From the Desk of MD & CEO

Commenting on the performance for Q2 FY2021, Mr. Shobhan Mittal, Managing Director and CEO, Greenpanel Industries Limited said,

Business has improved considerably in Q2 FY 2021. MDF volumes have grown by 31.3% year-on-year and operating margins have improved by 220 basis points to 21.8%. We had a small volume de-growth of 4% in plywood however operating margins have increased by 430 basis points to 16.4%. This is due to our continuous focus on reducing wastage and cost optimization. We have shown improvement on the working capital front where net working capital days have shown significant reduction of 21 days year-on-year to 33 days as on 30th September 2020.

Our emphasis on widening the distribution reach and focus on small towns and cities is yielding results both on volumes and reduction in working capital investment. We are optimistic on sustainable growth in future quarters.

Company Overview

Capacity Utilization

- Plywood Improved capacity utilization at 78% in 12M FY 2020 Vs. 57% in 12M FY 2019
- MDF capacity utilization was 60% in 12M FY 2020 vs. 47% in 12M FY 2019

Production Model

- Plywood – Own manufacturing for domestic markets
- MDF – Own manufacturing for domestic and export markets

Raw Material Sustainability

- The aim is to improve the quality of wood through better clonal plantations
- Clonal plantations will also help us ensure steady supplies and maintain prices

Return Ratios

- Lower return ratios witnessed due to low capacity utilization in the MDF plant and domestic-export mix
- Expected to improve over FY 2022 and FY 2023 with increase in capacity utilisations
