component manufacturing
- Will help capture additional market share of customers in European market serviced by Estima

Estima AG’s 2020 Turnover – CHF 1.9 Million

Value Proposition

Eigen offers a full package of services, ranging from design and development to full scale production, providing customers with optimized supply chain solutions

Capabilities

We address various segments such as Electrical, Electronics, Automobile, Telecommunications, medical equipment, Aerospace, Consumer Durables etc

Customers

Enabling our customers to meet their design and production needs for over 12 years. We have some of the most well-known names in their industry as our esteemed customers

Stable Manufacturing Performance*

Ethos Q1FY21 Snapshot

Stores Optimization

In depth assessment of each store's performance across India . Accelerated Closure of Stores which fails our cost vs. benefits assessment. Focus towards Bigger Flagship Stores that attracts more footfalls. Already closed 5 stores recently

Uniquely Positioned to Grow

Post Pandemic, Swiss brands may focus more on developed markets and less on developing like India. Ethos is uniquely positioned to partner with them and grow these swiss brands with its network & reach without them having to deploy their own resources and has a proven track record for the same

Fit & Lean
ETHOS
2.0

Ongoing Rental Negotiation with Mall Owners for rent reduction or part waiver of rentals or a combination of both to optimize rental costs. Deferment of all unproductive expenses & capex in the medium term to conserve cash while ensuring that spend on 'good costs' imperative for business recovery is not compromised

We have the most advanced digital communication and e-commerce capabilities in the country for any luxury product. With the change in customer behaviour, we will be best positioned to leverage these capabilities and increase market share substantially

COVID-19 Impact on the Business

Revenue Impact

ETHOS was severely impacted due to the lockdown imposed by Government to prevent the spread of COVID-19. All the stores were shutdown during the later part of March which adversely impacted the business. Stores started re-opening from April onwards and footfalls have been gradually improving as customers have started adjusting to new normal

Operational Stores

About 34 of our total 47 Ethos retail Stores are now operational. Stores are being open for limited time and with limited staff ensuring strict social distancing measures. We are witnessing gradual improvement in visitor footfalls week on week and hope to be back to pre-COVID levels by Q4FY21

Optimism

The optimism is based on similar experience in demand shocks witnessed by us due to series of decisions taken by the government with the intention to curb black money like requirement of Pan Card details for high value transactions, TCS requirements and prohibition of large cash transactions. We have always witnessed strong bounce back in sales post these demand shocks. While the severity of COVID-19 is much higher than those, but eventually we expect the business to recover
