Debt to Equity

Key Developments

Board of Directors approve acquisition of assets of a suitable production unit in Bengaluru for a consideration of below Rs. 30 crore

- Strategic acquisition enables Apollo Pipes to jump-start its plan to establish PAN-India presence
 - Brand recall of group among distributors and customers is very strong in the southern markets and is synonymous with high-quality and reliability. Apollo Pipes would look to efficiently leverage this positive brand image to drive reach and volumes
- Facility is spread over 7 acres and has adequate space to accommodate future expansion plans
- The acquired unit is equipped with manufacturing lines for uPVC and cPVC pipes
- Acquisition has an attractive payback of less than 3 years – further, it significantly reduces the time taken to establish presence in a new state

Key Developments

**Promoters
complete infusion
of Rs. 202 crore
in the Company**

- Infusion of Rs. 202 crore by Promoters has been concluded through issuance of Equity Shares and fully convertible warrants on Preferential basis. The details of the allotment are as follows
 - 950,000 Equity shares issued at an issue price of Rs. 590 per share
 - 2,485,000 fully convertible warrants on preferential basis to Promoters at an issue price of Rs. 590 per share
 - Out of this, as on 2nd April 2019, 1,125,000 lakh shares have been converted into fully paid equity shares

Key Developments

Capacity expansion plans on-track

- The Company is undertaking a phase-wise capacity expansion at the existing facilities of Dadri and Ahmedabad over the next few quarters
 - To expand Dadri capacity by 7,000 tonne to 60,000 tonne; Ahmedabad facility to be expanded by 5,000 tonne to 15,000 tonne
- The Company's expansion plan, will enable to meet the growing demand for its products across various sectors, and drive future volume growth

Key Developments

During the year, Apollo Pipes launched a new products in the domestic market

- New product portfolio of Plastic Taps, Showers, Faucets & accessories have received positive response from the market – the Company is targeting rapid market share gain in this premium and high margin product category
- The design of the product is ergonomically driven and is engineered from high-grade virgin engineering polymer

Key Developments

Future growth strategy focused towards improving market presence through established facilities

- The Company's future growth strategy focused towards improving utilization levels at the existing manufacturing plants
 - To first develop new territories in East and Central Indian by catering to demand through already established facilities. Following this, the Company plans to implement longer-term strategy to establish facilities in those regions
 - While the logistic costs towards transporting goods to Eastern and Central markets would be higher, it will be much lower than the interest costs that the Company would otherwise incur towards establishing a new unit
- This strategy is expected to help improve volume performance for Apollo Pipes

The Board of Directors recommend first ever dividend

- The Board of Directors have recommended a dividend of Rs. 1 / share (Face Value of Rs. 10 per share)
 - Total cash outflow would be ~ Rs. 1.1 crore (including statutory taxes) leading to a dividend payout ratio of 10%

Financial Overview and Discussion (YoY)

**Total Income From Operations (Net) during FY19 stood at Rs. 374 crore, registering a strong increase of 28% Y-o-Y;
Q4 FY19 Total Income From Operations (Net) higher by 15% to Rs. 92 crore**

- The Company registered a healthy total sales volume growth of 18% in FY19. While volumes in Q4 FY19 grew by 11% owing to a subdued demand environment in the uPVC segment. However, strong uptick in demand for HDPE products combined with healthy contribution from value-added products segment assisted the overall performance during the quarter
- In sync with the Company's strategy, the volume growth in the fittings segment stood strong at 92% in FY19 led by strong customer wins and penetration into newer geographies

EBITDA during FY19 at Rs. 51 crore, higher by 25%; Q4 FY19 EBITDA at Rs. 14 crore

- Gross profit during FY19 grew by 21% to Rs. 99 crore, with gross margins stable at 27%

PAT stood at Rs. 24 crore in FY19, up by 8%. PAT stood at Rs. 5 crore in Q4 FY19

- Depreciation costs increased by 40% to Rs. 10 crore in FY19 on account of increased commissioning of new capacities, during the period under review
- PAT margin stood at 6.4% in FY19, lower by 114 bps YoY; PAT margin stood at 5.9% in Q4 FY19, lower by 1,028 bps YoY

Management's Message

Mr. Sameer Gupta,
Managing Director

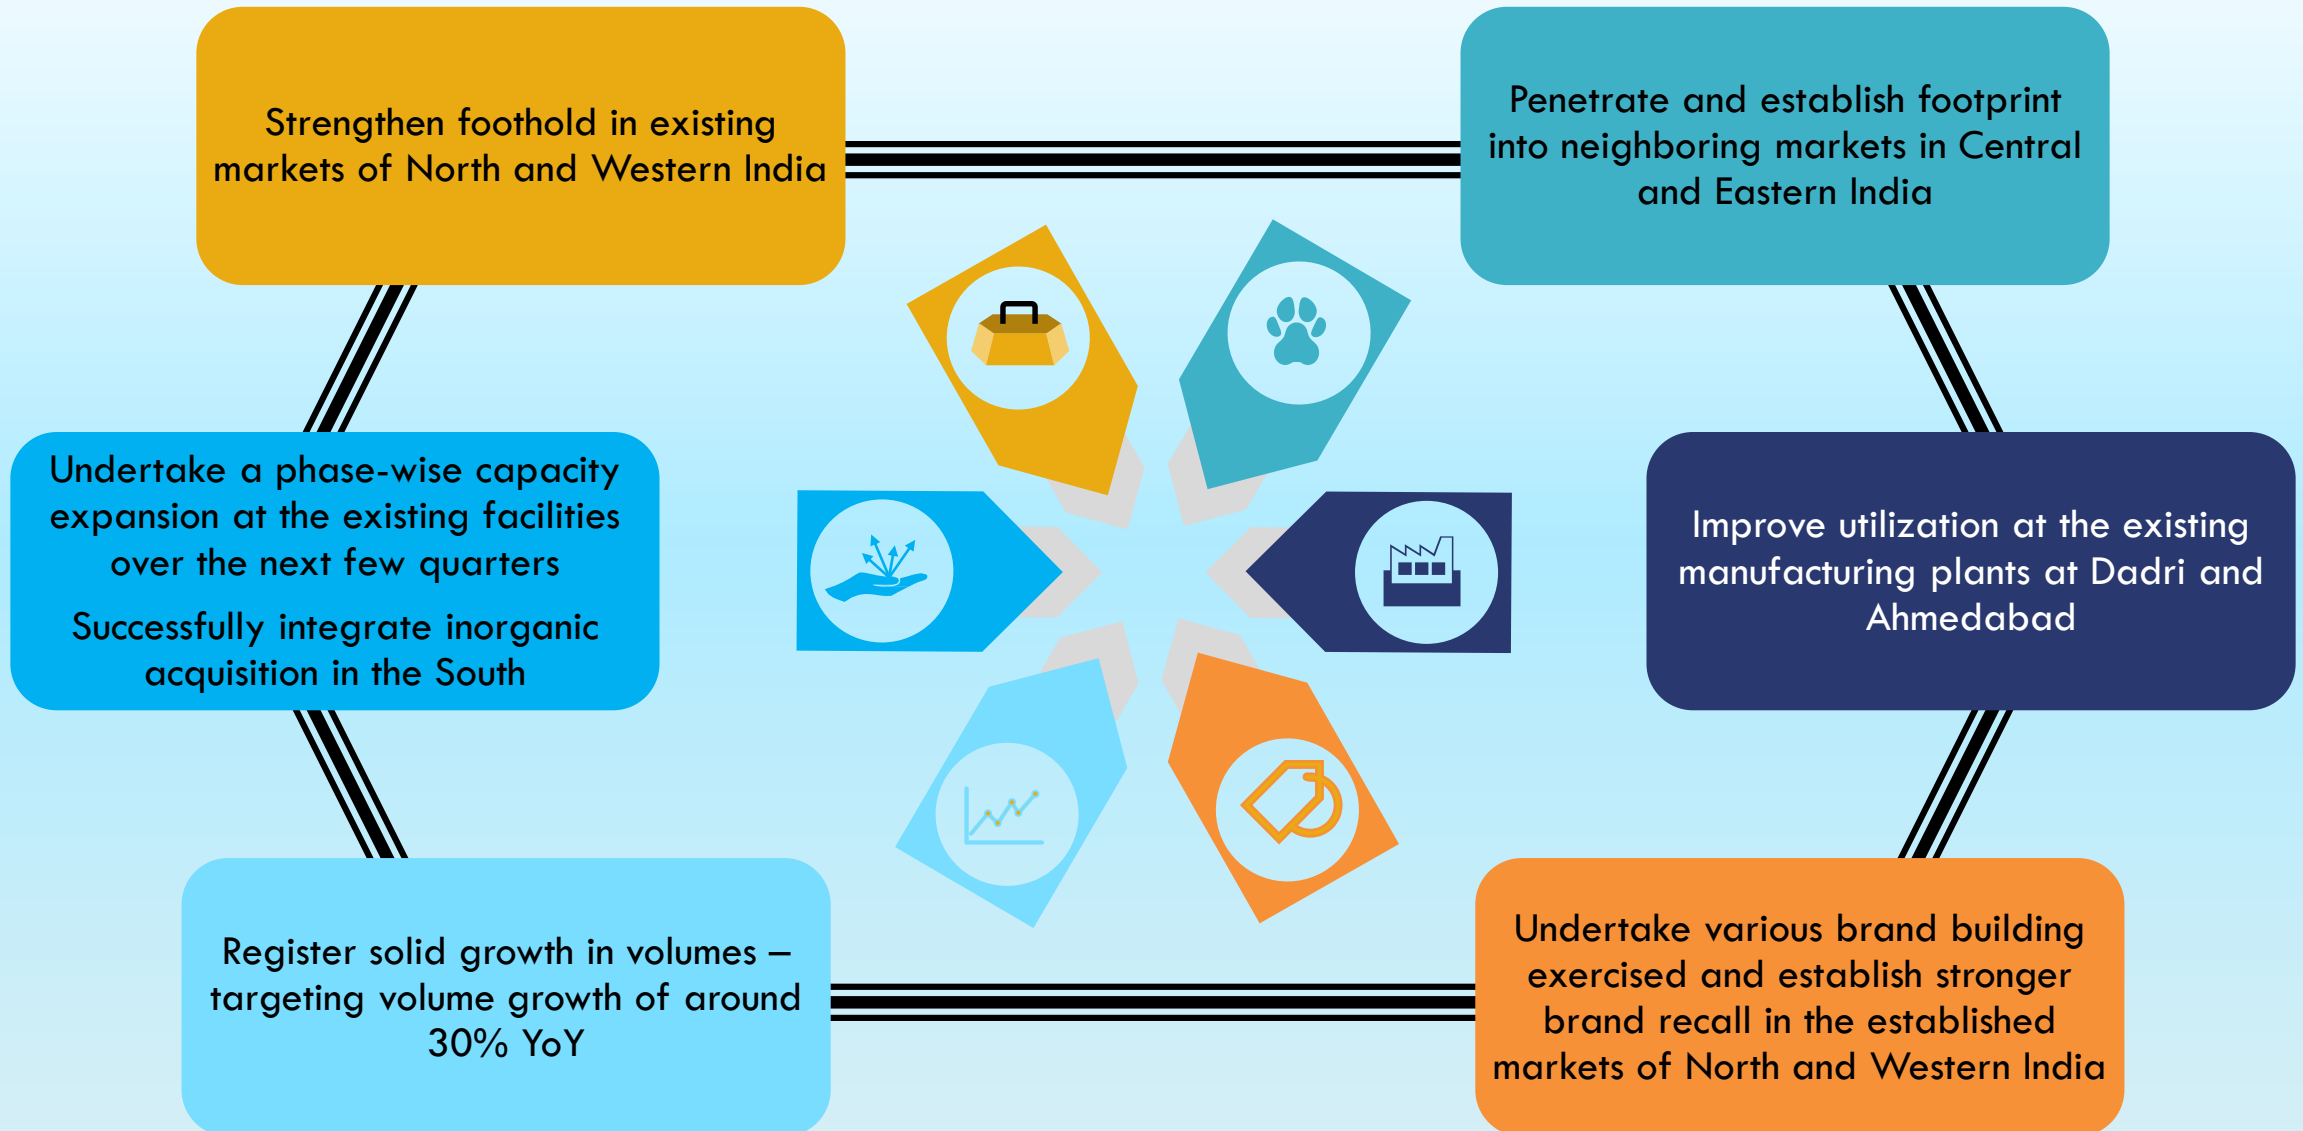

Commenting on the
Company's performance for
Q4 FY2019

"We have ended the fiscal on a strong note despite macro-economic challenges, especially in our key product category of uPVC. In FY2019, our sales volume grew by 18% to 39,823 MTPA - the growth was primarily driven by strong demand from HDPE products and cPVC pipes. Increased contribution from the high-margin Fittings segment also assisted sales performance during the year.

Our focus remains on continuously improving product offerings across the value added chain that will help drive enhanced business visibility and higher business growth. In Q3 FY19, we launched a brand new range of premium plastic faucets, taps, showers, and other accessories. This new product segment has received a positive response from the market and it is our endeavor to rapidly gain market share in this product category.

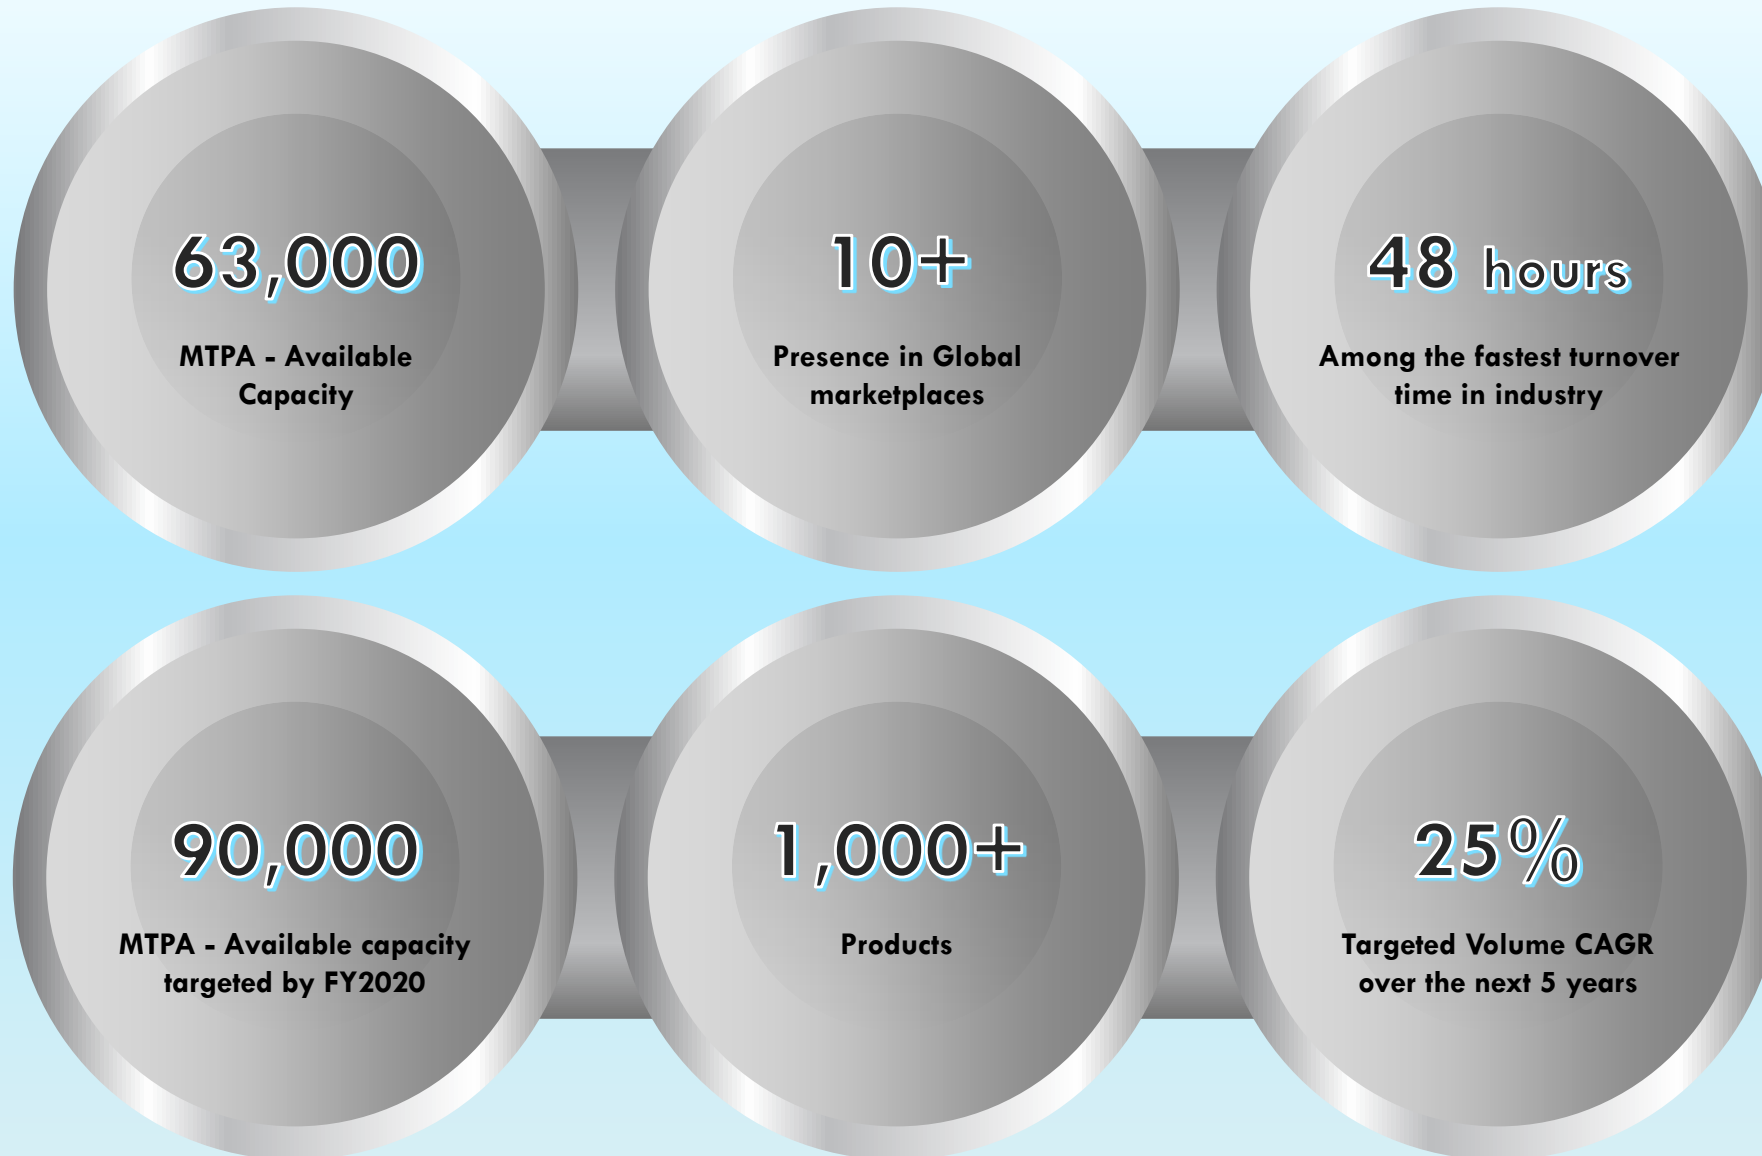

I am also happy to share that the Board of Directors have approved acquisition of assets of a suitable production unit in Bengaluru for a consideration of below Rs. 30 crore. This strategic acquisition will jump-start our entry into the southern markets. While our longer-term strategy is to also expand into the Eastern markets, our focus, in the near term, is more towards catering to demand in these markets through the already established facilities. We believe, this approach will allow us to grow presence in these under penetrated markets without incurring higher costs towards establishing facilities. Overall, we believe that we are well positioned to capitalize on the enormous growth potential across our customer industries and remain confident of improving our business momentum against a backdrop of our strategic initiatives, and new capacities going on stream."

Outlook for FY20

STRATEGIC GROWTH PILLARS

Scale-up distribution network across India to augment presence and improve market penetration

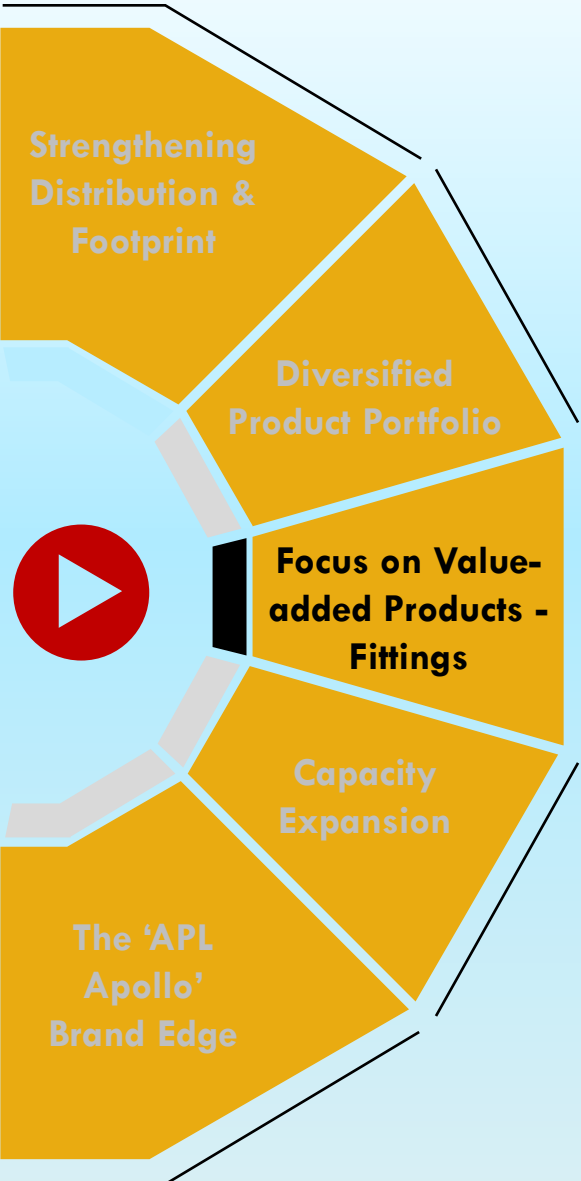

- Establishing a solid presence in key markets
- Strong presence in North India – extending market reach in other parts of India.
- Growing outreach offer a series of benefits such as multiple touch points, business scale, brand reach and elevation of business capabilities
 - Adopted cash-n-carry model, which helps optimize receivables and guarantee actual cash receipts

Diversified Product Portfolio with total offerings at 1,000+, aiming to achieve 2,000+ products to the basket

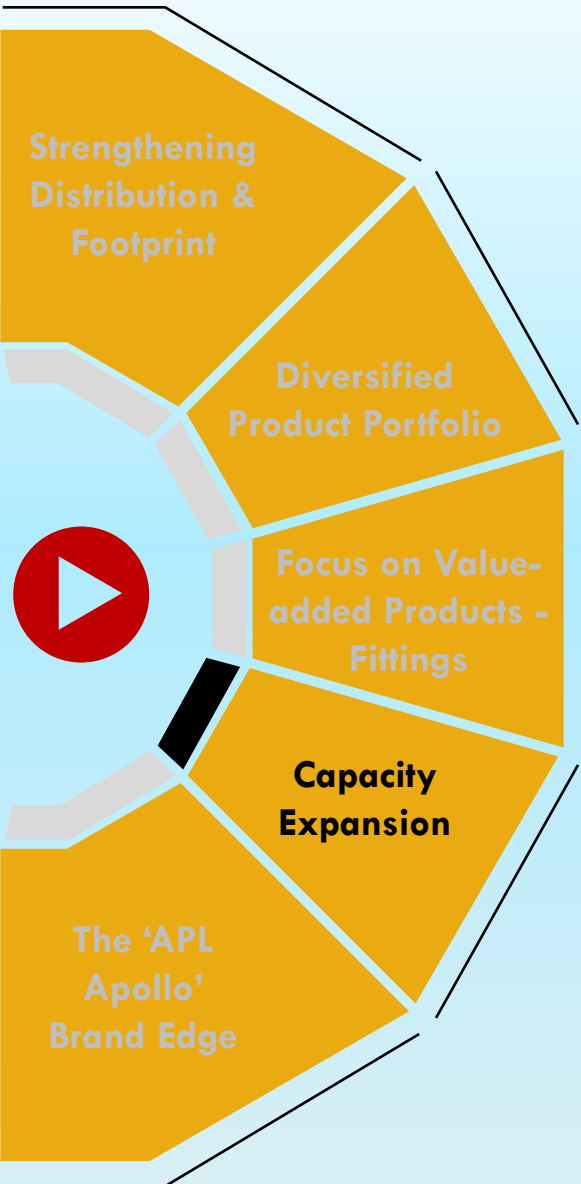

- Range of products manufactured at the technologically-advanced manufacturing facility at Dadri and Ahmedabad
- Emphasis on innovation: One of the first companies to launch “Super Lock System” pipes in the country
 - Awarded 10 year patent for the innovative product
- Offers the widest range of pipe sizes in the domestic industry. (1/2” to 16”)
- Enhancing product offerings across the value added chain to drive growth
- Launched ‘Plastic Faucets, Taps and Showers’ in the domestic market – to drive higher brand visibility through New Products

Sharp focus on Value-Added Products: Fittings – to help strengthen the value chain

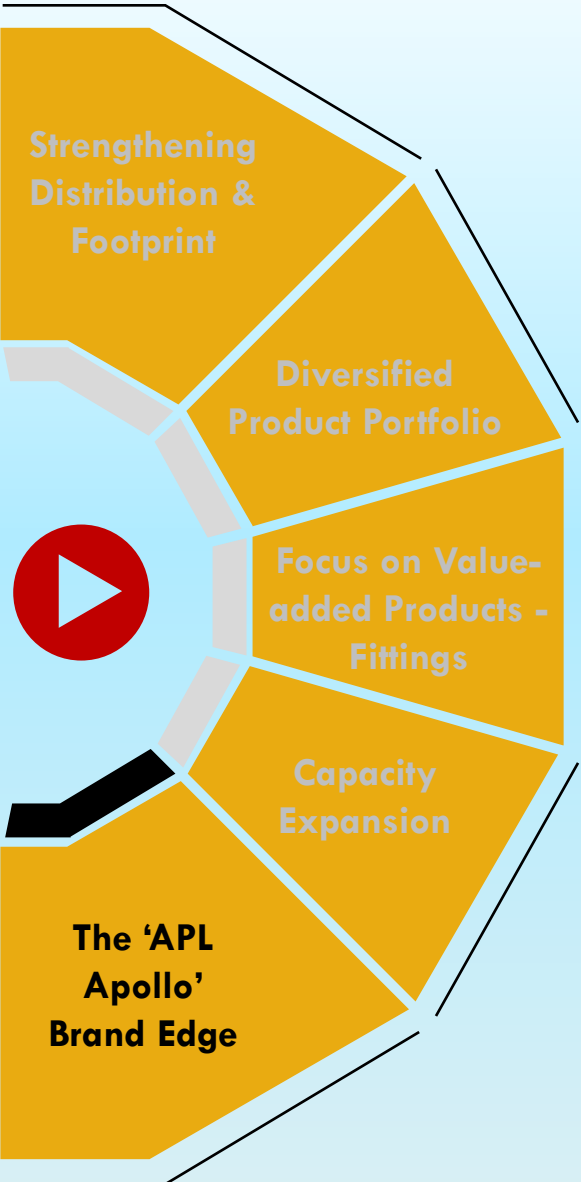

- Focused approach towards Fittings across uPVC and cPVC that offer significantly higher margins
- High-growth segment – rapidly gaining market share
- Focus on increasing revenue contribution from fittings & tap segment from 13% in FY19 to 16% by FY20
- Capacity expansion planned to cater growing demand

Capacity Expansion to aid long-term growth plan – to achieve 90,000 MTPA by March 2020

- Total available capacity of 63,000 MTPA
- Undertaking a phase-wise capacity expansion at the existing facilities of Dadri and Ahmedabad over the next few quarters
 - Focus in the near term more towards catering to demand in the newer markets through the already established facilities
- In the longer term, the Company will be establishing Greenfield facility in Raipur
 - Upcoming unit to facilitate higher production and reduce logistics costs
- The Company is also evaluating in-organic opportunities to expand its reach, presence in new markets, and capacities
- Targeting a total installed capacity of 90,000 MTPA by March 2020

Efficiently leverage the 'APL Apollo' brand reach and recall to drive higher growth

- The 'APL Apollo' brand has covered several milestones in its journey since inception
- Brand synonymous with quality and reliability of operations
- Strong brand recall amongst several distributors and customers
- The Company's association with the brand, its diverse product range and offerings across sectors ups the ante in terms of reach and competitiveness of the Company
- Undertaking various brand building and brand awareness initiatives to further strengthen Brand reach
 - APL Apollo group launched a branding campaign supporting Delhi Capitals for IPL, India's biggest sports event and giant platform on the television, thereby enabling maximum reach and generating mass connect and visibility

Efficiently leverage the 'APL Apollo' brand reach and recall to drive higher growth
