## FINANCIAL RESULTS HIGHLIGHTS

## **SECTOR HIGHLIGHTS**

- ✓ As was anticipated, we are seeing a temporary downturn in the Indian Wind Power market due to the transition from the FIT based market regime to the auction based market regime.
- ✓ We expect this transition to continue in Q2 as well, with normalization from an order inflow perspective to commence from Q3 onwards and execution to pickup from Q4 onwards.
- ✓ Current status of auctions:
  - ✓ SECI 2<sup>nd</sup> auction of 1000MW process underway. Technical Bids have been submitted. Expect reverse auction in August. We look forward to more regular auctions as stated by the Honorable Power Minister, Mr Piyush Goyal \* in a recent power ministry event.
  - ✓ State Auctions Gujarat and Tamil Nadu have announced their wind auctions of 500MW each, expected to be completed shortly. We expect other windy States to follow and announce their auction guidelines soon.
- ✓ We anticipate FY19 as the beginning of a phase of robust growth for the wind industry.

  Focused on improving the output efficiencies across our product portfolio.
- The National Company Law Tribunal had admitted a petition filed by an operational creditor, Ms/ Jeena & Co., against the Company and had commenced insolvency proceedings.
