Management Commentary

Mr. Naresh Patel

Executive Chairman and Managing Director

"The financial year 2023 has been very challenging on all fronts and I am happy that we have been able to deliver robust growth despite these challenges. Our full year total revenue grew by 19% YoY to Rs. 621cr. This was driven by Advance Pharmaceutical Intermediates business which grew strongly by 22% YoY.

We have used this challenging year to create various growth drivers for the coming years. One of the first initiatives was our electrolyte additives which have been approved by six clients and some of them have released plant scale trial orders. We are also expecting commercial orders from a few customers during the current quarter. Next initiative was to enter into long term exclusive contracts with customers and we have been able to sign some these contracts with some of our big customers. Third initiative was to expand product base for our specialty division with focus on products having high entry barriers. We have developed exciting product pipeline here and products are at different stages of validation and approvals. Some of these products are very big and I will update you on these once they reach certain milestones.

I am also pleased to share the acquisition of 55% stake in Baba Fine Chemicals (BFC), a leading speciality chemicals company supplying products to the semiconductor industry. BFC has very niche products with high entry barriers, and we are excited to work with them and help them ramp-up their products at higher volumes.

Overall, I am confident of continuing the strong growth momentum in FY24."

Q4FY23 Earnings Highlights

Financial Highlights

Q4FY23 Highlights:

- ✓ Revenue from operations for Q4FY23 grew by 29.8% YoY to Rs. 1,864 mn; Sequentially revenue grew by 22.3%
- ✓ The **Gross margin** for the quarter was at **43.6**% as compared to **44.1**% in Q4FY22 and **46**% in Q3FY23. Lower gross margin was due by remaining high cost inventory which has been completely consumed in Q4 FY23.
- ✓ EBITDA for the quarter came at Rs. 408 mn up 58.3% YoY compared to Rs. 258 mn in Q4FY22 and up 32.6% on a sequential basis. EBITDA margin for the quarter was at 21.9% as compared to 18% in Q4FY22 and 20.2% in Q3FY23. EBITDA margins improvement continues as per the quidance with EBITDA margin expanding by 380 bps from Q1FY23 to Q4FY23
- ✓ PBT for the guarter was at Rs. 366 mn up 64.5% on YoY basis; Seguentially PBT grew by 23.9%.
- ✓ PAT for the quarter was at Rs. 272 mn up 27.6% on YoY basis; Sequentially PAT grew by 21.9%. PAT margin for the quarter was at 14.6% as compared to 14.8% in Q4FY22 and 14.6% in Q3FY23.

FY23 Highlights:

- ✓ Revenue from operations for FY23 grew by 18.6% YoY to Rs. 6,167 mn.
- ✓ Gross margin for the year were at 46.3% as compared to 47.5% in FY22.
- ✓ EBITDA for the year came at Rs. 1,227 mn up 16.6% YoY compared to Rs. 1,052 mn in FY22.
- ✓ **EBITDA margin** for the year remain flat at **19.9**% as compared to 20.2% in FY22. **Adjusted EBITDA margin** is at **20.5**% adjusting for the impact of onetime item like loss on insurance claim receivable and loss on sale of assets.
- ✓ PAT for the year was at Rs.833 mn up 15.8% on YoY basis. PAT margin for the year was at 13.5%
- ✓ Cash Flow from Operations at Rs. 655 mn as compared to Rs. -119 mn in FY22.

Q4FY23 Earnings Highlights (Continued)

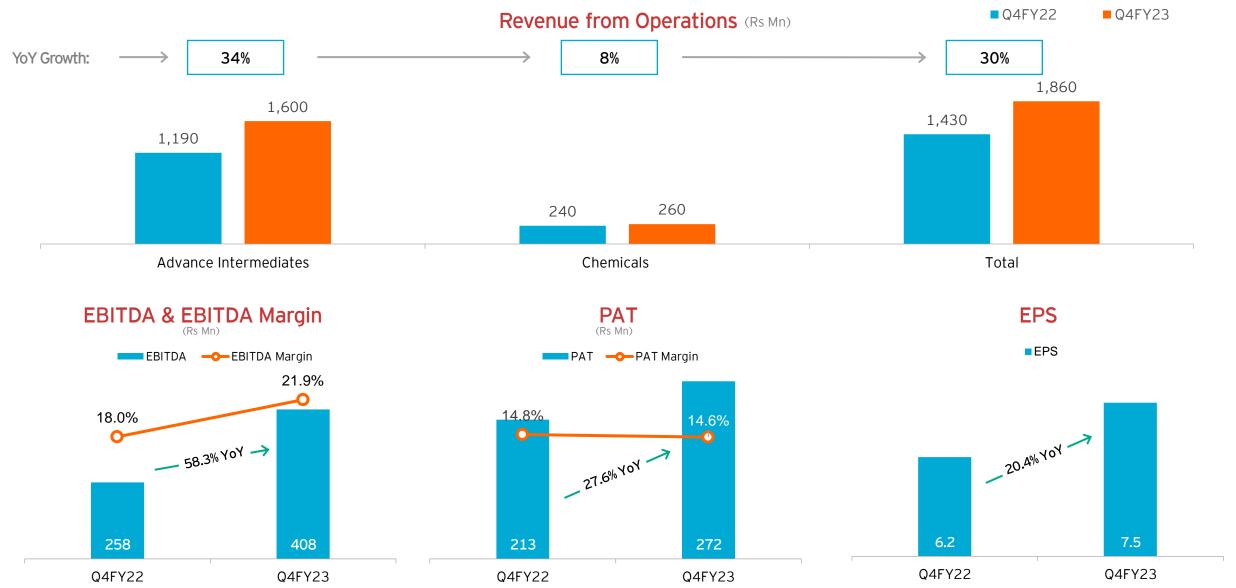

Key Business Highlights

- ✓ Export at 59%; domestic business at 41% (FY23)
- ✓ Advance Pharmaceutical Intermediates:
 - Expanded scope of Fermion contract to add more advance intermediates for the same API resulting in multi fold increase in contract value.
 - Added ~40 New Customers during the year
- ✓ Specialty Chemicals: Added ~20 new customers during the year
- ✓ Electrolyte additives update:
 - Electrolyte samples approved at plant trial scale by 6 customers.
 - Received commercial trial order from more customers.
 - Expecting to receive a commercial order during Q1FY24.
 - Developed two new products: One Liquid electrolyte additive to increase electrocapacity of Li batteries and one for Solid battery.
- ✓ Baba Fine Chemicals: Board of Directors approved acquisition of 55% stake in Baba Fine Chemicals through mix of equity and cash consideration.
- ✓ Solar Energy: Started planning to set up 4.5 MW solar power plant in Gujarat.

Our Products

Advance Intermediates for Pharmaceuticals

- Advanced Intermediates:
 - ✓ 185+ Products
 - ✓ Intermediates across 17 therapeutic areas
 - ✓ Chronic Therapy focus: 91%
 - Majorly backward integrated to Basic Chemical level
 - ✓ 50-90% global market share key molecules

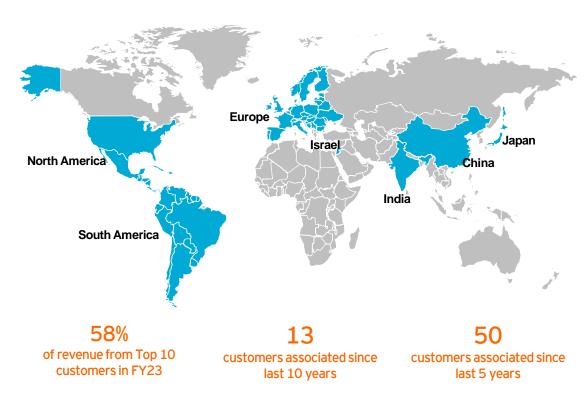

Specialty Chemicals

- Niche KSM for Agrochem and Finechem companies
- Parabens & paraben formulations, Salicylic Acid and other specialty chemicals that find end-use in cosmetics, dyes, polymers and agrochemical industries, animal foods, and personal care industries
- New segment Electrolyte used in manufacturing cells for energy storage devices.

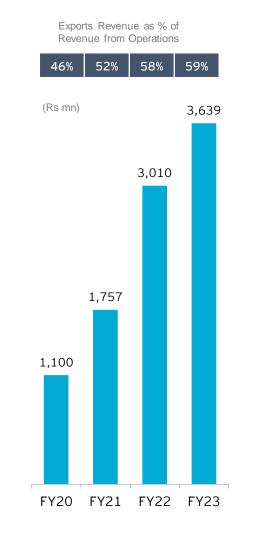

Strong and Long-term relations with Diversified Customers across Geographies

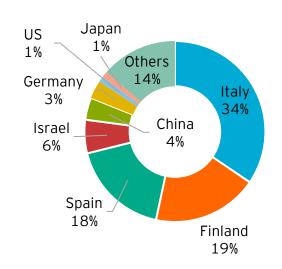

- Well established and long-term relations with domestic and MNCs across large and fast-growing markets globally
- Diversified customer base
- Long term supply contract with key customers
- Prolonged adherence to stringent client requirements leads to new business from existing customer base as well as from new clients

Superior R&D Capabilities

01

R&D Lab

23,681 sq. ft.

DSIR approved in-house R&D facility at Sachin supported by an ADL 02

Technology

ADL fully supported by analytical instruments (LCMASS, GCMASS, UV spectrophotometer, ultrasonic bath, photo stability & stability chambers, etc.)

03

State-of-the-art equipment

Modern fume hood system, autoclave, high vacuum distillation assembly, glass reactor assembly, etc.

04

R&D Strategy

R&D Team - Focused on product Pipeline, NCE product, New product development, CDMO

Process improvement - innovating new ways / improving processes to manufacture products

05

Team

Specialized team of 120+

16 members hold Ph. Ds

~30 Engineers

~74 holds Masters' and Bachelors degrees

06

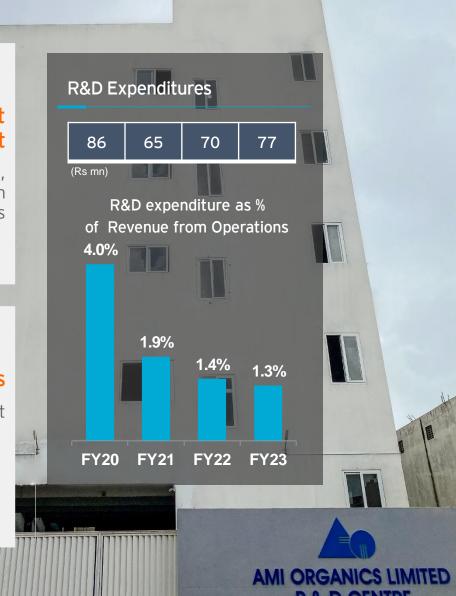

Patents

14 Process Patents filed out of which:

4 Patent granted

2 Patents under publication

8 Patents applied

Superior R&D Capabilities (Cont'd)

Our Capabilities in Key Chemistry

Esterification Etherification Amination Diazotization Chlorination Nitration & hydrolysis Acylation Alkylation Hydrogenation Fluorination

Superior R&D Capabilities (Cont'd)

Continuous Flow Reactor

- Continuous flow reactors are more efficient, and sustainable when compared to manufacturing products using traditional reactors.
- AMI has successfully developed capabilities in Plug Flow, Catalytic fixed-bed flow, Tubular flow kind of reactors
- This technology reduces the cycle time to manufacture a product which leads to lower utilization of utilities
- The space required to fit a flow reactor is considerably lower than the traditional reactors.
- AMI Organics has successfully developed and commercialized Chlorination, Nitration, Etherification, Ammoxidation,
 Diazotization and Oxidation in flow reactor
- AMI Organics successfully commissioned Photo Chlorination and Grignard in pilot flow reactor

Our Founders

Our Founders

The visionaries who built this company

Nareshkumar Patel
Executive Chairman, MD

- He has been associated with the Company since its inception and has extensive experience in the global generic pharma business.
- Nareshkumar is responsible for handling the Chemical Engineering and Product Implementation divisions of the Company.
- He holds a Bachelors Degree in Engineering from Gujarat University.

Chetankumar Vaghasia
Whole-time Director

- Mr. Chetankumar Vaghasia is one of the co-founders of the Company.
- He has been associated with the Company since its inception and has deep experience in the chemicals industry
- Chetankumar is responsible for handling the Procurement and Administration divisions of the Company.
- He holds a Diploma from Surat, Gujarat.

Our Leadership

Virendra Mishra Whole-time Director

- Holds Master of Science degree
- Previously associated with K.A. Malle Pharmaceuticals Ltd and Surya Organics & Chemicals

Girikrishna Maniar Non-executive, Independent Director

 Holds a Bachelor of Science degree and is a fellow member of the Institute of Cost Accountants of India

Richa Goyal

Non-executive,
Independent Director

- Holds Bachelor of Commerce degree and an LLB degree; fellow member of the Institute of Company Secretaries of India
- Currently associated with "Richa Goyal and Associates"

Hetal Gandhi
Non-executive
Independent Director

- 34+ years of experience in the financial services industry
- Holds Bachelors of Commerce degree; an Associate Member of the ICAI
- Co-founder and MD of Tano India Advisors

Dr. Anita Bandyopadhyay
Independent Director

- Acclaimed HR consultant with extensive expertise in Leadership Development and Talent Management,
- Holds a Doctorate in Applied Psychology from Kolkata University
- She has experience in Pharma, FMCG, Retail, and B2B business sectors.

Mr. Ram Mohan Rao Locande
Whole-time Director

- 20+ years of vast experience with leading pharmaceutical and chemical manufacturing companies in India.
- Worked with prestigious pharmaceuticals companies like Glenmark Pharmaceuticals Ltd., Macleod's, Dr. Reddy Laboratories Ltd

Key Management Personnel

Board of Directors

Bhavin Shah Chief Financial Office

- Holds Bachelor of Commerce and a qualified Chartered Accountant from ICAI
- Previously associated with Sun Pharma Group, Deloitte Haskins & sells

Ajit Kumar Choubey

President - Technical

- Holds Doctor of Philosophy degree in Chemistry
- Previously associated with IPCA Laboratories

Sanjay Vasoya

AVP - R&D

- Holds Ph.D. and M.Sc in Organic Chemistry
- Previously associated with Teva Pharmaceuticals, Alembic and Rubamin Pharma

Gaurav Bhandari

Senior Manager- Marketing

- Holds Bachelor of Technology (Bioinformatics) and PGDM degree
- Previously associated with Go Zoop Online Pvt Ltd and Social PR Outsourcing Pvt Ltd

What makes us different

1

Niche Product Portfolio with a strong market share

- ✓ Niche products with limited competition focused on the Chronic disease market
- ✓ Our key products hold more than 50% market share globally

2

Diversified customer base across geography

- ✓ Successful track record of working with innovators with sticky customers across products/
- ✓ Trusted and reliable supplier of intermediates globally
- ✓ "Preferred Supplier" status for key molecules

3

The reputation of bringing new products to the market aided by strong R&D capabilities

- ✓ First to Market in most of the products
- ✓ For a single intermediate, capability to provide product from N-1 to N-8 stage with different routes of synthesis

High entry barriers

- ✓ A long gestation period to be enlisted as a supplier
- ✓ The involvement of complex chemistries
- ✓ Regulatory requirements creating hurdles for new entrants

Diversified products to support our growth in future

✓ Our long tail of 500+ products includes products which are in development or testing phase for our clients some of which has potential to support our growth in coming years

Robust cost management / Process Improvements

- √ ~73%* of our raw material is outsourced from domestic vendors with products developed by AMI and outsourced to toll manufacturer leading to better management of input cost
- ✓ Continuous focus on process optimization and improvement has led to cost leadership in the industry with high quality products

Historical Business Performance

Our Business Model - Advanced Intermediates for Pharmaceuticals

Uniqueness of our business model

Wide Product Basket | 2

Wider basket of products, with 500+ molecules

Presence across value chain

AMI is present across the value chain of the intermediates business, from supplying NCE to innovators, providing a wide range of products with the different routes of synthesis and different levels of intermediates

Strong Customer Base

- ✓ As one of the biggest manufacturers of intermediates for the target therapies, AMI is in a unique position to cross-sale new molecules to existing clients.
 - ✓ AMI has more than 1 product with all major customers

1 Chronic Therapy focused

91% of the products catered on fast-growing Chronic segment

3 R&D leadership

- ✓ First to market with target products
- ✓ Products available with different routes of synthesis
- ✓ Capabilities to furnish products from n-1 to n-8 stages

5 Preferred Supplier

Our unique business model positions us perfectly to be the preferred suppliers for the innovators as well as big generic pharma companies

CAPEX - Expansion of Pharma Intermediate Business

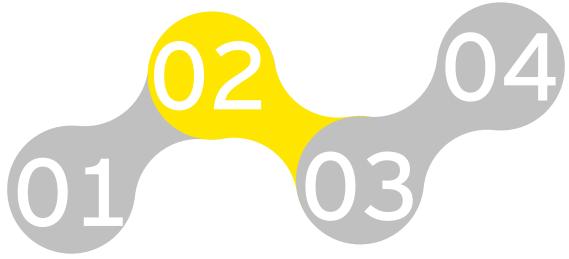

CAPEX - INR 190cr

On 29th April, BOD approved the Capex plan of INR 190cr to build a brownfield plant in Ankleshwar, Gujarat, to support the future business growth in the company's advanced pharmaceutical intermediates segment.

CAPEX - Funding

The Capex will be funded through a mix of General Corporate funds of IPO proceeds, internal accruals, and debt. Currently, the company does not have long-term debt on the books other than a short-term working capital loan.

Capacity & Clearances

The Ankleshwar site has received the necessary environmental clearance and the new facility will have ~90 reactors taking the total reactor capacity to 436KL.

The current capacity utilisation at the Sachin unit in Surat, Gujarat which manufactures the majority of the pharmaceutical intermediates is at ~65%.

Timeline & Other details

The plant is expected to start commercial operations from Q4FY24.

The production at the Ankleshwar unit was successfully transferred to the Jhagadia unit during the last quarter without losing any revenue. Currently, the old plant at Ankleshwar is being demolished and the new plant will be built on this site.

Our strategy and outlook

Strategy

Growing Innovator business because of track record of innovation, timely supply, and consistent quality

Products already commercialized for **drugs going off**patent in coming years expands/opens up new market

Continue to **develop innovative products** for global market

Outlook

190cr Capex to expand capacities for the Advance intermediate business

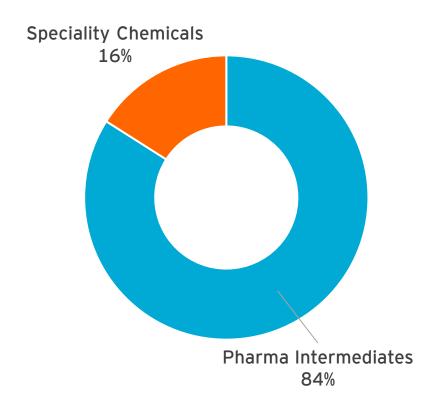

Expect to continue the **historical growth rate** in the coming years

Industry Overview

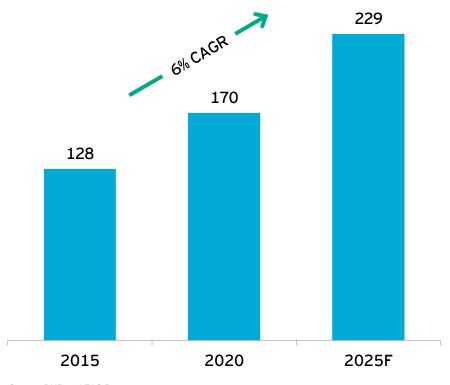

Currently ~85% of our revenue come from products used in Pharmaceutical industry specifically for manufacturing of APIs...

Revenue (FY23)

...with Global API industry estimated to grow by 6%; witnessing shift in production activity from developed markets to Asia

New Product developed - Electrolyte Additive

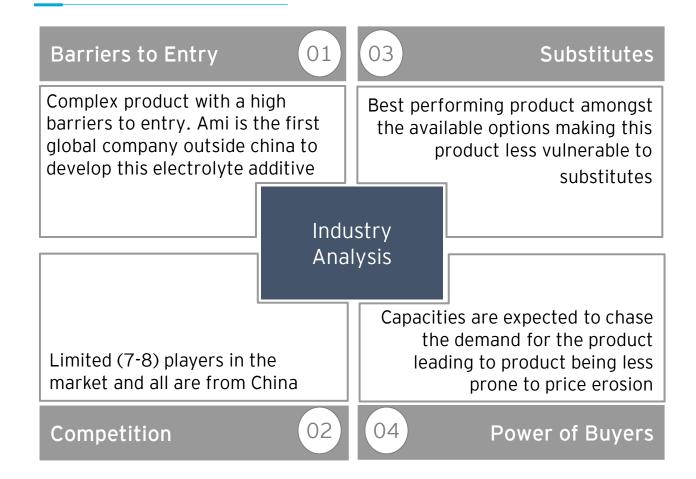

Electrolyte for cells

- AMI Organics has successfully developed a core electrolyte additive for cells used in energy storage devices.
- First Indian and global company outside China to develop this product.
- Electrolyte additive sample approved at plant scale from 6 customers
- Expecting to receive a commercial order of around 20-25 metric tonne during the Q1FY24.

Product Pipeline

 Developed two new products: One Liquid electrolyte additive to increase electrocapacity of Li batteries and one for Solid battery.

Industry Analysis

Acquisition of Baba Fine Chemicals (BFC)

basis

Our strategy and outlook

Strategy

Development and entry into newer molecules with

Continue to work on improving operational efficiencies to deliver better margins

strong entry barriers to accelerate the growth

Outlook

Business to grow at a faster rate than core pharma intermediate business due to lower base

Industry Overview

Our existing Chemicals segment supplies KSMs to Agrochemicals and Fine Chemicals company ...

KSMs

Why is India favourably placed?

- Gol's proposition to support local manufacturing
- Shift in investments from regulated markets to developing countries
- Global end users looking for alternative to China rapidly
- India's significant experience in handling regulatory requirements, strong process know how, superior R&D and low costs

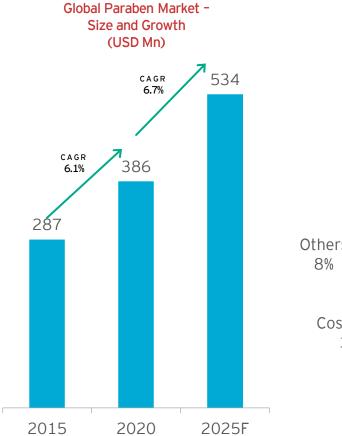

Source: RHP and F&S Report

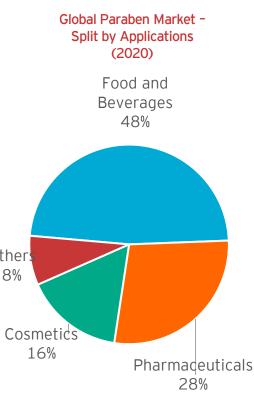

Industry Overview

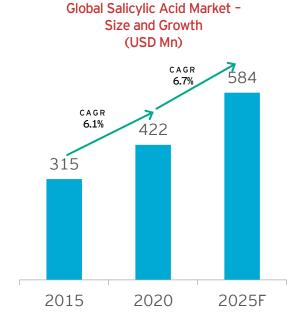

...whereas our new acquired units manufactures preservatives along with some specialty chemicals such as salicylic acid

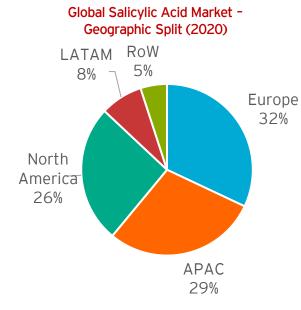

Parabens

Salicylic Acid

Key Trends

- Increasing use of salicylic acid based drugs for treatment of skin disorders, cardiovascular diseases and Hughes syndrome
- Increased consumption of Asprin owing to superior pain-relieving action and easy availability to bolster demand
- Growing use as preservatives to prolong shelf life of F&B products; derivatives used to prevent spoilage and in fermentation
- High demand for facial creams, acne reduction preparations and hair treatment products
