Sub: Submission of Investor Presentation Q2 FY 2023-24

Dear Sir/Madam,

This is further to our letter no. SEC/SE/073/2023-24 dated November 01, 2023 intimating the schedule of earnings conference call with Analysts/Investors to be held on Monday, November 06, 2023. In this regard, please find attached the Investor presentation towards the same.

You are requested to take the above on record and oblige.

Thanking you

For **Data Patterns (India) Limited**

Data Patterns (India) Limited

Investor Presentation

Q2FY24

November 2023

Disclaimer

This presentation and the accompanying slides (the “Presentation”), which have been prepared by Data Patterns (India) Limited (the “Company”) solely for the information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever.

Certain statements in this presentation concerning our future growth prospects are forward looking statements which involve a number of risks and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The Risk and uncertainties relating to the statements include, but are not limited to, risks and uncertainties regarding fiscal policy, competition, inflationary pressures and general economic conditions affecting demand / supply and price conditions in domestic and international markets. The company does not undertake to update any forward –looking statement that may be made from time to time by or on behalf of the company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded. The Company does not make any promise to update/provide such presentation along with results to be declared in the coming years.

CMD's Comment on Q2FY24 Performance

**Mr. Srinivasagopalan
Rangarajan**
*Promoter, Chairman &
Managing Director*

“We are happy to announce strong revenues and order inflow for Q2 and H1FY24. Revenues in Q2 were in-line with our expectations and grew 23% YoY to Rs 1,083 mn . The order book also saw growth, reaching Rs. 10bn while order inflows stood at Rs 1,445mn during Q2. We are committed to continued investments in product development to capitalize on the larger opportunities coming in through Defence programme run by GOI.”

Q2FY24 Highlights

Strong order book as on 30th Sep 2023 at Rs 10bn

**Revenue grew 23%YoY to Rs 1,083 mn
EBITDA showed 35% growth at Rs 408 mn**

Gross Margins at 69% and EBITDA Margins at 38%

Strong Balance Sheet; Net Debt Free Company

**Return Ratios - RoE and RoCE at 14.4% and 30.6% TTM respectively
without considering QIP funds**

**Started using QIP funds for new product developments in Radar, EW,
Communication and satellite**

Order inflow in Q2FY24 of Rs 1,445 mn

PAT at Rs 338 mn, 61% increase YoY

Revenue CAGR: 28%; EBITDA CAGR: 46% over FY19-FY23

Cash, Bank and Investments- Rs 6,033 mn

**Export Revenue at Rs 16 mn and Export Order Inflow at Rs
393 mn**

Growth Drivers:

- Created additional world class infrastructure to deliver complete systems
- Government policies for Make in India
- Investment in complete products through QIP Proceeds

What We Look to Achieve in Next Two Years

- Targeting larger opportunities in Radar, EW, Communication Systems and Satellite business
- Expects to be a major participant for Rs20-30 bn worth of contracts in the next 3-4 years
- Efficient execution to promote operating leverage; Should drive strong EBITDA and PAT margins
- Exploring further opportunities in export market; Working in collaboration with domestic players

**Strong Topline Growth:
25%+ CAGR**

**Sustainable High
Margins: ~ 35-40%**

**Maintain Net Debt Free
Status**

**Maintain Strong Order
Pipeline**

High Returns to Shareholders: ROE and RoCE - 20%+

Strategy for next phase of growth

Model to Proprietary Product Development

MOD Business

1

Larger TAM for Data Patterns

MOD tenders open to industry
GOI committed to buy from Indian companies
Increasing Indigenization

2

Revenue Scalability and Sustainability

Potential to bid for larger full systems contracts
Re-use developed products for global expansion/ multiple programmes

3

Better Margins

Cost advantage given products developed in India

Key Differentiators for Data Patterns

Capabilities

- #### Leveraging existing competencies
- Leveraging existing competencies across target product categories with significant lead and vendor credentials
 - Building Blocks in place for reuse across products and to crunch timelines and costs
 - Focus on Key product categories with significant presence i.e Nano/Micro Satellites Radars, ESM and Communication systems

Alternative to foreign OEM products

- Cost advantage compared to players who may have to collaborate with foreign OEMs
- Better pricing can lead to better win rates
- Products developed in India - better PWIN

Make in India Advantage

Focus on Key Product verticals

1

Product	Demonstrated Capabilities	Potential Opportunity
<p>Satellite</p>	<ul style="list-style-type: none"> Designed and launched complete satellite in India Capabilities to design payloads like ESM, Imaging (RF and ESM), other remote sensing, others Comprehensive exposure to Ground stations including Radars and Command control, high speed communication links, etc Implemented capabilities for large satellites 	<ul style="list-style-type: none"> Large market for Defence and LEO satellites (Domestic as well as International) Focus on Micro Satellites Being Made in India – its cost effective

Existing Successful development

Nano Satellite

Antenna Tower

Satellite Integrated Testing

Satellite Internal View

Thapsat Satellite

2

<p>Radars</p>	<ul style="list-style-type: none"> Designed building blocks to complete radars systems in India Re-use already developed building blocks to meet timelines Building Blocks in Signal Processing, Antenna, Transmit/Receive modules, etc. VHF, S, C and X Band, Gimbal, algorithms, Radar display, consoles, etc 	<ul style="list-style-type: none"> Focus on Fire Control Radars, X-Band Radars and smaller Radars for UAVs Cost competitive with in-house IP Export Potential
----------------------	---	--

Existing Successful development

Single Board Computer-Next Gen

Wide Band Digital Receiver

DTRM

Antenna PCB

Antenna Assembly fixture

Focus on Key Product verticals

3

Electronic Surveillance & Monitoring

Product

Demonstrated Capabilities

Potential Opportunity

- Developed state of the art ESM Receivers from 1MHz to 40GHz
- Both COMINT and ELINT including DF can be used in
 - Truck Mounted Systems / UAV Based ESM Systems
 - POD based jammers / Comm Jammers / Stand Off Jammers

- Potential large market with future tenders
- Requirement across Army, Air Force and Navy

Existing Successful development

Radar Warning Receiver

ELINT DF System

V/U/SHF Monitoring Receiver

VHF/UHF/SHF Receiver Processor Exciter

5 Channel Search Receiver

4

Communication Systems

- Developed SDR Platform for
 - Fighter Aircrafts
 - Radio Relay for Airborne Platforms/UAVs
 - Radio Relays

- Military Radars, Radio Relays, etc. are being procured under emergency Fast Track procurement
- Large volume requirements
- Requirement across Army, Navy and Air Force

Existing Successful development

Communication / Data Link

Programmable Radio Hardware Platform Type I & II

Radio Relay

Order Book Buildup in Q2FY24

Order book as on date is Rs 10,032mn

Current order book Rs. 10,820 mn including the orders negotiated converted

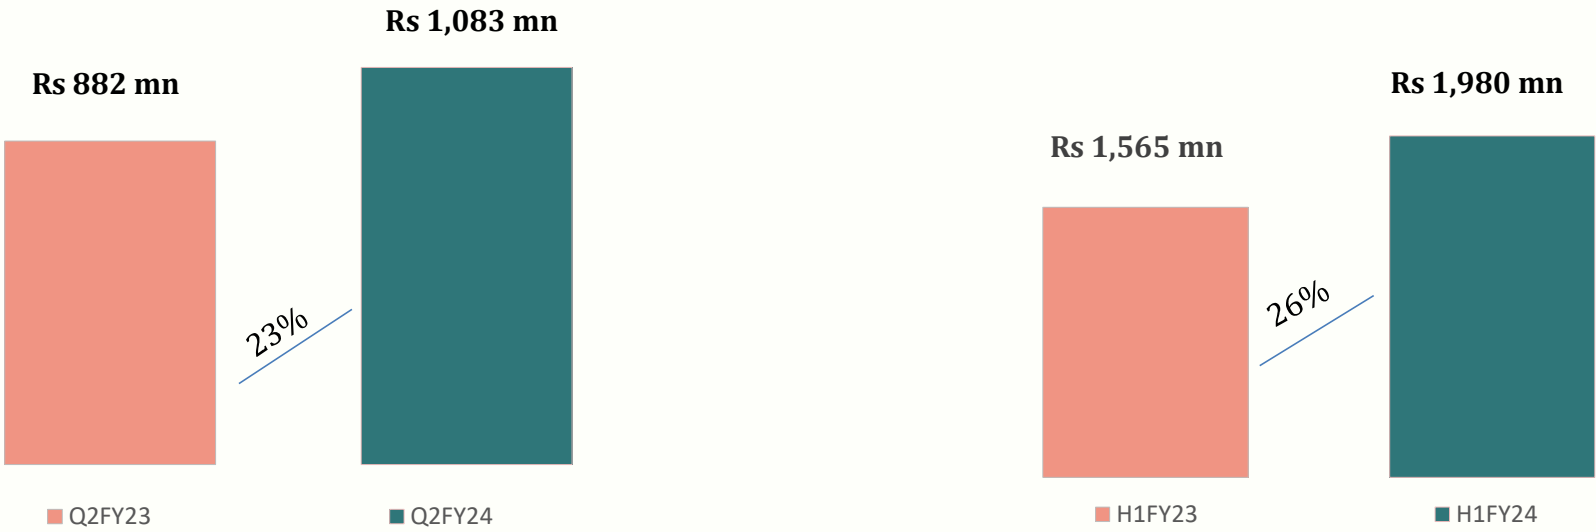

We are participating in large value tenders with MoD under Make 1 and 2 categories.

Q2FY24: Financial Performance

Particulars (Rs. Mn)	Q2FY24	Q2FY23	YoY(%)	Q1FY24	QoQ (%)	H1FY24	H1FY23	YoY (%)

Revenue: Increased 23% in Q2FY24

Revenue - Q2FY24 and H1FY24

Diversified Revenue Profile

Revenue growth across all the three categories

■ Service ■ Development ■ Production

Consistent Order Book Growth

- Developmental contracts/order book translates to strong production revenues
- Company is focussing on growth driver for medium and long term by taking several development contracts.

Q2FY24: Revenue Breakup

Product	Rs mn
Radar	745
EW	187
Avionics	84
AMC	47
ATE	18
Naval	3
Total	1,083

Data Patterns – One of the fastest growing companies in the Defence and Aerospace Electronics sector in India...

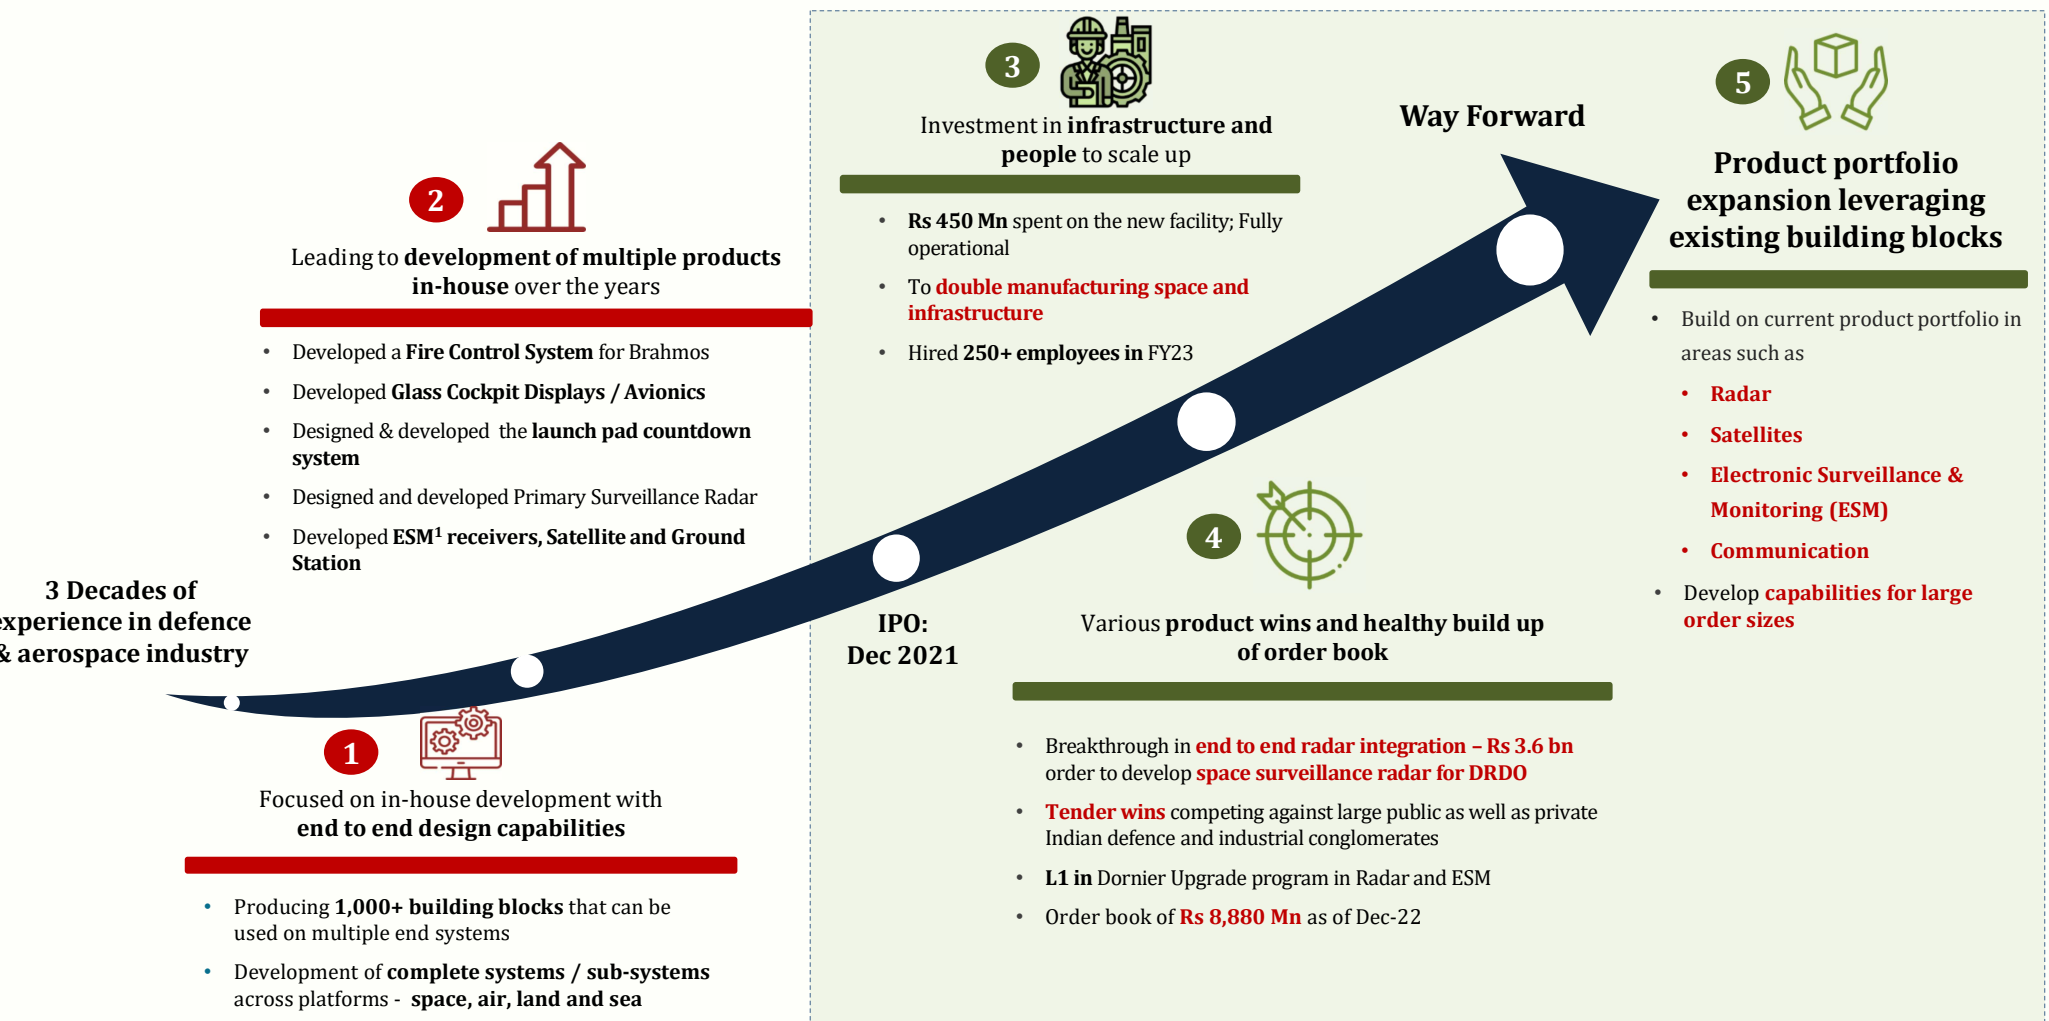

Among the few vertically integrated defence and aerospace electronics solutions providers catering to the indigenously developed defence products industry

<p>1 Vertically integrated defence and aerospace electronics solutions with end to end capabilities and a large addressable market</p>	<p>Defence & Aerospace</p>	<p>35+ Years of experience</p>			
<p>2 Focused on in-house development and manufacturing facilities led by innovation and design and development efforts</p>	<p>Design to Delivery</p>	<p>Products supplied for programmes LCA-Tejas, Light Utility Helicopter, BrahMos missile</p>			
<p>3 Beneficiary of shifting procurement trends in Defence – Aatma Nirbhar Bharat , Make in India, new defence acquisition policies among others</p>	<p>TAM of USD 4.65 bn by 2030 growing at CAGR – 9% from 2020*</p>	<p>Increasing indigenization, Domestic defence procurement, Higher share of electronics in warfare</p>			
<p>4 Diversified order book with marquee customers along with state of the art manufacturing facilities</p>	<p>Rs. 1,787 mn Order book as of Apr'18 ➔ CAGR – 39+% ➔ Rs. 10,032 mn Order book as on Sep'23</p>				
<p>5 Experienced management team and skilled workforce</p>	<p>Many senior personnel associated with Company for more than 2 decades</p>	<p>1,277 employees with more than 825 qualified engineers</p>			
<p>6 Excellent Revenue growth in FY23 with margins at normal expected level, EBIDTA margin, ROCE and ROE (FY23) amongst key Indian defence and aerospace companies</p>	<p>28% Revenue CAGR (FY19-FY23)</p>	<p>62% Gross Margin% (FY23)</p>	<p>38% EBITDA% (FY23)</p>	<p>22%** RoCE (FY23)</p>	<p>17%** RoE (FY23)</p>

One of the fastest growing companies in the Defence and Aerospace Electronics sector in India

*addition of market size of specific industries from the DRHP
 ** Without considering QIP funds raised in March, 2023

Evolving as a product company with a strong lineage

3 Decades of experience in defence & aerospace industry

1 

Focused on in-house development with **end to end design capabilities**

- Producing **1,000+ building blocks** that can be used on multiple end systems
- Development of **complete systems / sub-systems** across platforms - **space, air, land and sea**

2 

Leading to **development of multiple products in-house** over the years

- Developed a **Fire Control System** for Brahmos
- Developed **Glass Cockpit Displays / Avionics**
- Designed & developed the **launch pad countdown system**
- Designed and developed Primary Surveillance Radar
- Developed **ESM¹ receivers, Satellite and Ground Station**

3 

Investment in **infrastructure and people** to scale up

- Rs 450 Mn** spent on the new facility; Fully operational
- To **double manufacturing space and infrastructure**
- Hired **250+ employees** in FY23

IPO: Dec 2021

4 

Various **product wins and healthy build up of order book**

- Breakthrough in **end to end radar integration - Rs 3.6 bn** order to develop **space surveillance radar for DRDO**
- Tender wins** competing against large public as well as private Indian defence and industrial conglomerates
- L1 in Dornier Upgrade** program in Radar and ESM
- Order book of **Rs 8,880 Mn** as of Dec-22

Way Forward

5 

Product portfolio expansion leveraging existing building blocks

- Build on current product portfolio in areas such as
 - Radar**
 - Satellites**
 - Electronic Surveillance & Monitoring (ESM)**
 - Communication**
- Develop **capabilities for large order sizes**

1. Electronic Surveillance & Monitoring

Competencies built over the past 30+ years

Reusable building blocks

Produces 1,000+ building blocks that can be used on multiple end systems in defence and aerospace

Building blocks have laid the foundation of own products

Setup the complete system from building blocks, designed in-house with IP

Spreading out the development costs over multiple programmes

COTS Components are fast becoming the building blocks of defence equipment

End-to-end capabilities

Among the few Indian company having design capabilities across the entire spectrum of strategic aerospace and defence electronics solutions¹

In-house Design to Delivery

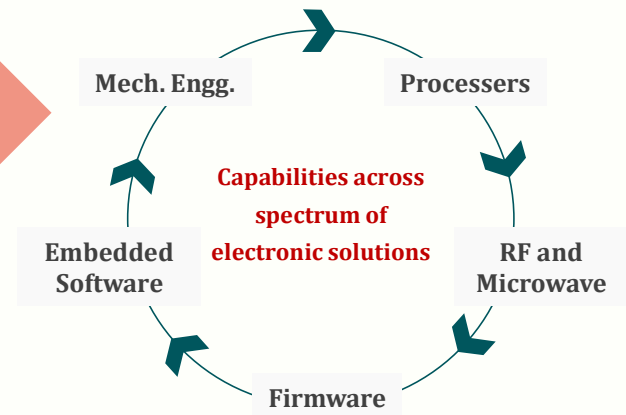

Complete systems / sub-systems

Across platforms – space, air, land and sea

Capabilities built over 3 decades

Key features of manufacturing facility

- ✓ 100,000 class clean room
- ✓ Electronic assembly facility
- ✓ BGA repair work station with display
- ✓ Manual soldering certified to Space grade standards
- ✓ EMS assembly capacity of 600 boards per day
- ✓ Capability to handle complex boards with 22 layer, 6k components and 21k solder points
- ✓ Dedicated 70 work stations for testing modules and small systems
- ✓ Harness preparation of 2k points per day
- ✓ 20 Dedicated Mechanical assembly stations to assemble small and large systems

and various others...

Our systems and processes are subject to periodic audit by customer such as

- ✓ Indian Government Space Organization
- ✓ Hindustan Aeronautics Limited (HAL)
- ✓ Other Government departments

Manufacturing facility at Chennai, India

- Large Systems Integration Hangar
- Complete Radar Integration
- Electronic Warfare Vehicle Integration
- Additional Test Facility
- Augmented Environmental Test Infrastructure

- Augmented Design & Development Facility
- Additional Space For Design and Development Resources
- Clean Room for Satellite Integration
- Additional EMS Line
- Multi Ton material handling

Over Last Three Decades

A De-Risked Business Model

Driven by Innovation Focused Business Model

Focused on in-house development led by innovation and design and development efforts

Building complete systems from the building blocks and sub-systems already developed

Partner with customers through the life cycle of a product, from conception till deployment and thereafter

450+ engineers, most of whom have served in design and development departments

Track record of utilizing pre-developed building blocks and sub-systems in the development of complete systems

Present programmes with building blocks Designed & Developed by Data Patterns...

... along with "Future Ready" products already designed and developed by the company

- Military grade processor modules,
- Cockpit displays,
- Actuator controllers for missiles and torpedoes,
- Flight control computers,
- Digital receivers and
- Up/Down converters for
- Airborne phased array radar
- Frequency hopping radio relays
- Next generation EW products
- Integrated EW solution for national security

Key Products manufactured and delivered by Data Patterns

S.No	Product(s)	Details
1	Monopulse RF Seeker	Delivered prototypes to DRDO
2	X-Band Doppler Weather Radar	Prototype installed in Chennai for meteorology department
3	205MHz Wind Profile Radar for CUSAT	Installed at Cochin for a government owned university
4	Radar for Naval Utility Helicopter	Prototype delivered to LRDE
5	A Next-Generation Software Defined Radio for fighter aircrafts	Prototype developed for DEAL
6	A Next-Generation Radar Warning Receiver for fighter aircrafts	Prototype developed for DLRL
7	A Next-Generation COMINT	Prototype developed for DLRL
8	Precision Approach Radar	Delivered to AF
9	Nano Satellite	Being delivered to industry
10	Power PC Card	190 nos delivered to HAL
11	WBLRU	Delivered to DRDO

Servicing Marquee Clients

DATA PATTERNS

Marquee customers in the Indian defence & aerospace ecosystem

Government Departments

Ministry of Defence

Indian government space organisation

Indian DPSU

Others

History of business continuity & reliable product service for marquee customers

History of reliable product service for several customers

Supplying products to Indian govt. space org. for 20+ years; which continue to be under AMC
Products supplied to BrahMos operational from 2006

Invest in product development ensuring continuity of business

Developed cockpit displays for LUH, which has potential to generate additional annuity revenues from the new units

Products form critical components

Launch systems for ground based BrahMos missile launcher, "take me home" displays for the Tejas

Supply of products to prestigious defence projects in India

Like LCA, the HAL Dhruv, LUH and the BrahMos missile programme

Led by a Highly Reputed and an Experienced Management Team

Mr. Srinivasagopalan Rangarajan
Promoter, Chairman & Managing Director

- Over 3 decades of experience in business development, corporate affairs, finance and marketing
- B.Tech in Chemical Engineering from University of Madras, M.S from IIT, Madras

Ms. Rekha Murthy Rangarajan
Promoter, Whole Time Director

- Over 2 decades of experience in administration, facility maintenance, HRD, process engineering and special projects
- B.A from Bangalore University, M.A in applied Psychology from Madras University

Mr. Vijay Ananth K
Whole Time Director, COO and Chief Information Security Officer

- Over 2 decades of experience in software engineering and product management
- BCS from Manomanian Sundaranar University and Masters degree in computer applications from the University of Madras
- *Associated with Data Patterns – 20+ years*

Mr. Venkata Subramanian Venkatachalam
Chief Financial Officer

- Over 2 decades of experience in finance sector

Core groups or departments for design and development of products

Total Employee Strength

Department	# of Employees
Design & Engineering (D&E)	662
Manufacturing	421
Support	126
Marketing & Customer support	68
Total In Q2FY24	1,277

825+ qualified Engineers out of 1277
 Our senior members in hardware, design and development have been with us for more than 15 years

Group/Department	Responsibility / Scope
Hardware Development Department	Design and development of all types of high-end and complex electronics modules and building blocks. Includes Single board computers, Field Interface modules, Communication Modules, Custom I/O Modules, Mezzanine modules, Signal conditioning modules etc.
Software Development Department	Design and development all types of embedded, real-time and application software. Includes devices drivers, Operating system porting, real-time data transfer, GUI application for various Operating systems and hardware.
Mechanical Engineering Department	Design and development of all types of mechanical packaging, big structure systems and jigs and fixtures. Incudes standard ATR chassis, heat spreaders, structural and thermal analysis etc.
CAD / CAM Group	PCB schematics, Artwork, signal analysis, power analysis, electrical wiring, all modules/systems performance, and maintenance statistics like MTBF etc. Includes up to 26 Layer PCB design, hybrid electrical interface design etc
Algorithm Development Group	Design and development of various domain algorithms for RADAR, Electronic Warfare, Communication waveform etc. Uses all types of algorithm development including mathematical modelling, statistical modelling, feedback modelling etc.
Radio Frequency Modules Group	Design and development of all types of RF modules and sub-systems. Includes simple RF receiver/exciter, filters, upconverters/downconverters, synthesizers etc.

Group/Department	Responsibility / Scope
DOMAIN Systems Groups	Design and Development of product verticals as a system. Including RADAR, EW, Communication, ATEs, Fire-control systems, Satellite, Avionics etc.
Production Department	All the products are functionally and environmentally tested by this department. Includes testing of modules and sub-systems, wiring, mechanical assembly, and integration etc.
Electronics Manufacturing Services (EMS)	Fabrication of all electronics modules. Including automated pick-n-place, manual soldering, conformal coating etc.
Harnessing Group	Fabrication of all types of cable harness including internal wiring, external interface wiring, testing of cables for continuity, impedance etc.
Mechanical Integration Group	Assembly and integration of all types of mechanical parts. Including various types like LRU assembly, board assembly, system assembly, system integration etc.
Project Management Group	Responsible for Delivering all the orders both internal and external. Vertical integration of groups and product development responsibilities. Includes all types of projects from simple module delivery to full system delivery. Utilizes, project plan, metrics, GANNT charts, budgeting and control, optimal execution methods etc

Defence modernization programmes

Arudhra Radar

- Expected to supply ~55 units of AGRU/ Arudhra radar
- Likely to generate revenues in the next 3-4 years based on the requirement projection of IAF

Ashwini LLTR

- Partner in development of these radars as a single vendor incl. TR modules, AGRU, signal processor, etc
- Expected to realise revenue between \$10-30 million in the next few years.

Dharashakti programme

- Has received single vendor orders from DLRL for development and supply of all of the COMINT search receivers, Direction Finder & Monitoring receivers.
- In a position to be an OEM for the entire receiver systems with likely revenues of \$ 50 million on complete execution

MI 17 Upgrades, Dornier Upgrades, Aerostat upgrades,

- Expertise gained in the Dharashakti project would also position to cater for airborne COMINT and ELINT equipment for various upgrades of any new rotary wing programmes

Light weight EW requirements

- EW capability will help in supplying products for Light weight EW products which have a heavy requirement in mountainous borders as they are not adequately covered, and the same has been prioritised due to the increased geo-political tension

Airborne surveillance radar

- Has delivered an airborne surveillance radar (all of the hardware) to LRDE which is expected to be flight tested in the next few months and will be likely inducted in Navy's Dornier upgrade and new helicopter programmes

Radar Warning Receivers

- Also a part of the Radar Warning Receivers for the Airborne Early Warning System ("AEW &C") to DLRL which has been fitted on the Embraer early warning radar developed by Centre for Air Borne System ("CABS")

Next Gen completely wide open for LCA Mk IA and Sukhoi 30 platforms

- Likely to deliver Next Gen completely wide open for LCA Mk IA and Sukhoi 30 platforms subject to flight testing.
- After flight testing, these can be fitted on the 83 LCA MK IA on order as well as the Sukhoi 30 upgrades (approximately 270 numbers), attack helicopters, etc.

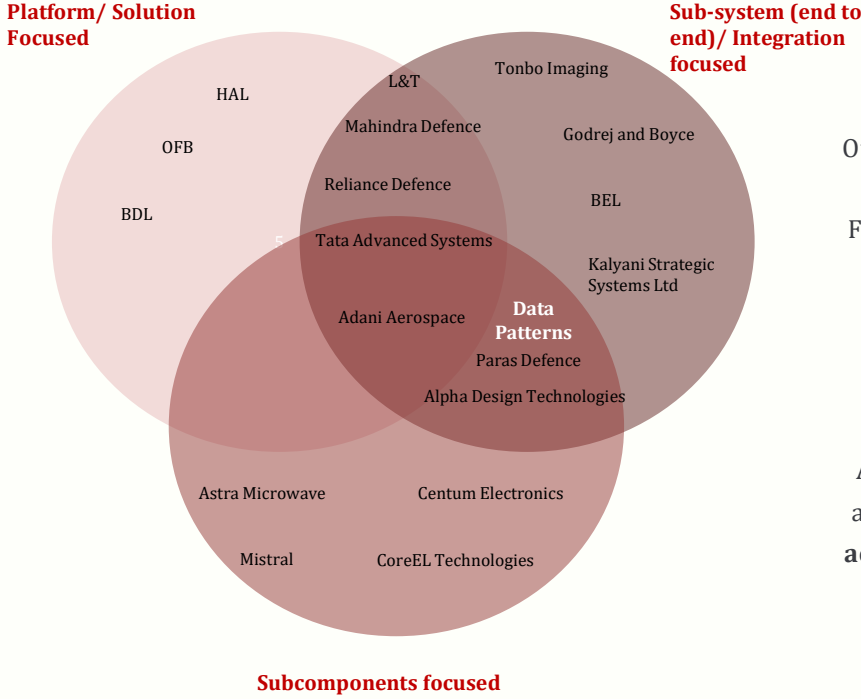

Indian defence and aerospace industry is rapidly evolving into a self-sustaining one

Competition at two levels for Data Patterns

During **development stage** in DRDO requirements **from small and medium size companies** building custom solutions and/or integrating solutions around imported COTS products

From **large corporates** offering complete systems, often under a **partnership with International OEMs**, for products and programmes directly procured by the Indian government space organization

Indian defence suppliers – Anticipated Future Positioning

We are poised to take up emerging opportunities

Our products are **developed to compete with international and domestic equivalents**. Further, we offer **end to end solutions** to the customer

Ability to offer **wide range of products**. We also have **strong and balanced capabilities across 12 defence and aerospace segments**

Thank You
