Seadrill Selects TCS to Drive Global IT Transformation

Tata Consultancy Services to Help Seadrill Adopt the Machine-First™ Delivery Model and ignio™ to Transform its Digital Infrastructure and Meet Long-term Strategic Goals

LONDON | MUMBAI, March 18, 2019: Tata Consultancy Services (TCS), (BSE: 532540, NSE: TCS), a leading global IT services, consulting, and business solutions organisation, announced that it has been selected by global offshore drilling company Seadrill to transform and maintain its global digital infrastructure.

TCS will support Seadrill's global IT operations across the business, on its mobile offshore drilling rigs as well as its onshore locations, and will provide local support services in the UK, US, Canada, Brazil, Mexico, Saudi Arabia, UAE, and Thailand.

A key factor in the selection of TCS was its Machine-First™ Delivery Model (MFDM™). MFDM uses automation and artificial intelligence (AI) technologies to reduce operating risk, improve speed-to-market, increase productivity and deliver business value. At the core of this framework is TCS' ignio™ AIOps software, which enables smarter and faster decision making, with first-time-right identification of probable causes of outages in a matter of minutes. ignio removes silos across business units, enables automation of 80% of routine IT tasks, and predicts future incidents with over 90% accuracy. The solution automates repetitive tasks, allowing employees to focus on more strategic and innovative work.

Eelco Ringeling, CIO, Seadrill, said, *"This is an exciting new partnership for Seadrill, and we look forward to working with TCS. Their approach to leveraging key digital technologies such as ignio, and their MFDM Framework, positioned them above the competition and aligns well to our overall long-term strategic digital transformation roadmap, drives continuous improvements and assists us to meet our business goals."*

"We are consistently driving digital transformation for our customers in the energy and resources industry and are excited to partner with Seadrill to support their digital innovation agenda. Our Business 4.0™ framework is gaining traction, and industry leaders are making massive investments in disruptive technologies to accelerate business growth," said **Debashis Ghosh, Business Group Head, Energy & Resources, TCS.**

"TCS has a strong global business in the energy and resources sector and our Machine-First Delivery Model is changing the way businesses are deploying AI and automation technologies. We're delighted that Seadrill has chosen us as the strategic partner to enable its digital transformation plans. TCS and Seadrill have a shared vision for the potential of digital services to deliver tangible business value and growth," commented **Shankar Narayanan, Country Head, TCS UK and Ireland.**

About Tata Consultancy Services Ltd. (TCS)

Tata Consultancy Services is an IT services, consulting and business solutions organization that has been partnering with many of the world’s largest businesses in their transformation journeys for the last fifty years. TCS offers a consulting-led, Cognitive powered, integrated portfolio of IT, Business & Technology Services, and engineering. This is delivered through its unique Location Independent Agile delivery model, recognized as a benchmark of excellence in software development.

A part of the Tata group, India's largest multinational business group, TCS has over 417,000 of the world’s best-trained consultants in 46 countries. The company generated consolidated revenues of US \$19.09 billion for year ended March 31, 2018 and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India. TCS' proactive stance on climate change and award winning work with communities across the world have earned it a place in leading sustainability indices such as the Dow Jones Sustainability Index (DJSI), MSCI Global Sustainability Index and the FTSE4Good Emerging Index.
